

# **2012 14th International Conference on Ground Penetrating Radar**

**(GPR 2012)**

**Shanghai, China  
4-8 June 2012**

**IEEE Catalog Number: CFP12538-PRT**  
**ISBN: 978-1-4673-2662-9**

## Table of Contents

### ***Special lectures***

Simulation of Radar Sounder Echoes and Inversion for Mars Layered Media <i>Ya-Oiu Jin, Chuan Liu &amp; Tianling Wang</i>	3
GPR Profiles of Partially to Completely Unstratified Geologic Formations <i>Steven Arcone &amp; W. Tad Pfeffer</i>	7
The Search for the Lost Graves of the Chinese Miners in Hailey, Idaho, USA <i>John H. Bradford</i>	13
GPR for Disaster Mitigation and Beyond <i>Motoyuki Sato</i>	17

### ***Theme 1-GPR Wave Interaction with the Earth***

Integrated use of GPR and TDR for soil permittivity evaluation <i>Giuseppe Cannazza, Andrea Cataldo, Giovanni Leucci, Raffaele Persico &amp; Francesco Soldovieri</i>	23
Decomposing GPR Images in a Variation Approach <i>Yishuo Huang, Shang-Yuh Lin, Jie-Chun Yang &amp; Shengmin Wu</i>	28
Study on the effect of LNAPL pollution to soil complex permittivity <i>Hongli Li, Qi Lu, Xuan Feng, Cai Liu, Wenjing Liang &amp; Lilong Zou</i>	34
Lateral Waves in Ground Penetrating Radar Applications <i>Chi-Chih Chen</i>	39
Near-field modeling of radar antennas for wave propagation in layered media: when models represent reality <i>Sébastien Lambot, Anh Phuong Tran &amp; Frédéric André</i>	42
Characterizing a low-velocity waveguide using crosshole GPR full-waveform inversion <i>A. Klotzsche, J. van der Kruk, H. Vereecken &amp; G.A. Meles</i>	47

### ***Theme 2-Novel GPR Systems and Antennas***

Developing Moving Platform Mounted Polarimetric GPR System <i>Xuan Feng, Qiao Wang, Qi Lu, Cai Liu, Wenjing Liang, Hongli Li, Qianci Ren, Yue Yu &amp; Zhengshu</i>	53
Application of LTD-2100 Ground Penetrating Radar to Advanced Forecast in Diversion Tunnel of Jinping Hydroelectric Power Station <i>Yuanxin Wang, Zhao Zhang, Oiang Ren, Yanmin Wu &amp; Zhenghui Peng</i>	57
Processing of Holographic Subsurface Radar Data <i>Andrey Zhuravlev, Sergey Ivashov, Igor Vasiliev &amp; Vladimir Razevig</i>	62

Development of a High Speed UWB GPR for Rebar Detection <i>Tian Xia, Xianlei Xu, Anbu Vekatachalam &amp; Dryver Huston</i>	66
A Novel Compact UWB Ground Penetrating Radar System <i>Shengbo Ye, Jie Chen, Lihua Liu, Changchun Zhang &amp; Guangyou Fang</i>	71
A Coded Pulse UWB Radar System Design for Life Sign Detection <i>Wei Wang, Ziwei Chen, Jie Chen, Qunying Zhang &amp; Guangyou Fang</i>	76
Life Detection and Location by MIMO Ultra Wideband Radar <i>Yanyun Xu, Shiyou Wu, Jinjin Shao, Chongchao Zhang, Jie Chen &amp; Guangyou Fang</i>	80
The communication cables detection using radar in the sewers construction <i>Yang fang, Wang Xiaowen</i>	85
Study of UWB Half-Ellipse Antenna With A Shallow Backed Cavity In Vital Sign Detection <i>Jin Jin Shao, Chao Chen, Jie Chen, Yi Cai Ji, Guang You Fang &amp; He Jun Yin</i>	89
Vehicle GPR in the maintenance of the high-speed railway <i>Jie Liu &amp; Qianli Zhang</i>	93
UWB in-situ Soil Permittivity Probe with A Novel Iterative Permittivity Calibration Method <i>Ming Chen &amp; Chi-Chih Chen</i>	98
Development of Radar antennas for the Detection of Voids behinds Tunnel Liner and Laboratory Experiments <i>Wang Jifei, Xie Xiongyao &amp; Huang Hongwei</i>	103
The performance test of U-shape antenna applied in tunnel detection <i>Chan Yuenping, Huang Hongwei &amp; Zhao Yonghui</i>	109
High-resolution penetrating radar for ice thickness measurement <i>Wang Wenpeng, Zhao BoLiu, Xiaojun, Yu Jian &amp; Fang Guangyou</i>	115
Improvement of Target Imaging Quality by Multi-polarization MIMO GPR <i>Zhaofa Zeng, Jing Li , Ling Huang &amp; Fengshan Liu</i>	119
The Design of an Intrinsically Safe Ground Penetrating Radar for Detecting Abandoned Workings in Underground Coal Mines <i>Jan Francke, Vincent Utsi &amp; K.K.K. Singh</i>	125
Design and Optimization of the Antenna Applied for Detecting the Voids in Tunnel Lining by GPR <i>Zhigao Wang, Xiongyao Xie &amp; Motoyuki Sato</i>	131
Accurate Thickness Estimation of a Backfill Grouting Layer behind Shield Tunnel Lining by CMP Measurement using GPR <i>Hai Liu &amp; Xiongyao Xie</i>	137

