Contents

Plenary Session

23 MAY (09:50-11:55)

PL1: Intelligent and Multi-Functional Textiles, Clothing and Footwear	2
PL2: Carbon Fibers, Nanotubes and Graphene	3
PL3: Characterising the Finite Deformations for the Drape and Formability of Textile Materials: Free Form and Form-fitting Deformations.....	5

Parallel Sessions

23 MAY (13:30 – 15:20)

Session 1A: Technical Textile

K1: Wettability Gradient-Driven Directional Water Transport Through Fabrics.....	8
O1: Electrospinning as a source of X-rays	10
O2: Power Generation from Randomly Oriented Electrospun Nanofiber Membranes	12
O3: Textile-based printed electrodes for muscles electrostimulation.....	14

Session 1B: Clothing

K2: Thermal comfort properties of standard and new denim fabrics in wet state	16
O4: The effect of ventilation on the thermal and moisture management properties of open structure fabric materials	18
O5: The Zoning of Thermal Insulation of Clothing in Winter Climate Conditions for Territory Mongolia	20
O6: Fabric Comfort and Elasticity Properties for Pressure Therapy Garments	21

Session 1C: Fibers & Polymers

K3: Enhancement in Structure-Properties of Poly (phenylene sulfide) Melt Spun Fibers by Multi-Zone Drawing and Annealing	23
O7: Preparation of Cellulose Nanoparticles from Cotton Fibers with Environmental Friendly Processes	25
O8: Poly (ether ether ketone) functionalized Multi-walled Carbon Nanotubes nanocomposite fibers.....	27
O9: Toughened Photocatalytic PHBV Microfibers by Electrospinning.....	29

23 MAY (15:40 – 17:30)

Session 2A: Technical Textile

K4: A Nanofiber Approach to Advanced Energy Storage	31
O10: Development of Nanofibers Before the Age of Nanotechnology: Looking Forward into the Future Through Looking Back Thirty Years of Electrospinning.....	33
O11: Polymer optical fiber strain sensor for human respiration monitoring.....	34
O12: Design of an Organic Photovoltaic Fibre Structure.....	36

Session 2B: Clothing

K5: Analysis of the 3-dimensional water transport in fabrics under pressure.....	38
O13: Clothing Haptics: The Paradigm of Bio and Neuro-Feedback for Quantitative Tactile Metrics.....	40
O14: Study of the Dynamic Bending Behavior of Woven Fabrics in Gentle Wind Field..	42
O15: Fiber Fly Generation of Yarns During Weaving Using Coarse Filling Yarns	45

Session 2C: Dyeing & Finishing

K6: Hydrophobic Textiles via bio-mimicking fabrication	47
O16: The Use of Chemical Foam Technology in Dyeing Applications	48
O17: Utilization of chitosan and fibroin hydrolysate as finishing agents for cotton fabric	53
O18: Color evaluation of Polypropylene/Dyed Superfine Down Powder blend Fibers	55

24 MAY (09:00 – 10:50)

Session 3A: Technical Textile

K7: Morphology and Self-decontamination of Polymer-Metal Oxide Fiber	57
O19: Application of Deodorant/Antibacterial Fabrics for Nursing Care	59
O20: Modeling moisture diffusion through nano and micro fibrous materials.....	61
O21: Vibration Isolation Performance of Warp-knitted Spacer Fabrics.....	63

Session 3B: Garment Manufacturing & Marketing

K8: Future of Textile Quality and Technology - Can They Be Unshackled from the Global Supply Chains?.....	65
O22: Using Agent Technology to Streamline Negotiations in Apparel Supply Chains	66
O23: RFID-based Intelligent Production Planning Systems for Apparel Manufacturing..	68
O24: Interruption management in virtual team communication	70

Session 3C: Dyeing & Finishing

K9: Colour Emotion: Numerical Expression and Its Application	72
O25: Improving of Dyed Silk Fabric Resistance Using Natural Dyes Against Micro-Organisms.....	74
O26: Bio-scouring of cotton fabric using saponin and pectinase.....	76
O27: Investigation of Crosslinking conditions and Softeners on the performance of easy-care cotton fabrics with different constructions	78

