## Preface

### 1. 3D Remote Sensing Pages

Airborne or Spaceborne Images for Topographic Mapping? 1-8  
*Karsten Jacobsen*

DSM Extraction from PRISM Stereopairs and Triplet 9-17  
*Baiocchi Valerio, Milone Maria Vittoria, Mormile Martina  
and Francesco Palazzo*

### 2. Change Detection Pages

Change Detection in Wadden Sea Areas Using Rapideye Data 18-25  
*Sascha Klonus, Manfred Ehlers, Alena Schmidt, Uwe Soergel,  
Winny Adolph and Hubert Farke*

Monitoring and Prediction of Land Cover Changes in the Island of Corfu 26-32  
in Greece  
*Athanasis K. Moysiadis, Antonios Ntentes and Konstantinos G. Perakis*

### 3. Coastal Zones Pages

Coastline Detection from Remotely Sensed Imagery: Development of a 33-42  
Methodology Based on Advanced Smoothing Techniques and the Canny  
Edge Detector

*Eirini Teloni, Konstantinos Karantzalos and Demetre Argialas*

Low Altitude Coastal Aerial Photogrammetry for High-Resolution Seabed 43-57  
Imaging and Habitat Mapping of the Shallow Areas  
*Evangelos D. Alevizos*

Shoreline Detection from Very High Resolution Satellite Images

*Valerio Baiocchi, Raffaella Brigante, Donatella Dominici and Fabio  
Radicioni* 58-68

Observing Coastlines with Satellite Data: a Case-Study in Abruzzo (Italy) 69-80  
*Francesco Palazzo Valerio Baiocchi Keti Lelo Maria Vittoria Milone*

*Martina Mormile, Andrea Minchella, Fabio Del Frate, Daniele Latini,  
Sylvie Remondiere and Donatella Dominici*

**4. Cultural and Natural Heritage**

**Pages**

Test Case on the Quality Analysis of Structure from Motion in Airborne Applications

81-91

*Cornelis Stal, Jean Bourgeois, Philippe De Maeyer, Guy De Mulder, Alain De Wulf, Rudi Goossens, Marijn Hendrickx, Timothy Nuttens and Birger Stichelbaut*

Application of Terrestrial 3D Laser Scanning in Cultural Heritage Documentation: Example of "Armenian Bath"

92-99

*Resul Comert, Merve Ersoy, Ugur Avdan, Tugrul Hocaoglu, Gurkan Balaban and Serhan Tuncer*

Fundamental Tools for Photo-Interpretation in Mountainous Rocky Areas: Photogrammetry and Ground-Truthing

100-  
112

*Gianluca Cantoro and Apostolos Sarris*

Semi-Automatic Detection of Burial Mounds in Forested Areas

113-  
124

*Øivind Due Trier, Maciel Zortea and Siri Øyen Larsen*

Linear Spectral Unmixing for the Detection of Neolithic Settlements in the Thessalian Plain, Central Greece

125-  
140

*Athos Agapiou, Diofantos G. Hadjimitsis, Apostolos Sarris, Andreas Georgopoulos and Dimitrios D. Alexakis*

A GIS Based Application for the Management of Monuments and Antiquities of Cyprus

141-  
151

*Aris Kydonakis, Angelos Chliaoutakis and Apostolos Sarris*

Remote Sensing as a Non-Invasive Method for the Study of the Past Permafrost Features; the Case Study of Wielkopolska, Poland

152-  
164

*Andrzej Kijowski, Marek Ewertowski and Marcin Słowiak*

Using Remote Sensing, Laser Scanning and GPS for Documentation of the Historical Byzantine Aydos Castle

165-  
174

*Cengiz Erdoğan and Derya Maktav*

Remote Sensing of the Archaeological Remains of Roman Maritime Villas  
on the Eastern Adriatic Coast

*Vlasta Begović and Ivančica Schrunk*

175-  
186

**Erratum:**

The authors acknowledge that aerial images credits should be given to  
the State Geodetic Office of Croatia (Državna Geodetska Uprava)

