

2012 18th International ICE Conference on Engineering, Technology and Innovation

(ICE 2012)

**Munich, Germany
18 – 20 June 2012**

**IEEE Catalog Number: CFP1239P-PRT
ISBN: 978-1-4673-2273-7**

Index of the 18th International Conference on Engineering, Technology and Innovation (ICE) Proceedings

Collaborative Innovation

Track 1: Innovation Management Case Studies

Process view of licensing as a new market entry mode: The case of leading Italian pharmaceutical and biotech companies 1

Author(s): Uros Sikimic, Federico Frattini, Vittorio Chiesa, Mirjana Kranjac

Consumer Innovativeness Model of Indonesian Young Consumers in Relation with Electronic Products Adoption 12

Author(s): Reza Ashari Nasution, Novika Candra Astuti

Market Creation for Radically New Technologies: a Literature Review on the Role of Market Niches 23

Author(s): Roland Ortt

3P Approach in Collaboration for Product Innovation and Commercialization 39

Author(s): James Ah-Kat Tan

Track 2: Collaborative Innovation

Frugal and Reverse Innovation – Literature Overview and Case Study Insights from a German MNC in India and China 49

Author(s): Nivedita Agarwal, Alexander Brem

Cross-Functional Management in Family Firms – A Stewardship Theory Perspective 60

Author(s): Florian Jell, Joern H. Block, Joachim Henkel, Frank Spiegel, Hans Zischka

Who collaborates and innovates in architecture and urban design projects? 74

Author(s): Gonzalo Lizarralde, Laurent Viel, Mario Bourgault, Nathalie Drouin

Track 3: Living Labs

Living Lab Methods and Tools for Fostering Everyday Life Innovation 85

Author(s): Tingan Tang, Matti Hämäläinen

Living Labs in Action – Designing coordinated collaboration in innovation processes 93

- Author(s): Ebru Turgut, Bernhard Katzy
A space for innovation process acceleration, supporting collaborative citizens workshops 102
- Author(s): Nathalie Skiba, Laurent Dupont, Laure Morel, Claudine Guidat
Collaboration Support for Cross-Border Networks of Living Labs 111
- Author(s): Hans Schaffers, Mari Runardotter, Bram Lievens, Claudio Vandi
A Holistic Model of User Experience for Living Lab Experiential Design 119
- Author(s): Marc Pallot, Kulwant Pawar

Collaborative Entrepreneurship

Track 1: Regional Innovation and Entrepreneurship

- Determinants of Innovation in Emerging Market SMEs: Thirty-Five Years' Evidence from Advanced Materials in Turkey 134
- Author(s): Esin Yoruk, Deniz Yoruk
- Study of Chinese and European Automotive R&D – Innovative Approaches to New Energy Vehicle Requirements 164
- Author(s): Benjamin Thoma, David O'Sullivan
- Rotterdam Open Data: Exploring the release of public sector information through co-creation 174
- Author(s): Peter Conradie, Ingrid Mulder, Sunil Choenni
- Innovative capacity in European peripheral regions: determinants and empirical evidence 184
- Author(s): Concepción López-Fernández, Ana María Serrano-Bedia, Gema García-Piqueres

Track 2: Business Eco Systems

- Business Ecosystem Evolution and Strategic Considerations: A Literature Review 194
- Author(s): Saku J. Mäkinen, Ozgur Dedehayir
- Strategic, Brand and Platform Requirements for an Interactive Innovation Process in Business Ecosystems 204
- Author(s): Peter E. Harland, Sabine Wüst
- Towards a concept of autonomy for teams developing a new business within existing companies 213
- Author(s): Jérôme Gard, Guido Baltes, Bernhard Katzy

Strategic partnerships between start-ups and established firms – a future issue for entrepreneurial education 226

Author(s): Christian Greiner, Tom Peisl, Angela Poech

Track 3: Open Innovation

Open Innovation as an Alternative to Support Growth: the Coupled Processes Emphasized 235

Author(s): Antonis D. Livieratos, Demetrios B. Papoulias, Sandra Charreire Petit

User involvement in the innovation process: Development of a framework for E-Services 243

Author(s): Herbert Gillig, Klaus Sailer

You solve, I learn: a novel approach to e-learning in collaborative crowdsourcing ""476

Author(s): G. Fantoni, R. Aprea, D. Gabelloni, G. Montelisciani

Concurrent Engineering

Track 1: Concurrent Engineering Methods and Tools 1

An analysis of the uses and properties of the Obeya ""486

Author(s): Knut Aasland, Detlef Blankenburg

Consideration of market-oriented Business Strategies within the Knowledge System of Design for X (DfX) ""496

