Table of Contents

Keynote Address:

<i>Applying Systems Thinking to Aviation Psychology</i>	1
Nancy Leveson	

NextGen Human Factors Research

<i>NASA NextGen Flightdeck Research: A Database of Research Areas and Results</i>	8
Mosier, Munc, Reich, Fox, Swarts, Tomko, O'Neill, Cunningham	
<i>Sequential Required Time of Arrival Intervals Utilizing Existing Technologies</i>	14
Alexander & Teller	
<i>Review of Pilot Performance and Pilot Automation Interaction Models in Support of NextGen</i>	20
Sebok & Wickens	

<i>Symposium: Sensor to Analyst: Improved Decision-Making in Aerial ISR Through Training and Decision Support Tools</i>	26
Poeppelman, Caggiano, Jackson, Galster, Tossell, Bolley, Scarff, Lind, Durkee & Wiggins	

<i>Optimizing Data Processing and Management Decisions During ISR Through Innovative Training Regimens</i>	32
Tossell, Jackson, Tripp & Nelson	

Effectiveness of Simulation-Based Training

<i>The Effectiveness of Microsoft Flight Simulator as a Training Aid for Private Pilot Training and Proficiency</i>	38
Beckman	
<i>Preliminary Examination of Simulator-Based Training Effectiveness</i>	44
Lubner, Dattel, Henneberry, DeVivo, & Allen	

NextGen Air Traffic Control

<i>The FAA's Human Factors Air Traffic Control / Technical Operations Strategic Research Plan</i>	50
Austrian & Piccione	
<i>Effects of NextGen Concepts for Separation Assurance and Interval Management on ATCo Situation Awareness</i>	56
Strybel, Vu, Chiappe, Morgan, & Battise	
<i>Perceived Usefulness of Planned NextGen Capabilities by Air Traffic Control Tower Controllers</i>	62
Holbrook, Parke, Oyung, Collins, Gonter, & Beard	

Display Overload: An Artifact-Based Work Analysis of Air Traffic Management..... 68
Fernandes & Brinton

Symposium: High Fidelity Simulation and Aviation Training to Improve Problem Solving Skills and Coordination

High Fidelity Simulation and Aviation Training to Improve Problem Solving Skills and Coordination ... 74
Georgiou, Carlson, & Craig

Teamwork and Performance Outcomes of High-Fidelity Airline Operations Center Simulations 80
Littlepage, Craig, Hein, Moffett, Sanders, Carlson, Ivakh, & Georgiou

Refinement of Mental Models of Interdependence and Communication 86
Sanders, Littlepage, & Hein

A Situation Awareness Design Approach to the Position of Airline Maintenance Control in a Simulated Operations Control Center 92
Bridges

Situation Awareness

Exploring the Effects of Working Memory Capacity, Attention, and Expertise on Situation Awareness in a Flight Simulation Environment..... 98
Ozcan, Cakir, & Say

Situation Awareness and Situation Assessment: How are they related? 104
Hertz & Hertz

Assessing the Efficacy of Situation Awareness Probe Questions for Predicting Air-Traffic-Management Performance..... 110
Miles, Vu, Chiappe, Strybel, & Battise

Cockpit Automation

Man-Machine Symbiosis in Aviation: New Risks and Capabilities in View of Information Technology Expansion..... 116
Petrenko

Adaptive Controller Adaptation Time and Available Control Authority Effects on Piloting 122
Trujillo & Gregory

South African Airline Pilots' Perceptions of Advanced Flight Deck Automation 128
Naidoo

Symposium: NextGen 2018: What Is and Is Not Likely to Change for Controllers

Identifying the Impact of NextGen on the Job of Air Traffic Control Specialists in the Mid-Term..... 153
Baumann, Krokos & Hendrickson

NextGen Operational Improvements: Will They Improve Human Performance? 159
Beard, Johnston & Holbrook

Assessing the Changing Human Performance Risk Profile in the NextGen Mid-Term..... 165
Berry & Sawyer

Pilot/Crew Training

Enhancing Crew Resource Management Training Program: The Introduction of a Cognitive-Adaptation Training 171
Fornette, Bardel, Lefrancois, Fradin, El Massioui, Darses, & Roumes

Assessment of Manual Flying Skills by Combining Aircraft Parameters with Pilot Control Inputs 177
Schubert, Appel & Huttig

