

2012 IEEE Fifth Power India Conference

**Murthal, Haryana, India
19 – 22 December 2012**

**IEEE Catalog Number: CFP1211A-PRT
ISBN: 978-1-4673-0763-5**

2012 IEEE FIFTH POWER INDIA CONFERENCE

Table of Contents

Technical Session-1 (IA-1)

(Industrial Application)

Control of DSTATCOM Using Adjustable Step Least Mean Square Control Algorithm'''3''

by Sabha Raj Arya, Bhim Singh, Kamal, Al-Haddad, and Amrish Chandra

Magnetics Supported 3P-3W UPQC for the Realization of Four-Wire Distribution System'''9

by Yash Pal, A Swarup, and Bhim Singh.

PFC Buck Converter Fed PMBLDCM Drive for Low Power Applications'''35

by Sanjeev Singh, and Bhim Singh

NNE'Series Resonant Converter Based LED Lamp Driver with ZVS'''3:

by Ashish Srivastva, and Bhim Singh

MRAS Based Estimation of Speed in Sensorless PMSM Drive'''45

by Ambarish Mishra, Pramod Agarwal, S.P.Srivastava, and Vasundhara Mahajan

Trajectory Control of DC Servo Using OS-ELM Based Controller'''4:

by Vikas Kumar, Prerna Gaur, and A.P Mittal

Fuzzy-Logic Based MPPT Control of Grid Interfaced PV Generating System with Improved Power Quality'''55

by Arun Verma, Bhim Singh, and D.Shahani

Technical Session-2 (IA-2)

(Industrial Applications)

Power Quality Improvements in Diesel Engine Driven Induction Generator System Using SRF Theory'''5; '''

by Bhim Singh, and Ram Niwas

Sensitive Interturn Fault Diagnosis in Induction Machine Using Vibration Analysis'''66'''

by Jeevanand Seshadrinath, B K Panigarhi, and Bhim Singh

Three-Phase, Two-Switch PFC Rectifier Fed Three-Level VSI Based FOC of Induction Motor Drive'''72'''

by G Bhuvaneswari, Bhim Singh, and Sandeep Madishetti

Power Quality Improvement in Switched Reluctance Motor Drive Using Vienna Rectifier'''78

by Bhim Singh, and Mutharath Rajesh

Simplified Stability Analysis of a V/f Controlled Closed-loop Induction Motor Drive System'''85

by Shirazul Islam, Shamsuddin Ahmad, Iqbal, and Farhad Ilahi Baksh

Technical Session-1 (IE-1)

(Industrial Electronics)

Performance Improvement of Adjustable Speed Drives (ASD's) Using Supercapacitors During Voltage Sag''8;

by Satvir Singh Deswal, Pajeev Mittal, Dinesh Jain, and Ratna Dahiya.

Comparative Analysis of Harmonic Reduction in Multilevel Inverter''97''

by Neha Karnik Deepshikha Singla, and Parshuram Sharma

High-Frequency DC-DC Boost Converter for Residential PV System with Power Factor Correction''; 2

by Gitanjali Pandove, and Mukhtiar Singh

Analysis Design and Control of Bidirectional Charger Discharger''; 7

by Veerachary Mummadi, and Ramakanth Naidu Gowra

Technical Session-1 (PE-1)

(Power Electronics)

Online Estimation of Stator Resistance in Vector Control of Induction Motor Drive''; 3

by Mouli Chandra, and Tara Kalyani

DVR Based Voltage Regulator for Isolated Asynchronous Generators Feeding Three Phase Load''; 8

by Sachin Tiwari, Shailendra Jain, Bhim Singh, and Sushma Gupta

Transient Modeling of Z-Source Chopper Used for Adjustable Speed Control of DC Motor Drive''324

by Byamakesh Nayak, and Saswati Dash

Speed Regulation of IVCIM Using PI, Fuzzy and NN Predictive Controller''32: ''

by Bharat Bhushan, Madhusudan Singh, Sudarshan Valluru, and Prem Prakash

Power Quality Improvement Using Three Phase Modular Converter for Welding Power Supply''336

by Bhim Singh, Swati Narula, and G.Bhuvneswari

Technical Session-2 (PE-2)

(Power Electronics)

Boost Full Bridge DC-DC Converter Based Modular Converter for Telecom Power Supplies'''342
by Bhim Singh, Shikha Singh, and G.Bhuvneswari

