Table of Contents

The AISB'05 Convention - Social Intelligence and Interaction in Animals, Robots and Agents.....	i
<i>K.Dautenhahn</i>	
Symposium Preface - Second International Symposium on the Emergence and Evolution of Linguistic Communication (EELC'05).....	iv
<i>Angelo Cangelosi and Chrystopher L. Nehaniv</i>	
Colourful language and colour categories.....	1
<i>Tony Belpaeme and Joris Bleys</i>	
Self-organized Diversification of Signals of Different Species.....	8
<i>Alexander Bisler</i>	
Why Information can be Free.....	17
<i>Ivana Čače and Joanna J. Bryson</i>	
A distributed view of language origins.....	23
<i>Stephen J. Cowley</i>	
Examining Diversity in Cultural Learning.....	29
<i>Dara Curran and Colm O'Riordan</i>	
The co-evolution of language and music.....	34
<i>W. Tecumseh Fitch</i>	
The Emergence of MetaCommunicative Interaction: some theory, some practice.....	35
<i>Jonathan Ginzburg and Zoran Macura</i>	
Learning and Transition of Symbols in Chaotic Dynamical System: Toward Dynamical Model of Symbolic Individual.....	41
<i>Takashi Hashimoto and Akira Masumi</i>	
Could Navigation Be the Key to Language?	50
<i>Dimitar Kazakov and Mark Bartlett</i>	
The Evolution of Meaning-space Structure through Iterated Learning.....	56
<i>Simon Kirby</i>	
Entropy Indicators for Investigating Early Language Processes.....	64
<i>Caroline Lyon, Chrystopher L. Nehaniv, and Bob Dickerson</i>	
Contextual semanticization of songstring syntax: a possible path to human language.....	72
<i>Bjorn Merker and Kazuo Okanoya</i>	
Language Change in Modified Language Dynamics Equation by Memoryless Learners.....	77
<i>Makoto Nakamura, Takashi Hashimoto and Satoshi Tojo</i>	
Open Problems in the Emergence and Evolution of Linguistic Communication: A Road-Map for Research.....	86
<i>Chrystopher L. Nehaniv</i>	
Neural substrates for segmentation and semanticization of song strings.....	94
<i>Kazuo Okanoya and Bjorn Merker</i>	

The Self-Organized Origins of Phonotactics and Phonological Patterns.....	99
<i>Pierre-Yves Oudeyer</i>	
Selection, domestication, and the emergence of learned communication systems.....	108
<i>Graham Ritchie and Simon Kirby</i>	
Emergence of a Communication System: International Sign.....	117
<i>Rachel Rosenstock</i>	
A Model for Knowledge Transfer via Linguistic Communication.....	129
<i>Yoshihisa Shinozawa and Akito Sakurai</i>	
Stable communication through dynamic language.....	135
<i>Andrew D. M. Smith</i>	
What triggers the emergence of grammar?	143
<i>Luc Steels</i>	
'Needs only analysis' in linguistic ontogeny and phylogeny.....	151
<i>Alison Wray</i>	

**31st Annual Convention of the Society
for the Study of Artificial Intelligence
and the Simulation of Behaviour
(AISB 2005)**

