Monday, October 17, 2011

Session 1: Welcoming Plenary

Chairs: Terence Parker, Colorado School of Mines; Jeremy Boak, COSTAR

	Welcome and introductions 1
1.1	Jerry Boak, Co-Chair, 31th Oil Shale Symposium Abstract Paper Presentation
	Welcome to the Colorado School of Mines 3
1.2	Terence E. Parker, Provost, Colorado School of Mines Abstract Paper Presentation
	Utah Oil Shale: A Path Towards Energy Independence 4
1.3	Greg Bell, Lieutenant Governor, State of Utah Abstract Paper Presentation
	Status and plans for the U. S. Department of Interior program for development of oil shale and oil sands 11
1.4	Mitchell Leverette; U. S. Bureau of Land Management Abstract Paper Presentation
	2011: A milestone year in progressing the shale to liquids industry in Australia 34
1.5	Pearce Bowman, QER Pty Limited Abstract Paper Presentation
	Responsible development of oil shale 49
1.6	Glenn Vawter, National Oil Shale Association Abstract Paper Presentation
1.7	Overview: American Petroleum Institute Oil Shale Subcommittee activities toward realizing goals and objectives of Section 369 of the 2005 Energy Policy Act 56

	Holly Hopkins, American Petroleum Institute Abstract Paper Presentation
Session 2: Shale Resources Plenary Chairs: Dan Jarvie, Worldwide Geochemistry, LLC; Justin Birdwell, U.S. Geological Survey	
	Unconventional shale gas and oil resource systems 61
2.1	Daniel Jarvie; Worldwide Geochemistry, LLC Abstract Paper Presentation
	The Shale Spectrum: Potential for interdisciplinary shared understanding among oil shale, oil-bearing shale and gas shale plays 77
2.2	Jeremy Boak, J. Frederick Sarg, Stephen A. Sonnenberg; Colorado School of Mines Abstract Paper Presentation
	Technical and environmental aspects of oil shale assessment for western U.S. deposits 88
2.3	Justin Birdwell; U.S. Geological Survey Abstract Paper Presentation
	Core-log integration for advanced evaluation of oil shale formations: Green River case study 98
2.4	Stacy Lynn Reeder ¹ , Michael Herron ¹ , Robert Kleinberg ¹ , Malka Machlus ¹ , Nikita Seleznev ¹ , Badarinadh Vissapragada ¹ , Alan Burnham ² , Pierre Allix ³ ; ¹ Schlumberger, ² American Shale Oil LLC, ³ TOTAL S.A. Abstract Paper Presentation
Tuesday, October 18, 2011	
Session 3: Resource Evaluation 1 Chairs: Ronald Johnson, U.S. Geological Survey; Shuwang Chen, Chinese Geological Survey	

3.1	<p>Assessment of in-place oil shale resources in the Eocene Green River Formation, Greater Green River Basin, Wyoming, Colorado, and Utah 105</p> <p>Ronald Johnson, Tracey J. Mercier, Michael E. Brownfield; USGS</p> <p>Abstract Paper Presentation</p>
3.2	<p>Characterization of Jordan's in situ oil shale resource 134</p> <p>Richard Terres, Sadat Kolonic, Simon Neal; Jordan Oil Shale Co.</p> <p>Abstract Paper Presentation</p>
3.3	<p>On the potential strata of oil shale in northeastern China 144</p> <p>Shuwang Chen, Haiping Shan, Jian Zhang; China Geological Survey</p> <p>Abstract Paper Presentation</p>
3.4	<p>Oil shale prospective development methods 160</p> <p>Sergei Sabanov; SRK Consulting, UK</p> <p>Abstract Paper Presentation</p>
<p>Session 4: Mineralogy</p>	
<p>Chairs: William Meurer, ExxonMobil Upstream Res. Co.; Michael Lewan, U.S. Geological Survey</p>	
4.1	<p>Dawsonite breakdown reactions during pyrolysis in Green River Formation oil shales 174</p> <p>Jeremy Boak¹, Justin Birdwell²;</p> <p>¹Colorado School of Mines, ²USGS</p> <p>Abstract Paper Presentation</p>
4.2	<p>Quantitative mineralogy of the Green River Formation, Piceance Basin, Western Colorado 195</p> <p>Sheven Poole, Jeremy Boak, Kati Tanavasuu-Milkeviciene, Jufang Feng; Colorado School of Mines</p> <p>Abstract Paper Presentation</p>
	<p>Characterization of USGS Core Repository oil shale core drilled near the</p>