Holographic radar: A strategy for uneven surfaces <i>L. Capineri, F. Fiesoli &amp; C. Windsor</i>	143
Development of Handheld GPR Using FieldFox Network Analyzer and Its Application in Detecting Structure of Qian Tang River Dike, Hang Zhou, China <i>F.N. Kong, R.K. Bhasin, L.Z. Wang &amp; Y.G. Zhang</i>	146
Wideband Antenna Array for Step-Frequency Ground Penetrating Radar <i>Egil Eide, Tina Kießling &amp; Jukka Typpö</i>	152
HERA-G - A new helicopter GPR based on gated stepped frequency technology <i>Yvonne Krellmann &amp; Gunnar Triltzsch</i>	156
Robot Mounted GPR for Pipe Inspection <i>Csaba Ékes &amp; Boriszlav Neduczka</i>	160
Traffic-speed 3-D Noise Modulated Ground Penetrating Radar (NM-GPR) <i>Bryan A Reeves &amp; Wayne B Muller</i>	165
Software Defined Radar: An Open Source Platform for Prototype GPR Development <i>Jonathon Ralston &amp; Chad Hargrave</i>	172
Using polarimetric GPR antenna to characterize hidden cylinders <i>I. Catapano, L. Crocco, G. Gennarelli, F. Soldovieri, L. Orlando &amp; B. Renzi</i>	178
 <b>Theme 3-Numerical Modeling</b>	
Qualitative model of spatio-temporal radiation pattern of GPR antenna <i>F. D. Edemskiy, A. V. Popov &amp; S. A. Zapunidi</i>	187
Finite Element GPR Numerical Simulations Based on Mixed Boundary Conditions <i>De-shan Feng &amp; Cheng-shen Chen</i>	192
Element free method forward modeling for GPR based on improved sarma absorbing boundary <i>Dai Qian-wei, Feng De-shan, Wang Hong-hua &amp; Chen De-peng</i>	196
Numerical Simulations and Analysis for Airborne Ground Penetrating Radar <i>Lei Fu, Sixin Liu &amp; Lanbo Liu</i>	200
Accelerating Three-dimensional Electromagnetic Wave Modeling in Dispersive Media with Staggered-grid Fourier Pseudospectral Method on Graphics Processing Unit <i>Guihua Long, Gang Tian &amp; Jian Jiang</i>	204
Simulation and Signal Processing of UWB radar for Human Detection in Complex Environment <i>Jing Li, Lanbo Liu, Zhaofa Zeng &amp; Fengshan Liu</i>	209
Simulation and Analysis of GPR Signal Based on Stochastic media model <i>Zimeng Jiang, Zhaofa Zeng, Jing Li, Fengshan Liu &amp; Fengshou Wu</i>	214