24 MAY (11:10-13:00)

Session 4A: Technical Textile

K10: Thin Flexible Insulating Coatings for Conductive Textile Fibers	80
O28: Composite Electrode Materials for Wearable Electronics.....	82
O29: Development of DSSC Textiles Using Stainless Steel Wire and Conductive Yarn...	83
O30: The performance of three dimensional integrated microstrip antennas with different conductive yarn configurations	85

Session 4B: Clothing

K11: Body Shape Components Analysis of Chinese Middle-School Teenage Girl through Body Scanning	87
O31: Pregnant women desire new clothes, but when?	89
O32: Development of a Computer Aided Construction Method for Fully Fashioning of Knit Panels	91
O33: Knitted Stretchable Interconnects for Wearable Electronics	93

Session 4C: Fibers & Polymers

K12: Multi-responsive Shape Memory Effects of Pyridine containing Polyurethanes	95
O34: Effects of Solvent Concentration in Coagulation Bath on the Structure and Shape Memory Properties of Shape Memory Fibers	97
O35: Structure Formation (Type I, II) in Solvent Cast IsotacticPoly(acrylonitrile) Film in Relation to the Instability of Solutions.....	99

24 MAY (15:00 – 16:25)

Session 5A: Hybrid Textile / Composite Textile

K13: Influence of fibre orientation and fibre impregnation on phosphate-based glass fibre reinforced pla composites.....	101
O36: Natural Fibers Textile Structures Suitable For Composite	103
O37: Anomalous Electrical Resistance of Hybrid Yarns Containing Metal Fibers.....	105

Session 5B: Clothing

K14: Transport Properties of Fibrous Materials: Modeling and Engineering.....	107
O38: The Sensitivity of the Wool Comfort Meter Measurement	109
O39: A Hybrid Stochastic Algorithm Applied to an Inverse Problem of Textile Thickness Design.....	111

Session 5C: Fibers & Polymers

K15 Lignin—A Renewable Precursor for Carbon Nanofibers.....	113
O40: Study of Conjugated Polymer Nanostructures Obtained by Dip-Pen Nanolithography	115
O41: Production Nanofiber Technology for Filtration and Other Applications.....	117

24 MAY (16:45 – 18:10)

Session 6A: Technical Textile

K16: The Application of Carbon Fibers, Carbon Nanotubes, and Graphene Coatings to Create Unique Textile Materials.....	119
O42: Semi-theoretical and Experimental Results Correlating the Filtration Efficiencies among Paraffin Oil (PO), Dioctyl Phthalate (DOP), and Sodium Chloride (NaCl) Aerosols.....	121
O43: Pressure Evaluation at the ankle and compliance issues with the application of compression stockings used in the treatment of venous disorders	122

Session 6B: Clothing

K17: Physiological Characteristics of Weak Acidic Fiber	125
---	-----

O44: The Effect of Microstructure on Kinetics of Dyeing Process of PP/PBT/Nanoclay Blend Nanocomposite Fibers	126
O45: Flexible Carbon Black/ Silicone Elastomer/ Silicone Oil Composites for Pressure Measurement	128
Session 6C: Fibers & Polymers	
K18: Functionalization of Nanofibres with nanoporous materials	130
O46: The Effect of Non-Solvent Addition on the Spinnability of Polyurethane Nanofibers	132
O47: Investigation of optimum concentration of polyethylene terephthalate (PET) polymeric solution to produce hollow nanofiber yarn	134
25 MAY (09:00 – 10:40)	
Session 7A: Clothing	
O48: An Investigation of Water Transport Properties of Warp Knitted Fabrics in Plant-based Structures	136
O49: Passage of moisture due to perspiration in fabrics	138
O50: The design development of a ventilated T-shirt	140
O51: Characterization of Protective Textile Material for Thermal Hazard	142
Session 7B: Technical Textile	
O52: Electrospraying and Electrospinning of Silk-Inspired Polyurethane Containing GlyAlaGlyAla Tetrapeptide.....	144
O53: Preparation and Characteristic of LaOCl Nanotubes by Coaxial Electrospinning .	146
O54: Highly Oriented Carbon Nanotube Paper by Spray Winding	148
O55: Surface Printing and Photonic Fibers for Design of Interactive Interior Textiles ...	150
Session 7C: Yarns	
O56: Variability of Yarn Torsional Rigidity	152
O57: Application of Low Torque Ring Spinning Technique on Finer Cotton Yarns	153
O58: The Effect of Nozzle Injector Angle of Jetring Spinning System on Yarn Properties	155
O59: Improving the pigment dyeing of cotton yarn by corona discharge.....	157
25 MAY (11:10 – 12:35)	
Session 8A: Others	
K19: Degradable Mulch for Agriculture: Year One Comprehensive Analysis of a Field Study.....	159
O60: Collaboration Concerns in Textiles Innovation Project.....	161
O61: Equestrian Body Protectors: Function, Comfort and Improvements	163
Session 8B: Clothing	
K20: Auxetic weft knitted fabric	165
O62: Ultraviolet Protection for Knitwear Fabric.....	167
O63: Mechanical Properties and Tactile Sensation of Woven Fabrics Made with Green and Coyote-brown Colored Cotton	168

