14th International Symposium on  
**AERODYNAMICS AND VENTILATION OF TUNNELS**  
Dundee, Scotland: 11–13 May 2011

## CONTENTS

<b>FOREWORD</b>	1
<b>William Bradbury, 1955 - 2011</b>	3
<b>ROAD &amp; RAIL – AERO DESIGN ISSUES</b>	
Combined tunnel and trackway ventilation systems for metro stations <i>S O’Gorman, P Gehrke, R Nuttall, Parsons Brinckerhoff, Australia</i>	7
The prospects of longitudinal ventilation in long road tunnels – the case of Fehmarnbelt Fixed Link <i>L Exarchakos, M Tabarra, D Abi-Zadeh, Arup UK; J Tredal, Rambøll, Denmark</i>	27
Principles of the Gimrinsky road tunnel ventilation modernization <i>S G Gendler, Open joint – stock company “LenMetroGiproTrans”, Russia</i>	43
<b>EQUIPMENT – FANS</b>	
New high temperature materials extend capabilities of smoke management fans <i>R Z Smith, INNERQUEST LLC, USA; J Kuta, Clarage Turbo Technology, a.s., Czech Republic</i>	57
Increasingly demanding criteria for vehicle tunnel ventilation: a fan manufacturer’s perspective <i>A G Sheard, Fläkt Woods Ltd; N M Jones, NMJ Consultancy, UK</i>	61
Road tunnel fires and jet fans – operating characteristics and layout of jet fans during heat air exposure – <i>M Yokota, Central Nippon Highway Engineering Tokyo Co., Ltd; K Yamamoto, Central Nippon Expressway Co., Ltd; N Kawabata, Kanazawa University; T Kikumoto, H Yanagi, Echoplan Co., Ltd, Japan</i>	77
Application of inverter-driven jet-fans to the Kobe Nagata tunnel <i>K Kanazawa, H Hara, A Tsurumaki, Hanshin Expressway Co.; H Fujimoto, H Kurano, Kawasaki Heavy Industries, Ltd; I Nakahori, T Ato, Sohatsu Systems Laboratory Inc., Japan</i>	91
Design, testing and application of an energy-efficient longitudinal ventilation system <i>F Tarada, Mosen Ltd, UK</i>	103

## **THERMAL DESIGN ISSUES**

- Ventilation considerations for long road tunnels 117  
*N Harvey, W D Kennedy, Parsons Brinckerhoff, USA*
- Using energy storage to mitigate heat emitted from rolling stock air conditioning systems 131  
*M J Gilbey, J A Thompson, Parsons Brinckerhoff Ltd., UK*
- Transient heat sink calculations for feasibility design studies 145  
*J A Thompson, M J Gilbey, Parsons Brinckerhoff Ltd., UK*
- Innovative tunnel cooling system design in Shanghai Yangzi River Tunnel 159  
*J L Zheng, Shanghai Tunnel Engineering & Rail Transit Design and Research Institute; E H T Xu, S K H Lai, Parsons Brinckerhoff (Asia) Ltd., People's Republic of China*

## **SMOKE CONTROL**

- Strategies to keep cross passages smoke free 169  
*L Ilg, ILG engineering; A Di Miele, S Frey, E Graf, M Lempp, HBI Haerter AG, Switzerland; M Wehner, HBI Haerter GmbH, Germany*
- The use of fire curtains in smoke dispersion control in underground metro stations 183  
*G Leoutsakos, A Avgerinos, Attiko Metro S.A., Greece; W G Gray, E Musluoglu, Mott MacDonald, UK; E Aini, Vinci Construction Hellas S.A., Greece*
- Optimization of the repartition of extraction vents in transverse ventilation 199  
*S Lovas, P Carlotti, S Desanghere, Centre Scientifique et Technique du Bâtiment, Université Paris Est; A Mos, Centre d'Etudes des Tunnels, France*

## **PRESSURE TRANSIENTS**

- Interior explosive sound caused when a train encounters a compression wave inside a long slab-tracked tunnel 213  
*T Fukuda, T Miyachi, H Takami, M Iida, S Saito, Railway Technical Research Institute; J Kikuchi, East Japan Railway Company, Japan*
- A new passive control method of the pressure wave propagating through in a high speed railway tunnel 227  
*S Nakao, Nagasaki Institute of Applied Science; T Aoki, Kyushu University; T Tanino, T Miyaguni, Nagasaki Institute of Applied Science; K Matsuo, University of Kitakyushu, Japan*
- Pressure gradients during train entry – practical design data 237  
*A E Vardy, J M B Brown, University of Dundee, UK*
- Underground station for high speed train passages 257  
*B Venås, B A Børresen, Å M Gullbekk, Norconsult AS; S I Undrum, Norwegian National Rail Administration, Norway*

## **AERO MODELLING TECHNIQUES – SITE & SCALE**

Determination of in-tunnel train skin drag by scale modelling 273  
*W D Kennedy, P Kumar, J A Gonzalez, Parsons Brinckerhoff, USA*