Study of GPR Image Characteristics of Dams' Hidden Weak Points <i>Shuangcheng Ge, Boyong Sun, Yonghui Zhao, Jun Chen &amp; Lanbo Liu</i>	220
Investigation of the directivity of a commercial Ground-Penetrating Radar antenna using a Finite-Difference Time-Domain antenna model <i>Craig Warren &amp; Antonios Giannopoulos</i>	226
Incorporating dispersive electrical properties in FDTD GPR models using a general Cole-Cole dispersion function <i>Iraklis Giannakis, Antonios Giannopoulos &amp; Nigel Davidson</i>	232
Quantifying GPR Responses <i>Nectaria Diamanti, Peter Annan &amp; David Redman</i>	237
The Numerical Simulation Study on Ground Penetrating Radar Detection of the Typical Adverse Geological Structure <i>Rao Hu, Lixun Lu &amp; Shuiqiang Wang</i>	243
Radar Wave Simulation Using Three-dimensional Multi-region Pseudospectral Time Domain Algorithm with Directional Kirchhoff Integration Surface <i>Zhao Zhao, Lanbo Liu &amp; Benjamin Barrowes</i>	248
 <b>Theme 4-Inverse Problems</b>	
Multiscale analysis of noisy 3D GPR data using the directional continuous wavelet transform. <i>Sid-Ali Ouadfeul &amp; Leila Aliouane</i>	257
Increasing the Efficiency of Inversion Method by using Data Compression Technique during Reconstruction <i>Hui Zhou &amp; Qingqing Li</i>	262
Crosshole radar tomographic inversion without ray tracing <i>Fei Wang, Sixin Liu &amp; Xinxin Ou</i>	268
Multi-parameter Spectral Inversion for GPR Signals of Subsurface Layered Media <i>Huang zhonglai &amp; Zhang jianzhong</i>	274
Generalized Hough Transform and ANN for subsurface cylindrical object location and parameters inversion from GPR data <i>Wei Li, Huilin Zhou &amp; Xiaoting Wan</i>	281
An Automatic Framework using Space-Time Processing and TR-MUSIC for Subsurface imaging <i>Sihao Tan, Huilin Zhou &amp; Lei Xiang</i>	286
On electromagnetic transmission eigenvalues <i>Tiara Turner, Jiguang Sun &amp; Fengshan Liu</i>	291
Soil moisture estimation using full-wave inversion of near- and far-field ground-penetrating radar data: A comparative evaluation	296

*Anh Phuong Tran, François Wiaux & Sébastien Lambot*

Computer Tomography as Imaging Technique for Ground Penetrating Radar - A Case Study 301

*Berthold Panzner, Andreas J. Östingmeier & Abbas Omar*

Positioning accuracy of an automatic scanning system for GPR measurements on concrete structures 305

*Christiane Trela, Thomas Kind & Marcus Schubert*

Airborne GPR surveys via tomographic imaging: an analysis of the reconstruction capabilities 310

*Ilaria Catapano, Lorenzo Crocco, Francesco Soldovieri, Riccardo Lanari, Claudia Facchinetti, Francesco Longo, Roberto Formaro, Giovanni Alberti, Doroteo Adirosi & Raffaele Persico*

Utilities Mapping via Linear Sampling Method 315

*Ilaria Catapano, Francesco Soldovieri, Lorenzo Crocco, Loreto Di Donato & Raffaele Persico*

GPR Full-Waveform Inversion of Chloride Gradients in Concrete 320

*A. Kalogeropoulos, J. Hugenschmidt, J. van der Kruk, J. Bikowski & E. Brühwiler*

Full-waveform inversion of GPR data in frequency-domain 324

*X. Yang, J. van der Kruk, J. Bikowski, P. Kumbhar, H. Vereecken & G.A. Meles*

### ***Theme 5-Data Processing and Interpretation***

Comparison of Different Methods for Reconstruction of Microwave Holograms Recorded by the Subsurface Radar 331

*Vladimir Razev, Sergey Ivashov, Igor Vasiliev & Andrey Zhuravlev*

Improving Imaging Achieved by GPR Offset from the Air-Ground Interface 336

*Xuan Feng, Qiao Wang, Qi Lu, Cai Liu, Wenjing Liang, HongLi Li, Qianci Ren, Yue Yu & Motoyuki Sato*

Sidelobe Suppression Technique for SFCW GPR Using the Sparsity Property of the Received Signal 340

*Lele Qu, Tianhong Yang, Xuan Li & Pingping Huang*

Signal Processing Techniques in Ionosphere Sounding and Trace Extraction from Ionograms 345

*Ziwei Chen, Wei Wang, Jinsong Wang, Shun Wang & Guangyou Fang*

Support Vector Regression method applied to thin pavement thickness estimation by GPR 349

*Cédric Le Bastard, Vincent Baltazard & Yide Wang*

Capabilities of the wavelet analysis of GPR data to determine the rock moisture in frozen rock mass 354

