# Table of Contents

SPE-168964-MS

## **A New Methodology to Predict Condensate Production in Tight/Shale Retrograde Gas Reservoirs**

*S. Yu, ConocoPhillips*

SPE-168965-MS

## **Impact of Experimental Studies on Unconventional Reservoir Mechanisms**

*R.L. Rosen, W. Mickelson, M. Sharf-Aldin, B. Kurtoglu, T. Kosanke, Marathon Oil; M. Paiangle, ORC; R. Patterson, Metarock Laboratory; F. Mir, S. Narasimhan, ORC; A. Amini, Rice University, Now CGG Veritas*

SPE-168966-MS

## **Modeling Analysis of Transient Pressure and Flow Behavior at Horizontal Wells with Multi-Stage Hydraulic Fractures in Shale Gas Reservoirs**

*C. Wang, Y. Wu, Colorado School of Mines*

SPE-168967-MS

## **Simulation of Coupled Hydraulic Fracturing Propagation and Gas Well Performance In Shale Gas Reservoirs**

*X. Wang, CNPC USA; P.H. Winterfeld, Colorado School of Mines; X. Ma, Changqing Oilfield Company, Petrochina; D. Ye, Chuanqing Drilling Engineering Company; J. Miao, Y. Wang, CNPC USA; Y. Wu, Colorado School of Mines*

SPE-168968-MS

## **Simulation of Liquids Rich Shale Gas Reservoirs With Heavy Hydrocarbon Fraction Desorption**

*I.G. Brohi, C.R. Clarkson, University of Calgary*

SPE-168970-MS

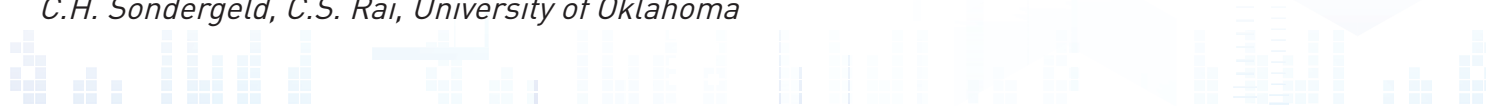

## **Effect of Pore Size Distribution and Connectivity on Phase Behavior and Gas Condensate Production From Unconventional Resources**

*A. Sanaei, University of Oklahoma; A. Jamili, University of Oklahoma MPGE; J. Callard, University of Oklahoma*

SPE-168971-MS

## **NMR Response of Brine, Oil and Methane in Organic Rich Shales**

*A. Tinni, University of Oklahoma; E.O. Odusina, Baker Hughes; I.D. Sulucarnain, Chevron; C.H. Sondergeld, C.S. Rai, University of Oklahoma*

SPE-168972-MS

### **Strategic Delineation of a Tight Oil Play**

*L.A. Garibaldi, S. Mathukutty, Halliburton; S. Cullick, LINN Energy*

SPE-168973-MS

### **Unconventional Asset Development Work Flow in the Eagle Ford Shale**

*D. Cook, K. Downing, S. Bayer, H. Watkins, V. Sun Chee Fore, M. Stansberry, S. Saksena, D.G. Peck, BHP Billiton*

SPE-168974-MS

### **Pressure Normalization of Production Rates Improves Forecasting Results**

*J.M. Lacayo, Texas A&M University; J. Lee, University of Houston*

SPE-168975-MS

### **Are the Laboratory Measurements of Proppant Crush Resistance Unrealistically Low?**

*J. Getty, C.R. Bulau, Montana Tech of The University of Montana*

SPE-168976-MS

### **Induced Fracture Complexity, When is it Really Required in Unconventional Reservoir Stimulation?**

*L. Sierra, M.J. Mayerhofer, Halliburton*

SPE-168977-MS

### **Evaluating the Benefits of Zipper Fracs in Unconventional Reservoirs**

*L. Sierra, M.J. Mayerhofer, Halliburton*

SPE-168978-MS

### **Probabilistic Forecasting of Horizontal Well Performance in Unconventional Reservoirs Using Publicly-Available Completion Data**

*G. Voneiff, Unconventional Resources; S. Sadeghi, Texas A&M university; P.A. Bastian, B.C. Wolters, J.E. Jochen, Unconventional Gas Resources; B. Chow, K. Chow, M. Gatens, UGR Blair Creek Ltd.*

SPE-168979-MS

### **CO<sub>2</sub>-Based Enhanced Oil Recovery from Unconventional Reservoirs: A Case Study of the Bakken Formation**

*G. Liu, J.A. Sorensen, University of North Dakota; J.R. Braunberger, Energy & Environmental Research Center; R. Klenner, J. Ge, University of North Dakota; C.D. Gorecki, Energy & Environmental Rsch Ctr; E.N. Steadman, J.A. Harju, University of North Dakota*

SPE-168980-MS

**Production Data Analysis of Overpressured Liquid-Rich Shale Reservoirs: Effect of Degree of Undersaturation**

*C.R. Clarkson, H. Behmanesh, H. Hamdi, University of Calgary; M. Heidari Sureshjani, IOR Research Center*

