TABLE OF CONTENTS

VOLUME 1

THEME 1: CHARACTERIZATION OF SOILS

A Small-strain Constitutive Model for Natural Soft Soils	1
<i>Liu, Yuan-Xue</i>	
1D Compression of Clay Affected by Wetting, Ageing and Viscous Property	7
<i>Deng, J L</i>	
Impact of Drying-Wetting on Strength of a Cement-Treated Lightweight Fill	13
<i>Deng, A</i>	
Elastic-plastic Constitutive Model for Soil Considering Quasi-elastic-plastic Deformation	17
<i>Yang, Guanghua</i>	
Properties of Loess and Fillings about Ground Fissures in Jingyang, China	24
<i>Jiang, M J</i>	
Influence of Sand Content on the Non-linear Creep and Swelling Behavior of Bentonite in Oedometric Condition	31
<i>Tong, Fei</i>	
Particle Flow Pattern for Silos with Single Opening	38
<i>Cheng, Y M</i>	
Lime Leachability and CBR Behaviour of Class F Fly Ashes	44
<i>Sivapullaiah, P V</i>	
Correlations to Assess Angle of Internal Friction of Fly Ash	50
<i>Pal, S K</i>	
Strength Characteristics of a Local Red Soil Reinforced with Tyre Chips	56
<i>Vinot, V</i>	
Application of Artificial Neural Networks (ANN) to Evaluate the Influence of Internal Friction Angle (ϕ) and Over Consolidation Ratio (OCR) of Soil on K_0 Value	62
<i>Makarchian, M</i>	
Evaluation of Drained Shear Strength of Bentonite - Sand Mixtures	68
<i>Khayat, N</i>	
Characterizing the Elastic Modulus of Natural, Partially Cemented Sands	72
<i>Frydman, S</i>	
Influence of Overconsolidation and Skeletal Structure on Undrained Shear	78
<i>Watabe, Y</i>	
Triaxial Tests on Stabilized Clayey Soil under Different Confining Stresses	84
<i>Tsutsumi, Y</i>	
Validity of Isotache Model for Osaka and Louiseville Intact Clays	90
<i>Tsutsumi, A</i>	
1D Compression with Unload/Reload Cycles on Soft Clay and its Simulation	96
<i>Kawabe, S</i>	
Density Changes and Sealing Performance of Damaged Compacted Bentonite	102
<i>Kodaka, T</i>	
Observation of Compaction Bands in Diatomaceous Mudstone by PTV and μX-CT	108
<i>Oka, F</i>	
Evaluation of Role of Fines on Shear Strength of Sands and Fines Mixtures	114
<i>Kim, U</i>	
Modeling of One-Dimensional Consolidation Behavior for Clays	120
<i>Nakai, T</i>	
Simple Modelling of Stress-strain Behaviour of Unsaturated Soils	126
<i>Kikumoto, M</i>	
Cyclic and Post-cyclic Instability of Unsaturated Non-plastic Silt	132
<i>Yasuhara, K</i>	
Effect of Suction on Direct Shear Strength of Compacted Bentonite	138
<i>Nishimura, T</i>	
Strain Field Measurement on Sand using X-ray CT Data and DIC	144
<i>Watanabe, Y</i>	
Role of Arch Action in Progressive Failure of the Ground	150
<i>Tokue, T</i>	
Application of Static Cone Provided Dynamic Penetrating Mechanism	156
<i>Rito, F</i>	
Reproduction of Microscopic Structure of Marine Clays by Cement Addition	162
<i>Imai, Y</i>	
Static and Dynamic Shear Properties of Tire Chips-sand Mixtures	168
<i>Kaneko, T</i>	
Evaluation of Hysteresis of Soil Water Retention by a Semi-physical Model	174
<i>Liu, Q</i>	

Water-saturated Soil Stress-strain Characteristics	181
<i>Zhakulin, A S</i>	
Peculiarities of Soil Characteristics in Kyrgyzstan and their Influence to Landslide Processes	183
<i>Usenov, K J</i>	
Influence of Acoustic Excitation on Sorption and Desorption of Zinc from Clayey Soils	186
<i>Kumar, A</i>	
Geotechnical Design and Construction for Demanding Soil and Rock Conditions in Asia	192
<i>Lee, T L</i>	
Large Diameter Sampling and Testing in Offshore Site Investigation	204
<i>Chua, K E</i>	
Electric Imaging (EI) of Soft Clay Deposits in Some East and Southeast Asian Deltas	209
<i>Giao, P H</i>	
Influence of Stress Rotation and Intermediate Principal Stress on Undrained Response of Bangkok Clay	218
<i>Yimsiri, S</i>	
Development of Prototype of Constant Pressure Control for Consolidation Test	224
<i>Voottipruex, P</i>	
Effect of Wetting on Strength of Cemented Sands	228
<i>Park, S-S</i>	
Estimation of K_0 in Sand Using DMT results	234
<i>Lee, Moon-Joo</i>	
Layering Characteristic of Salt-Cemented Granular Media	240
<i>Truong, Q Hung</i>	
Evaluation of Shear Strength and Deformation Modulus of Deep Sand Deposits in the Nakdong River Delta, Korea	245
<i>Singh, V K</i>	
Mechanical Behaviour of Unsaturated Soil as Crushed Rock Base (CRB) Layer under Dynamic Loads	251
<i>Stripun, K</i>	
Experimental Exploration of Dredged Marine Sediment as a New Material Resource for Road Engineering	257
<i>Wang, Dongxing</i>	
Modeling Heat Transfer in Soils During Freezing and Thawing	262
<i>Zhu, Ming</i>	
The Effect of Calcite Cementation on the Mechanical Behavior of Gravelly Sands	269
<i>Adl, M R</i>	
Stress-strain Characteristics of Remolded Soil in the Weathered Layer of Beichuan Sandy Slate in Wenchuan Seismic Area	276
<i>Zhou, X J</i>	