Author(s): Jochen Reitmeier, Kristin Paetzold

A framework of Design for Procurement ""4: 6

Author(s): A. Pulkkinen, A. Martikainen, J. Kuusela

Visualising the Co-creation Process ""4; 6

Author(s): Christopher Durugbo, Kulwant Pawar

Track 2: Concurrent Engineering Methods and Tools 2

Assessing Procedures to Set up Protection Concepts against Product Counterfeiting ""526

Author(s): Sebastian A. Schenkl, Florian G. H. Behncke, Udo Lindemann

Workflow Engineering for Crowdsourcing in Project Management Towards a Human-Computers Services ""535

Author(s): Ahmad Hassan Afridi

Customer Satisfaction as a Quantifiable Criterion for the Product Improvement Process ""542

Author(s): J. Amaro dos Santos, Peter Harland

Assessing risk perception and well-being at workplaces: A game based approach ""54:

Author(s): Alessandro Innocenti, Francesco Molinari, Christian Müller

Track 3: Concurrent Engineering Methods and Tools 3

Application of Rapid Prototyping to Support Treatment of Lobule Keloids ""558

Author(s): Lateefah Miller, Gamal Weheba

Product Platform Effects: A Literature-based Content Analysis ""565

Author(s): Peter E Harland, AHM Zakir Uddin

Anonymity over the internet (WIP) ""576

Author(s): Zoltán Balogh

Development of KBE System to support LeanPPD application ""583

Author(s): Mikel Sorli, Maksim Maksimovic, Ahmed Al-Ashaab, Robert Sulowski,
Essam Shehab, Amaia Sopelana

Product Development

Track 1: User Needs and Requirements

An analysis of methods to achieve robustness towards a lean product development process ""58;

Author(s): Alan Cabello, Karina Flores, Myrna Flores, Muhammad Khan, Ahmed Al-Ashaab

Improving the Learning Experience for the Deaf through Augment Reality Innovations ""59;

Author(s): Kellie Kercher, Dale C. Rowe

Uncovering Requirements using Serious Games 390 ""

Author(s): Christopher Durugbo, Matthias Kalverkamp

Understanding Customer Value and Waste in Product Development: Evidence from
Switzerland and Spain 400

Author(s): Myrna Flores, Laura Torredemer, Alan Cabello, Madhur Agrawal, Karina
Flores, Christopher Tucci

Track 2: Collaborative Product Development

High Definition Product Lifecycle Management Decision Making Framework 410

- Author(s): Carsten Burchardt
- Application of Systems Engineering in a Collaborative Environment 421
- Author(s): Iris Karvonen, Mikko Uoti, Göran Granholm
- The Application of an Assessment Tool for Lean Product Development: An exploratory study in Spanish Companies 432
- Author(s): Amaia Sopelana, Myrna Flores, Leire Martinez, Karina Flores, Mikel Sorli
- Contextual Enhancements of Knowledge Management Systems for User-Centred Provision through Assistance Systems 442
- Author(s): Sebastian Scholze, Oliver Kotte, Dr. Dragan Stokic, Dr. Jan Kickstein

Track 3: Collaborative Process Development

- Development of Product Piracy Robust Products and Production Systems 453
- Author(s): Martin Kokoschka, Juergen Gausemeier, Markus Lehner
- Collaborative Approach for Performance Improvement of Non-added Value Activities in SMEs 463
- Author(s): Paulo Peças, Ana Jorge, João Morgado, Elsa Henriques, Rui Cernadas
- Advanced process planning in lean product and process development 473
- Author(s): Kerga Endris, Muhammad S Khan, Aitor Blázquez Arias
- Understanding the Approaches to Create a Process Architecture for Lean Thinking 486
- Author(s): Myrna Flores, Karina Flores, Alan Cabello, Sergio Terzi, Monica Rossi
- SmartNet Collaboration Model – a Framework for Collaborative Development and Production 496
- Author(s): Armin Lau, Thomas Fischer, Manuel Hirsch, Heiko Matheis

Virtual Collaborative Organisations

Track 1: Communication

- Shared Understanding in Networked Organizations 506
- Author(s): Kateryna Bondar, Bernhard R. Katzy, Robert M. Mason
- Intelligent Message Distribution in Corporate Expert Communities 517
- Author(s): Manfred Langen, Michael Heiss, Thomas Mayerdorfer, Walter C. Kammergruber

A Socially Intelligent Approach for Enterprise Information Search and Recommendation 526

