

2014 International Conference on Smart Communications in Network Technologies

(SaCoNeT 2014)

**Barcelona, Spain
18-20 June 2014**

**IEEE Catalog Number: CFP14YAP-POD
ISBN: 978-1-4799-5197-0**

IWQM 2014 2nd International Workshop on Quality Monitoring

Technical Session:

- *Analysis of Facebook content demand patterns* 1
Maria Kihl, Robin Larsson Niclas Unnervik, Jolina Haberkamm (Lund University, Sweden), Åke Arvidsson (Ericsson AB, Sweden), Andreas Aurelius (Acreo Swedish ICT AB, Sweden)
- *Performance Evaluation of Video transmission over 802.11n wireless network: A MAC layer perspective* 7
Jeevan Pokhrel, Indira Paudel, Ana Cavalli, Badii Jouaber (Institut Mines Telecom, France), Bachar Wehbi (Montimage, France)
- *On developing efficient Unmanaged Services in Content Aware Networks* 13
Jordi Mongay Batalla and Piotr Krawiec (National Institute of Telecommunications, Poland)

2014 International Conference on Smart Communications in Network Technologies (SaCoNeT)

Technical Session 1: Next Generation Networks

- *Proposal of a new information-theory based technique and analysis of traffic anomaly detection* 19
Antonio Cuadra-Sanchez (Indra, Spain); Javier Aracil , (Universidad Autonoma de Madrid, Spain)
- *Large-scale SDN experiments in federated environments* 25
Gino Carrozzo (Nextworks s.r.l., Italy); Roberto Monno (Nextworks, Italy); Bartosz Belter (PSNC, Poland); Radek Krzywania (PSNC, Poland); Kostas Pentikousis (EICT, Germany); Matthew Broadbent (EICT, Germany); Tomohiro Kudoh (AIST, Japan); Atsuko Takefusa (AIST, Japan); Albert Vico (I2CAT, Spain); Carolina Fernandez (I2CAT, Spain); Bart Puype (Ghent University, Belgium); Jin Tanaka (KDDI, Japan)
- *Diagnosis of Route Leaks Among Autonomous Systems In The Internet* 31
Muhammad Shuaib Siddiqui (UPC, Spain); Diego Montero (UPC, Spain); Marcelo Yannuzzi (UPC, Spain); René Serral-Gracià (UPC, Spain); Xavier Masip-Bruin (UPC, Spain)
- *A New Mechanism for SDN Network Virtualization Service* 37
Changcheng Huang (Carleton University, Canada); Jiafeng Zhu (Huawei Technologies Co., Ltd., USA); Min Luo (Huawei Technologies Company, P.R. China); Wu Chou (Huawei Technologies Co., Ltd., P.R.China)
- *Towards a Service-Oriented and Component-Based Transport layer* 43
Mohamed Oulmahdi (LAAS-CNRS, France); Guillaume Dugue (LAAS-CNRS, France); Christophe Chassot (LAAS-CNRS, Université de Toulouse, France)

Technical Session 2: Smarting Network Capacities

- *Virtual Network Function Scheduling: Concept and Challenges*
Jordi Ferrer Riera, Eduard Escalona, Josep Batallé, Eduard Grasa, Joan A. García-Espín (i2cat, Spain)
- *A generalized distributed consensus algorithm for monitoring and decision making in the IoT*
Philippe Owezarski (LAAS-CNRS, France); Denis Carvin (LAAS -CNRS, France); Pascal Berthou (CNRS/LAAS - Université de Toulouse, France)
- *Leveraging Net2Plan planning tool for network orchestration in OpenDaylight*
Jose-Luis Izquierdo-Zaragoza (Universidad Politécnica de Cartagena, Spain); Pablo Pavon-Marino (Universidad Politécnica de Cartagena, Spain)
- *Can OpenFlow make transport networks smarter and dynamic? An overview on Transport SDN*
Rodolfo Alvizu (Politecnico di Milano, Italy); Guido Maier (Politecnico di Milano, Italy)
- *Infrastructureless smart cities. Use cases and performance*
Josep Paradells (Universitat Politecnica de Catalunya, Spain); Joaquim Oller Universitat Politecnica de Catalunya, Spain); Marisa Catalan (Technical University of Catalonia (UPC), Spain); Ilker Demirkol (Universitat Politecnica de Catalunya, Spain); Carles Gomez (UPC, Spain)

Technical Session 3: Wireless Networks

- *Wireless Sensor Network Cloud Services: Towards a Partial Delegation*
Clement Duhart (LITIS, France); Michel Cotsaftis (ECE Paris School of Engineering, France); Cyrille Bertelle (Le Havre University, France)
- *A Smart Methodology for Deterministic Deployment of Wireless Sensor Networks*
Mustapha Reda Senouci (EMP, Algeria); Mohamed El Yazid Boudaren (Ecole Militaire Polytechnique, Algeria); Mohamed Abdelkrim Senouci (UPEC, France); Abdelhamid Mellouk (UPEC, University Paris-Est Creteil Val de Marne, France)
- *IMAKA-Tate: Secure and Efficient Privacy Preserving for Indoor Positioning Applications*
Mohammad Fal Sadikin (Freie Universität Berlin, Germany); Marcel Kyas (Freie University Berlin, Germany)
- *AntMind: Enhancing Error Protection for Video Streaming in Wireless Networks*
Roger Immich (University of Coimbra, Portugal); Pedro M Borges (University of Coimbra, Portugal); Eduardo Cerqueira (Federal University of Para & UCLA, Brazil); Marilia Curado (University of Coimbra, Portugal)

Technical Session 4: Sensor and Underwater Networks

- *Impact of ARQ on the Performance of Underwater Acoustic Ad-Hoc Networks*
Andrej Stefanov (IBU Skopje, Macedonia)

- *New Trends in Sensor Coverage Modeling and Related Techniques: A Brief Synthesis*
Mohamed El Yazid Boudaren (Ecole Militaire Polytechnique, Algeria); Mustapha Reda Senouci (EMP, Algeria); Mohamed Abdelkrim Senouci (UPEC, France); Abdelhamid Mellouk (UPEC, University Paris-Est Creteil Val de Marne, France)
- *Exploiting Dual-Antenna Diversity for Phase Cancellation in Augmented RFID System*
Jing Wang (University of Ottawa, Canada); Miodrag Bolic (University of Ottawa, Canada)