THEME 2: LOCAL AND PROBLEMATIC SOILS

Limitations of Critical State Models for Predicting the Behavior of a Cemented Calcerinite	281
<i>Islam, M K</i>	
Foundation Problems in Dredge Fill Soils Overlying Soft Organic Layer	289
<i>Islam, M S</i>	
Experimental Study on Wetting-induced Deformation and Strength Characteristics of Soilbags Filled with Expansive Soil	295
<i>Liu, S H</i>	
Finite Element Simulations of Self-boring Pressuremeter Tests in a Soft Marine Clay	300
<i>Jain, S K</i>	
Effect of Strain Induced Non-Homogeneity on Displacements of Ground	306
<i>Lakshman, Rao M.</i>	
Stiffness Degradation of Gypseous Soils due to Fluctuation of Water Table	312
<i>Al-Saoudi, N K S</i>	
Effective Use of Peat	318
<i>Sato, A</i>	
Prediction of Slope Failure Disaster Caused by Rainfall Using Centrifuge Test	324
<i>Kaneko, H</i>	
Permeability Parameters for FE Analysis of Peat Ground	330
<i>Hayashi, H</i>	
Mechanical Behaviour of Loose and Heavily Compacted Pumice Sand	336
<i>Kikkawa, N</i>	
Evaluation of Shear Strength of Granulated Coal Ash by Particle Strength	342
<i>Yoshimoto, N</i>	
Mitigation of Swelling Characteristics of Expansive Clay by Controlling Initial Placement Conditions	348
<i>Farooq, K</i>	
Utilization of Quarry Dust in Highway Construction	354
<i>Priyankara, N H</i>	
Influence of Leaching on the Properties of Cemented Sands in Kuwait	360
<i>Ismael, N F</i>	

Experience Sealing Water-saturated Loess Soils of Sand Drains in the Seismic Conditions of the Central Asian Region	366
<i>Usmanov, R A</i>	
Features of Construction of Buildings and Structures in the Republic of Tajikistan	368
<i>Usmanov, R A</i>	
A Rational Approach to Railway Track Foundation Design with Clay Subgrade	372
<i>Loh, Richard B H</i>	
Characteristics of Zhouqu Extraordinarily Serious Debris Flows, China, in 2010	377
<i>Wang, L M</i>	

THEME 3: SLOPES

Centrifuge Modeling of Failure Behavior of Pile-reinforced Slope	383
<i>Wang, L</i>	
The Numerical Simulation for Coupling Analysis of Runoff and Infiltration under Rainfall	389
<i>Tian, Dongfang</i>	
Probabilistic Slope Stability Analysis by Harr's Point Estimate Method	395
<i>Wu, Z J</i>	
The Motive Types and Mechanisms of the Chinese Loess Landslides	400
<i>Zhang, C L</i>	
Fully-coupled Numerical Simulations on the Initiation of a Flow Landslide in a Loose Slope	407
<i>Wang, Yiqang</i>	
Monitoring of Landslides and Debris Flows Using FBG Sensing Technology	414
<i>Pei, H F</i>	
Experimental Studies of Sloping Ground Models Subject to Infiltration	418
<i>Ng, M C</i>	
Improvement to Geotechnical Practice Arising from Landslide Investigation	424
<i>Pun, W K</i>	
Implementation of a Fibre Optic Monitoring System in a Roadside Slope in Hong Kong	431
<i>Zhu, H H</i>	
The Debris Flows of 7 June 2008 at Shatin Pass and North Lantau Highway	436
<i>Li, A C O</i>	
Use of Very High Tensile Strength Soil Nails for Stabilization of a Bouldery Fill Slope in Hong Kong	442
<i>Ho, N L</i>	
Dynamic Analysis on Slopes in Hong Kong	447
<i>Koo, R C H</i>	
Genetic Algorithm Based Search Coupled with Boltzmann Selection in Locating the Critical Surface in Slope Stability	453
<i>Abhijit, Saha</i>	
Study on Mechanism of Rain-induced Surface Failures on Sandy Soil Slopes	460
<i>Ha, Thi</i>	
Wave Velocity in Unsaturated Slopes in Relation to Moisture and Stability	466
<i>Uchimura, Taro</i>	
Risk Assessment of Natural Slopes by Geotechnical Data and Rainfall Analysis	472
<i>Tsuchida, T</i>	
Simplified-Three-Dimensional Slope Stability Analysis	478
<i>Nishiyama, Taku</i>	
Evaluation of Mechanical Parameters of Weathered Slopes by Insitu Surveys	484
<i>Yamada, S</i>	
In-situ and Laboratory Tests for Evaluating the Stability of a Sand Dune	490
<i>Kawajiri, S</i>	
Peculiarities of Formation and Activation of Landslide Processes in Region of Northern Tien-Shan	496
<i>Baimakhan, R B</i>	
Assessment of Landslide Potential using Steady State Seepage in Unsaturated Soils	500
<i>Karthikeyan, M</i>	
Deterministic Modeling of Rain-triggered Landslides: A Case Study in Nan Province, Thailand	506
<i>Fowze, J S M</i>	
Behavior of Hybrid System of Soil-Nailing and Compression Anchor	512
<i>Seo, H J</i>	
Effects of Rainfall on Stability of Cut Slopes in Residual Soils	518
<i>Kulathilaka, S A S</i>	
Limit Analysis Solutions for Very Gentle Undrained Slopes	524
<i>Li, A J</i>	
Accounting for Strain Softening Behaviour in the Analysis of Slope Stability	530
<i>Lao, D</i>	
Estimation of Fully Softened Shear Strength with Index Properties	536
<i>Tiwari, B</i>	
A 3D Finite Element Model for the Root Anchorage	542
<i>Khalilnejad, Abdolhossein</i>	

Review: Failure Mechanism of Earth Reinforcement Structure	549
<i>Tanan, Chub-Uppakarn</i>	
Inspection, Integrity Investigation, and Countermeasures for Ground Anchors	555
<i>Yabu, M</i>	

