

# **VALID 2013**

The Fifth International Conference on Advances in System Testing and Validation  
Lifecycle

October 27 - November 1, 2013

Venice, Italy

## **VALID 2013 Editors**

Jos van Rooyen, Bartosz, the Netherlands

Philipp Helle, EADS Innovation Works, Germany

Pascal Lorenz, University on Haute Alsace, France

# TABLE OF CONTENTS

## VALID 1: SOFTWARE VERIFICATION AND VALIDATION

|                                                                                              |           |
|----------------------------------------------------------------------------------------------|-----------|
| <b>Model-Based MCDC Testing of Complex Decisions for the Java Card Applet Firewall .....</b> | <b>1</b>  |
| <i>R. Bloem, K. Greimel, R. Koenighofer, F. Roeck</i>                                        |           |
| <b>Enabling Interface Validation through Text Generation .....</b>                           | <b>7</b>  |
| <i>H. Burden, R. Heldal, P. Ljunglof</i>                                                     |           |
| <b>Efficient Elimination of False Positives Using Bounded Model Checking .....</b>           | <b>13</b> |
| <i>T. Muske, A. Datar, M. Khanzode, K. Madhukar</i>                                          |           |
| <b>State Space Reconstruction for On-Line Model Checking with UPPAAL .....</b>               | <b>21</b> |
| <i>J. Rinast, S. Schupp, D. Gollmann</i>                                                     |           |
| <b>Formal Composition Based on Roles within a Model Driven Engineering Approach .....</b>    | <b>27</b> |
| <i>C. Leliionnais, J. Delatour, M. Brun, O. Roux, C. Seidner</i>                             |           |

## VALID 2: TESTING TECHNIQUES AND MECHANISMS

|                                                                                                        |           |
|--------------------------------------------------------------------------------------------------------|-----------|
| <b>Preliminary Test Suite Reduction .....</b>                                                          | <b>33</b> |
| <i>V. Kozyura, S. Wieczorek</i>                                                                        |           |
| <b>Performance Characterization of TAS-MRAM Architectures in Presence of Capacitive Defects .....</b>  | <b>39</b> |
| <i>J. Azevedo, A. Virazel, Y. Cheng, A. Bosio, L. Dilillo, P. Girard, A. Todri, J. Alvarez-Herault</i> |           |
| <b>Automatic Linking of Test Cases and Requirements.....</b>                                           | <b>45</b> |
| <i>T. Noack</i>                                                                                        |           |

## VALID 3: DEBUGGING AND DIAGNOSIS

|                                                                                                  |           |
|--------------------------------------------------------------------------------------------------|-----------|
| <b>Using Filtering to Improve Value-Level Debugging of Verilog Designs.....</b>                  | <b>49</b> |
| <i>B. Peischl, N. Riaz, F. Wotawa</i>                                                            |           |
| <b>Towards an Integrated Methodology for the Development and Testing of Complex Systems.....</b> | <b>55</b> |
| <i>P. Helle, W. Schamai</i>                                                                      |           |
| <b>An Evaluation of Client-Side Dependencies of Search Engines by Load Testing.....</b>          | <b>61</b> |
| <i>E. Sefer, S. Aykanat</i>                                                                      |           |
| <b>Compact Traceable Logging .....</b>                                                           | <b>66</b> |
| <i>I. Prasetya, A. Sturala, A. Middelkoop, J. Hage, A. Elyasov</i>                               |           |
| <b>Author Index</b>                                                                              |           |