Author(s): Konstantinos Christidis, Dimitris Apostolou, Gregoris Mentzas

A framework for knowledge security in aerospace inter-organizational Network 536

Author(s): Mariangela Lazoi, Giustina Secundo, Salvatore Totaro, Antonio Zilli

Track 2: Collaborative Planning and Configuration

Education for Collaboration 546

Author(s): Alexander Steinkogler, Peter Leibl, Albert Seemüller

Using Manufacturing Service Descriptions for flexible Integration of Production Facilities to Manufacturing Clouds 555

Author(s): Ursula Rauschecker, Matthias Stöhr

Strategies for Supply Chain Configurations 565

Author(s): Valentina Franchini, João Bastos, Américo Azevedo

Track 3: Virtual Enterprise Interoperability

On the Management of Virtual Enterprise's Inheritance between Virtual Manufacturing & Service Enterprises: Supporting "Dynamic" Product-Service Business Ecosystems 575

Author(s): David Romero, Ricardo J. Rabelo, Arturo Molina

Complex Collaboration, Knowledge Sharing and Interoperability 586

Author(s): T.J. Marlowe, N. Jastroch, S. Nousala, V. Kirova

Concurrent innovation-based eEnterprise 596

Author(s): Aurelian M.Stănescu, Mihnea A.Moisesescu, Ioan S.Sacală, George Burlacu, Raluca A.Nedelcu, Luiza E.Cojocaru

Cloud-based negotiation for sustainable Enterprise Interoperability 605

Author(s): Carlos Coutinho, Adina Cretan, Ricardo Jardim-Goncalves

Integrating Design for All in Living Labs

IDeALL: Exploring the Way to Integrate Design for All within Living Labs 615

Author(s): Isabelle Vérilhac, Marc Pallot, Francesc Aragall

Innovative Technologies for Consumer Goods Industry

FASHION-ABLE: needs and requirements for clothing, footwear and orthotics of consumers groups with highly individualised needs 623

Author(s): Juan C. Gonzalez, Jose Olaso, María Gil, Sergio Puigcerver, Juan V. Durá, Ignacio López

Semantics and KPIs to improve partner selection for small series production 633

Author(s): D. Rotondi, S. Piccione, M. Sesana, R. Fornasiero

Collaborative Planning in Customer-Oriented Supplier Networks – The CoReNet Approach 643

Author(s): João Bastos, Américo Azevedo, Ricardo Almeida

Proposal of a Reference Model for Fashionable and Healthy Goods production in SME networks 653

Author(s): Valentina Franchini, João Bastos, Américo Azevedo, Rosanna Fornasiero

Lean Product Development

Lean Product Development: a five-steps methodology for continuous improvement 664

Author(s): Monica Rossi, Marco Taisch, Sergio Terzi

Engineering for Sustainability

Energy CH-IT: a cross-border network for promoting energy saving and sustainability 674

Author(s): Luca Canetta, Gianpiero Mattei, Giovanni Moretti, Renzo Longhi

A Methodology for Developing Serious Gaming Stories for Sustainable Manufacturing 684

Author(s): Heiko Duin, Manuel Oliveira, Klaus-Dieter Thoben

Handling Resource Efficiency in Production of Small and Medium sized Enterprises 693

Author(s): Sven Rogalski, Hendro Wicaksono

Towards Sustainability Assessment: Reference Data Model for Integrated Product, Process, Supply Chain Design 702

Author(s): Andrea Bettoni, Marino Alge, Diego Rovere, Paolo Pedrazzoli, Luca Canetta

Innovation in Networked Organisations

Action Research Conceptualization – a paradigm for open innovation implementation and research during its occurrence 712

Author(s): David Oprešnik, Slavko Dolinšek	
Toward autonomy of ideas: Conceptual framework for Open Innovation	722
Author(s): Alexis Steiner, Laure Morel, Mauricio Camargo	
Organizational Capabilities for Successful Innovation	733
Author(s): Michael Lewrick, Robert Raeside, Maktoba Omar	
Compatibility evaluation of future product concepts	747
Author(s): Clemens Hepperle, Florian Lachner, Markus Mörtl, Udo Lindemann	
<u>Addressing users experience in the Internet of Things domain</u>	
An Internet of Things enabled Interactive Totem for Children in a Living Lab setting	757
Author(s): Sauro Vicini, Sara Bellini, Alice Rosi, Alberto Sanna	
Living Lab approach to create an Internet of Things service	767
Author(s): Stefan Wellsandt, Matthias Kalverkamp, Jens Eschenbächer, Klaus-Dieter Thoben	
Developing Experiential Living Lab as Platforms for Embedded Innovation	776
Author(s): Roumen Nikolov, Albena Antonova