Monitoring, Control and Power Quality Issues of PLC Controlled Three-Phase AC Servomotor Drive'''347
by Mini Sreejeth, Madhusudan Singh, and Parmod Kumar

A Single Sensor Based PFC Zeta Converter Fed BLDC Motor Drive for Fan Applications'''352
by Bhim Singh, and Vashist Bist

Harmonic Analysis of Hybrid Capacitor Commutated Converter in HVDC System'''358'''
by Sravan Sai Kumar, and Rama Devi Alpati

Various Control Methods for DC-DC Buck Converter'''364
by Rintu Khanna, and Himanshu

Technical Session-3 (PE-3)

(Power Electronics)

Simulation of Shunt Active Power Filter Using Instantaneous Power Theory'''368'''
by Vasundhara Mahajan, Pramod Agarwal, and Hari Om Gupta

Two-Input DC-DC Converter for DC-Grid Applications'''373
by Veerachary Mummadi, Amarendra reddy. B, and Vargil Kumar. E

A Three Phase Five Level Cascaded H-Bridge Rectifier with Sinusoidal PWM Scheme'''379
by N Jayaram, Pramod Agarwal, and S Das

A New Transistor Clamped 5-Level H-Bridge Multilevel Inverter with Voltage Boosting Capacity'''386
by Prakash Singh, Sachin Tiwari, and K K Gupta

Application of SPMC Topology for Single-Phase Boost AC-AC and Boost DC-DC Converter'''38;
by Puneet Kumar Yadav, and Ratna Dahiya

A DC/DC Converter Based on Cross Connected Input Sources (Industrial Electronics) authored'''397
by Lalit Sahu, and Shailendra Jain

Technical Session-1 (PS-1)

(Power System)

Air Cored Current Sensor for Digital Metering & Micro-Processor Based Protection Unit''3: 3

by Rajesh Kumar Panda, and Neha Sawade

Load Shedding Via PID Controller for an Isolated Power System''3: 9

by Ashwani Kumar Sharma, D. Tyagi, and Saurabh Chanana

Optimal Load Curtailment Based Transmission Management with FACTS''3; 5

by Ashwani Kumar Sharma, Yash Pal, and Ram Kumar M.

Binary Classification of Day-Ahead Deregulated Electricity Market Prices Using Neural Networks''3; ;

by Swaminathan Anbazhagan, and N Kumarappan

Technical Session-2 (PS-2)

(Power System)

A Complete Probabilistic Power Flow Solution for Transmission System''426

by Neeraj Gupta

Comparison of Modeling Techniques for Magnetization Characteristics of Induction Machine''432''''

by Kanwarjit Singh Sandhu, Naveen Yella, and Ashwani Kumar

GA Based SVS Control Strategy for Mitigation of SSR in Series Compensated Power System''437

by S T. Nagaranjan, and Narendra Kumar

Recognition of Critical "N-2" Contingencies in Power System Using Non-linear Optimization''443

by Amit Kumar, and Pushkar Tripathi

Technical Session-3 (PS-3)

(Power System)

Application of a Hybrid Controller in Load Frequency Control of Hydro-Thermal Power System''449

by Meena Tushir, and Smriti Srivastava

A Novel Transmission Loss Allocation Method Based on Transmission Usage''454

by Baseem Khan, and Ganga Agnihotri

Selection of Appropriate Methodology for Distributed Generator Under Severity Conditions''457

by A.K Singh, and S. K. Parida

Multi Objective Comparison of GA and LP Techniques for Generator Reactive Power Optimization''45;

By Rayudu Katuri, Guduri Yesuratnam, Jaya Lakshmi Askani, and Dedeepya Yeddanapalli

Technical Session-4 (PS-4)

(Power System)

Cable Sizing and Effects of Cable Length on Dynamic Performance of Induction Motor''466

by Mukesh Kirar, and Ganga Agnihotri

Robust Distance Protection of Mid-point Shunt Compensated Transmission Line''472

by Arvind R. Singh, Azhar Ahmed, and Sanjay Dambhare

New Modified First Zone Algorithm for Transmission Lines with Series Compensators''477

by Azhar Ahmed, Arvind R. Singh, and Sanjay Dambhare

Technical Session-5 (PS-5)

(Power System)

