

**PROCEEDINGS OF 2013
International Conference on Sensor
Network Security Technology and
Privacy Communication System**

(SNS & PCS 2013)

**Harbin, China
18-19 May 2013**

**IEEE Catalog Number: CFP1398U-POD
ISBN: 978-1-4673-6452-2**

Table of Contents

Topic1: Sensor Network Security and Analysis

005	Evolutionary Game Based Dynamics of Trust Decision in WSNs <i>Shigen Shen, Changyuan Jiang, Hua Jiang, Lizheng Guo, Qiyong Cao</i>	1
019	Design and Optimization of a Cross-Layer Routing Protocol for Multi-Hop Wireless Sensor Networks <i>Fei Gao, Hongli Wen, Lifan Zhao, Yuebin Chen</i>	5
024	A Fingerprint-based User Authentication Protocol with One-time Password for Wireless Sensor Networks <i>Xin Liu, Yongjun Shen, Shuxian Li, Fenglan Chen</i>	9
027	A Blackhole Attack Analysis for Barrage Relay Networks <i>Ying Ding, Yue Wang, Jian Yuan</i>	13
031	A Fine-Grained Access Control Model for Body Sensor Networks Based on User Trust Degree <i>Guangxia Xu, Lingling Ren, Yangyang Song, Yunpeng Xiao</i>	18
034	A Novel Approach for the Design of Network Intrusion Detection System(NIDS) <i>Ambarish Jadhav, Avinash Jadhav, Pradeep Jadhav, Prakash Kulkarni</i>	22
038	An Interference Suppression Mechanism for WSN <i>Qin Danyang, Ma Lin, Wang Erfu, Ma Hongbin, Ding Qun</i>	28
046	A Trusted Connection Based Scheme for Ad Hoc Network <i>Weichao Xie, Jian Wang</i>	34
053	Dual Band Microstrip Patch Antenna Array for Next Generation Wireless Sensor Network Applications <i>Muhsin Ali, Bilal A. Khawaja</i>	39

Topic2: Network Security System and Analysis

023	GRC Monitoring of Federated End-to-End Business Processes <i>Erik Neitzel, Ute Riemann</i>	44
032	A Priority Scheduling Algorithm for Improving Emergent Data Transmission Rate in the Body Area Networks <i>Guangxia Xu, Qiang Song, Li Qiu, Chumeng Tian, Liu Yang</i>	48
033	How the Implementation of New Network Technologies Influenced the Changes of E-Government Federal Data Centers <i>Wojciech Urbanczyk</i>	53
047	Analysis of Attack and Defense Strategies on Complex Networks <i>JIANG Yu, WANG Yubo</i>	58
064	A Service-Oriented Exception Handling Method Based on Exception Classification <i>YueHua DING, RiHua XIANG</i>	63
066	An Improved Feature Selection Algorithm Based on MAHALANOBIS Distance for Network Intrusion Detection <i>Zhao Yongli, Zhang Yungui, Tong Weiming, Chen Hongzhi</i>	69