**Social Intelligence and Interaction in
Animals, Robots and Agent**

**Agents that Want and Like: Motivational and
Emotional Roots of Cognition and Action**

**Hatfield, United Kingdom
14-15 April 2005**

ISBN: 978-1-63266-834-9

Table of Contents

The AISB'05 Convention - Social Intelligence and Interaction in Animals, Robots and Agents.....	i
<i>K.Dautenhahn</i>	
Symposium Preface - Agents that Want and Like.....	iv
<i>Lola Cañamero</i>	
Emotion as Motivated Behaviour.....	1
<i>George Ainslie</i>	
Hormonal Modulation of Perception in Motivation-Based Action Selection Architectures.....	9
<i>Orlando Avila-García and Lola Cañamero</i>	
Personality and Learning in Robots: the Role of Individual Motivations/ Expectations/ Emotions in Robot Adaptive Behaviours.....	17
<i>Barbara Caci, Maurizio Cardaci, Antonio Chella, Antonella D'Amico, Ignazio Infantino & Irene Macaluso</i>	
A model of emotional influence on memory processing.....	21
<i>Philippe Chassy and Fernand Gobet</i>	
Analysis of the human physiological responses and multimodal emotional signals to an interactive computer.....	25
<i>M. R. Ciceri, S. Balzarotti and P. Colombo</i>	
Motivation-Driven Learning of Action Affordances.....	33
<i>Ignasi Cos-Aguilera, Lola Cañamero and Gillian M. Hayes</i>	
Figurative language expressing emotion and motivation in a webbased learning environment.....	37
<i>Manuela Delfino and Stefania Manca</i>	
Experimental Study Of Emotional Manifestations During A Problem-Solving Activity.....	41
<i>Delphine Duvallat and Evelyne Clément</i>	
Emotions as Evaluations.....	45
<i>Peter Goldie and Sabine A. Döring</i>	
A consideration of decision-making, motivation and emotions within Dual Process theory: supporting evidence from Somatic-Marker theory and simulations of the Iowa Gambling task.....	51
<i>Kiran Kalidindi, Howard Bowman, and Brad Wyble</i>	
Emotion and motivation in embodied conversational agents.....	55
<i>Nicole C. Krämer, Ido A. Iurgel and Gary Bente</i>	
The emotive episode is a composition of anticipatory and reactive evaluations.....	62
<i>Mercedes Lahnstein</i>	
Motives inside out.....	70
<i>Kamalini Martin</i>	
Synthetic Emotivectors.....	72
<i>Carlos Martinho and Ana Paiva</i>	
Models of misbelief: Integrating motivational and deficit theories of delusions.....	76
<i>Ryan McKay, Robyn Langdon and Max Coltheart</i>	

Emotions as reasons for action: a two-dimensional model of meta-telic orientations and some empirical findings.....	84
<i>Ulrich Mees and Annette Schmitt</i>	
Cogito Ergo Ago: Foundations for a Computational Model of Behaviour Change.....	86
<i>Cosimo Nobile and Floriana Grasso</i>	
See What You Want, Believe What You Like: Relevance and Likeability in Belief Formation.....	90
<i>Fabio Paglieri</i>	
Cost minimisation and Reward maximisation. A Neuromodulating minimal disturbance system using anti-hebbian spike timing-dependent plasticity.....	98
<i>Karla Parussel and Leslie S. Smith</i>	
Motivating Dramatic Interactions.....	102
<i>Stefan Rank and Paolo Petta</i>	
Symbolic Objects and Symbolic Behaviors: Cognitive Support for Emotion and Motivation in Rational Agents.....	108
<i>Antônio Carlos da Rocha Costa and Paulo Luis Rosa Sousa</i>	
An Affective Model of Action Selection for Virtual Humans.....	110
<i>Etienne de Sevin and Daniel Thalmann</i>	
Integrating Domain-Independent Strategies into an Emotionally Sound Affective Framework for an Intelligent Learning Environment.....	114
<i>Mohd Zaliman Yusoff and Benedict du Boulay</i>

Table of Contents

The AISB'05 Convention - Social Intelligence and Interaction in Animals, Robots and Agents.....	i
<i>K. Dautenhahn</i>	
Symposium Preface - Third International Symposium on Imitation in Animals and Artifacts	iv
<i>Yiannis Demiris, Kerstin Dautenhahn, Chrystopher Nehaniv</i>	
Robot Imitation from Human Body Movements.....	1
<i>Carlos A. Acosta Calderon and Huosheng Hu</i>	
Achieving Corresponding Effects on Multiple Robotic Platforms: Imitating in Context Using Different Effect Metrics.....	10
<i>Aris Alissandrakis, Chrystopher L. Nehaniv, Kerstin Dautenhahn, and Joe Saunders</i>	
Acquisition of a "mirror" system for speechreading.....	20
<i>Luc Berthouze</i>	
Using Visual Velocity Detection to Achieve Synchronization in Imitation.....	26
<i>Arnaud J. Blanchard and Lola Cañamero</i>	
Learning Discretely: Behaviour and Organisation in Social Learning.....	30
<i>Joanna J. Bryson and Mark A. Wood</i>	
Motor resonance and MOSAIC.....	38
<i>Thierry Chaminade</i>	
Interpersonal Maps and the Body Correspondence Problem.....	48
<i>Verena H. Hafner and Frédéric Kaplan</i>	
Teaching a Robot to Behave Like a Cockroach.....	54
<i>Thomas Hellström</i>	
Goal level imitation with emergent repertoires.....	62
<i>Bart Jansen</i>	
Hierarchies of Coupled Inverse and Forward Models for Abstraction in Robot Action Planning, Recognition and Imitation.....	69
<i>Matthew Johnson and Yiannis Demiris</i>	
A Developmental Roadmap for Task Learning by Imitation in Humanoid Robots.....	77
<i>Manuel Lopes, Alexandre Bernardino, and José Santos-Victor</i>	
Joint Attention Development in Infant-like Robot Based on Head Movement Imitation.....	87
<i>Yukie Nagai</i>	
Grey Parrots Do Not Always "Parrot": Roles of Imitation and Phonological Awareness in the Creation of New Labels from Existing Vocalisations.....	97
<i>Irene M. Pepperberg</i>	
Human and Robotic Action Observation Elicit Automatic Imitation.....	105
<i>Clare Press, Geoffrey Bird, Rüdiger Flach, and Cecilia Heyes</i>	
An Examination of the Static to Dynamic Imitation Spectrum.....	109
<i>Joe Saunders, Chrystopher Nehaniv, and Kerstin Dautenhahn</i>	