A Comparative Analysis of Differential Evolution and Genetic Algorithm for Solving OPF''482''

by C. N. Ravi, and C. Christoher Asir Rajan

Optimal Location of UPFC Based on PSO Algorithm Considering Active Power Loss Minimization''488

by Arup Ratan Bhowmik, Ajoy Chakraborty, and Priyanath Das

Exploring Profit Earning Strategies Used by DISCOMs Under Frequency Linked Tariff Followed in India''493

by Pankaj Mishra, and Tirthadip Ghose

Effect of Bad Measurements on State Estimation in Power System''49: ''

by Ravindra Kumar, and Dinanath Prasad

Technical Session-6 (PS-6)

(Power System)

Estimation of Fault Location Algorithm in Series Compensated FACT Systems''4: 5

by S G Srivani, and Nisha T T

Placement of DG in Distribution System for Loss Reduction''4: :

by Yogesh Patel, and Ashvin G Patel

Comparative Evaluation of Out of Step Detection Schemes for Distance Relays''4; 6

by Sanjay Dambhare, and Vinaya A Ambekar

Calculation of T&D Loss % Based on 11/0.4 KV Substation in Distribution Utility''522

by Rajneesh Pawar, and Jitender Singh

Optimal Location of Distribution Generation Source in Power System Network''527

by Vivek Shrivastava, Om Prakash Rahi, Vaibhav Gupta, and Sameer Singh

Technical Session-7 (PS-7)

(Power System)

Effect of Loading Pattern on the Performance of Reconfigured Medium Size Distribution System""533

by Pawan Kumar, Mini S.Thomas, and Iqbal Ali

Stability Enhancement in a Multi-Machine Power System Using Unified Power Flow Controller""539

by Anirudh Dube, P. R. Sharma, and Narender Hooda

Reactive Power Pricing in Stressed & Unstressed Condition with System Security in Deregulated Market""544""

by Sagar Bhosle, Sushil Gupta, and Mahendra Singh

Methodology & Tools for Performance Evaluation of IEC 61850 GOOSE Based Protection 'Uej go gu""54:

by Iqbal Ali, Sunil Gupta, and Mini S Thomas

Comparison of SVCs and DSTATCOMs to Control Voltage Violations of Fixed Speed Induction Generators""556

by Vinayak Raj, Raheedukutty Shereef, and Shrikrishna Khaparde

Technical Session-8 (PS-8)

(Power System)

Ranking of Sites Based on Voltage Sag Severity""562

by Lokendra Singh, Dinesh Jain, and S.P Jain

Role of DSTATCOM in a Power System Network with Induction Furnace Load""567

by Parag Nijhawan, Ravinder Bhatia, and Dinesh Jain

Optimal Placement of FACTS Devices for Voltage Stability Using Line Indicators""572""

by Parshuram Sharma, and Anju Gupta

A Comparative Study of Damping Subsynchronous Resonance Using TCSC and IMDU""577

by Narendra Kumar, and Prakash Chittora

Cost Effective Design of Grounding Grid Using Ground Rods - a Case Study""583

by Mahadev Unde, and Bansidhar Kushare

Technical Session-9 (PS-9)

(Power System)

Reliability Model for a Distribution System Incorporating Snowfall as a Severe Weather Event''589''

by Tanaya Chaudhari, Sristi Mitra, and Arup Kumar Goswami

Estimation of Electric Stress and Surface Potential for Traction Insulators''593

by Subba Reddy B, Monali Madhulita, and Tanaya Chaudhuri

Recognition of Power Quality Events Using DT-DWT Based Complex Wavelet Transform''598

by Bhim Singh, D Shahani, and Raj Kumar

Integration and Security Analysis of Metering Infrastructure''5: 2

by Mini S Thomas, Iqbal Ali, and Nitin Gupta

TCDFs Based Congestion Management Using TCSC''5: 8

by Richa Bansal, and Sushil Gupta

Technical Session-10 (PS-10)

(Power System)

Congestion Management in a Deregulated Power System Using NSGAI''5; 2

by Tulika Bhattacharjee, and Ajoy Chakraborty

Genetic Algorithm Solution for a Convex Hydro-Thermal Generation Scheduling''5; 8''

by Vimal Bisht

Allocating the Cost of Reactive Power by Using Modified Value Based Approach and Tracing Method''624

by Ajay Kumar, Naresh Yadav, and Indu Maheshwari

A Hybrid Technique for Islanding Detection of an Inverter Based Distributed Generation''62: ''

by Pankaj Gupta, Ravinder Bhatia, and Dinesh Jain

Integral and Optimal AGC of 3 Area Interconnected Power Systems and Modifications in UI Mechanism''635

by Narendra Kumar, Vipul Gupta, Upma Shehara, Shitij Kakkar, and Astha Tanwar

Technical Session-11 (PS-11)

