

# **2013 IEEE ICCE-China Workshop**

## **(ICCE-China Workshop 2013)**

**Shenzhen, China**  
**11 – 13 April 2013**

**IEEE Catalog Number: CFP13CCC-POD**  
**ISBN: 978-1-4799-0318-4**

# 2013 IEEE International Conference on Consumer Electronics - China

## Internet of Things

|                                                                                                                                                                                                                                                                                   |   |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| <i>Message-Oriented Protocol for Cloud Computing</i>                                                                                                                                                                                                                              |   |
| Joseph K.H. Wang (Volapu Tech, P.R. China) .....                                                                                                                                                                                                                                  | 1 |
| <i>A Message Transmission System for Opportunistic Networks</i>                                                                                                                                                                                                                   |   |
| Xuebin Ma (Inner Mongolia University, P.R. China), Zhang Yanwen (Inner Mongolia University, P.R. China) .....                                                                                                                                                                     | 5 |
| <i>Design and Development of Portable Fuzzy Logic based Traffic Optimizer</i>                                                                                                                                                                                                     |   |
| Kenneth Tze Kin Teo (Universiti Malaysia Sabah, Malaysia), Kiam Beng Yeo (University Malaysia Sabah, Malaysia), Shee Eng Tan (Universiti Malaysia Sabah, Malaysia), Zhan Wei Siew (Universiti Malaysia Sabah, Malaysia), Kit Guan Lim (Universiti Malaysia Sabah, Malaysia) ..... | 7 |

## Big Data/Analytics and Optimization

|                                                                                                                                      |    |
|--------------------------------------------------------------------------------------------------------------------------------------|----|
| <i>High Dynamic Range Tone Mapping Optimization on Perceptual Quality and Processor Specific Efficiency</i>                          |    |
| Tongren Wang (Tsinghua University, P.R. China), Xudong Zhang (Tsinghua University, Algeria) .....                                    | 13 |
| <i>Distributed Firewall for P2P Network in Data Center</i>                                                                           |    |
| Xinpei Jia (Harbin Institute of Technology, P.R. China), Joseph K.H. Wang (Volapu Tech, P.R. China) .....                            | 15 |
| <i>Automatic delineation of single-lead electrocardiograph fiducial points based on the hierarchical triple-extreme-points model</i> |    |
| Xiao shuang Shi (Tsinghua University, P.R. China) .....                                                                              | 20 |

## Multimedia coding and processing

|                                                                                                                                               |    |
|-----------------------------------------------------------------------------------------------------------------------------------------------|----|
| <i>Resources Sharing in HEVC De-Blocking Filter Core</i>                                                                                      |    |
| Jiayi Zhu (Waseda University, Japan), Satoshi Goto (Waseda University, Japan) .....                                                           | 26 |
| <i>Fast coding tree unit decision for HEVC intra coding</i>                                                                                   |    |
| Caixia Bai (Tsinghua University, P.R. China), Chun Yuan (Tsinghua University, P.R. China) .....                                               | 28 |
| <i>An Efficient Gradual Scene Boundary Detection Algorithm for H.264/AVC in Compressed Domain</i>                                             |    |
| Jielong Chen (Nanjing University, P.R. China), Jian Wang (Nanjing University, P.R. China), Xiaoyong Ji (Nanjing University, P.R. China) ..... | 32 |
| <i>Dense Depth Recovery Based on Adaptive Image Segmentation</i>                                                                              |    |
| Shangli Liang (Tsinghua University, P.R. China), Chun Yuan (Tsinghua University, P.R. China) .....                                            | 34 |

## ICT and Electronics Healthcare

|                                                                                                                                                                                                                                                                     |    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| <i>NFC-based Personal Information Management for U-Health</i>                                                                                                                                                                                                       |    |
| Young-Joon Moon (Jeju National University, Korea), Jung-Heum Park (Jeju National University, Korea), Wang-Cheol Song (Jeju National University, Korea), Do Kyeong Lee (Chonnam National University, Korea), Deokjai Choi (Chonnam National University, Korea) ..... | 39 |
| <i>Authentication for Electrical charging of EVs in the private area considering E-roaming</i>                                                                                                                                                                      |    |
| Moo-Sam Kang (Jeju National University, Korea), Zhongming Huang (Jeju National University, Korea), Tae Beom Kim (Jeju National University, Korea), Wang-Cheol Song (Jeju National University, Korea) .....                                                          | 41 |

## **Energy and System**

*A High Efficiency Charge Pump with Continuous Frequency Charge sharing Scheme*

Shuning Wang (Waseda University, Japan), Mengshu Huang (Waseda University, Japan),  
Yimeng Zhang (Waseda University, Japan), Tsutomu Yoshihara (Waseda University, Japan) ..... 45

*Modelling and Optimisation of Stand Alone Power Generation at Rural Area*

Kenneth Tze Kin Teo (Universiti Malaysia Sabah, Malaysia), Hui Hwang Goh (Universiti Tun  
Hussein Onn Malaysia, Malaysia), Bih Lii Chua (Universiti Malaysia Sabah, Malaysia), Sook  
Kwan Tang (Universiti Malaysia Sabah, Malaysia), Min Keng Tan (Universiti Malaysia Sabah,  
Malaysia) ..... 51

## **RF and wireless**

*A Novel Adaptive Filter for Interference Suppression*

Yu-mei Cui (Harbin Institute of Technology, P.R. China), Xing-peng Mao (Harbin Institute of  
Technology, P.R. China), Hong Hong (Harbin Institute of Technology, P.R. China) ..... 57

*Novel Positioning Scheme with Single Base Station for High Speed Train in WiMax Systems*

Qiwei Wang (Xidian University, P.R. China), Guangliang Ren (Xidian University, P.R. China) ..... 63

*A New Multistep Interpolation Method for Carrier Recovery in the Presence of Phase Noise*

Guoxiang Yang (Xidian University, P.R. China), Guangliang Ren (Xidian University, P.R.  
China), Qin Yu (Xidian University, P.R. China) ..... 67