Topic3: System and Implementation of Secure Communication

006	Counteracting Leakage Power Analysis Attack Using Random Ring Oscillators <i>Nianhao Zhu, Yujie Zhou, Hongming Liu</i>	74
014	Projective Synchronization of Two Fractional-order Memristive Systems via an Active Controller <i>Shijian Cang, Zengqiang Chen, Zenghui Wang, Hongyan Jia</i>	78
036	The Research and Design of Embed RSA Encryption Algorithm Network Encryption Card Driver <i>Jingyang Gao, Hai Cheng, Ziheng Yang, Qun Ding</i>	83
037	Generation and SL_SVM Prediction of Digital Chaotic Key Sequence Based on Double K-L Transform <i>Xiaoli Geng, Baoxiang Du, Qun Ding</i>	88
039	An Optimal Path Algorithm of High Security Based on Dijkstra Algorithm <i>Yong Zhu, Xiaohuan Liu, Xiaohong Yu</i>	93
042	An Nonlinear Least-Squares Estimator With Non-Sensitivity Initial Guess for Passive Emitter Localization <i>Yue Liu, Xinhui Wu, Wei Zuo</i>	97
044	Design and Realization of A New Chaotic System <i>Zhang Chengliang, Wang Zhonglin</i>	101
050	Distributed Phased-Array Radar Detection Performance Analyses <i>Yang Jie, Li Shan, Xie Wu</i>	105
051	Multiple User Channel Capacity Analysis of Code-Division Multiple Access System Based on Space-Time Block Coding <i>Yang Jie, Liu Xu, Xie Wu</i>	110
054	The Research of Hardware Encryption Card Based on Chaos <i>Zhong Zhang, Kefa Liu, Xiaoyu Niu, Xue Bai</i>	116
055	The Blind Harmonic Signal Extraction Algorithm based on the Steady-state Point Capture Under the Chaotic Background <i>Erfu Wang, Qiang Liu, Kangjian Ma</i>	120
056	Key Generation Research of RSA Public Cryptosystem and Matlab Implement <i>Hongjun Wang, Zhiwen Song, Xiaoyu Niu, Qun Ding</i>	125
057	Characteristics Analysis and Application of The Encryption Algorithm Based on Dual-chaos Theory <i>Zhong Zhang, Xiaoyu Niu, Hongjun Wang, Kefa Liu</i>	130
058	Random Process Representations of Chaos <i>Jing Pan, Jiashen Qin, Lei Ning, Yanbin Zheng, Qun Ding</i>	134
059	Research on the Quantifications of Chaotic Random Number Generators <i>Yanbin Zheng, Jing Pan, Yu Song, Hai Cheng, Qun Ding</i>	139
060	Hardware Design and Implementation of Wi-Fi Technology Based Encryption System <i>Zhiqiang Li, Xiaoxin Sun, Changbin Du, Qun Ding</i>	144

Topic4: Theory and Algorithm of Information Security

015	The Analysis of the Recovery of Forest Fire Based on NDVI and NPP <i>Changshui Yu, Chunxia Wang, Jijia Zhang, Xuefang Dai, Lihua Zhang</i>	148
018	The Application Research of Cookies in Network Security <i>Li Bo, LV Shen-juan, ZHANG Yong-sheng, TIAN Ming</i>	152
020	Mathematical Analysis of Extended Matrix Coding for Steganography <i>Li Fan, Tiegang Gao, Chin-Chen Chang</i>	156
021	An Information-Space Model for Explaining Generalized Information Hiding Schemes <i>Li Fan, Tiegang Gao</i>	161
029	The Research and Design of Identity Authentication Base on Speech Feature <i>Hongbin Ma, Shuang Yan, Xue Bai, Yong Zhu</i>	166
030	Digital Image Watermarking Based on Texture Block and Edge Detection in the Discrete Wavelet Domain <i>Yingli Wang, Xue Bai, Shuang Yan</i>	170
040	Orthogonal Adaptive Pulse Design Based on Frequency Domain <i>Zhao Bing, Qi Lin</i>	175
041	An Image Authentication Technology Based on Digital Watermarking <i>Yong Zhu, Xiaohong Yu, Xiaohuan Liu</i>	179
045	A New Blind Adaptive Watermarking Method Based on Singular Value Decomposition <i>Yevhen Zolotavkin, Martti Juhola</i>	184
048	Implementation of SHA-3 Candidate Skein on Two Unexplored Multiprocessor Platforms <i>Aisha Malik, Arshad Aziz, Abdul Qadeer</i>	193
061	SoW: A Hybrid DWT-SVD based Secured Image Watermarking <i>Xiaoyi Zhou, Jixin Ma, Wencai Du</i>	197
067	Encryption Speed Improvement on “An Improvement over An Image Encryption Method Based on Total Shuffling” <i>Yong Zhang</i>	201
068	A Comparison of TCP and SSL for Mobile Security <i>Wanqing You, Longteng Xu, Jingyu Rao</i>	206