(Power System)

BF Based Integral Controller for AGC of Multiarea Thermal System Under Deregulated Environment""63;

by Kanika Wadhwa, J Raja, and S.K. Gupta

Power Flow Models of Static VAR Compensator and Static Synchronous Compensator""647

by Bahadur Singh Pali, Suan Bhowmik, and Narendra Kumar

Technical Session-12 (PS-12)

(Power System)

Economic Load Dispatch of Different Bus Systems Using Particle Swarm Optimization""652

by Shelly Vadhera, and Manoj Mahajan

Islanding Detection and Control in Grid Based System Using Wavelet Transform""658""

by Pratibha Singh, and Rashmi Sharma

Generation Rescheduling and Shunt Compensation Planning for Voltage Stability Improvement""662

by Sunil Damodhar, and S Krishna

Simulation and Analysis of Grid Connected Photovoltaic System with MPPT""668

by Munish Kumar, and Mukhtiar Singh

Online Dynamic Security Assessment of Power Systems Using Critical Group Energy Function""674

by Mohammed Iqbal, and S Krishna

Technical Session-13 (PS-13)

(Power System)

Energy Conservation in Power System Using LR Technique''67:

by S. Maheshwari, and C. Vijayalakshmi

Suppressing of Gaming in Power Trading Under Deregulated Environment''685

by Gurmeet Singh, Rohit Verma, and Sushil Gupta

Wind Power Trading with Block Demand and Linear Supply in Deregulated Electricity Market''68; ''

by Satish Kumar, Rohit Verma, and Rajneesh Pawar

Technical Session-14 (PS-14)

(Power System)

Design of a SRF Based MC UPQC Used for Load Voltage Control in Parallel Distribution Systems''697''

by Vasudevanaidu Pudi, and Banakara Basavaraja

Deterministic Load Flow Algorithm for Balanced Radial AC Distribution Systems''6: 3''

by Mini S Thomas, Rakesh Ranjan, and Nitin Malik

Harmonic Current Estimation Using Mutual Information Based Independent Component Analysis''6: 9

by Sriramachandrian Seshathiri, Balakrishnan, Hariharan, Sivaramakrishnan.H, and Supriya P.

Performance Investigation of Three Phase Synchronous Reluctance Motor Using Finite Element Analysis''6; 3

by Anubhav Agarwal, Ashutosh Trivedi, and Ajay Srivastava

Hybrid GA - SVR Technique for Contingency Screening in Power System''6; 8

by Pushkar Tripathi, and Amit Kumar

Technical Session-1 (RES-1)

(Renewable Energy Sources)

Distributed Generation Based AC-DC-DC Converter''724

by Sridhar Reddy

DC Link Voltage Controller Based Power Flow Control in Distributed Microgrid''72:

by Megha goyal, and Rajesh Gupta

Comparison and Simulation of Two New Schemes in Solar Inverters for Harmonic Reduction''737

by Mohammad Ahmad, and B H Khan

Analysis of a Micro Grid Under Transient Conditions Using VF Controller''743

by Monika Jain, Sushma Gupta, Deepika Masand, and Gayatri Agnihotri

Monitoring and Control of Real Time Simulated Microgrid with Renewable Energy Sources''749''

by Jaganmohan Reddy, Suryalok Dash, Padmaraju Koppireddy, and Anil Kumar Ramsesh

Technical Session-2 (RES-2)

(Renewable Energy Sources)

Computation of Degree of Unbalance for SEIG with Unbalanced Load & Excitation Capacitance''755

by Yatender Chaturvedi, and Kanwarjit Singh Sandhu

A Systematic Approach to Grid Connected PV System ''75:

by Shazia Afroze, Udaykumar R.Y, and Anant Naik

Thermal and Electrical Model of Fuel Cell in Connected to Grid/Isolated Mode''765

by Sanjeev Nayak, and D N Gaonkar

Technical Session-3 (RES-3)

(Renewable Energy Sources)

Modeling Components of A DC Coupled Photovoltaic System with Maximum Power Point Tracking''76;

by Sandeepan Majumdar, Apoorva Sapalok, and Niladri Chakaborty

Control of Standalone Generator Driven by Small Hydro Turbine''77

by Bhim Singh, and Veeramalla Rajagopal

Investigations on Fault Behaviour of Grid Connected DFIG Based Wind Energy Conversion Systems''783

by Hemant Ahuja, G Bhuvaneswari, R Balasubramanian, Arvind Sharma, Manaulah Abid, and Jigyasa Gupta