THEME 4: FOUNDATIONS

Study on the Squeezing Effects of Jacked Piles in Layered Ground	561
<i>Lu, Q</i>	
Pile Design and Test Analysis of the Shanghai Center Tower	566
<i>Wang, W D</i>	
Large-scale Model Tests of 3x3 Pile Group under Eccentric Lateral Loading	572
<i>Kong, L G</i>	
Experimental Investigation of Cumulative Settlement of Cyclically Loaded Pile	578
<i>Chen, R P</i>	
Assessment of Pile Performance with Theoretical Load-transfer Curves	582
<i>Wong, L W</i>	
A Special Cofferdam in a Reclaimed Site at West Kowloon, Hong Kong	586
<i>Sze, James W C</i>	
Study of Piled-Raft System for Optimization of Transmission Tower Foundation	592
<i>Shah, H J</i>	
Comparative Study of Ultimate Capacities of Granular Pile Anchors and Granular Pile in Homogenous Ground	598
<i>Vidyananya, B</i>	
Load Sharing Response of Circular and Non Circular Piled Raft	604
<i>Ilamparuthi, K</i>	
A Study on Response of Laterally Loaded Piles in Layered Soil	610
<i>Biswas, S K</i>	
An Experimental Investigation of Piled Raft Foundation in Soft Clay	614
<i>Bajad, S P</i>	
Lateral Capacity of Rigid Piles in Two Layered Cohesionless Soils	620
<i>Padmavathi, V</i>	
Analysis of Soil-Pile Interaction during Pile Driving	626
<i>Noorzad, A</i>	
Comparison of the Static Bearing Capacity of Cast In-situ Piles in Practice and in Theory (According to the Russian Codes)	631
<i>Moganlou, R N</i>	
Evaluation of Static and Dynamic Methods for Determining the Bearing Capacity of the Driven Pipe Piles	635
<i>Shooshpasha, I</i>	
A Seismic Design Method of Pile in Composite Ground and Its Evaluation	641
<i>Tomisawa, K</i>	
Soil-water Coupling Analysis of Real-scale Field Test on Group-pile Foundation	647
<i>Zhang, F</i>	
Progressive Failure of a Cement-Treated Groung in Bearing Capacity Problem	653
<i>Shiina, T</i>	
Lateral Resistance of Inclined Pile Bearing Integrated Column by Steel Pipes	659
<i>Isobe, K</i>	
Effect of Lower Layers on Seismic Earth Pressure Acting on Embedment	665
<i>Mano, H</i>	
Piled Raft with Ground Improvement for 12-story Building on Soft Ground	671
<i>Yamashita, K</i>	
Pullout and Bearing Characteristics of Grouted Screw Pile Method	677
<i>Watanabe, N</i>	
Geotechnical Construction and Testing of Different Type of Piles in Problematical Soil Ground of Astana	683
<i>Zhusupbekov, A Zh</i>	
Analysis of the Interaction between Construction and Soil Ground under Influence of the Static Load	689
<i>Turashev, A S</i>	
Comparison of Measured and Theoretical Settlements in Sand	691
<i>Akbar, A</i>	
Pile Load - Deformation Characteristics in Static Axial Compression and High Strain Dynamic Tests	696
<i>Kibria, S</i>	
Design and Analysis of Laterally Loaded Piles Compared with Lateral Load Test Results	700
<i>Wen, D</i>	
Stability Analysis of Caisson Foundation Subjected to Scouring	704
<i>Lin, S S</i>	
CPT-based Estimation of Ultimate Load Capacity for Laterally Loaded Piles in Sands	710
<i>Lee, Junhwan</i>	
Evaluation of Load Transfer Behavior on Grouted Micropile in Sandy Soils	716
<i>Lee, S R</i>	

Study of Ground Anchor Performance Analysis by On-site Test	722
<i>Park, Dae Woong</i>	
Lateral Resistance of T-shape Barrette Pile in Bangkok Subsoils	728
<i>Teparaksa, W</i>	
Pile Driveability Prediction Method Based on CPT Results	734
<i>Sahajda, K</i>	
Pile Performance in Weathered Meta-Sedimentary Formation and KL Limestone	740
<i>Liew, S S</i>	
Various Vibration Responses on Deep Foundations with Multi-sensor Impulse Responses	746
<i>Wang, Helsin</i>	
Improvement of Reliability of High-rise Buildings on Plate Foundations	753
<i>Nuzhdin, M L</i>	
Three-dimensional UH Model for Unsaturated Clays	757
<i>Yao, Y P</i>	
Ground Settlements caused by Pre-Bored Piling	763
<i>Wong, L W</i>	
The Evaluation of Sheet Piles and Struts by Elasto-Plastic Finite Element Excavation Analysis	769
<i>Okajima, K</i>	
Modeling Load-settlement Behavior of Driven Piles Embedded in Cohesive Soils using Artificial Neural Networks	775
<i>Alkroosh, I</i>	
The Underpinning of Historical Buildings Foundations in Arkhangelsk City	780
<i>Nevezorov, A L</i>	

THEME 5: GEOTECHNICS FOR TRANSPORTATION AND INFRASTRUCTURE

Geotechnical Design Methodology of Block Paved Road at Sunamganj, Bangladesh	784
<i>Siddiquee, Saiful Alam</i>	
Influences of Subgrade Stiffness on Dynamic Loads at Railway Transitions	790
<i>Hanbing, H U</i>	
Performance of a Cohesive Embankment under a Dynamic Load	795
<i>Dey, A K</i>	
Construction of Immersed Tunnel Foundations using Hydraulic Plastic Grout	799
<i>Ishii, H</i>	
Durability of Lightweight Soil with Air Foam	805
<i>Kikuchi, Y</i>	
Frost Heaving Characteristics of Subgrade Soil by Laboratory Test and Field Measurement	811
<i>Shin, E C</i>	
Comparative Study between Laboratory CBR and DCP Tests	817
<i>Bandyopadhyay, K</i>	

THEME 6: UNDERGROUND CONSTRUCTION AND TUNNELLING

Geotechnical Engineering Measures to Reduce Impact on Surrounding Buildings in Subway Construction	823
<i>Teng, Y J</i>	
Laboratory Investigation on the Cutoff Behavior of Retaining Structure on Groundwater Seepage in Aquifer	828
<i>Xu, Y S</i>	
Determination of Undrained Shear Strength in Clayey Soils for Subway Construction Sites	834
<i>Tong, L Y</i>	

VOLUME 2

Influence of Cutoff Wall on the Cofferdam Slope Stability	841
<i>Chang, Li-Ying</i>	
Displacement Controlled Solution for Ground Movements Induced by Non-uniform Convergence of Tunneling in Multi-layered Soils	847
<i>Zhang, Z G</i>	
Design and Performance of a Deep Braced Excavation in Shanghai	854
<i>Wang, H R</i>	
Modelling of Tunnelling Near a Building Supported by Large Numbers of Piles	863
<i>Lee, S W</i>	
Three-dimensional Centrifuge Modelling of Tunnelling Effects on Pile Group	869
<i>Lu, H</i>	
In-flight Simulation of a Multi-propped Excavation De-stabilised by an Underlying Aquifer	875
<i>Hong, Y</i>	
Cofferdam Excavation Using Soil Nail Tie-backs for Ocean Park Funicular Tunnel Portal	881
<i>Pan, Jack K L</i>	
Prediction of Pile-Separation Length under Vertical Vibration using ANN	887
<i>Kumar Das, Sarat</i>	

