INDEX OF CONTENTS.....	5
WELCOME MESSAGE.....	11
RESEARCH IN ENGINEERING EDUCATION SYMPOSIUM 2011	11
CONFERENCE STRUCTURE	13
PLANNING COMMITTEE MEMBERS	13
LOCAL ORGANIZING MEMBERS	13
INTERNATIONAL ADVISORY COMITTE.....	14
CONFERENCE SECRETARIAT.....	14
CONFERENCE PLANNING	15
TUESDAY, 4 TH OCTOBER.....	15
WEDNESDAY, 5 TH OCTOBER	15
THURSDAY, 6 TH OCTOBER.....	16
FRIDAY, 7 TH OCTOBER	17
CONFERENCE SCHEDULE	19
CONFERENCE SESSION	21
SESSION 1: WEDNESDAY MORNING	21
SESSION 2: WEDNESDAY AFTERNOON	21
SESSION 3: WEDNESDAY AFTERNOON	22
SESSION 4: THURSDAY MORNING	22
SESSION 5: THURSDAY AFTERNOON	23
SESSION 6: FRIDAY MORNING	23
SESSION 7: FRIDAY MORNING	24
TABLE OF SESSIONS.....	25
SESSION 1 – WEDNESDAY MORNING.....	25
<i>Turn A: Threshold issues – Chair: Maura Borrego</i>	25
<i>Turn B: Teaching and Learning 1 – Chair: Jennifer Turns</i>	25
<i>Turn C: Tools 1 – Chair: Barbara M. Olds</i>	26
<i>Turn D: Learning Strategies 1 – Chair: Bill Williams</i>	26
SESSION 2 – WEDNESDAY AFTERNOON.....	27
<i>Turn A: Engineering Education Research – Chair:Llewellyn Mann</i>	27
<i>Turn B: Project-Based Learning – Chair: Milo Koretsky</i>	27
<i>Turn C: Technology in Learning – Chair: Wendy Newstetter</i>	28
<i>Turn D: Teaching practice – Chair: Anne Gardner</i>	29
SESSION 3 – WEDNESDAY AFTERNOON.....	30
<i>Turn A: Learning strategies 2 – Chair: Cynthia J. Atman</i>	30
<i>Turn B: Engagement – Chair: Roger Hadgraft.....</i>	30
<i>Turn C: Teaching and learning – Chair: Duncan Fraser</i>	31
<i>Turn D: Knowledge and leadership – Chair: Luis Manuel Cerda</i>	32
SESSION 4 – THURSDAY MORNING.....	33

<i>Turn A: Curricula 1 – Chair: Amparo Camacho.....</i>	33
<i>Turn B: Assessment 1 – Chair: Edith Gummer.....</i>	33
<i>Turn C: Transition 1 – Chair: Robin Clark.....</i>	34
<i>Turn D: Teaching and learning 3 – Chair: Michael Prince</i>	34
SESSION 5 – THURSDAY MORNING.....	35
<i>Turn A: Curricula 2 – Chair: Dawn Williams</i>	35
<i>Turn B: Classroom experiences – Chair: Lyn Brodie.....</i>	35
<i>Turn C: Ethics & Values – Chair: Cynthia Finelli.....</i>	36
<i>Turn D: Transition 2 – Chair: Johannes Strobel</i>	37
SESSION 6 – FRIDAY MORNING	38
<i>Turn A: Assessment 2 – Chair: Erik de Graff.....</i>	38
<i>Turn B: Tools 2 – Chair: James Pellegrino.....</i>	38
<i>Turn C: Teaching and learning 4 – Chair: Mario Letelier.....</i>	39
<i>Turn D: Diversity – Chair: Lorraine Fleming.....</i>	40
SESSION 7: FRIDAY MORNING	41
<i>Turn A: Educational Research – Chair: Maizam Alias.....</i>	41
<i>Turn B: Teaching and learning 5 – Chair: Gregory Light</i>	41
<i>Turn C: Tools 3 – Chair: Jonte Bernhard</i>	42
<i>Turn D: Miscellaneous – Chair: James Trevelyan</i>	42
PROCEEDINGS OF THE CONFERENCE	43
1º SESSION – WEDNESDAY MORNING	43
<i>Topic: Threshold Issues – Chair: Maura Borrego.....</i>	43
Investigating and addressing student difficulties in introductory electrical engineering.....	43
Analytical tools in engineering education research: The “learning a complex concept” model, threshold concepts and key concepts in understanding and designing for student learning.	51
Methodology for automated generation of multiple choice questions in self-assessment.....	61
<i>Topic: Teaching and learning 1 – Chair: Jennifer Turns.....</i>	70
A qualitative inquiry into first year engineering student success.....	70
Sharing the past, sharing the future, and sharing oneself in portfolio studios	78
Engineering Student’s Conceptions of Model Uses in Design	87
<i>Topic: Tools 1 – Chair: Barbara M. Olds</i>	95
Instrumental development: Engineering-specific Epistemological/Ontological beliefs.....	95
Virtual Instruments in dimensional metrology.....	106
An expert study of transfer in an Authentic Project.....	119
<i>Topic: Learning strategies 1 – Chair: Bill Williams</i>	127
Engineering learning to Engineering Innovation	127
A model for evaluation of generic competences in engineering: Application to the problem-solving competence at UPM	135
A freshman project based computing engineering course: team work and innovation as a focus.....	144
SESSION 2 - WEDNESDAY AFTERNOON.....	155
<i>Topic: EER – Chair: Llewellyn Mann</i>	155
Strategic pathways to engineering education research: a top-down case study.....	155
Hidden barriers to academic staff engaging in Engineering Education Research	168
Analysis of Trends in United States National Science Foundation Funding for Engineering Education: 1990-2010	175
A possible resistive electrical circuits learning pathway for engineering students	184
<i>Topic: PBL – Chair: Milo Koretsky.....</i>	190
Evaluating tutor training for online PBL teamwork courses in first year engineering.....	190
Measuring the influence of Cooperative Learning and Project Based Learning on problem solving skill.....	199

Reports from teaching practice: experiences and management of tensions encountered with PBL implementations in the early years of undergraduate engineering education.....	208