View Sensitive Cells as a Neural Basis for the Representation of Others in a Self-Centered Frame of Reference.....	119
<i>Eric L. Sauser and Aude G. Billard</i>	
Non-Conscious Imitation has Consequences That Go Beyond the Dyad.....	128
<i>Rick van Baaren and Tanya L. Chartrand</i>

Symposium Preface - Robotics, Mechatronics and Animatronics in the Creative and
Entertainment Industries and Arts iv
Tony Hirst & Ashley Green

A Recent History?

SAM, The Senster and the Bandit: Early Cybernetic Sculptures by Edward Ihnatowicz..... 1
Aleksandar Zivanovic

Reaching Out...

The Development and Effectiveness of the CYCLER Educational Presentation Robots..... 8
Martin Smith & David Buckley

Robot thought – A Dialogue Event for Family Audiences..... 14
Karen Bultitude, Ben Johnson, Frank Burnet, Dylan Evans & Alan Winfield

A Lifelike Robotic Policeman with Realistic Motion and Speech..... 22
Martin Smith & David Buckley

Giving it Meaning...

iCat: Experimenting with Animabotics..... 27
Albert van Breemen

Real Tech Support for Robotics..... 33
Marc Böhlen

Narrative in Robotics Scenarios for Art Works..... 40
Daniel A. Bisig & Adrienne Wortzel

State of the Art...

‘Stigmergy’: Biologically-Inspired Robotics Art..... 45
Mike Blow

Osama Seeker..... 53
Darren Southee, Julie Henry & Giles Perry

There Does Not, in Fact, Appear to be a Plan: A Collaborative Experiment in Creative Robotics..... 58

Table of Contents

The AISB'05 Convention - Social Intelligence and Interaction in Animals, Robots and Agents.....	i
<i>K.Dautenhahn</i>	
Symposium Preface - Robot Companions.....	iv
<i>Kerstin Dautenhahn, René te Boekhorst</i>	
Cultural Differences in Attitudes Towards Robots.....	1
<i>Christoph Bartneck, Tatsuya Nomura, Takayuki Kanda, Tomohiro Suzuki, Kenssuke Kato</i>	
Alternative model-building for the study of socially interactive robots.....	5
<i>Meurig Beynon, Antony Harfield, Sunny Chang</i>	
Challenges in designing the body and the mind of an interactive robot.....	16
<i>Aude Billard</i>	
Effective Spoken interfaces to service robots: Open problems.....	18
<i>Guido Bugmann</i>	
Evaluation Criteria for Human Robot Interaction.....	23
<i>Catherina Burghart, Roger Haeussling</i>	
“Robotic Rich” Environments for Supporting Elderly People at Home: the RobotCare Experience... 32	
<i>Amedeo Cesta, Alessandro Farinelli, Luca Iocchi, Riccardo Leone, Daniele Nardi, Federico Pecora, Riccardo Rasconi</i>	
Embodied social interaction for robots.....	40
<i>Henrik I. Christensen, Elena Pacchierotti</i>	
Coping strategies and technology in later life.....	46
<i>M. V. Giuliani, M. Scopelliti, F. Fornara</i>	
Communication Robots for Elementary Schools.....	54
<i>Takayuki Kanda, Hiroshi Ishiguro</i>	
My Gym Robot.....	64
<i>P. Marti, F. Fano, V. Palma, A. Pollini, A. Rullo, T. Shibata</i>	
Classifying Types of Gesture and Inferring Intent.....	74
<i>Chrystopher L. Nehaniv</i>	
Robots as Isolators or Mediators for Children with Autism? A Cautionary Tale.....	82
<i>Ben Robins, Kerstin Dautenhahn, Janek Dubowski</i>	
Bringing it all together: Integration to study embodied interaction with a robot companion.....	89
<i>Jannik Fritsch, Britta Wrede, Gerhard Sagerer</i>	
Human Interactive Robot for Psychological Enrichment and Therapy.....	98
<i>Takanori Shibata, Kazuyoshi Wada, Tomoko Saito, Kazuo Tanie</i>	
Practical and Methodological Challenges in Designing and Conducting Human-Robot Interaction Studies.....	110
<i>Michael L. Walters, Sarah Woods, Kheng Lee Koay, Kerstin Dautenhahn</i>	
Ontological and Anthropological Dimensions of Social Robotics.....	121
<i>Jutta Weber</i>	