Role of Socket Roughness in Load Transfer in Piles	893
<i>Venkatachalam, G</i>	
Surface Settlement Maintenance Using FRSP during Tunnel Excavation	898
<i>Cui, Y</i>	
Bearing Capacity of Cohesive-frictional Soils over a Shallow Tunnel	904
<i>Yamamoto, K</i>	
Model Test on Creep Failure of Existing Tunnel and Its Numerical Simulation	910
<i>Nakano, H</i>	
Influence of Existing Foundations on Retaining Wall in Braced Excavation	916
<i>Shahin, H M</i>	
Seepage Failure of Soil under Various Flow Conditions – Theory and Experiment	922
<i>Tanaka, T</i>	
Model Tests on Pressurized Friction-Type Anchors	928
<i>Kanaoka, M</i>	
Technology Combined Processes of Undermining Stocks	934
<i>Shamiev, J B</i>	
Over-coring Tests to Determine In-situ Rock Stresses	936
<i>Izhar, Ul-Haq</i>	
Prediction of Pile Responses due to Tunneling-Induced Soil Movement	941
<i>Cham, W M</i>	
Tunnel Infrastructures Role to Improve Urban Transportation Systems	949
<i>Ghiasi, Vahed</i>	
Three-Dimensional Numerical Investigation on Tunnelling and Bridge Foundation Interaction	955
<i>Yoo, C</i>	
Behavior Characteristic of the Wedge Type Removable Soil Nailing System	959
<i>Park, S S</i>	
Damage Assessment of Diversion Tunnel Bored underneath Existing MRT Subway in Bangkok	963
<i>Teparaksa, W</i>	
Post Tensioning Effects on Anchored Diaphragm Walls in Sand	969
<i>Elhakim, A F</i>	
Comparative Simulation of an Excavation in Macao Alluvium	975
<i>Ng, C H</i>	
Methodology for Calculating Soil Pressure on Embankment Culvert under High-Fill	980
<i>Weng, X L</i>	
Major Engineering Challenges in Design and Construction for the Singapore Downtown Line Stage 1 Project	986
<i>Osborne, N H</i>	
Technology of Combined Breaking the Ore under Two-tiered Arrangement Making	992
<i>Paizov, A M</i>	

THEME 7: DAM AND EMBANKMENT

Analysis on Hydraulic Fracturing of High Earth Core Rock-fill Dam with the Consideration of Anisotropy	994
<i>Zhang, K Y</i>	
Forecast on Permafrost Degradation under Gravel Pavement Highway	999
<i>Wen, Zhi</i>	
In Situ Test Study on the Application Effect of the Thermosyphon along the Chaimu Railway	1005
<i>Zhang, B</i>	
Simulation and Analysis of the Piping in Embankment Foundation Based on the Randomness of Permeability Coefficient	1012
<i>Liang, Y</i>	
Effect of Valley Topography on Dynamic Response of High Earth-rockfill Dams	1017
<i>Zhu Yi</i>	
Seepage Flow Behavior of a High Clay Core Rockfill Dam and its Safety Assessment	1023
<i>Chen, Yifeng</i>	
Prediction of Load-Deformation Behavior of Rockfill Dams under Construction	1030
<i>Davoudi, M H</i>	
Seismic Analysis of Alborz Dam	1036
<i>Ghorbanbeigi, S</i>	
Failure of the Fuse Plug of the Shohada-ye-Ramshir Diversion Dam, from Modeling to Reality	1041
<i>Rezania, Ali Reza</i>	
Numerical Analysis of Rockfill Dams in Narrow Canyons- Case Study: Marun Dam	1047
<i>Sadeghipour, M</i>	
Co- and Post-seismic Behaviors of Embankment-inclined Ground Systems	1052
<i>Tashiro, M</i>	
Failure Patterns for Road Embankment Collapses due to Rainfall	1058
<i>Nakata, Y</i>	
Simultaneous Modeling of Seepage Erosion and Deformation of Soils	1064
<i>Fujisawa, K</i>	

The Tailing Dump Capacity Increasing in a Mode of Operation in Permafrost Region	1070
<i>Lolaev, A B</i>	

THEME 8: ROCK ENGINEERING

Laboratory Assessment of Waves' Velocities and Moduli of Some Rocks	1074
<i>Abdullah, Hasan</i>	
Shear Behaviour of Non Planar Rock Joint	1080
<i>Shrivastava, A K</i>	
Evaluation of Mineral Properties by Depth Sensing Indentation Test.....	1086
<i>Araki, H</i>	
Progressive Failure and Collapse of Jointed Rock Mass Using Discrete Element Method	1092
<i>Zhang, M S</i>	

THEME 9: SOIL DYNAMICS AND EARTHQUAKE GEOTECHNICAL ENGINEERING

One Dimensional Site Response Analysis for Two Critical Infrastructures in Bangladesh	1098
<i>Ansary, M A</i>	
Seismic Earth Pressures of Retaining Wall from Large Shaking Table Tests	1103
<i>Zhang, J J</i>	
Generalization of Dynamic Constitutive Model Using TS Method.....	1109
<i>Wan, Z</i>	
Experimental Tests on Dynamic Behaviors of Ballastless Track of High-speed Railway.....	1116
<i>Bian, Xuecheng</i>	
Measurement of Shear Waves in Dry and Saturated Sand	1122
<i>Yang, J</i>	
Numerical Modeling of Wrap Faced Reinforced Soil Walls under Seismic Shaking	1128
<i>Bhattacharjee, A</i>	
Seismic Bearing Capacity of Strip Footings	1134
<i>Rangwala, H M</i>	
Liquefaction Studies on Medium Dense Reinforced Sand.....	1140
<i>Singh, H P</i>	
Cyclic Response and Liquefaction Resistance Due to De-Saturation of Sand	1146
<i>Juneja, A</i>	
Liquefaction Risk Mitigation for a Power Plant in the Indo-Gangetic Alluvium	1152
<i>Gupta, Sanjay</i>	
An Endochronic Approach in Modeling Liquefaction of Sand	1157
<i>Kumar, S Krishna</i>	
Study of the Cyclic Constant Volume Loading of the Granular Media from Micromechanical Aspects: Effects of Confining Pressure and Cyclic Strain Amplitude.....	1163
<i>Ferdowsi, B</i>	
Dynamic Soil-Foundation Interaction using a 1-g Shaking Table	1170
<i>Shahnazari, H</i>	
Dynamic Parameters of Saturated and Unsaturated Sand at Different Ranges of Shear Strain Levels in Cyclic Simple Shear Tests	1176
<i>Jafarzadeh, F</i>	
An Innovative Apparatus to Measure Cyclic Behavior of Backfill Granular Material behind Bridge Abutment	1182
<i>Movahedi-Far, M</i>	
Centrifuge Modeling of Buried Pipelines Response Due to Normal Faulting	1188
<i>Rojhani, M</i>	
Effects of Ease of Development of Anisotropy on Reliquefaction Resistance.....	1192
<i>Yamada, S</i>	
Estimating In-situ Dynamic Strength Properties of Sand Deposits	1198
<i>Shogaki, T</i>	
Model Tests on Bending of Embedded Pipeline Crossing a Strike-slip Fault	1204
<i>Sim, W W</i>	
Effect of Underground Column on the Behavior of Liquefiable Sandy Soil	1210
<i>Bahmanpour, A</i>	
Scrap Tire Isolation Wall for Reducing Environmental Ground Vibration	1216
<i>Hayakawa, K</i>	
Interaction of Earthquake Reverse Faults with Shallow Strip Foundation	1222
<i>Nagaoka, S</i>	
Cyclic Simple Shear Test for Anisotropically Consolidated Clay.....	1228
<i>Fukuzawa, H</i>	
Reduction of Shear Moduli by Liquefaction in Large Strain Torsional Shear	1234
<i>Kiyota, T</i>	
Cyclic Behavior of Unsaturated Silty Soil under Triaxial Conditions	1240
<i>Kimoto, S</i>	