**5. Disaster Monitoring and Response**

**Pages**

Assessing Soil Erosion Rate in a Catchment Area in Cyprus Using Remote  
Sensing and GIS

187-  
194

*Dimitrios D. Alexakis, Diofantos G. Hadjimitsis, Athos Agapiou, Kyriakos  
Themistokleous and Christiana Papoutsas*

Geospatial Tools for Olive Oil Mills' Wastes (OOMW) Disposal Areas  
Management

195-  
207

*Angelos Chliaoutakis, Aris Kydonakis, Maria K. Doula, Victor A.  
Kavvadias, Apostolos Sarris and Nikos Papadopoulos*

LANDSAT and Ground Data Analyses to Define Flood Risk

208-  
217

*Zafer Aslan, Derya Maktav, Deniz Okçu, A. Serap Söğüt and İrfan Akar*

**6. Education and Training**

**Pages**

Incorporating Free/Open Source Software in Remote Sensing Education.  
Pros and Cons from Teaching Applications in Remote Sensing

218-  
224

*Konstantinos Papatheodorou, Konstantinos Ntouros, Elias Grinias and  
Dimitris Kotzinos*

**7. Forest Fires**

**Pages**

Spectral Signatures of Pinus Brutia Post Fire Regeneration in Paphos  
Forest, Using Ground Spectroradiometers

225-  
230

*Kostas Papageorgiou, Diofantos G. Hadjimitsis, Athos Agapiou, Kyriakos  
Themistokleous, Christiana Papoutsas, Nikos Koutsias and Nektarios  
Chrysoulakis*

Assessing Forest Fire Risk and Fire Propagation in the Area of Valia Calda, National Park of North Pindos, Greece	231- 243
---	-------------

*Eleni A. Tzanou, Georgios S. Vergos and Stergios G. Vergos*

<b>8. Forestry and Natural Environment</b>	<b>Pages</b>
--	--------------

Forest Biomass Modeling by Polarimetric and Interferometric SAR Data: the Brazilian Scientific Missions	244- 250
--	-------------

*João R. Santos, Fábio F. Gama, Igor S. Narvaes and José C. Mura*

Comparing Height of Individual Spruce Trees Determined on LiDAR Data with Reference Field Measurements	251- 262
---	-------------

*Marius Petrila, Vladimir Gancz, Bogdan Apostol and Adrian Lorentz*

Temporal Land Cover Analysis of a NATURA 2000 Wetland. The Case Study of Megalo Livari (GR 2420004) in Northern Evia, Greece	263- 269
---	-------------

*Athanasiос K. Moysiadis and Georgios S. Efthimiou*

<b>9. Hydrology</b>	<b>Pages</b>
---------------------	--------------

The Impact of Recent High-Resolution Global Digital Elevation Models to the Determination of Basin Hydrological Properties. An Application to Northern Greece	270- 283
---	-------------

*Eleni A. Tzanou and Georgios S. Vergos*

Remote Sensing of Coastal Areas in Cyprus Using In-Situ Spectroradiometric Data and Water Quality Data: The "SAT-COAST" Project	284- 289
---	-------------

*Christiana Papoutsas, Diofantos G. Hadjimitsis, Leonidas Toulios, Adrianos  
Retalis and Michael Scoullos*

Methodological Chain for Hydrological Management with Web-GIS Applications	290-
---	------

*Alexandros Konstantinidis, Eleni Tzanou, Konstantinos Evangelidis,* 297

*Eustathios Makridis and Konstantinos Perakis*

<b>10. Imaging Spectroscopy</b>	<b>Pages</b>
---------------------------------	--------------

Use of Land Cover Fractions Obtained from Multiple Endmember Unmixing of CHRIS/Proba Imagery for Distributed Runoff Estimation	298-
<i>Luca Demarchi, Eva Ampe, Frank Canters, Jonathan Cheung-Wai Chan, Juliette Dujardin, Imtiaz Bashir and Okke Batelaan</i>	307
Material Reflectance Retrieval in Shadow Due to Urban Vegetation from 3D Lidar Data and Hyperspectral Airborne Imagery	308-
<i>Karine R.M. Adeline, Xavier Briottet and Nicolas Paparoditis</i>	317
Variability of Field Spectroradiometric Measurements Using Nearly Lambertian Surfaces	318-
<i>Athos Agapiou, Diofantos G. Hadjimitsis, Argyro Nisantzi, Dimitrios D. Alexakis, Kyriacos Themistocleous, Giorgos Papadavid and Christiana Papoutsas</i>	324