Research on prediction of natural wind and traffic induced ventilation in road tunnels 283  
*S Morimoto, T Ishimura, K Kadoyu, Public Works Research Institute; A Mitani, Sohatsu Systems Laboratory Inc., Japan*

## **FIRE DESIGN ISSUES – DESIGN FIRES**

Fire loads and their influence on ventilation design: A simple model for use in regulations 293  
*P Sturm, M Bacher, M Beyer, Graz University of Technology; B Höpperger, J Croll, ILF Consulting Engineers, Austria*

Proposed idealized design fire curves for road tunnels 309  
*A Kashaf, National Research Council of Canada (NRC), Canada; J Viegas, Laboratório Nacional de Engenharia Civil, Núcleo de Acústica, Portugal; A Mos, Centre d'Etudes des Tunnels (CETU), France; N Harvey, Parsons Brinckerhoff Americas, Inc., USA*

Design fires in road tunnels 323  
*I Maevski, Jacobs Engineering, USA*

Cost benefits in tunnel ventilation and other systems resulting from installation of fixed fire fighting systems in road tunnels 333  
*B Melvin, W Connell, Parsons Brinckerhoff, Inc., USA*

## **FIRE DESIGN ISSUES – MODELLING**

Energy balance in a tunnel fire - midscale tests and CFD simulations - 349  
*E Blanchard, LEMTA Nancy Université, CNRS, and CSTB; P Boulet, LEMTA Nancy Université, CNRS; S Desanghere, P Carlotti, CSTB, France*

Backlayering stratification parameters 363  
*M Lorenz, Egis Tunnels and LMFA UMR 5509; H Biollay, Egis Tunnels, France*

## **FIRE DESIGN ISSUES**

Effect of longitudinal ventilation on fire growth rate and flame length in a tunnel fire 375  
*Y Z Li, H Ingason, A Lönnemark, SP Technical Research Institute of Sweden, Sweden*

Establishing the train fire heat release rate for the New York City Transit R-142 trains 387  
*J G Sanchez, MTA New York City Transit, USA*

## **VENTILATION CONTROL**

- Automatic control of ventilation in short bi-directional road tunnels 405  
*P Ridley, N Agnew, C Stacey, Stacey Agnew Pty Ltd, Australia*
- Application of MPVC to the two longest road tunnels in Japan 419  
*S Azuma, H Nomura, Nippon Expressway Research Institute Company Limited; A Ichikawa, East Nippon Expressway Company Limited; S Kawashima, Dosys Company Limited; A Mitani, Sohatsu Systems Laboratory Incorporated, Japan; A Vardy, University of Dundee, UK*
- A new ventilation control for inverter driven jet-fans 431  
*I Nakahori, A Mitani, Sohatsu Systems Laboratory Inc., Japan; A Vardy, University of Dundee, UK*
- Experiences on using closed-loop control systems for smoke control 447  
*I Espinosa, S Fernández, FFIL – CEMIM; I Del Rey, E Alarcón, ETSII-Universidad Politécnica de Madrid, Spain*

## **CASE STUDIES**

- Smoke ventilation concepts of CEVA – an underground rail link with 4 stations 463  
*M Ferrazzini, A Busslinger, P Reinke, HBI Haerter Ltd., Switzerland*
- The conversion of a deep underground mine to scientific research – ventilation and cooling design – DUSEL, South Dakota, USA 479  
*R M Potter, Arup; K G Wallace, Mine Ventilation Services, USA*
- Even sewage tunnels can benefit from CFD simulations 493  
*Y Alostaz, AECOM USA, Inc, USA; A Carciumaru, T Werner, AECOM Canada Ltd., Canada*

## **RISK**

- Risk-based design of road tunnels 513  
*M Bettelini, Amberg Engineering Ltd., Switzerland*
- The benefit of event tree analysis for the ventilation design of railway tunnels 529  
*V Langner, B Hagenah, P Pospisil, Gruner Group, Austria / Switzerland*
- Risk Analysis – from the Garden of Eden to its seven most Deadly Sins 539  
*L Ferkl, Feramat Cybernetics, Czech Republic; A Dix, Scientist & Lawyer, Australia*

## **POLLUTION & VEHICLE EMISSIONS**

- The air quality of Tehran underground railway transit system 551  
*M J Jafari, University of Shahid Beheshti; M Abbaspour, Sharif University of Technology; N Mansoori, F Moattar, N Nouri, M Allahyari, Islamic Azad University, Iran*

Study by numerical simulations on the breathing effect in a semi-underground highway with beams and a roof above it <i>M Hagiwara, East Nippon Expressway Co., Ltd; A Mizuno, T Tsutaki, Kogakuin University; K Takahashi, FITUT Laboratory Co., Ltd, Japan</i>	563
Ventilation and exhaust purification of motor vehicle tunnels in Japan <i>A Katatani, Panasonic Ecology Systems Co., Ltd; A Dix, University of Western Sydney, Australia</i>	577

## **AUTHOR INDEX**