Reducing Aggressive Responses to TCAS: Evaluation of a TCAS Training Program 183
Fleming, Pritchett, Popescu & Cleveland

Workload Management

Flight Deck Models of Workload and Multi-Tasking: An Overview of Validation 189
Wickens & Sebok

Tracking and Visuospatial Working Memory 195
Langerak, Herdman & Howell

Enhancing Military Helicopter Pilot Assistant System Through Resource Adaptive Dialogue Management..... 201
Maiwald & Schulte

Single-Pilot Workload Management During Cruise in Entry Level Jets 208
Burian, Pruchnicki, Christopher, Silverman, Hackworth, Rogers, Williams, Drechsler, Runnels, & Mead

Tuesday Posters

Exploring the Impact of ADS-B NextGen Technology Requirements for General Aviation..... 214
Borsa, Dillman, & Ropp

Beyond Multitasking: Human Factors Implications for Single-Pilot Operations in the NextGen Environment..... 220
Bermudez, Wilt & Deaton

Does Supplementary Computer Generated Cueing Enhance Controller Efficiency in a Congested Communication Environment? 226
Santana, Langhals, Miller & Finomore

Transferring Human Factors Knowledge from Aviation to Development of a Warning System for Landslide..... 232
Koglbauer, Hohenberger & Steger

<i>Applied Human Factors Research for the Technical Operations Organization of the Federal Aviation Administration</i>	237
Austrian & Sierra	
<i>Giving a Face to Airline Customer Satisfaction: A Graphic Approach</i>	243
Wildt, Bowen, & Bowen	
<i>The Impact of Cognitive Psychology in Minimizing Human Errors</i>	249
Jonzon	
<i>Training for Situation Awareness</i>	257
Hertz & Hertz	
<i>A Proposal to Reduce Unsafe Aviation Maintenance Task Handovers with a Virtual Training Solution</i>	262
Gildea, Shebilske, Alakke & Narakesari	
<i>Effects of Motion Cueing on an Attitude Recovery Task</i>	269
Nicholson, Townsend, Staples, Gamble & Herdman	
<i>Human-Automation Performance Under Time Pressure Has Limited Benefits</i>	275
Tunstall & Rice	
<i>Applying the Compliance-Reliance Model to System-Wide Trust Theory in an Aviation Task</i>	281
Tunstall, Geels-Blair & Rice	
 Air Traffic Control Challenges	
<i>Clarifying Cognitive Complexity and Controller Strategies in Disturbed Inbound Peak ATC Operations</i>	287
Schuver-van Blanken & Roerdink	
<i>Effects of Airport Tower Controller Decision-Support Tool on Controllers' Head-Up Time</i>	293
Hayashi & Cruz Lopez	
<i>Structuring, Analyzing and Monitoring Problems and Decision Making Processes at Civil Air Navigation Sets of a Public Organization</i>	299
Cabral & Estellita	
<i>Outcome-Based Risk Pathways: Utilizing Safety Reports to Understand Risks in Air Traffic Control</i> ...	305
Berry, Sawyer & Austrian	
 Symposium: Measuring Human Factors Success in Acquisitions	311
Demagalski, Subotić, Crutchfield & Norris	
 Optimizing Display Designs	
<i>The Effects of Stereoscopic Radar Displays on Air Traffic Controller Performance</i>	317
Russi, Langhals, Miller & Heft	

Design and Evaluation of a Co-Planar Separation Display..... 323
Ellerbroek, Brantegem, van Paassen, & Mulder

Using Animated Graphics on Aircraft Navigation Displays; Pros and Cons..... 329
Oh

Unmanned Aircraft Systems: Model and Training

Manned-Unmanned Teaming: Training US Army Unmanned Aircraft System Operators in the Scout-Reconnaissance Role 335
Stewart

Military Unmanned Aircraft System Operators: Training and Human Performance Issues 341
Cohn, Olde, Arnold, & O'Neill

Control of Multiple Unmanned Vehicles: A Capacity Model from a Meta-Analysis..... 347
Wickens, Gosakan, Gacy & Laux

Enabling Aerospace Team Performance

Development and Validation of Measures for Army Aviation Collective Training 353
Bink, Seibert, Dean, Stewart, & Zeidman