Seismic Analysis of Reclaimed Ground with Dredged Soil	1246
<i>Nakano, M</i>	
Road Embankment Damage by Noto Peninsula Earthquake, Cause and Restoration	1252
<i>Muroi, T</i>	
Centrifuge Modeling of Buried Box Structure Subject to Earthquake	1258
<i>Choo, Y W</i>	
Dynamic Behavior of Vertical Shaft under Earthquake Loadings	1264
<i>Jeong, S S</i>	
3D Numerical Modeling of Seismic Pile-soil Interaction in Centrifuge Tests	1270
<i>Kim, S H</i>	
Evaluation of Dynamic p-y Backbone Curves in Dry Sand using Centrifuge Model Tests	1276
<i>Choi, J I</i>	
Probabilistic Seismic Site Coefficients of Korea	1282
<i>Kwak, Dong-Yeop</i>	
Seismic Performance of Stone Column in Soft Clay using 1g Shaking Table Tests	1288
<i>Ryu, Jeong Ho</i>	
Modelling of Drained and Undrained Cyclic Shear Behavior of Sand	1293
<i>De Silva, L I N</i>	
Fuzzy Modeling in Geotechnical Earthquake Engineering	1299
<i>Lolaev, A B</i>	
Dynamic Soil Mass and Resonant Frequency of Pile Foundations	1305
<i>Truong, H V P</i>	
Resonant Frequency and Maximum Rotation Angle of a Rocking Radar Tower	1311
<i>Truong, H V P</i>	
Shallow Foundations under Dynamic Loads	1317
<i>Puri, Vijay K</i>	
Effect of Nonlinear Soil Modeling on Seismic Ground Response at Macau	1323
<i>Zhou, J M</i>	
Effects of Air Bubbles, Solids and Frequency on Tsunami Waves	1329
<i>Truong, H V P</i>	
Dynamic Spring Constants and Effect of Frequency on Footing Vibration	1335
<i>Truong, H V P</i>	
Site Specific Dynamic Response Analysis of Nuclear Reactor Building on Thick Soft Soils	1341
<i>Neelima, Satyam D</i>	
Calculation of Foundations Vibration Induced through Basement Soil using Wave Models	1346
<i>Nuzhdin, Leonid V</i>	

THEME 10: GEOENVIRONMENTAL ENGINEERING

Study on the Properties of Natural Shear Strength for Municipal Solid Waste	1351
<i>Zhang, Z Y</i>	
Water Holding Capacity and Mechanism of Compacted Laterite Soil	1357
<i>Tan, Yun-Zhi</i>	
Failure of Sands with Different Density on Defected Pipe in X-ray CT Images	1363
<i>Mukunoki, T</i>	
Predicting Hydraulic Conductivity of Bentonite Backfill after Swelling	1369
<i>Komine, H</i>	
Application to Liquefied Soil Stabilization Material	1375
<i>Shibata, H</i>	
Mechanism of Earth Pressure Reduction using Tire Chips in Sand Backfill	1381
<i>Kaneda, K</i>	
Influence of Cation Leaching on Water Retentivity of Drinking Water Sludge	1387
<i>Watanabe, Y</i>	
Leachate Control Technology using SPSP Cutoff Walls at Coastal Landfills	1393
<i>Inazumi, S</i>	
Heavy Metal Mobility in Coastal MSWIA Landfills in Batch and Column Systems	1399
<i>Inui, T</i>	
Compressibility of Soils Subjected to Long-term Acidic Contamination	1405
<i>Gratchev, Ivan B</i>	
Mechanical Properties of Dewatered Dredged Clay Lump	1411
<i>Moriki, A</i>	
Numerical Evaluation on Cutoff Behavior of Retaining Structures on Seepage	1417
<i>Sun, W J</i>	
Comparison of Four Composite Landfill Liner Systems Considering Leakage Rate and Mass Flux	1423
<i>Nguyen, T B</i>	
Development of Combined System to Remediate and Recycle Contaminated Dredged Sediments	1429
<i>Kim, Young-Jin</i>	
Effect of Cover Soil Selection and Compaction on Gas Transport and Water Retention	1432
<i>Nawagamawa, U P</i>	

Effect of Chemical Byproducts on the Plasticity and Permeability Characteristics of a Silty Soil	1438
<i>Kumar, P Rajeev</i>	