## 11. Instruments and Methods

Pages

Application of MODIS LST Data for Calculation of Evapotranspiration in the State of Espírito Santo, Brazil	325-
<i>Aurélio Azevedo Barreto-Neto and Anthony Fabriz Marchesi</i>	332
Developing Hyperspectral LiDAR for Structural and Biochemical Analysis of Forest Data	333-
<i>Daniel Martinez-Ramirez, Gerald S. Boller, Aongus McCarthy, Ximing Ren, Andrew Wallace, Simone Morak, Caroline Nichol and Iain Woodhouse</i>	343
Geoprocessing Services Over the Web	344-
<i>Konstantinos Evangelidis, Konstantinos Ntouros and Stathis Makridis</i>	349

## 12. Land Use / Land Cover

Pages

Documenting Typical Land Cover Changes in Europe	350-
<i>György Büttner and Barbara Kosztra</i>	369
Evaluation of Change Detection Methods in Remote Sensing, and Development of Relevant Open Source Algorithms in the Orfeo Toolbox	370-
<i>Maria Vakalopoulou and Demetre Argialas</i>	381

Development of Methodology for the Optimization of Classification Accuracy of Landsat TM/ETM+ Imagery in a Catchment Area in Cyprus	382-
---	------

*Dimitrios D. Alexakis, Diofantos G. Hadjimitsis, Athos Agapiou, Adrianos Retalis and Christiana Papoutsas*

Land Cover Maps for Regional Climate Modelling in West Africa – A Comparison of Datasets	388-
--	------

*Ursula Gessner, Jan Bliefernicht, Maren Rahmann and Stefan Dech*

<b>13. Ocean and Climate Change</b>	<b>Pages</b>
-------------------------------------	--------------

Ocean Remote Sensing in Support of Sea Level Anomalies and Mean Sea Surface Modeling	398-
--	------

*Georgios S. Vergos and Dimitrios A. Natsiopoulos*

<b>14. Proba-V</b>	<b>Pages</b>
--------------------	--------------

Proba-V, a SPOT-VGT Successor Mission, Product Definition and Specifications	424-
--	------

*Tanja Van Achteren, Wouter Dierckx, Sindy Sterckx, Iskander Benhadj, Stefan Livens and Gilbert Saint*

Comparative Analysis of Land-Use/Land-Cover Maps for Chosen Test Areas on the Territory of Bulgaria and Romania Using Simulated Proba-V and SPOT Vegetation Data	430-
--	------

*Eugenia Roumenina, Lachezar Filchev, Vassil Vassilev, Petar Dimitrov, Georgi Jelev, Gheorghe Stancalie, Elena Savin and Denis Mihailescu*

Evaluating the Potential of the PROBA-V Sensor in Estimating Forest Cover Change Over a Range of European Biogeographical Regions: The FM@PROBA-V Project	436-
---	------

*Ioannis Manakos, Ioannis Gitas, Mathias Schardt, Chariton Kalaitzidis, Eleni Dragozi and Heinz Gallaun*

Extracting Urban Areas on Simulated Proba-V Data Using ANFIS	445-
--	------

*Demetris Stathakis, Konstantinos Perakis and Ioannis Faraslis*

Forest Mapping and Forest Cover Change Detection in a Mediterranean Area Using Coarse Resolution Data and Advanced Image Analysis	449-
---	------

458

## Techniques

*Eleni Dragozi, Maria Tompoulidou and Ioannis Gitas*

- Burned Area Mapping and Post-Fire Monitoring Using Time Series of Proba-V Simulated and SPOT VEGETATION Data and by Employing the BFAST Trend Analysis Method 459-465