SPE-168981-MS

**Modification of the Transient Linear Flow Distance of Investigation Calculation for Use in Hydraulic Fracture Property Determination**

*H. Behmanesh, S. Tabatabaie, University of Calgary; M. Heidari Sureshjani, IOR Research Institute; C.R. Clarkson, University of Calgary*

SPE-168982-MS

**Immediate Gas Production from Shale Gas Wells: A Two-Phase Flowback Model**

*O.A. Adefidipe, H. Dehghanpour, University of Alberta; C.J. Virues, Nexen Energy*

SPE-168983-MS

**Assessment of the Mexican Eagle Ford Shale Oil and Gas Resources**

*C.A. Morales Velasco, D.A. McVay, Texas A&M University; J. Lee, University of Houston*

SPE-168984-MS

**Imbibition Characteristics of the Barnett Shale Formation**

*S. Morsy, J.J. Sheng, Texas Tech University*

SPE-168985-MS

**Improvement of Eagle Ford Shale Formation's Water Imbibition by Mineral Dissolution and Wettability Alteration**

*S. Morsy, Texas Tech University; A.M. Gomaa, Baker Hughes Ltd; J.J. Sheng, Texas Tech University*

SPE-168986-MS

**Using Simplified Local Density/ Peng-Robinson Equation of State to Study the Effects of Confinement in Shale Formations on Phase Behavior**

*Y. Ma, A. Jamili, University of Oklahoma*

SPE-168987-MS

**Development of a Stress Dependent Permeability Model in Tight Gas Reservoirs: A Case Study in Cooper Basin, Australia**

*M. Rezazadeh, M. Haghighi, K. Pokalai, University of Adelaide*

SPE-168988-MS

**New Type Curve Analysis Removes Limitations of Conventional After-Closure Analysis of DFIT Data**

*D.P. Craig, Reservoir Development Consulting*

SPE-168989-MS

**Statistical Reverse Model to Predict Mineral Composition and TOC Content of Marcellus Shale**

*G. Wang, University of Chinese Academy of Sciences, Beijing, China; T.R. Carr, West Virginia University; Y. Ju, University of Chinese Academy of Sciences, Beijing, China*

SPE-168990-MS

**3D Structural Modeling and Property Characterization for Optimized Completion Design in the Wolfcamp Formation, Delaware Basin**

*O. Azike, F.O. Ajisafe, T.L. Pope, Schlumberger; C.G. Burkhardt, A.S. Helmreich, M.W. Phelps, Clayton Williams Energy*

SPE-168991-MS

**The Potential Effect of Network Complexity on Recovery of Injected Fluid Following Hydraulic Fracturing**

*M.W. McClure, University of Texas at Austin*

SPE-168992-MS

**Well-spacing Study to Develop Stacked Tight Oil Pay in Midland Basin**

*A.S. Cullick, Linn Energy; M. Carrillo, LaRoche Petroleum Consultants; C. Clayton, Consulting Geologist; I. Ceyhan, Blade Energy Partners*

SPE-168993-MS

**Analysis of Gas Production From Hydraulically Fractured Wells In The Haynesville Shale Using Scaling Methods**

*F. Male, A.W. Islam, T.W. Patzek, University of Texas ; M. Marder, University of Texas at Austin*

SPE-168994-MS

**Cross-Correlating Seismic Attributes With Cumulative Production From Horizontal Wells in the Middle Bakken Unconventional Reservoir**

*R. Humphrey, C. Su, Hess ; I. Murray, J. Courtier, Hess Corporation*

SPE-168995-MS

**Wellbore Monitoring in Unconventional Reservoirs: Value of Accurate DTS Interpretation and Risks Involved**

*N. Kalia, B. Gorgi, E.H. Holley, Halliburton; A.S. Cullick, T.A. Jones, LINN Energy*

SPE-168996-MS

**Development and Field Applications of Highly Conductive Proppant-free Channel Fracturing Method**

*U.A. Inyang, P.D. Nguyen, J. Cortez, Halliburton*

SPE-168997-MS

**From Streamlines to Fast Marching: Rapid Simulation and Performance Assessment of Shale Gas Reservoirs Using Diffusive Time of Flight as a Spatial Coordinate**

*Y. Zhang, N. Bansal, Y. Fujita, A. Datta-gupta, M.J. King, Texas A&M University; S. Sankaran, Anadarko Petroleum Corp*

SPE-168998-MS

**The Effect of Osmotic Pressure on Improve Oil Recovery from Fractured Shale Formations**

*P. Fakcharoenphol, Colorado School of Mines; B. Kurtoglu, Marathon Oil; H. Kazemi, S. Charoenwongsa, Y. Wu, Colorado School of Mines*

SPE-169001-MS

**Impact of Surfactants for Wettability Alteration in Stimulation Fluids and the Potential for Surfactant EOR in Unconventional Liquid Reservoirs**