<i>Kirill Sokolov</i>	
One Dimension Occam Inversion with High- Frequency Electromagnetic Field Magnitude	358
<i>Jiabin YAN &amp; Qianwei DAI</i>	
GPR data analysis in time-frequency domain	362
<i>Wai-Lok Lai &amp; Chi-Sun Poon</i>	
GPR clutter noise separation by statistical independency promotion	367
<i>Wenchao Chen, Wei Wang, Jinghuai Gao, Jin Xu &amp; Wenbing Wang</i>	
GPR Imaging Algorithm of Targets Located in Layered Mediums Based on CS	371
<i>Qingqing Yang, Anxue Zhang, Yansheng Jiang &amp; Yongjun Wang</i>	
Subsurface Target Identification Using Phase Profiling of Impulse GPR Data	376
<i>V. Mikhnev, M.-K. Olkkonen &amp; E. Huuskonen</i>	
GPR Identification of Voids inside Concrete Based on Support Vector Machine (SVM) Algorithm	381
<i>Xiongyao Xie, Pan Li &amp; Lanbo Liu</i>	
Soil Layer Thickness Detection in Land Rearrangement Project by Using GPR Data	387
<i>Xianlei Xu, Fang Wang &amp; Kai Xin, Xin Fu</i>	
Mining Sea Turtle Nests	393
<i>Vladimir Ermakov, Artur Dubrawski, Tony Dohi, Jessica Hodgins &amp; Anne Savage</i>	
A Multilayer Detection/Tracking Algorithm Based On Hidden Markov Model	399
<i>Shi Zheng, Anxue Zhang, Yansheng Jiang &amp; Yongjun Wang</i>	
Experimental Research on Relationships between Dielectric Constant of Cement Concrete Materials and Measuring Frequency	403
<i>Zhong Yanhui, Zhang Bei, Shi Wenbo &amp; Wang Tao</i>	
Integrated modeling of near-field ground-penetrating radar and electromagnetic induction data for reconstructing multilayered media	407
<i>Frédéric André Anh Phuong Tran, Nicolas Mourmeaux &amp; Sébastien Lambot</i>	
Dynamic Groundwater Level Estimation by the Velocity Spectrum Analysis of GPR	413
<i>Hai Liu &amp; Motoyuki Sato</i>	
Kirchhoff Migration For Specifying Velocity Model In Ground Penetrating Radar Method	419
<i>Nguyen Thanh Van, Le Van Anh Cuong, Dang Hoai Trung, Vo Minh Triet, Huynh Kim Tuan &amp; Nguyen Van Giang</i>	
Topographic Correction of GPR Profile Based on Odometer and Inclinator Data	425
<i>Vitalii Prokhorenko, Volodymyr Ivashchuk, Sergiy Korsun, Sergiy Musiyachenko &amp; Vladyslav Borodavka</i>	

Time-Frequency Dependent Filtering of Step-Frequency Ground Penetrating Radar Data <i>Jacopo Sala, Helge Penne &amp; Egil Eide</i>	430
What Is The True Time Range of a GPR System? <i>Andrew D. Strange &amp; Richard J. Yelf</i>	436
<b><i>Theme 6-Evaluation of Mining, Tunneling, Concrete and Pavements</i></b>	
Investigation of sinkholes on the roads by GPR: Application to HCM city, Vietnam <i>Nguyen Van Giang, Nguyen Thanh Van, Dang Hoai Trung, Jadwiga Jarzyna, Jerzy Zietek &amp; Tomecka Sylwia Suchon</i>	443
ATRAS – An automated GPR system for data acquisition and storage for roads and bridges <i>Johannes Hugenschmidt &amp; Philipp Fährholz</i>	448
An automatic algorithm for multi-defect classification inside tunnel using SVM <i>Lei Xiang, Hui-lin Zhou &amp; Si-hao Tan</i>	454
The Role of Ground Penetrating Radar in Bauxite Resource Evaluations <i>Jan Francke</i>	459
Underground GPR measurements for spatial investigations in a salt dome <i>V. Gundelach, N. Blindow, U. Buschmann &amp; C. Salat</i>	464
Application and Analysis on Structure Exploration of Coal Seam by Mine Ground Penetrating Radar <i>Pingsong Zhang, Yongsheng Li, Yonghui Zhao &amp; Liquan Guo</i>	469
GPR detection of saturated areas into concrete in the presence of a water gradient <i>Arnaud Louis, Audrey Vander Wielen, Luc Courard &amp; Frédéric Nguyen</i>	473
Non-destructive evaluation of shield tunnel condition using GPR and 3D laser scanning <i>Xiongyao Xie &amp; Chenchao Zeng</i>	479
GPR Similarity Criteria and Model Experimental Study on Artificial Freezing Engineering <i>Lei Song, Jiahui Huang, Weihao Yang, Xiaojun Zhang &amp; Haipeng Liu</i>	485
Bridge deck survey with high resolution Ground Penetrating Radar <i>Alessandro Simi, Guido Manacorda &amp; Andrea Benedetto</i>	489
Investigation of voids and cavities in Bored Tunnels using GPR <i>Jurij Karlovšek, Alexandar Scheuermann &amp; David J Willimas</i>	496
Comparing Traffic Speed Deflectometer and Noise-Modulated Ground Penetrating Radar data for rapid road pavement investigations <i>Wayne B Muller &amp; Bryan A Reeves</i>	502
Frequency-dependant dielectric parameters of Steel Fiber Reinforced Concrete <i>Jurij Karlovšek, Norman Wagner &amp; Alexandar Scheuermann</i>	510