THEME 11: GROUND IMPROVEMENT

Engineering Behaviour of Lime Stabilized Clays at High Water Content	1441
<i>Siddique, A</i>	
The Time-Settlement-Load Behaviour of Stone-Column Drain-Well	1447
<i>Abhijit, Saha</i>	
Soft Soil Improvement Using Vertical Geodrains	1454
<i>Shah, M V</i>	
Amelioration of Expansive Subgrades with Stabilized Waste Cushions	1460
<i>Rao, A Sreerama</i>	
Model for Analysis of Fiber Reinforced Clayey Soil	1466
<i>Babu, G L Sivakumar</i>	
Study of Reinforced and Unreinforced Two Layered Soils Using CBR Test	1470
<i>Moayed, R Ziaie</i>	
Dynamic Centrifuge Test on Granular Treated Soil used as Quay-wall Backfill	1476
<i>Morikawa, Y</i>	
Changes in and Variability of Shear Wave Velocity of Cement-treated Ground	1482
<i>Asaka, Y</i>	
Failure Behaviour of Pile-type SCP Improved Ground under Vertical Loading	1488
<i>Takahashi, H</i>	
Mechanical Property of Soils by Measuring Contact Pressure Distribution	1494
<i>Omine, K</i>	
Shear Behaviors of Cement Stabilized Soil Mixed with Shredded Paper	1500
<i>Nabeshima, Y</i>	
Evaluation of Bearing Capacity on Floating Type Improved Ground	1506
<i>Ishikura, R</i>	
Numerical Study of Failure Behavior of Cement-treated Column with Spatial Variability	1512
<i>Namikawa, T</i>	
Vacuum Consolidation Induced Deformation under Odometer Condition	1518
<i>Chai, J C</i>	
Centrifuge Model Tests on DM Improved Ground with Surface Improvement Layer	1524
<i>Kitazume, M</i>	
Curing Pressure Dependency of Shear Strength of Cement-treated Sand	1530
<i>Takahashi, A</i>	
Anti-seismic Mechanism of a Sandy Ground Improved by SCP Method	1536
<i>Noda, T</i>	
Consolidation of Clay Slurry under Different Vacuum Preloading Conditions	1542
<i>Li, B</i>	
Early-age Strength Characteristics of Cement Stabilized Singapore Marine Clay at High Water Content	1549
<i>Lu, Y T</i>	
Improving Soft Peaty Soil by Grouted Stone Columns for Punggol Waterway Project, Singapore	1555
<i>Chew, S H</i>	
Reusing in Situ Solid for Road Construction through Stabilisation: A Field Study	1561
<i>Chan, C-M</i>	
Behavior of Cemented Sand Reinforced with Polypropylene Fibres	1568
<i>Uddin, S</i>	
Comparison of Behavior Using Prefabricated Vertical Drain (PVD) with and without Heat Preloading	1574
<i>Saowapakpi boon, J</i>	
Performance of a Bearing Reinforcement Earth (BRE) Wall	1582
<i>Horpibulsuk, S</i>	
A Proper Homogenization of Composite Soil Layers Reinforced by Sand Compaction Piles	1588
<i>Choo, Yoon-Sik</i>	
Comparison of Strength Characteristics of Non-salt and Salt-rich Stabilized Dredged Soils	1594
<i>Kim, Y T</i>	
A Study on Bearing Capacity Characteristics of Taper Granular Compaction Group Piles on Field Load Test	1600
<i>Kim, M H</i>	
Analysis for Nonlinear Finite Strain Consolidation of Soft Clay Equipped with Vertical Drains	1605
<i>Choi, H</i>	
Case Study of DSM Application for Deep Excavation in Singapore	1611
<i>Lim, S S</i>	
Application of the Heavy Tamping Method on Sri Lankan Peaty Clay for the Construction of a Highway Embankment	1617
<i>Karunawardena, A</i>	
Improvement of Sri Lankan Peaty Soil by Vacuum Consolidation	1623
<i>Ariyaratna, P R C</i>	

Land Reclamation – A Review of Initial Consolidation Conditions	1629
<i>Lovisa, J</i>	
Ground Improvement Acceptance Criteria	1635
<i>Hamidi, B</i>	
A Case Study of Vibration Monitoring in a Dynamic Compaction Project	1641
<i>Hamidi, B</i>	
Improvement of Soil Shear Strength Using Iron Filling-Cement Mixture	1647
<i>Attom, M F</i>	
Laboratory Model Test on the Behavior of Floating Soil-Cement Column Improved Ground	1652
<i>Pongsivasathit, S</i>	
Experimental Investigation on the Lateral Deformation of Soft Ground under Combination of Vacuum Pressure and Surcharge Load	1658
<i>Ong, C T</i>	
Rigid Inclusions in Sand Formation Resting on Compressible Clay	1664
<i>Bouassida, M</i>	
The Importance of Quality Control in Jet Grouting for Deep Excavations – A Singapore Perspective	1669
<i>Ng, C C</i>	
Laboratory Investigation on Strength of Clay Composite	1675
<i>Chegenizadeh, Amin</i>	
Randomly Distributed Fiber Effect on Compaction of Composite Sand	1681
<i>Chegenizadeh, Amin</i>	

VOLUME 3

Pullout Response of Circular Anchor Plates in Sand	1685
<i>Niroumand, H</i>	

THEME 12: GEOTECHNICAL RISK MITIGATION AND MANAGEMENT

Natural Terrain Mitigation Measures: Design and Construction	1689
<i>Ho, A N L</i>	
Decontamination of Pollutants from the Contaminated Site using FDM	1695
<i>Chakraborty, Ritwik</i>	
Investigations for Stabilisation of Landslides in Bhutan	1702
<i>Bhagwan, Jai</i>	
Inundation Due to Global Warming and Land Subsidence in Chao Phraya Delta	1708
<i>Murakami, S</i>	
A GIS-aided Flooding Hazard Map Considering Land Subsidence in Takata Plain	1714
<i>Suzuki, K</i>	
Numerical Study on the Seismic Assessment of Coastal Reclaimed Ground	1720
<i>Nakai, K</i>	
Geotechnical Substantiation of Mountain Road Slope Stability	1726
<i>Kojogulov, K Ch</i>	

THEME 13: QUANTITATIVE RISK ASSESSMENT

Interval Entropy Measurement Method and its Application in Quantitative Risk Assessment	1730
<i>Li, J W</i>	
Liquefaction Risk Analysis for Artificially Solidified Ground	1736
<i>Kasama, K</i>	
Risk Evaluation and Reliability-based Design of Earth-fill Dams	1742
<i>Nishimura, S</i>	
Risk Evaluation of Debris Flow Zone using Rating and Ranking Method	1748
<i>Kim, K S</i>	
Partial Safety Factors for Slip Circle Failure of Gravity Type Port Facilities	1754
<i>Yoon, G L</i>	

THEME 14: GEOSYNTHETICS

Evaluation of Pullout Strength of PET-Geogrid Embedded in Silica Sand	1758
<i>Nayeri, A</i>	
DEM Simulation of Geomembrane-Soil Interface	1764
<i>Noorzad, A</i>	
Seismic Behavior of Reinforced Earth Wall on Shaking Table	1769
<i>Suzuki, M</i>	
Soil-Geogrid Interaction in Pullout Test with Unloading-Reloading Process	1775
<i>Kuwano, J</i>	

Design and Construction of Containment Bund Using Geotextile Tubes in Singapore	1781
<i>Chew, S H</i>	
Properties of Limited Life Woven Geotextiles (LLGs) for Soil Reinforcement and Soil Erosion Control Applications	1787
<i>Artidteang, S</i>	
Mechanical Stabilisation using a New Form of Geogrid	1792
<i>Hall, C D</i>	
An Examination of Fly Ash-Geogrid Interaction	1797
<i>Chen, Cheng-Wei</i>	