Child and Adults' Perspectives on Robot Appearance.....126
Sarah Woods, Kerstin Dautenhahn, Joerg Schulz

Poster presentations

The necessity of enforcing multidisciplinary research and development of embodied
Socially Intelligent Agents.....133
Julie Hillan

Human-Robot Interaction Experiments: Lessons learnt.....141
Cory D. Kidd, Cynthia Breazeal

Ethical Issues in Human-Robot Interaction.....143
Blay Whitby

The AISB'05 Convention - Social Intelligence and Interaction in Animals, Robots and Agents.....	i
<i>K.Dautenhahn</i>	
Symposium Preface - Conversational Informatics for Supporting Social Intelligence & Interaction...	iv
<i>Yukiko I. Nakano and Toyoaki Nishida</i>	
Conversational Agents, Humorous Act Construction, and Social Intelligence.....	1
<i>Anton Nijholt</i>	
DigitalBlush: Towards a self-conscious community.....	9
<i>Asimina Vasalou and Jeremy Pitt</i>	
Mining Social Networks in Message Boards.....	18
<i>Naohiro Matsumura, David E. Goldberg and Xavier Llorà</i>	
Engagement During Dialogues with Robots [Invited talk]	27
<i>Candace L. Sidner, Christopher Lee and Cory Kidd</i>	
A Two-layered Approach to Make Human-Robot Interaction Social and Robust.....	32
<i>Yong Xu, Takashi Tajima, Makoto Hatakeyama, Yasuyuki Sumi and Toyoaki Nishida</i>	
Establishing Natural Communication Environment between a Human and a Listener Robot.....	42
<i>Yoshiyasu Ogasawara, Masashi Okamoto, Yukiko I. Nakano and Toyoaki Nishida</i>	
Reading of intentions that appear as diverse nonverbal information in face-to-face communication...	52
<i>Yoshimasa Ohmoto, Kazuhiro Ueda and Takanori Komatsu</i>	
An Embodied Conversational Agent for Interactive Videogame Environments.....	58
<i>Ian Kenny and Christian Huyck</i>	
Identifying Affectemes: Transcribing Conversational Behaviour.....	64
<i>Lesley Axelrod and Kate Hone</i>	
Towards Context-Based Visual Feedback Recognition for Embodied Agents.....	69
<i>Louis-Philippe Morency, Candace Sidner and Trevor Darrell</i>	
Interactive e-Hon: Translating Web Contents into a Storybook World.....	73
<i>Kaoru Sumi and Katsumi Tanaka</i>	
Sustainable Knowledge Globe: A System for Supporting Content-oriented Conversation.....	80
<i>Hidekazu Kubota, Yasuyuki Sumi and Toyoaki Nishida</i>	
Supporting the Creation of Immersive CG Contents with Enhanced User Involvement.....	87
<i>Masashi Okamoto, Kazunori Okamoto, Yukiko I. Nakano and Toyoaki Nishida</i>	
Interactive Media for Gently Giving Instructions -Basic idea of watching and teaching users.....	97
<i>Takuya Kosaka, Yuichi Nakamura, Yuichi Ohta and Yoshinari Kameda</i>	