Quantitative moisture measurement of road pavements using 3D Noise-Modulated GPR <i>Wayne Muller, Alexander Schuermann &amp; Bryan Reeves</i>	517
Application of GPR Technique and Research on High-speed Railway Tunnel <i>Xiaolei Xiong, Oicai Zhou, Jie Zhou, Yunjie Ma &amp; Kai Wang</i>	524
Detection of thin layers into concrete with static and CMP measurements <i>Audrey Van der Wielen, Luc Courard &amp; Frédéric Nguyen</i>	530
Assessing the influence of moisture on the dielectric properties of asphalt <i>Dr Robert Evans, Dr Matthew Frost &amp; Richard Morrow</i>	536
Research on Dielectric Properties of Asphalt Concrete with GPR <i>Sun Ji-tong, Guo Xiu-jun &amp; Zhang Xiao-wei</i>	542
GPR quality control of building and technical state of exploited autoroads in conditions of permafrost <i>Savvin D, Fedorova L &amp; Omelyanenko A</i>	546
GPR as a crack detection tool for asphalt pavements possibilities and limitations <i>N. Ahmad, M. Wistuba &amp; H. Lorenzl</i>	551
Nondestructive Detecting Thickness of Main Concrete Channel Lining in East Line Project of China South to North Water Diversion Using GPR <i>Xiujun Guo, Dawei Zhu &amp; Miao Wang</i>	556
Monitoring Accelerated Corrosion in Chloride Contaminated Concrete with Ground Penetrating Radar <i>S.-X. Hong, W.L. Lai &amp; R. Helmerich</i>	561
Georadar researches at exploitation of the mineral deposits of permafrost <i>Fedorova L.L. &amp; Kulyandin G.A.</i>	567
Array Processing for Underground Tunnel Detection <i>Xie,P., Grant,S., Putnam,N., Anderson N. &amp; Nasseri-Moghaddam,A.</i>	571
<b><i>Theme 7-Archaeology, Diagnostic of historical buildings</i></b>	
Non – destructive and laboratory diagnostic study on the mosaic of the crypt of St. Nicholas <i>Calia A., Colangiuli D., Leucci G., Matera L., Lettieri M., Persico R. &amp; Sileo M.</i>	579
A multidisciplinary non-destructive approach to analyze moisture in historic masonry structures <i>M. Solla, S. Lagrèla, M. X. Álvarez, H. Lorenzo &amp; B. Riveiro</i>	585
Ground penetrating radar imaging of the late Quaternary Pyramid Valley lake deposit, North Canterbury, New Zealand: correlation with paleoclimatic records and the stratigraphic sequence <i>David C. Nobes, Alison G. Johnston, Richard N. Holdaway &amp; Travis W. Horton</i>	591
The 2011 GPR Surveys in the Archaeological Site of Hierapolis of Phrygia (Turkey)	595

*Leucci G., Di Giacomo G., Ditaranto I., Miccoli I. & Scardozzi G.*

A comparative study of different strategies to focus GPR images collected from archaeological investigations along the “Basilian monks’ Path of Faith” (Aspromonte National Park Southern Calabria, Italy) 602

*Giovanni Angiulli, Domenico De Carlo & Tommaso Isernia*

Integrated non invasive tests for the architectural restoration of the Tricarico Cathedral 607  
*Giovanni Leucci, Nicola Masini, Raffaele Persico & Francesco Soldovieri*

Ground-penetrating radar prospection over a gallery network resulting from Neolithic flint mine 610

*N. Boubaki, A. Saintenoy, S.Kowlańczyk, R. Mieszkowski, F. Welc, J.Budziszewski & P. Tucholka*