Project based learning activities as a means of adapting conventional curricula to the demands of the 21 st century aeronautical engineer: The design and building of the EYEFLY 1.....	217
<i>Topic: Technology in Learning – Chair: Wendy Newstetter</i>	226
Materials Engineering Degree in the Technical University of Madrid (UPM): The challenges of a new technology	226
A new teaching tool on the European space for higher education: Fusion of laboratory and research results	235
Computer Adaptive Testing and the Networked Model of Curriculum in an Engineering Education Learning System (MAPI-CAT): The Case of Fourier Analysis in Mexico.....	244
Virtual 3D Support Contents Oriented to Interactive Self-Learning.....	252
<i>Topic: Teaching Practice – Chair: Anne Gardner</i>	259
Want to Change Learning Culture: Provide the Opportunity.....	259
Are we accidentally misleading students about engineering practice?	268
Teaching practices of engineering faculty: Perceptions and actual behavior	279
Assessment of transferable competences in computing	290
SESSION 3: WEDNESDAY AFTERNOON	299
<i>Topic: Learning strategies 2 – Chair: Cynthia J. Atman</i>	299
A Variation Theory Approach to Develop Learning Progressions for Engineering Concepts	299
First steps in the discovery of patterns in the academic results of telecommunication engineering students in the subjects Analysis of Circuits and Mathematics	308
The Influence of Engineering Education on Optics Education.....	317
Development of new teaching activities for learning Robot Mechanics.....	323
<i>Topic: Engagement – Chair: Roger Hadgraft</i>	332
Investigating the characteristics of successful collaborative learning activities.....	332
Task and networking balance as key to satisfaction with team performance	340
Towards technology stewardship: tools for encouraging student engagement	350
<i>Topic: Teaching & Learning – Chair: Duncan Fraser</i>	359
Design-based research as a methodology for investigating learning in the engineering education.....	359
Investigating the nature of thing orientation.....	368
Using Inquiry-Based Activities to Repair Student Misconceptions Related to Heat, Energy and Temperature	375
Using complexity theory to develop a new model of student retention	384
<i>Topic: Knowledge & Leadership – Chair: Luis Manuel Cerdá</i>	394
Building leadership capacity of engineering academics in a leadership vacuum constructed within a participatory group to engage a professional body	394
“Knowledge Management” and Leadership in the Higher Education: A First Approach	406
Teaching contextual knowledge in engineering education-Theory of Engineering Science and the Core Curriculum at the Technical University of Denmark	415
SESSION 4: THURSDAY MORNING	425
<i>Topic: Curricula 1 – Chair: Amparo Camacho.....</i>	425
Assessment as a tool for improving the education of engineers: experiences of international accreditation of the Universidad del Norte.....	425
Quality assurance in engineering education in Russia	433
Informing engineering education for sustainable development using ad deliberative dynamic model for curriculum renewal	441
<i>Topic: Assessment 1 – Chair: Edith Gummer.....</i>	451
Tool for automatic production and management of written and web test exams	451
Does continuous evaluation drive us to mediocrity?	459
An improvement of academic results by a self-study methodology in Transportation Engineering subject....	466
<i>Topic: Transition 1 – Chair: Robin Clark</i>	474
Engineering in an Elementary Setting: An Analysis of Context Maps.....	474
Conceptual Change in Precollege Engineering	487

Forging Futures? Engineering in the Primary School Curriculum	499
<i>Topic: Teaching & Learning 3 – Chair: Michael Prince</i>	507
New methodology on Applied Geology and Geology for Engineers education by using practical trip	507
Competence Monitoring in Project Teams by using Web based portfolio management systems.....	516
Toward Lifelong Learning: Self-Regulation in Undergraduate Engineering Courses	525
SESSION 5: THURSDAY AFTERNOON	535
<i>Topic: Curricula 2 – Chair: Dawn Williams</i>	535
Studying Interdisciplinarity in Engineering Degree Courses: Conceptual and Methodological Issues	535
Facilitating intellectual and personal skills development in engineering programmes	543
A systematic consultation process to define graduate outcomes for engineering disciplines.....	552
The Development of Assessment Tools Using Phenomenography	562
<i>Topic: Classroom experiments – Chair: Lyn Brodie.....</i>	571
Classroom experiments in the new degree of Materials Engineering at UPM.....	571
An architecture for virtual and remote laboratories to support distance learning.....	579
Improving the Learning Process in Statistical Decision-Making Laboratory.....	588