Optimal Sizing of Reactive Power Support in a Stand-Alone Hybrid Excited Induction Generator System''789

by M. Vivek Sundar, P. Sai Aravinda Karthik, C. Nagamani, and A. Karthikeyan

Technical Session-4 (RES-4)

(Renewable Energy Sources)

Modified PQ Control for Power Quality Improvement of Standalone Hybrid Wind Diesel Battery SystemA Multiple Input DC-DC Converter for Interfacing of Battery/Ultracapacitor in EVs/HEVs/FCVs''794''

by Rezkallah Miloud, Amrish Chandra, Bhim Singh, and Ram Niwas

A New MPPT Algorithm for PMSG Based Grid Connected Wind Energy System with Power Quality''79:

by Benadja Mounir, and Amrish Chandra

Ride- Through Capability of Grid Interfaced Variable Speed PMSG Based WECS''7: 6

by Rajeev Mittal, Kanwarjit Singh Sandhu, and Dinesh Jain

Efficient PV Micro-inverter with Isolated Output''7; 2''

by Viranchi Pandya, and Arun Agarwal

Preventive Maintenance of Wind Turbines Using Remote Instrument Monitoring System''7; 7

by Gopi Krishna Durbhaka

Technical Session-5 (RES-5)

(Renewable Energy Sources)

Performance Analysis of Variable Speed Wind Energy Conversion System in Grid Connected Mode"7; ; ""

by Santhosha Kumar A, and D N Gaonkar

Empirical Modeling of Dual Fuel Engine Operated on Producer Gas and Pilot Diesel Fuel"827

by Avdhesh K. Sharma

Modeling and Simulation of Distributed Energy Source for Real and Reactive Power Sharing"832""

by Alka Singh, Manoj Badoni, and Bhim Singh

Grid Voltage Control of Wind Energy Conversion System"838""

by Vandana Jain, Dinesh Jain, and Surender Dahiya

A Review of Power Converter Topology Used with PMSG Based Wind Power Generation"843

by Ravi Gupta, Majid Jamil, and Mukhtiar Singh

Technical Session-6 (RES-6)

(Renewable Energy Sources)

Operation and Control of a Hybrid Photovoltaic- Diesel-Fuel Cell System Connected to Micro-Grid"849

By Shailendra Singh, Ajeet Singh, and Saurabh Chanana

A Fuzzy Logic MPPT Control Scheme for Solar Photovoltaic Module Connected with DC Drive"855

by Rahul Dubey, and Dheeraj Joshi

Hybrid Operation of Diesel Generator with WECS Using Back to Back Converters with BESS"85; ; ""

by Aarti Gupta, Dinesh Jain, and Surender Dahiya

Technical Session-7 (RES-7)

(Renewable Energy Sources)

Analysis and Control of Grid Connected Wind Energy System with DSTATCOM''867''''

by Manju Aggarwal, Sushil Gupta, and Madhusudan Singh.

An Efficient Constant Current Controller for PV Solar Power Generator Integrated with the Grid''873

by Sweeka Meshram, Ganga Agnihotri, and Sushma Gupta

Design and Implementation of PMSG Based SWECS for Three-Phase Four-Wire Loads''879''''

by Bhim Singh, and Shailendra Sharma

Monitoring and Power Scheduling of a Micro Grid with Distributed Real Time Controllers''884

by Y Jaganmohan Reddy, Y V Pavan Kumar, Anilkumar Ramsesh, Suryalok Dash, and K Padma Raju

Technical Session-8 (RES-8)

(Renewable Energy Sources)

Grid Tie Inverter Control for Rooftop Photovoltaic System''88: ''''

by Aurobinda Panda, Mukesh Pathak, and S. P. Srivastava

Influence of Biomass Materials and Gas Flow Rate on Downdraft Gasifier Performance''896

by Avdhesh Kumar Sharma

Cage Rotor Induction Generator for Source Equalization of Slow Intermittant Duty Loads''89; ''''

by Vishal Verma, Peeyush Pant, and Bhim Singh

Soft Computing Applications in Wind Speed and Power Prediction for Wind Energy''8: 7''''

by A. K. Choudhary, K. G. Upadhyay, and M. M. Tripathi

Achieving Maximum Possible Power Factor with Single-Phase Shunt APF Under Distorted Supply Condition''8; 3

by Parag Kanjiya, Vinod Khadkikar, and H H Zeineldin