To find post holes 616

*Akihiro KANEDA, Yasushi Nishimura & Kazuhiko Nishiguchi*

GPR diagnosis of historical and cultural objects 620

*Evgeny Zverev, Alexandra Urusova, Andrey Ivanov & Maxim Shiribokov*

Ground Penetrating Radar Investigations at Ahichhatra: An attempt to identify buried subsurface structures 625

*S. Sravanthi, Javed N Malik & BhuvanVikrama*

### ***Theme 8-Sedimentology, Hydrology, and Glaciology***

Permafrost Soil Water Content Evaluation Using Ground-Penetrating Radar in Amdo Catchment, Central Tibetan Plateau 633

*Yingzhao Ma, Yinsheng Zhang, S.B. Farhan & Yanhong Guo*

Application of GPR Surface Reflection Method for Estimating Soil Water Content of Bare Soil 639

*Gao Shengguo, Zhu Zhongli, Jiao Qishun & Du Fan*

GPR velocity and amplitude analyses to characterize the stratigraphy and estimate the ice density: an example from the Eastern Glacier of Mt. Canin, Italy 646

*E. Forte, M. Pipan & R.R. Colucci*

Ground penetrating radar imaging of Auckland volcanic surge deposits 653

*David C. Nobes, Darren M. Gravley, Brittany D. Brand, Simon H. Bloomberg, Thomas O. Garden & Jan M. Lindsay*

Multi-Channel GPR to Assess the Influence of Shallow Structural Heterogeneity on Spatio-Temporal Variations of Near-surface Soil Water Content 659

*Xicai Pan, Patrick Klenk, Kurt Roth, Jiabao Zhang, Ping Huang & Dan He*

Airborne GPR sounding of two deep temperate glaciers -examples from Northern Patagonian Icefield 664

*Norbert Blindow, Christina Salat & Gino Casassa*

Sedimentary architecture and ground penetrating radar (GPR) analysis of sandy-gravel esker deposits in Kozlow, Central Poland <i>Anna Lejzerowicz, Sebastian Kowalczyk &amp; Anna Wysocka</i>	670
Development of a Micro-strip Resonator Soil Moisture Sensor <i>Chen Guo &amp; Richard C. Liu</i>	676
Surface Ground-penetrating Radar monitoring of water infiltration inside a ring infiltrometer <i>Emmanuel L��ger &amp; Albane Saintenoy</i>	680
GPR Prospection in the Ossoue Glacier (Pyrenees) <i>Del R��, M. Rico, I. Serrano, E. Tejado &amp; J. J.</i>	684
Time-lapse borehole radar measurements in a sandy groundwater system during a winter recharge cycle <i>E. Strobach, B. D. Harris, J. C. Dupuis, A. W. Kepic &amp; M. Martin</i>	689
Radar Suitability in Aeolian Sand Dunes- a Global Review <i>Dominic Tatum &amp; Jan Francke</i>	695
Estimation of soil hydraulic parameters by integrated hydrogeophysical inversion of time-lapse GPR data measured at Selhausen, Germany <i>Khan Zaib Jadoon, Lutz Weiherm��ller, Harry Verreken &amp; S��bastien Lambot</i>	701
Influence of GPR measurement conditions on depth penetration and resolution of radar images illustrating lowland valley alluvial fill (field experiment) <i>Marcin Slowik</i>	707
Exploring Spatial Patterns of Soil Water Content in the Urumqi Region with Ground-Penetrating Radar <i>Patrick Klenk, Kurt Roth, Yanfang Oin &amp; Kefa Zhou</i>	713
Unconformities, Cosets, and Folds within the East Antarctic Ice Sheet: 3.2 MHz Profiles from a Megadunes Region of East Antarctica <i>Steven Arcone &amp; Robert Jacobel</i>	718
Geophysical Characterization of Lava Flows at Shiraito Falls Near Mt. Fuji in Japan using GPR <i>Yusuke Yoshida, Hirotaka Saito, Masayuki Watanabe, Takafumi Kamitani &amp; Yasuhide Muranaka</i>	724
Assessment of groundwater contamination by landfill leachate with ground penetrating radar <i>N.S. Wijewardana, L.W. Galagedara &amp; M.I.M. Mowjood</i>	728
Investigation of the Lena River Ice Cover by GPR From Helicopter <i>Fedorov M.P., Fedorova L.L. &amp; Omelyanenko A.V</i>	733
Anthropogenic transformation of lowland river pattern and changes of spatial extent of	737

lakes inferred from ground-penetrating radar and remote sensing surveys(the Obra River, Poland)

*Marcin Slowik*

GPR investigations of an island aquifer as a contribution to groundwater modelling 743  
*Jan Igel, Thomas Günther, Hans Sulzbacher, Helga Wiederhold & Moritz Kuntzer*