	<p>ExxonMobil proposed RD&D lease 206</p> <p>William P. Meurer, Jesse Yeakel, Scott A. Maxwell; ExxonMobil Upstream</p> <p>Abstract Paper Presentation</p>
4.4	<p>Mineralogical changes in Green River Formation oil shale following pyrolysis 214</p> <p>Justin Birdwell, Michael Lewan; U.S. Geological Survey</p> <p>Abstract Paper Presentation</p>
<p>Session 5: Green River Formation: Geology & Stratigraphy</p> <p>Chairs: J. Frederick Sarg, Colorado School of Mines; Michael Vanden Berg, Utah Geological Survey</p>	
5.1	<p>Not all rich zones are created equal: Geologic characterization of the Green River Formation in the Uinta Basin, Utah from core description including the new Skyline 16 core 227</p> <p>Michael Vanden Berg¹, Lauren Birgenheier²;</p> <p>¹Utah Geological Survey, ²University of Utah</p> <p>Abstract Paper Presentation</p>
5.2	<p>Mineralogy and organic petrography of the lower transitional part of the Green River Formation oil shale, Piceance Basin, Colorado 241</p> <p>John Dyni; U.S. Geological Survey</p> <p>Abstract Paper Presentation</p>
5.3	<p>Early diagenetic controls affecting the inorganic composition of oil shale from the upper Green River Fm. (Mahogany Oil Shale Zone — Uinta Fm. boundary), Uinta Basin, Utah 250</p> <p>Dave Keighley; University of New Brunswick, Canada</p> <p>Abstract Paper Presentation</p>
5.4	<p>Climate history, lake evolution, and predicting organic richness of the Green River Formation, Piceance Creek Basin, Colorado 262</p> <p>J. Frederick Sarg, Kati Tanavsuu-Milkeviciene, JuFang Feng, Suriamin Huang;</p>

	Colorado School of Mines Abstract Paper Presentation
Session 6: Oil Shale Processes	
Chairs: Michele Thomas, ExxonMobil Upstream Res. Co.; Ian Henderson, QER Pty Ltd, Australia	
6.1	Preliminary evaluation of Jordanian oil shale upgrading by froth flotation 273 Salah Al-Thyabat Eid Abd-Alrazag, Mohammad Abu-Allan Al-Hussein Bin Talal University, Jordan Abstract Paper Presentation
6.2	Novel process for shale oil upgrading without using hydrogen 274 John Gordon, Mukund Karanjikar, Javier Alvare, Dennis Larsen Ceramatec Inc, USA Abstract Paper Presentation
6.3	An evaluation of porosity and permeability changes in oil shale due to thermal stresses 287 Jacob Bauman ¹ , Ravindra Bhide ^{2,1} , Milind Deo ¹ ; ¹ University of Utah, ² Energy & Geoscience Institute Abstract Paper Presentation
6.4	Solvation variability of Jordanian oil shale 303 Feras Fraige, Hani Alnawafleh, Laila Al-Khatib, Mohammad Dweirj; Al-Hussein Bin Talal University, Jordan Abstract Paper Presentation
Tuesday, October 18, 2011	
Session 7: U.S. Research, Development & Demonstration (RD&D) Updates	
Chairs: Harry Posey, Shell International Exploration & Production; Pierre Allix, TOTAL S.A., France	

7.1	<p>Status report and direction of Chevron's RD&D pilot oil shale project, Piceance Basin, Colorado 304</p> <p>Gregory Minnery, Mark Looney, Eric Flodin, Douglas McCarty, Chris Skelt, Marcus Wigand, James Koffer, Julie Justus; Chevron USA, USA</p> <p>Abstract Paper Presentation</p>
7.2	<p>Enefit American Oil 316</p> <p>Rikki Hrenko; Enefit American Oil</p> <p>Abstract Paper Presentation</p>
7.3	<p>Progress on Shell's RD&D Pilot Project 326</p> <p>Pat Janicek, Harry Posey; Shell International Exploration & Production</p> <p>Abstract Paper Presentation</p>
7.4	<p>Pilot test of AMSO's CCRTM in-situ oil shale process 327</p> <p>Roger Day¹, Alan Burnham¹, John Foulkes³, James McConaghy², Leonard Switzer III¹, Pierre Allix⁴;</p> <p>¹American Shale Oil LLC, ²Antero Engineering LLC, ³TOTAL S.A., USA, ⁴TOTAL S.A., France</p> <p>Abstract Paper Presentation</p>
<p>Session 8: Resource Evaluation 2</p> <p>Chairs: Sergei Sabanov, SRK Consulting, UK; Paul Morgan, Colorado Geological Survey</p>	
8.1	<p>Adapting wind energy for shale oil recovery 337</p> <p>Jack Bridges, Armin Hassanzadeh; Pyrophase Inc, USA</p> <p>Abstract Paper Presentation</p>
8.2	<p>Characteristics of oil shale bearing basins and metallogenic regularity in Dunmi Fault Belt in Northeast China 350</p> <p>Qingtao Meng, Zhaojun Liu, Qingshui Dong, Rong Liu, Fei Hu, Pingchang Sun, Xiaofeng Hu; Jilin University, China</p> <p>Abstract Paper Presentation</p>