List of Poster Papers

Fibers & Polymers

P1: Novel Cellulose Fiber Using Ionic Liquids as Solvent.....	171
P2: Characterization of Superfine Silk Powder/Polypropylene (PP) Blend Film	173
P3: Study of the Mechanism of Thermo-shrinkage for Industrial Yarn of PET Under the Heating Treatment Process	175
P4: Preparation and photocatalytic performances of TiO ₂ /SnO ₂ composite films supported on carbon fiber.....	177
P5: An investigation of the copolymerization temperature-property relationships in melt-processable acrylonitrile copolymer and fibers	179
P6: Preparation and characterization of electrospun poly (vinylidene fluoride)/ poly (methyl methacrylate) membrane	181
P7: Antibacterial Nanofibers Electrospun From Pyridine Containing Shape Memory Polyurethanes	183
P8: Surface modification of cellulose membrane by “click” reaction	185
P9: Crack propagation in polyacrylonitrile nanofiber during electrospinning process....	187
P10: Fabrication and Characterization of Silk Fibroin-doped Electrospun Polyurethane Nanofibers	189
P11: The Characteristic Analysis of PU/MWNT Film with Electrostatic Dissipation According to Manufacturing Condition	191
P12: Preparation of Antimicrobial Poly(vinyl alcohol) Nanofibers by Electrospinning..	193
P13: Multifunctionality of of Poly(vinyl alcohol) Nanofiber Webs Containing Titanium Dioxide	195
P14: A Simple Synthetic Approach to Connected Network and Slice of La ₂ O ₃ Nanofibers	197
P15: Mechanically adaptive cellulose modified with supra-molecular switch	199
P16: Novel Soluble Polyimide Nanofibers by Electrospinning	200
P17: The Morphology and Structure of Broussonetia Papyrifera (BP) Bast and Fibers	201
P18: Study on the Thermal Analyses of Formamide Pseudo-thermoplastic Potato Starch/Polyvinyl Alcohol Melting-spinning Materials.....	203
P19: Novel Nanofibrous Membranes with Antibacterial Functions	205
P20: Preparation and Characterization of Polyurethane/Silk Fibroin Blend Filament.....	207
P21: Experimental Investigation on the Thermal Insulation and Moisture Vapor Resistance of Fibrous Assembly Incorporating Reflective Interlayers	209
P22: An Investigation on the Influence of Temperature on Mechanical Properties of PET, PAN and Cotton Fibers.....	211
P23: Relation of Twist Factor & Blending Ratio and Strength & Elongation of Core Protein Fiber Yarn.....	215
P24: The Basic Property of Shengma Fibres.....	213
P25: Impact of Ionic Liquid on Phase Structure in Electrospun Bicomponent Fibers.....	217