***Theme 9-GeologyGeotechnical Engineering, Utilities Detection and Mapping***

Multi-frequency antennas to depict the multi-layer foundation of a building 751  
*Luciana Orlando*

An Analysis of Using Ground Penetrating Radar Refraction/Reflection Methods to Investigate Possible Fractures and Cavities in Concrete Sea Walls 755  
*Chang Ping-Yu & Wang Min-Rui*

Application of Ground Penetrating Radar to Inspect the Metro Tunnel 759  
*Yu Hai-zhong, Ouyang Yu-feng & Chen Hong*

Detection and Analysis of LNAPL Contaminated Siteby Integrated Time-Lapse GPR Surveys 764  
*How-Wei Chen, Chung-Chi Fan, Shun-Yueh Chen & Che-Ming Lu*

Agricultural ground penetrating radar response to deep cultivation across a fault scarp after the 4 September 2010 Darfield earthquake, Canterbury, New Zealand 769  
*David C. Nobes, Thomas M. Wilson, Matt Cockcroft, Peter Almond & Zachary Whitman*

A study of the interference stripe phenomenon caused by electromagnetic wave propagating in multi-layered medium 774  
*Diao Qilong & Huang Chunlin*

Environmental geological applications of ground penetrating radar 779  
*Hongjun Guan, XinYe, Shuming Wang & Zhengdong Deng*

Testing on Depth Profile of Seawall by Using the Method of Ground Penetrating Radar 785  
*Pingsong Zhang, Yongsheng Li & Xiongyao Xie*

Radius estimation of buried cylindrical objects using GPR - A case study 789  
*N. Muniappan, E. P. Rao, A. V. Hebsur & G. Venkatachalam*

Interpretation of GPR Response through FDTD Simulation and Response Surface Method (RSM) 795  
*A. V. Hebsur, E. P. Rao, N. Muniappan & G. Venkatachalam*

Liquid-gel type suspended matters boundary detection of fluid fertilizer inside PE tank using GPR and Seismic Crosshole method 801  
*Seong-Jun Cho & Eunsuk Bang*

Non-Destructive Inspection and Characterization of Track Bed with Microwaves 805

*Guido Manacorda & Alessandro Simi*

Experience of GPR application in oil-and-gas industry 811  
*V. V. Kopeikin, P. A. Morozov, F. D. Edemskiy, D. E. Edemskiy, B. R. Pavlovskii & Yu. A. Sungurov*

Application Research of Potential Failure Zone Detection for Seawall Using Ground Penetrating Radar 816  
*Shuangcheng Ge, Minqiang Zhang, Guoqian Liang, Xiaohua Zhang, Chaoying Liu, Yonghui Zhao & Jun Chen*

Quality control of stone blocks during quarrying activities 822  
*Diego Arosio, Stefano Munda & Luigi Zanzi*

Interdisciplinary experiences in the use of GPR in an urban complex area. The case of the City of Buenos Aire 827  
*Lic. Bárbara Pasik & Lic. Melina López Calvo*

Application of Ground Penetrating Radar to detect orientation of cavities and caverns developed due to tectonic implication in Baratang Island, Middle Andaman, India 830  
*N. Ramanujam, P. Prasad, A. Vignesh, S. H. K. Murti, Qazi Akhter Rasool, Swapan. K. B., Chandrakant Ojha, A. J. Boopalan & P. Mothilal Yuvaraj*

Ground Penetrating Radar Survey For Civil-Engineering Applications: Results From The Test Site 835  
*S. Negri & T. A. M. Quarta*

Pipe Condition Assessments Using Pipe Penetrating Radar 840  
*Csaba Ékes & Borislav Neducza*

Shallow Subsurface Mapping Of Active Faults Using GPR In The Seismically Active Kachchh Palaeo-Rift Basin, Western India: Implication For Neotectonic Activity 844  
*Parul Joshi, D. M. Maurya, V. Chowksey & L. S. Chamyal*

### ***Theme 10-Demining and UXO***

Performance of a Demining GPR Related to Soil Properties and Clutter 853  
*Kazunori Takahashi, Jan Igel & Holger Preetz*

3D Segmentation of Ground Penetrating Radar Data for Landmine Detection 858  
*Dyana A, CH Srinivas Rao & Ramachandra Kuloor*

Fusion of Correlated Decisions for GPR Based Buried Landmine Detection 864  
*Tesfamariam, Gebremichael T., Dilip Mali & Abdelhak. M. Zoubir*

