

# **2012 Collaborative Teaching of Globally Distributed Software Development Workshop**

**(CTGDSD 2012)**

**Zurich, Switzerland  
9 June 2012**

**IEEE Catalog Number: CFP1297S-PRT  
ISBN: 978-1-4673-1817-4**

# TABLE OF CONTENTS

|                                                                                                                                               |           |
|-----------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <b>Towards a GSE International Teaching Network: Mapping Global Software Engineering Courses .....</b>                                        | <b>1</b>  |
| <i>L. Fortaleza, T. Conte, S. Marczak, R. Prikladnicki</i>                                                                                    |           |
| <b>Five Years of Lessons Learned from the Software Engineering Course: Adapting Best Practices for Distributed Software Development .....</b> | <b>6</b>  |
| <i>C. Neto, E. Almeida</i>                                                                                                                    |           |
| <b>Teaching Software Engineering with Global Understanding .....</b>                                                                          | <b>11</b> |
| <i>J. Ding, B. Yang</i>                                                                                                                       |           |
| <b>Distributed Software Development Course: Students' and Teachers' Perspectives .....</b>                                                    | <b>16</b> |
| <i>J. Feljan, I. Crnkovic, I. Bosnic, M. Orlic, M. Zagar</i>                                                                                  |           |
| <b>Experience and Recommendations for Distributed Software Development .....</b>                                                              | <b>21</b> |
| <i>P. Carlson, N. Xiao</i>                                                                                                                    |           |
| <b>On the Difficulties for Students to Adhere to Scrum on Global Software Development Projects: Preliminary Results .....</b>                 | <b>25</b> |
| <i>C. Scharff, S. Heng, V. Kulkarni</i>                                                                                                       |           |
| <b>Teaching a Globally Distributed Project Course Using Scrum Practices .....</b>                                                             | <b>30</b> |
| <i>D. Damina, C. Lassenius, M. Paasivaara, A. Borici, A. Schroter</i>                                                                         |           |
| <b>Author Index</b>                                                                                                                           |           |