P26: Study on Property of the Fiber Made From the Mixture of Mentha Extracts, Negative Anion Powder and Rayon Cellulose	219
P27: Study on the Antibacterial Property of Textiles with Artificial Antibacterial Fibers	221
P28: Bending Fatigue Properties of Nomex Fiber	223
P29: Photocatalytic Degradation Properties of Silica Doped Titania Nanofibers	225
Technical Textile & Processing	
P30: Study on The Hydrophilic Properties of PP/CHA Melt-blown Nonwoven Fabrics	227
P31: Breathable waterproof properties of shape memory polyurethane nanoweb	229
P32: Attachment of Two-way Shape Memory Alloy Springs onto fabric for Mass Production of Fire Fighters' Turnout Gear	231
P33: the Relationship between Compression Properties and the Structure of Polyester Warp-knitted Space Fabric	233
P34: Side-emitting Properties of POFs with Surface Patterns in Bent Woven Fabrics....	235
P35: Design and Weaving of Polymer Optical Fiber Jacquard Fabrics for Illumination .	237
P36: Development of Multifiber Vortex Yarn (Modal Polyester/Flax)	241
P37: Performance improvement of a three-dimensional microstrip antenna by removing its superstrate resin cover	243
P38: The investigation of kapok blended yarn spinning technology based on the quality of the yarn	245
P39: Study of Yarn Component Test Using Polarized Optical Microscope	247
P40: Nozzle Usage in Spinning Process and Changes in Yarn Hairiness	249
P41: Ramie Knitted Fabrics with Fast Moisture Absorption and Evaporation Properties	251
Dyeing & Finishing	
P42: Layer-by-layer self-assembly of polyelectrolyte/silver nanoparticles multilayers films on cotton fabric	253
P43: Effects of PET Pretreatments on β -Cyclodextrin Finish	255
P44: Novel Approach of UV-Protective Dyeing of Cotton Fabrics Using Reactive Dye and TiO ₂ -SiO ₂ Core-Shell Nanoparticles	257
P45: Biocatalytic Surface Modification of Polyethylene Terephthalate Fabric to Improve Comfortability	259
P46: Analysis on Aroma Reserving Effect of Aroma Finished Woven Fabrics	261
P47: Novel Antibacterial Cotton Textiles Finished with Siloxane Sulfopropylbetaine ...	263
P48: Study Of The Influence Of Sample Conditioning On Instrumental Colour Measurement On Nylon Interlock Fabric	265
P49: Dyeing of PLA fiber with Crucumin natural dye	267
P50: Decolorization of Textile Wastewater Using Modified Facultative Anaerobic Baffled Reactor	269
P51: A study on phenolic mordants for vegetable dyeing	271
P52: Antimicrobial and Antioxidant Activity of Wool Yarn Dyed by Walnut Leaves Extract	272
P53: Application of Selected Vegetable Dyes on Sisal Fibres – A Study	274

P54: Hydrophilic treatment of ES nonwoven fabrics as battery separator.....	276
P55: Effect of β -Cyclodextrin and Citric Acid on the Hydrophilic Property of PET Fabric	278
P56: A Study on Aroma Reserving Effect of Aroma Finished knitted Fabrics	280
P57: Characterization of natural bamboo fibers treated with sodium hydroxide	282
P58: Study on the Dyeing Process of Broussonetia Papyrifera Vent Fiber with Reactive Dyes	284
P59: Dyeing Properties of Unripe Citrus Grandis Osbeck on Lyocell Fabric.....	286
P60: Degumming and Characterization of Bast Fiber from Hibiscus.....	288
Clothing	
P61: Effective Water Vapour Permeability of Wet Functional Fabrics Determined by a New Method	290
P62: Transplanar Water Transport Tester for Measuring Dynamic Wetting Behavior of Fabrics	292
P63: Effect of aluminum deposition on the thermal comfort and waterproof-breathable performance of polyurethane nanowebs.....	294
P64: Influence of Knitting Parameters on Seamless Knitted Bra Stretch Tension and Subjective Tension Comfort Perception	296
P65: Statistical Modeling of Water Vapor Transport Through Woven Fabrics	298
P66: Effect of the Lower Cloth Opening on Dressing and Undressing from the Viewpoint of Muscle Activity	300
P67: Research on the occupational design of White-collar Women's Dress	301
P68: Measuring the effect of microclimate volume on clothing thermal insulation using 3D body scanner and thermal manikin.....	303
P69: An Efficient Approach of Evaluating the Three-dimensional Geometric Shape of Moulded Bra Cups.....	305
P70: Enhancing the Communication of Breast Sizing, Breast Beauty and Anthropometric Measurements.....	307
P71: Full-backed Effect Digital Jacquard Fabric Design Under Layered-combination Design Mode	309
P72: Study on the Sensory of the Monochrome Stripe on White Knitwear	311
Marketing & Quality & Others	
P73: An Empirical Study for Chinese Elderly Clothing Consumption	312
P74: Study of Energy-saving Reform in Garment Production Enterprises	314
P75: Optimum Female Body Phenotype for Physical Attractiveness	316
P76: Replacement of soles shoes thanks to new 3D nonwoven.....	318
Delegate List	320