THEME 16: CASE HISTORIES

Use of Reinforced Earth Walls at Development at Anderson Road Development, Hong Kong	1802
<i>Wong, Anthony Y K</i>	
Studies and Liquefaction for Foundation Systems of Pellet Plant at Paradeep	1808
<i>Shukla, Jaykumar</i>	
Construction of Highways on Soft Ground – A Case Study	1814
<i>Bhagwan, Jai</i>	
Geotechnical Characteristics and Stability of Takamatsuzuka Tumulus	1819
<i>Mimura, M</i>	
Report on Deep Core Boring KIX18-1 in Kansai International Airport	1825
<i>Mizutani, T</i>	
Deep Excavations for Singapore Underground Transit Stations	1831
<i>Wong, I H</i>	
Performance of a Zoned Excavation and its Effects on Neighboring Buildings	1837
<i>Lin, H D</i>	
Some Case Histories of Slope Rehabilitation using Geosynthetics	1843
<i>Ooi, T A</i>	
Changes of Soil Properties in Reclaimed Clay Layers through Intermittent Reclamation	1852
<i>Yang, Tae-Seon</i>	
Evaluation of Piezocone Factors for Soft Ground in the Region of Nakdong River Estuary Using Statistical Analysis	1858
<i>Kim, Y H</i>	
Failure of Concrete Caisson Founded in Beach Ridge Sands of the Niger Delta	1865
<i>George, E Ag</i>	
Support of a 40M Deep Vertical Excavation in Downtown Istanbul	1871
<i>Cetin, E</i>	
Landfill Slip Failure Repair with Geogrids using Waste Fill Material at Danylan, Wales	1877
<i>Doulala-Rigby, C</i>	
Stability of Dragline Waste Rock Dump in an Indian Opencast Coal Mine	1883
<i>Roy, I</i>	
Debris Flows in North Eastern Region of India – A Case Study	1888
<i>Kishor, Kumar</i>	
Case History of Foundation Failure in Israel	1895
<i>David, D</i>	
Stability Solution after Deep Excavation Problem, Case Study	1901
<i>Heidari, S</i>	

THEME 17: INNOVATIVE TECHNOLOGIES FOR GEOTECHNICAL APPLICATIONS

Application of Ground Penetrating Radar in the Investigation of the Xi’an Ancient City Wall	1906
<i>Qian, Chun-Yu</i>	
Upward Drilling of Sub-vertical Drains Inside the Po Shan Drainage Tunnel	1909
<i>Chau, S F</i>	
The Effects of Nano-Material Additives on the Basic Properties of Soil	1916
<i>Ghazi, H</i>	
Mechanical and Dissociation Properties of Methane Hydrate-Bearing Sand	1922
<i>Hyodo, M</i>	
Skin Friction Properties of Absorbent Polymer Using Sheet Pile Pull-out	1928
<i>Okamoto, K</i>	
Do-nou Technology for Rural Road Maintenance in Developing Countries	1934
<i>Fukubayashi, Y</i>	
Measurement of Ground Behavior Using an Optical Fiber Sensor	1940
<i>Kojima, K</i>	
Data Assimilation in Geotechnical Analysis Using the Particle Filter	1946
<i>Murakami, A</i>	
Deformation of Deep Seabed during Dissociation of Methane Hydrate	1952
<i>Yoneda, J</i>	

Fast Iterative Solution of Large Soil-Structure Interaction Problems in Varied Ground Conditions	1958
<i>Chaudhary, K B</i>	
Integrated Soil Investigation Works off Marina East, Singapore	1963
<i>Chua, K E</i>	
Interpretations of Ground Anchor Damage under Lift-Off Loads	1970
<i>Cheng, S H</i>	
Application Cases of Face Mapping using Laser Scanning on Large Excavation Faces	1977
<i>Kang, I K</i>	
Numerical Simulation of Standing Column Well	1982
<i>Park, Duhee</i>	
Flow Properties in Controlled Low-Strength Materials with Coal Ash	1988
<i>Lee, J H</i>	
Load-Settlement Behavior of Elastic-Perfectly Plastic GRFB	1993
<i>Dey, A</i>	
Study on the Interface between Unsaturated Soil and Rough Steel Plate from Suction Controlled Direct Shear Tests	1999
<i>Borana, Lalit</i>	
Application of Fiber Optic Sensors in Pullout Testing of Model Soil Nails	2004
<i>Hong, C Y</i>	
Estimation of Pullout Resistance of Grouted Soil Nails Using Bayesian Probabilistic Approach	2010
<i>Zhou, W H</i>	

TECHNICAL SESSION

Stability Analysis of Rainfall Induced Shallow Landslides	2016
<i>Chen, G</i>	
Volcanic Mountain Area Disaster in the Iwate-Miyagi Nairiku Earthquake	2022
<i>Kazama, M</i>	
In Retrospect: the 2006 Southern Leyte, Philippines Landslide	2028
<i>Orense, R P</i>	
Landslide Risk Management of Patong City, Phuket, Thailand	2035
<i>Soralump, S</i>	
Debris Flows in Sichuan Province in China Two Years after the 2008 Wenchuan Earthquake	2041
<i>Towhata, I</i>	
Miniature Ground Inclinometer for Slope Monitoring	2047
<i>Uchimura, T</i>	
Simple Prediction Method for Earthquake-induced Catastrophic Landslide	2053
<i>Wakai, A</i>	
Sample of Long-traveled Landslides Triggered by the Wenchuan Earthquake (M8.0), China, and their Possible Movement Mechanisms	2059
<i>Wang, G</i>	
Performance of Highway Bridge Foundations during Typhoon Morakot	2066
<i>Lee, Wei F</i>	
Strengthening High Slope of the Solid Waste Disposal Damp at Coast of Japanese Sea Russia	2072
<i>Kudryavtsev, S A</i>	
Stability of Hillsides at Construction on Sites with High Seismicity	2075
<i>Zhussupbekov, A Zh</i>	
Geotechnical Challenge in D-runway Project at Tokyo Haneda Airport	2079
<i>Watabe, Y</i>	
Coupled Correlation of Long-Term Compressibility and PCPT Dissipation Results in NC Clays	2091
<i>Lee, Junhwan</i>	
Elastic Moduli and Porosity Profiles in Soft Soils by using Elastic and Electromagnetic Waves	2097
<i>Lee, J S</i>	
Stress Concentration Ratio and Degree of Consolidation in SCP-Reinforced Soft Clay with Low Area Replacement Ratio	2103
<i>Ahn, J</i>	
Long-term Settlement of the Marine Foundation due to Construction of 1st Phase Kansai International Airport	2109
<i>Jang, W Y</i>	
Acceleration of Settling and Self-Weight Consolidation of Clay Ground by Mixing with Coal Ash Aggregates	2120
<i>Shin, H Y</i>	
Consolidation Analysis of Soft Clay Based on Large Deformation Theory	2125
<i>Shin, H</i>	
An Example of a Field Application of the Lightweight Soils Including Silty Sediment	2130
<i>Kim, T-H</i>	
Present Status of Geoinformatic Database in Japan and Activities of ATC10	2137
<i>Mimura, M</i>	
Development of Integrated Geophysical and Geological Information Databases and Their Management System on Sharing	2144
<i>Fujiwara, H</i>	