Exploring The Boundaries of Command and Control Models of Distributed Team Performance in Aviation and Aerospace Operations 359
Cuevas & Caldwell

Symposium: New Avionics Technologies Human Factors..... 365
Yeh, Chase, Goh, Rogers & Starter

Cognitive Engineering Solutions

Visualization of Pairwise Conflict Resolution for Air Traffic Control 371
van Paassen

Evaluating ASAP (Anticipation Support for Aeronautical Planning): A User-Centered Case Study 377
Lini, Bey, Hourlier, Vallespir, Johnston, & Favier

Uninhabited Aerial Vehicle Control

UAS in the NAS: Survey Responses by ATC, Manned Aircraft Pilots, and UAS Pilots..... 383
Comstock, McAdaragh, Ghatas, Burdette, & Trujillo

Issues Relevant for Synthetic Teammate – Human Teammate Interactions in Operations of a Synthetic Unmanned Aerial System..... 389
Cooke & Myers

The Integration of New Technology Into a Complex System..... 395
Neville, Blickensderfer, Kaste, Dorton, & Luxion

Wednesday Posters

<i>Coordination in Distributed Unmanned Aircraft Systems</i>	401
Reynolds, Burke, & Salas	
<i>North-Up, Track-Up, and Camera-Up Navigation of Unmanned Aircraft Systems</i>	407
Chappell & Valimont	
<i>Examining Memory for Search Using a Simulated Aerial Search and Rescue Task</i>	412
Perelman & Mueller	
<i>Supervisory Control State Diagrams to Depict Autonomous Activity</i>	418
Patzek, Rothwell, Bearden, Ausdenmoore, & Rowe	
<i>Adaptive Automation for Multiple Aerial Vehicle Supervisory Control: Impact of Changing Automation Levels</i>	424
Ruff, Calhoun, Miller, & Breeden	
<i>A Cognitive Engineering Approach for Showing Feasibility Margins on an In-Flight Planning</i>	430
Lini, Vallespir, Hourlier, Labat & Favier	
<i>Risk Perception in Ecological Information Systems</i>	436
Comans, Borst, van Paassen, & Mulder	
<i>Evaluation of a Peripherally-Located Instrument Landing Display Under Dual-Task Conditions</i>	442
Spielman, Vargas, Hammack, Bulkley, Lew, & Dyre	
<i>Experimental Effective Intensity of Steady and Flashing Light Emitting Diodes for Aircraft Anti-Collision Lighting</i>	448
Yakopcic, Puttman, Kunz, Ang, McPherson, Santez, Donovan, Skarzynski, Trick, Mead, Milburn & Khaouly	
<i>Air Transport Incident and Accidents Caused by Crew Situation Awareness Errors</i>	454
Arnold	
<i>The Impact of Binaural Beat Technology on Vigilance Task Performance, Mental Workload, and Psychological Stress</i>	459
Shoda & Burns	
<i>Able Flight: Increasing Aviation Opportunities for People with Disabilities</i>	465
Kirschner, Avery, Majors, Bowen, & Wulle	
<i>Improving Student Retention with the Creation of a Student Chapter of a Professional Organization</i> ...	471
Mott & Musselman	
<i>A Collaborative Forum for the Distribution of Multidisciplinary Scholarship in the Open-Access Environment: The Inception of the Advanced Aviation Analytics Institute for Research (A³IR-CORE)</i> ..	476
Bowen, Bowen, Carney, Kirschner, Lu, Meehan, Mott, & Wildt	

Plenary Researcher Panel

Synthetic Task Environments and the Three Body Problem 482
John Flach

Safety

*Extending Mission Operations Safety Audits (MOSA) Research to an Indian Sub Continent Island
Airline* 488
Burdekin

The National Aviation Operational Monitoring Service: Development of a Survey Methodology 494
Connors, Mauro, & Statler

Visual/Ocular Indices in Flight

Enhancing Helicopter-Pilot Obstacle Avoidance Using a Binocular Head-Mounted Display 500
Beringer & Drechsler

An Investigation and Analysis of the Vestibulo-Ocular Reflex in a Vibration Environment 506
Uribe, Miller, & Smith

Visual Perspective Illusions as Aviation Mishap Causal Factors 512
Patterson, Arnold, & Williams