*J.O. Alvarez, A. Neog, A.I. Jais, D.S. Schechter, Texas A&M University*

SPE-169003-MS

**Modeling the Influence of Pressure Depletion in Fracture Propagation and Quantifying the Impact of Asymmetric Fracture Wings in Ultimate Recovery**

*D. Mata, B.V. Cherian, V.M. Gonzales, S.M. Higgins-Borchardt, Schlumberger; H. Han, Schlumberger Ltd*

SPE-169004-MS

**Understanding Shale Performance: Performance Analysis Workflow With Analytical Models in Eagle Ford Shale Play**

*O. Samandarli, E. McDonald, G. Barzola, M.A. Murray, P.L. Richmond, Pioneer Natural Resources*

SPE-169006-MS

**Probabilistic Estimate of Global Coalbed Methane Recoverable Resources**

*Z. Dong, Schlumberger ; S.A. Holditch, W.B. Ayers, Texas A&M University; J. Lee, University of Houston*

SPE-169007-MS

**Regional Impacts of Lithologic Cyclicity and Reservoir and Fluid Properties on Eagle Ford Shale Well Performance**

*Y. Tian, W.B. Ayers, W.D. McCain, Texas A&M University*

SPE-169008-MS

**Phase Behavior and Storage in Organic Shale Nanopores: Modeling of Multicomponent Hydrocarbons in Connected Pore Systems and Implications for Fluids-in-place Estimates in Shale Oil and Gas Reservoirs**

*K. Dhanapal, D. Devegowda, Y. Zhang, A. Contreras, F. Civan, R.F. Sigal, University of Oklahoma*

SPE-169009-MS

**Microfracturing in Tight Rocks: A Delaware Basin Case Study**

*M. Malik, K. Schwartz, Chevron; K. Moelhoff, V.K. Mishra, Schlumberger*

SPE-169010-MS

**A Novel Completion Method for Sequenced Fracturing in the Eagle Ford Shale**

*C.C. Kraemer, B. Lecerf, J.E. Torres, H. Gomez Conzatti y Martinez, D. Oussoltsev, Schlumberger; J.M. Rutledge, Marathon Oil ; D.M. Donovan, Marathon Oil Co; C. Philips, Marathon Oil*

SPE-169011-MS

**Practical Compartmental Model for Shale-gas Production by Multiple-Fractured Horizontal Wells Considering Transport Influenced by Nano-pore Proximity**

*B. Milad, F. Civan, D. Devegowda, R.F. Sigal, University of Oklahoma*

SPE-169012-MS

**A Sensitivity Study of Potential CO<sub>2</sub> Injection for Enhanced Gas Recovery in Barnett Shale Reservoirs**

*W. Yu, University of Texas ; E.W. Al-shalabi, ADNOC; K. Sepehrnoori, University of Texas*

SPE-169013-MS

**How Reliable is Production Data Analysis?**

*D.M. Anderson, J.M. Thompson, IHS*

SPE-169015-MS

**Case Histories From Fayetteville Shale: SRV Sizes, Fracture Networks, Spacing, Aperture Widths, and Implications for Proppant**

*I.D. Palmer, Higgs-Palmer Technologies; Z.A. Moschovidis, PCM Technical ; A. Schaefer, Aetman Engineering; S.F. Mcketta, Southwestern Energy*

SPE-169016-MS

**Fluid Compositional Prediction in Conventional and Unconventional Petroleum Systems**

*B. Horsfield, R. di Primio, GFZ German Research Centre for Geosciences*

SPE-169017-MS

**Oil Shale In-Situ Upgrading by Steam Flowing in Vertical Hydraulic Fractures**

*K. Lee, Texas A&M University; G.J. Moridis, Lawrence Berkeley Laboratory; C.A. Ehlig-Economides, Texas A&M University*

SPE-169018-MS

**A Study of Decline Curve Analysis in the Elm Coulee Field**

*S.C. Harris, Texas A&M University; J. Lee, University of Houston*

SPE-169021-MS

**An Investigation of Gas-Condensate Flow in Liquid-Rich Shales**

*M.I. Al Ismail, R.N. Horne, Stanford University*

SPE-169022-MS

**Experimental Investigation of Enhanced Recovery in Unconventional Liquid Reservoirs using CO<sub>2</sub>: A Look Ahead to the Future of Unconventional EOR**

*F.D. Tovar, Texas A&M University; O. Eide, A. Graue, University of Bergen; D.S. Schechter, Texas A&M University*

SPE-169023-MS

**Effectively Minimizing Offset Well Interference in Unconventional Reservoirs by Placing Targeted Fracturing Treatments: A Case History From the Granite Wash**

*E. Crawford, Linn Energy; L. Castro, P.L. Sherrard, Baker Hughes*

SPE-169024-MS

**Zonal Isolation Technology Enables Production Without Post-Frac Intervention**

*R.M. Allen, L.B. Oberg, Baker Hughes*

SPE-169025-MS

**A Study of Dynamic and Static Factors That are Critical to Multi-Well Reservoir Simulation of Liquid Rich Shale Plays**

*C.G. Miranda, H. Yang, Marathon Oil*