Digital Ground Model of Niigata Area in Japan	2151
<i>Hosaka, Yoshinori</i>	
Evaluation of Economical Damage on Liquefaction Hazard Induced by Global Climate Change	2157
<i>Ebine, Y</i>	
Spatial Analysis Model of Landslide Susceptibility with Integrated Environmental Factor in Ulu Kinta Catchment	2163
<i>Ahmad, Fauziah</i>	
The Modern Approach to Research of Geotechnical Properties of Soils	2168
<i>Zhusupbekov, A Zh</i>	
Geological Application of Computerized Geotechnical Borehole Database Subsurface Geology and Sedimental Environment in Osaka Area	2174
<i>Kitada, N</i>	
Construction of Representative Soil Profile Models in Tokyo	2181
<i>Yasuda, S</i>	
Development and Utilization of Local Geotechnical Information Database in Hachinohe City	2187
<i>Suzuki, K</i>	
Ancient Ingenuity in Geo-Engineering for Heritage Structures in Asia	2193
<i>Iwasaki, Y</i>	
Root in China of Construction Method of Ancient Yoshinogari Burial Mound	2204
<i>Onitsuka, K</i>	
Geotechnical Contribution for Conservation of Compacted Tumulus Mounds	2210
<i>Mimura, M</i>	
Ancient Practice of Soil Treatment in India	2217
<i>Hazarika, H</i>	
Original Soil Foundation and Guidelines for Conservation in Angkor by JSA	2222
<i>Fukuda, M</i>	
Geotechnical Aspects in Restoration of Stone Monuments in Angkor-Cambodia	2228
<i>Santoro, V M</i>	
Deterioration and Conservation of Earthen Walls in Ajina Tepe, Tajikistan	2234
<i>Watanabe, K</i>	
Development of NMM-DDA and Stability Analysis for Prasat Suor Prat, Angkor	2239
<i>Koyama, T</i>	
DDA Analysis for Masonry Structure with Cracks at Main Tower, Bayon, Angkor	2245
<i>Yamada, S</i>	
Structural Stability of Traditional Stone Masonry Pagoda in Korea	2251
<i>Hong, Sung-Gul</i>	
Strengthening Technologies of Foundations for Monuments in Central Asia	2257
<i>Khasanov, A Z</i>	
Reconstitution and Protection of Monuments of Architecture	2263
<i>Chekaeva, R U</i>	
Characteristics of Foundations of Historical Buildings in St. Petersburg	2268
<i>Mangushev, R</i>	
Underpinning of Foundation of Historical Buildings in Arkhangelsk, Russia	2272
<i>Nevsarov, A L</i>	
Analysing Condition of Historic Monuments Using S-S Interaction Approach	2276
<i>Ulitsky, V M</i>	
Nevjansky Tower: History, Legends, Inclination, Its Reasons, and Forecasts	2284
<i>Lushnikov, V V</i>	
The Jam Minaret in Afghanistan: Emergency Works and Long Term Stabilization	2292
<i>Bruno, A</i>	
Introduction to the Restoration of Huqiu Tower, Suzhou City, China	2299
<i>Zhang, F</i>	
Influence of Geological Conditions on Historic Monuments in Kazakhstan	2303
<i>Zhusupbekov, A Z</i>	
Castles in Japan, Korea, and China with Stability of Japanese Castle Wall	2307
<i>Tanaka, K</i>	
Special Structures and Their Effects on Stability of Longyou Caverns, China	2315
<i>Li, L H</i>	
Investigation on Failure in Ancient Longyou Grottoes, China	2323
<i>Yan, F</i>	
Wireless Sensor Network for Environmental Monitoring in Longyou Grottoes	2329
<i>Koizumi, K</i>	
Process Control of TBM of Esfahan Metro for Safety of Heritage Structures	2335
<i>Taheri, A</i>	
Application of Photogrammetry for Preservation of Ajina Tepe, Tajikistan	2342
<i>Fujii, Y</i>	
Environmental Monitoring at Mogao Caves and Panorama Photo Filing	2347
<i>Tanimoto, C</i>	
Model Uncertainties for Basal Heave Stability of Excavations in Clays	2353
<i>Ching, J</i>	

Investigation and Monitoring of Historical Landslides in a Part of Himalaya	2359
<i>Kishor, Kumar</i>	
Stochastic Response Surface Method Applied to Reliability Analysis of Slope Stability	2365
<i>Jiang, S H</i>	
Probabilistic Failure Analysis of the Shek Kip Mei Landslide in Hong Kong	2371
<i>Cao, Z J</i>	
Probability Models for SWCC and Hydraulic Conductivity	2377
<i>Santoso, A M</i>	
Assessment of Risks of Soil Deposits Formed during Wenchuan Earthquake.....	2382
<i>Zhang, L M</i>	
Spatial Distributions of Strength of a River Dike based on Synthesis of Sounding Tests and Surface Wave Method	2388
<i>Nishimura, S</i>	
Numerical Analyses of Surface and Internal Erosion of Soil Structures	2394
<i>Fujisawa, K</i>	
Constitutive Characterization of the Strength and Deformation for Natural Clay and Cemented Sand	2400
<i>Gao, Z W</i>	
Between Engineering and Academia – Numerical Modeling of Soil-Structures	2406
<i>Li, C</i>	
Soil-water-air Coupled Analysis on Seepage and Overtopping Behavior of River Levee.....	2413
<i>Uzuoka, R</i>	
A Chemo-Thermo-Mechanically Coupled Analysis of Hydrate Bearing Sediments	2419
<i>Kimoto, S</i>	

KEYNOTE SPEAKERS

Underground Construction and Tunnelling in Urban Environment	2425
<i>Wen, Dazhi</i>	
Challenge of Extreme Rainfall to Landslide Risk Management in Hong Kong.....	2437
<i>Chan, Raymond</i>	
Effects of Clay-chemical Interactions for Geo-environmental Containment	2449
<i>Katsumi, Takeshi</i>	
Rock Engineering	2462
<i>Sharma, V M</i>	
Predictions and Performance of Uplift Piles in Soft Ground	2474
<i>Huang, Maosong</i>	
Rainfall Induced Slope Instability Assessment and Monitoring: Review and Perspectives	2488
<i>Lee, Seung-Rae</i>	
Seepage and Deformations of Dams and their Monitoring.....	2497
<i>Soroush, Abbas</i>	
Residual Deformation Property of Liquefied Soil and Related Phenomena	2509
<i>Kazama, Motoki</i>	
Development of Super-high Concrete Face Rockfill Dams in China	2522
<i>Zhang, Zong-Liang</i>