Automatic Content Production for an Autonomous Speaker Agent.....	103
<i>Karlo Smid, Igor S. Pandzic and Viktorija Radman</i>	
An Audiovisual Information Fusion Approach to Analyze the Communication Atmosphere.....	113
<i>Tomasz M. Rutkowski, Koh Kakusho, Michihiko Minoh, Victor V. Kryssanov and Anca Ralescu</i>	
Conversational Locomotion of Virtual Characters.....	121
<i>Soh Masuko and Junichi Hoshino</i>	
Awareness of Perceived World and Conversational Engagement by Conversational Agents.....	128
<i>Yukiko I. Nakano and Toyoaki Nishida</i>	
Eye Movement as an Indicator of Users' Involvement with Embodied Interfaces at the Low Level....	136
<i>Chunling Ma, Helmut Prendinger and Mitsuru Ishizuka</i>	
Informing the Design of Embodied Conversational Agents by Analyzing Multimodal Politeness Behaviors in Human-Human Communication.....	144
<i>Matthias Rehm and Elisabeth André</i>

Theme Preface - Memetic Theory in Artificial Systems & Societies.....	3
<i>Natalio Krasnogor and Steven Gustafson</i>	
Pfeiffer - A Distributed Open-ended Evolutionary System.....	7
<i>W. B. Langdon</i>	
Operationalization of Meme Selection Criteria: Methodologies to Empirically Test Memetic Predictions.....	14
<i>Klaas Chielens and Francis Heylighen</i>	
Simulation models for biological and cultural evolution.....	21
<i>Agner Fog</i>	
A Dynamic Network Flow Theoretical Model of Information Diffusion.....	27
<i>Peter T. Breznay</i>	
Stigmergetic Communication for Cooperative Agent Routing in Virtual Environments.....	37
<i>Steffen Priesterjahn, Andreas Goebels and Alexander Weimer</i>	
Towards the Emergent Memetic Control of a Module Robot.....	45
<i>Alexander Weimer, Steffen Priesterjahn and Andreas Goebels</i>	
Theme 2: Emerging Artificial Societies.....	53
Theme Preface - Emerging Artificial Societies.....	55
<i>Nigel Gilbert</i>	
Environment design for emerging artificial societies.....	57
<i>Nigel Gilbert, Stephan Schuster, Matthijs den Besten and Lu Yang</i>	
Peer-to-peer networks for scalable grid landscapes in social agent simulations.....	64
<i>B.G.W. Craenen and B. Paechter</i>	
New Ties Agent.....	72
<i>A.R. Griffioen, M.C. Schut, A.E. Eiben, Á. Bontovics, Gy. Hévízi and A. Lőrincz</i>	
Language evolution in large populations of autonomous agents: issues in scaling.....	80
<i>Paul Vogt and Federico Divina</i>	
Environmental risk.....	88
<i>Peter Andras, John Lazarus, Gilbert Roberts and Steven J Lynden</i>	
The Emergence of Symbiotic Groups Resulting From Skill - Differentiation and Tags.....	95
<i>Bruce Edmonds</i>	

Behavioural Norms and the Evolution of Societies.....	103
<i>Stephen M. Younger</i>	
Finding Cooperative (tag-based) Stereotypes with Semi-Automated Searching	109
<i>David Hales</i>	
Theme 3: Engineering with Social Metaphors.....	119
Theme Preface - Engineering with Social Metaphors.....	121
<i>David Hales and Bruce Edmonds</i>	
Engineering Emergence through Gossip (Invited talk).....	123
<i>Márk Jelasity</i>	
Using Localised 'Gossip' to Structure Distributed Learning.....	127
<i>Bruce Edmonds</i>	
Comparison of Reproduction Schemes in an Artificial Society for Cooperative Gathering.....	135
<i>A.E. Eiben, G.S. Nitschke, and M.C. Schut</i>	
A Social Semantic Infrastructure for Decentralised Systems Based on Specification-Carrying Code and Trust (Invited talk).....	143
<i>Giovanna Di Marzo Serugendo and Michel Deriaz</i>	
Towards a Simulation Tool for Evaluating Dynamic Reorganization of Agent Societies.....	153
<i>Virginia Dignum, Frank Dignum, Vasco Futado, Adriano Melo, and Liz Sonenberg</i>	
Two-Sides of Emergence in Participatory Simulations.....	163
<i>Paul Guyot and Alexis Drogoul</i>	
Agent-based participatory simulation activities for the emergence of complex social behaviours.....	170
<i>Stefano Cacciaguerra, and Matteo Roffilli</i>	
Engineering with Sociological Metaphors: Examples and Prospects.....	178
<i>David Hales</i>