*Thomas Katagis, Ioannis Z. Gitas, Pericles Toukiloglou and Rudi Goossens*

- Monitoring Evapotranspiration at Sub-Kilometer Scale: Downscaling MSG/SEVIRI Images Using Moderate Resolution Remote Sensing Derived Data 466-474

*Nicolas Ghilain, Alirio Arboleda and Françoise Gellens-Meulenberghs*

- Fusion of Sentinel-2 and Proba-V/Sentinel-3 Images for Multi-Temporal Land-Cover Map 475-483

*Jordi Inglada, Julien Osman and Tiangang Yin*

- Burned Area Mapping in a Mediterranean Environment Using Time-Series VEGETATION and Simulated PROBA-V Imagery by Employing an Object-Based Change Detection Approach 484-494

*Pericles Toukiloglou, Ioannis Z. Gitas, Giorgos Mallinis and Thomas Katagis*

## 15. Radar Remote Sensing

## Pages

- Potential of Airborne Laser Scanning Data for Classification of Wadden Sea Areas 495-502

*Alena Schmidt, Winny Adolph, Sascha Klonus, Manfred Ehlers, Hubert Farke and Uwe Soergel*

- Combining Valley Following and Rule Based Segmentation for an Automatic Object Extraction from LiDAR Height Data 503-514

*Melanie Kolditz, Cristina Petre and Jürgen Roßmann*

- Using a Production System for the Detection of Regular Patterns in Urban High Resolution SAR Datasets 515-522

*Alexander Schunert and Uwe Soergel*

Agricultural Field Border Line Retrieval Using Optical and SAR Imagery <i>Roland Perko, Hannes Raggam, Karlheinz Gutjahr and Mathias Schardt</i>	523- 532
Interferometric Determination of Subsidences in Prague City <i>Kvetoslava Svobodova, Ivana Hlavacova and Lena Halounová</i>	533- 539
Monitoring the Change in Volume of Waste in Landfill Using SAR Interferometry <i>Vassilia Karathanassi, Chris Choussiafis and Zoi Grammatikou</i>	540- 551
Mosaic Methods for Improving the Accuracy of Interferometric Based Digital Elevation Models <i>Chris Choussiafis, Vassilia Karathanassi and Konstantinos Nikolakopoulos</i>	552- 560

## **16. Thermal Remote Sensing**

**Pages**

Study of Uncertainties from Evapotranspiration Models Applied to Landsat Data Over a Mediterranean Agricultural Region <i>Maria Mira, Dominique Courault, Albert Olioso, Olivier Hagolle, Olivier Marloie, Sergio Castillo-Reyes and Belén Gallego-Elvira</i>	561- 574
--	-------------

## **17. Urban Remote Sensing**

**Pages**

Predicting the Spatial Distribution of Population Based on Impervious Surface Maps and Modelled Land Use Change <i>Yves Cornet, Marc Binard, Martin Ledant, Johannes van der Kwast, Tim Van de Voorde and Frank Canters</i>	575- 586
Integrated Use of Satellite Remote Sensing and GIS for the Development of a Sophisticated Sustainability Index for Urban Areas: A Case Study of Paphos City (Cyprus) <i>Chrysostomos Italos, Diofantos G. Hadjimitsis, Dimitrios D. Alexakis, Kyriacos Themistocleous, Athos Agapiou, Argyro Nisantzi, Christiana Papoutsas and Giorgos Papadavid</i>	587- 593
Semi-Automatic Object-Based Building Change Detection in Suburban Areas from Quickbird Imagery Using the Erdas Imagine Objective Software	594- 607

*Georgios Karagiannis and Demetre Argialas*

Operational Traffic Monitoring Using Very High Resolution Satellite  
Imagery

608-  
617

*Siri Øyen Larsen, Arnt-Børre Salberg, Line Eikvil and Øivind Due Trier*

Satellite Observation of Urban Heat Island Effect

618-  
630

*Maria Zoran, Roxana Savastru, Dan Savastru, Marina Nicoleta Tautan  
and Mariana Rodica Dida*