A Strategy for Landmine Detection and Recognition Using Simulated GPR Responses 871  
*Maria A. Gonzalez-Huici*

### ***Theme 11-Borehole***

Electromagnetic Wave Transmission Characteristics Research of Single-Borehole Radar 879

<i>Chunguang Ma, Qing Zhao &amp; Hongchun Yang</i>	
A Borehole Radar Prototype: Development and Testing	883
<i>Sixin Liu, Junjun Wu, Lei Fu, Fei Wang &amp; Hang Dong</i>	
Analysis of a direct wave in directional borehole radar with a circular dipole array antenna	887
<i>Satoshi Ebihara &amp; Keiji Onoda</i>	
Considerations of the Blind Region for Single-Borehole Bistatic and Monostatic Pulse Radars	892
<i>Jae-Hyoung Cho, Jong-Gwan Yook, Sang-Wook Kim &amp; Se-Yun Kim</i>	
Distortion of Pulse Signatures Penetrated Obliquely Through Tunnel in a Cross-Borehole Pulse Radar	897
<i>Sang-Wook Kim, Jong-Sung Choi &amp; Se-Yun Kim</i>	
Effect of Ferrite Beads on Reduction of Resonance of Thin Conducting Cylinder in a Water-filled Borehole	901
<i>Satoshi Ebihara &amp; Kosuke Toma</i>	
A Decade of Directional Borehole Radar Services	906
<i>K. Siever, R. Elsen, S. Uchtmann &amp; K. Behaimanot</i>	
<b>Theme 12-SAR and Planetary Exploration</b>	
Kaguya Lunar Radar Sounder Observation of Sinus Iridum	913
<i>Takao Kobayashi, Seung Ryeol Lee &amp; Jin Song Ping</i>	
Simulations for Martian subsurface' detection with radar sounder	917
<i>Yu Zhang, Xiao-juan Zhang &amp; Guang-you Fang</i>	
Modeling and Simulation for Ground Penetrating Radar Study of the Subsurface Structure of the Moon	922
<i>Wenzhe Fa</i>	
<b>Theme 13-Other</b>	
Localization of structural heterogeneities in refractory blocks using ground penetrating radar	929
<i>M. Boinet, P. Pires Franco, A. Crouzet &amp; C. Norgeot</i>	
Propagation Characteristics of Joint Physical Simulation of Both Electromagnetic Wave and Ultrasonic Wave in Fractured Media Model	933
<i>Qiao Wang, Qi Lu, Wenjing Liang, Hongli Li, Xuan Feng, Cai Liu, Lilong Zou &amp; Yue Yu</i>	
3D GPR imaging for paleoseismology in Central Apennines (Italy).	937
<i>M. Ercoli, C. Pauselli, C. Federico, A. Frigeri &amp; E. Forte</i>	
Research on Measurement of Kunming Lake storage capacity with GPR	943
<i>Zhang Jin-song, Dong Zhi-hai &amp; An Zhi-ming</i>	

A New Algorithm for through wall Human Respiration Monitoring using GPR <i>Wenzhe Li, Xijing Jing, Zhao Li &amp; Jianqi Wang</i>	947
A simple method to determine permittivity and attenuation coefficient of media by holographic radar <i>Masaharu Inagaki</i>	953
A Wavelet-based Strong Clutter Removal Technique for UWB Life Detection <i>Zhao Li, Xijing Jing, Wenzhe Li &amp; Jianqi Wang</i>	957
A Simple Strategy for Moving Target Imaging via an Experimental UWB Through-Wall Radar <i>Shiyou Wu, Kai Tan, Yanyun Xu, Jie Chen, Shengwei Meng &amp; Guangyou Fang</i>	961
An Efficient and Low-complexity Through Wall Moving Target Tracking Algorithm by UWB Radar <i>Kai Tan, Shiyou Wu, Jie Chen, Xiaojun Liu &amp; Guangyou Fang</i>	966
Ground-penetrating radar for correlation analysis of temporal soil moisture stability and land-slope <i>M.R. Mahmoudzadeh, M. Vanclooster, J. Minet &amp; S. Lambot</i>	972
Detecting Three Types of Contaminated Soil with Ground Penetrating Radar <i>Guo Xiujun, Wang Shuqiang &amp; Wang Xianli</i>	976
Integrative GPR Loss in a Discrete Random Medium Model: the Effect of Rough-Surface and Subsurface Mie Scatterers <i>Lanbo Liu &amp; Steven A. Arcone</i>	981
Author Index	985