<i>Lynne Hall, Dirk Heylen, Stacy Marsella, Catherine Pelachaud, Peter Wallis and Sarah Woods</i>	
Theme 1: Social Presence Cues for Virtual Humanoids	1
Theme Preface – Social Presence Cues for Virtual Humanoids	3
<i>Peter Wallis and Catherine Pelachaud</i>	
To the rescue of a lost identity: Social perception in human-chatterbot interaction.....	7
<i>Antonella De Angeli</i>	
On the Nature of Presence.....	15
<i>Kristinn R. Thórisson</i>	
Toward an Empirical Schema-Based Model of Interaction for Embedded Conversational Agents.....	22
<i>Stéphane Bonneaud, Gabriel Ripoché and Jean-Paul Sansonnet</i>	
The Trouble with Chatbots: social skills in a social world.....	29
<i>Peter Wallis and Emma Norling</i>	
Towards Direction of Attention Detection for Conversation Initiation in Social Agents.....	37
<i>Christopher Peters</i>	
Challenges Ahead: Head movements and other social acts during conversations.....	45
<i>Dirk Heylen</i>	
Reference and Gestures in Dialogue Generation: Three Studies with Embodied Conversational Agents.....	53
<i>Paul Piwek, Judith Masthoff and Malin Bergenstråhle</i>	
Theme 2: Empathic Interaction with Synthetic Characters	61
Theme Preface - Empathic Interaction with Synthetic Characters	63
<i>Lynne Hall and Sarah Woods</i>	
Can Embodied Conversational Agents Induce Empathy In Users?	65
<i>Fiorella de Rosi, Addolorata Cavalluzzi, Irene Mazzotta and Nicole Novielli</i>	
Empathy with Computer Game Characters: A Cognitive Neuroscience Perspective.....	73
<i>India Morrison and Tom Ziemke</i>	
The sense of well-being derived from empathy and attachment for a cohabitant character.....	80
<i>Naoko Matsumoto and Akifumi Tokosumi</i>	
The use of emotionally expressive avatars in Collaborative Virtual Environments.....	88
<i>Marc Fabri and David Moore</i>	
Using Empathic Agents to Prevent and Treat Depression in Adolescents.....	95
<i>Lynne Newall and Lynne Hall</i>	

Development and Evaluation of an Empathic Tutoring Agent.....	103
<i>Kate Hone, Lesley Axelrod and Brijesh Parekh</i>	
MediaStage a Tool for Authoring Experiments in Empathic Interaction.....	109
<i>Donna Burton-Wilcock and Ross Walker</i>	
Vicariously there: connected with our own and other characters.....	115
<i>Tim Marsh, Kiyoungh Yang and Cyrus Shahabi</i>	
Empathic Interaction with a Virtual Guide.....	122
<i>Mei Yui Lim, Ruth Aylett and Christian Martyn Jones</i>	
Personality and Behaviour Modelling Based on Cathexis Flux.....	130
<i>Antonio Rodriguez-Diaz, Alfredo Cristobal-Salas, Manuel Castañon-Puga, Carmen Jauregui-Romo, and Carlos Gonzalez-Sanchez</i>	
Unnatural but lively voice synthesis for empathic, synthetic performers.....	137
<i>Christopher Newell and Alistair Edwards</i>	
Inflicting Pain on Synthetic Characters: Moral Concerns and Empathic Interaction.....	144
<i>Lynne Hall</i>	
Theme 3: Mind Minding Agents	151
Theme Preface - Mind Minding Agents	153
<i>Dirk Heylen and Stacy Marsella</i>	
ToM & BIC Intentional Behavioral Communication as Based on Theory of Mind.....	155
<i>Cristiano Castelfranchi</i>	
Foundations of an Agent Theory of Mind Model for Conversation Initiation in Virtual Environments.....	163
<i>Christopher Peters</i>	
In Favour of Cognitive Models of Emotion.....	171
<i>Valeria Carofiglio and Fiorella de Rosis</i>	
Theory of Mind and Coping in Discourse.....	177
<i>Bilyana Martinovski and Stacy Marsella</i>	
The Effect of Familiarity on Knowledge Synchronisation.....	185
<i>Andrew Lee</i>	
Learning to reason about other people's minds.....	191
<i>Lisette Mol, Rineke Verbrugge and Petra Hendriks</i>	
Modeling influence and theory of mind.....	199
<i>Stacy C. Marsella and David V. Pynadath</i>	
A Believable Group in the Synthetic Mind.....	207
<i>Rui Prada and Ana Paiva</i>