Low cost 3D Gesture based interface use for engineering lecturing.....	595
<i>Topic: Ethics & Values – Chair: Cynthia Finelli.....</i>	604
Assessing the ethical development of engineering undergraduates in the United States.....	604
Engineering Ethics: An Exploration of the State of the Art.....	612
Engineering as a Caring and Empathetic Discipline: Conceptualizations and Comparisons.....	622
<i>Topic: Transition 2- Chair: Johannes Strobel</i>	636
Development of learning environments to increase the understanding and interest in engineering and technology amongst Australian primary school students	636
Starting young: Learning outcomes of a developmentally appropriate PreK engineering curriculum	644
Measuring Pupils' Perceptions of Engineers: Validation of the Draw-an-Engineer (DAET) Coding System with Interview Triangulation	652
Engineering, Learners, and Contexts (ELC): The Development of Pedagogical Engineering Knowledge by Elementary Teachers through Perceived Learning Difficulties and Contextual Constraints	661
SESSION 6: FRIDAY MORNING	671
<i>Topic: Assessment 2 – Chair: Erik de Graaff</i>	671
(Re-)Building an Assessment Paradigm: Individual Student Learning in Team-Based Subjects	671
Considerations on the success rate in aeronautical engineering studies in Spain	678
Assessing individual performance within group design and group problem-solving learning environments...686	686
Understanding Feedback in an Authentic, Ill-Structured Project through Discourse Analysis: Interaction between Student and Instructor Objectives	700
<i>Topic: Tools 2 – Chair: James Pellegrino</i>	710
Quality of experience of online learning tools	710
Concept inventories as aids for instruction: a validity framework with examples of application.....	719
Laboratory experiments: Case study of a virtual approach.....	728
An interactive platform for IA Games	736
<i>Topic: Teaching and Learning – Chair: Mario Letelier.....</i>	745
Learning speed evaluation of first year engineering students	745
Negotiation Games: Acquiring Skills by Playing	754
Shifting conceptions of engineering design: Longitudinal and cross-sectional studies of undergraduate engineering majors	763
Microgenres: Critical “markers” that can facilitate teaching and assessing writing within and across schools and colleges of engineering	772
<i>Topic: Diversity – Chair: Lorraine Fleming.....</i>	782
Observational research methods to explore intercultural competence in engineering	782
Does social capital matter? Impacts of social capital on African American male achievement.....	790
Understanding engineering self-efficacy of students involved with a professional minority engineering society	798

Defining Diversity: Impacts on Students' Engineering Identity	806
SESSION 7: FRIDAY MORNING	815
<i>Topic: Educational Research – Chair: Maizam Alias.....</i>	<i>815</i>
The bigger picture - capturing value creation for an engineering school as it initiates engineering education research	815
An Examination of Learning Strategy, Interest, Intention and Academic Performance: Case Studies of Australia and Malaysia	824
Conference, reviews and conservations about improving engineering education	834
<i>Topic: Teaching & Learning 5 – Chair: Gregory Light.....</i>	<i>841</i>
The answer to an exercise, the answer to a project: The teaching of creativity and project decision taking in the field of structures.....	841
Dealing With Ambiguity in Open-Ended Engineering Problems.....	850
Using case-based learning in undergraduate engineering courses	859
<i>Topic: Tools 3 – Chair: Jonte Bernhard.....</i>	<i>865</i>
Disassemble/Analyse/Assemble (DAA) activities: Learning Engineering through Artefact Interactions.....	865
The transferability of the PSVT:R and the MCT for Measuring and Predicting Student 3D CAD Modelling Abilities.....	874
Novel Hybrid Training Tool Based on Experimental Projects in Electronic Engineering Education.....	883
<i>Topic: Miscellaneous – Chair: James Trevelyan</i>	<i>890</i>
Balancing the Budget: Aspects of Economics in Engineering Education	890
Bringing Engineering Education to Life – An Empirical Approach	900
Threshold capabilities: an emerging methodology to locate curricula thresholds	907
PAPERS WHICH ARE NOT PRESENTED IN REES 2011.....	916
Adapting Engineering Education for a Mindmap-Based Digital Textbook: To reduce the skill gap between what the industry demands and what academia delivers.....	916
Student behavior trends in an engineering program	925
Design of Competences-based Educational Programs for engineering education understanding curriculum as a process	935
Educational Experience of Adaptation of a degree in Electronic Engineering from the ECTS standpoint within the European Higher Education Area Framework.....	944
LIST OF REVIEWERS.....	952
ABSTRACT REVIEWERS	952
PAPER REVIEWERS	955