Symposium: Human-Centered Automation in Future Air Traffic Management Systems

*Designing for Joint Human-Automation Cognition through a Shared Representation of 4D Trajectory
Management*..... 518
Klomp, Borst, van Paassen, Mulder, Nieuwenhuisen, Majj, Mooij & van Drunen

Arrival Management Decisions by Visualizing Uncertainty..... 524
Tielrooij, Borst, van Paassen, & Mulder

*Mismatches between Automation and Human Strategies: An Investigation into Future Air Traffic
Management Decision Aiding*..... 530
Westin, Borst & Hilburn

Human-Centered Automation as Effective Work Design..... 536
Pritchett & Feigh

Modeling for Aviation Safety

Validating a Model of Automation Supporting the Robotic Arm Controller 542
Wickens, Sebok, Gacy, Li & Sarter

Pilot Decision Making: Modeling Choices in Go-Around Situations..... 548
Haslbeck, Eichinger & Bengler

Modeling Human and Animal Collision Avoidance Strategies..... 554
Koglbauer, Braunstingl, & Haberkorn

Aviation Safety Evaluation by Wavelet Kernel-Based Support Vector Machine 560
Chang & You

Surface Operations & More

Collaboration, Coordination and Information Requirements for the Support of an Airport Departure Metering Program 567
Smith, Weaver, Fernandes, Spencer, Evans, & Durham

Flight Deck Technologies to Enable NextGen Low Visibility Surface Operations..... 573
Prinzel, Arthur, Kramer, Norman, Bailey, Jones, Karwac, Shelton, & Ellis

Individual Pilot Factors Predict Simulated Runway Incursion Outcomes 579
Van Benthem & Herdman

Assessing the Effects of Off-Nominal Conditions on NextGen Air Traffic Control Operations 585
Sawyer & Berry & Austrian

Military Selection

Pilot Cognitive Functioning and Training Outcomes..... 591
Carretta, King, Retzlaff, Barto, Ree, & Teachout

Measuring Distribution of Attention as a Part of Situational Awareness – A Different Approach..... 597
Meierfrankenfeld, Greb & Vorbach

Cognitive & Physiological Workload Indices

Detecting Fatigue in Commercial Flight Operations Using Physiological Measures 603
Thomas, Craig, Gast, Grube, Muhm & Romig

Effects of Event Rate on Cerebral Blood Flow Velocity During Vigilance Performance 609
Neubauer, Dillard, Warm, Funke, Funke, Matthews, Epling, & Dukes

The Use of Functional Near Infrared Spectroscopy (fNIRS) to Assess Cognitive Workload of Air Traffic Controllers..... 615
Woo, Willems, Harrison, Izzetoglu, Hah, & Ayaz

Symposium: Display Effectiveness & Neuroergonomics in Tactical Airlift

An Integrated Neuroergonomic Assessment of In-Flight Pilot Workload 621
Harbour, Christensen, Estepp, & Gray

Perceptual and Adaptation Implications with Display 3-D Spatial Location: Retrofit of HUD on a Tactical Airlift Platform 627
Harbour, Hudson & Zehner

Controller-Pilot Communication

Communication Sequences in Controller Pilot Communications..... 633
Histon, Rantanen, & Alm

*Recommendations Supporting Development of Flight Deck DataComm Text and Graphic Display
Evaluation Guidance* 639
Gallimore, Munoz, Oh, Crory, Green, Shingledecker, & Tsang

Controller-Pilot Communications in the Presence of Asynchronous UAS Radar Surveillance Data..... 645
Yuan, Histon, Burns, Waslander, & Dizaji

Pilot & ATC Selection

Looking for Chuck and PT: An Evidence-Based Approach to Assessing Helicopter Pilots..... 651
Dickens

The Psychomotor Vigilance Test: Sources of State and Trait Variance 657
Hoermann

The Utility of AT-SAT in Hiring Graduates of an Air-Traffic Collegiate Training Initiative Program ... 663
Pierce & Bleckley

Auditory/Vibrotactile Displays

*Comparing the Effects of Simulated, Intelligent Audible Checklists and Analog Checklists in Simulated
Flight*..... 669
Hilton & Hard

Flight Deck Audio Displays: Striking the Right Tone in Future Designs..... 679
Serber

Individual Differences in Perception and Performance of Advanced Navigation Systems 685
Garcia, Eisert, Payne, Baldwin & Finomore