8.3	<p>Temperatures and potential geothermal resources in the Piceance Basin, Colorado 373</p> <p>Paul Morgan; Colorado Geological Survey</p> <p>Abstract Paper Presentation</p>
<p>Session 9: Groundwater Control & Management</p> <p>Chairs: Earl Mattson, Idaho National Laboratory; Sepehr Arbabi, Shell International E&P Inc.</p>	
9.1	<p>Chemically based permeability modifiers for groundwater diversion around in-situ oil shale retorts 383</p> <p>Hao Zhang¹, Earl Mattson², Carl Palmer²;</p> <p>¹University of Missouri-Rolla, ²Idaho National Laboratory</p> <p>Abstract Paper Presentation</p>
9.2	<p>In-situ emplacement of permanent barriers in earth formations 394</p> <p>Armin Hassanzadeh, Jack Bridges; Pyrophase Inc, USA</p> <p>Abstract Paper Presentation</p>
9.3	<p>Shell's Colorado oil shale freeze wall test 408</p> <p>Wolfgang Deeg, Sepehr Arbabi, Larry Crump, Ming Lin Shell International E&P Inc., USA</p> <p>Abstract Paper Presentation</p>
9.4	<p>Subsurface Reclamation for an ICP Oil Shale Project 416</p> <p>Erik Hansen¹, Michael Day², John Hardaway³, Gregory Monson⁴;</p> <p>¹Shell International Exploration & Production, Inc., ²Norwest Corp., ³Independent Consultant, ⁴Shell Exploration & Production Co</p> <p>Abstract Paper Presentation</p>

Session 10: Chemistry

Chairs: Ronald Pugmire, University of Utah; Robert Kleinberg, Schlumberger-Doll Research

10.1	<p>Comparison of Green River Formation shale oils by Fourier transform ion cyclotron resonance mass spectrometry 427</p> <p>Jang Mi Jin¹, Sunghwan Kim¹, Justin Birdwell², Michael Lewan²; ¹Kyungpook National University, Department of Chemistry, Korea, ²USGS</p> <p>Abstract Paper Presentation</p>
10.2	<p>Structural characterization of segments of a Green River Formation oil shale core and the kerogen isolated from those segments 440</p> <p>Anita Orendt¹, Lauren Birgenheier¹, Ronald Pugmire¹, Julio Facelli¹, Soenke Seifert², Randall Winans²; ¹University of Utah, ²Advanced Photon Source, ANL</p> <p>Abstract Paper Presentation</p>
10.3	<p>Comparison of the ease of extraction and chemical structure of oils from Jordanian and U. S. oil shale and an algal coal, torbanitee 455</p> <p>W. Roy Jackson¹, Alan L. Chaffee¹, Marc Marshall¹, Yi Fei¹, Mohammad W. Amer¹, Peter J. Cassidy²; ¹Monash University, Australia, ²The Sentient Group, Australia</p> <p>Abstract Paper Presentation</p>
10.4	<p>Atomistic modeling of oil shale kerogen and asphaltene 468</p> <p>Julio Facelli, Anita Orendt, Ian Pimienta, Shyam Badu, Ronald Pugmire University of Utah</p> <p>Abstract Paper Presentation</p>

Wednesday, October 19, 2011

Session 11: In Situ Processing

Chairs: William Symington, ExxonMobil Upstream Res. Co.; Greg Minnery, Chevron USA, TX

11.1	<p>Chevron's plans for rubblization of Green River Formation oil shale (GROS) for chemical conversion 482</p> <p>Mark Looney, Robert Polzer, Keita Yoshioka, Greg Minnery; Chevron</p> <p>Abstract Paper Presentation</p>
11.2	<p>Recovery of liquid hydrocarbons from oil shale using supercritical CO² 491</p> <p>Sandra Riley, Sean McGrady, Laura Romero-Zeron, David Keighley, Adrian Park; University of New Brunswick, Canada</p> <p>Abstract Paper Presentation</p>
11.3	<p>Plan to test an in situ planar heater on a proposed RD&D Lease 498</p> <p>Paul Tanaka¹, Jesse Yeakel¹, William Symington¹, William Meurer¹, P Matthew Spiecker¹, Mark Del Pico¹, Michele Thomas¹, Keith Sullivan², Matt Stone³;</p> <p>¹ExxonMobil Upstream Research Company, ²ExxonMobil Exploration Company, ³ExxonMobil Development Company</p> <p>Abstract Paper Presentation</p>
11.4	<p>In-situ thermal upgrading of bitumen and shale oil by radio frequency (RF) electrical heating 504</p> <p>Richard Snow; PyroPhase Inc, USA</p> <p>Abstract Paper Presentation</p>

Session 12: Environmental Research

Chairs: Carl Palmer, Idaho National Laboratory; Indrek Aarna, Enefit, Estonia

12.1	<p>Geochemical evolution of Piceance Basin groundwater during heating 517</p> <p>Carl Palmer, Jessica Little, Earl Mattson; Idaho National Laboratory</p> <p>Abstract Paper Presentation</p>
------	--

12.2	<p>GIS-based water resource geospatial infrastructure for oil shale development 526</p> <p>Wendy Zhou¹, Matthew Minnick¹, Mengistu Geza¹, Elif Acikalin¹, Jordan Garrett¹, Kyle Murray², Tuan B Le²;</p> <p>¹CSM, ²Univ. of Texas at San Antonio</p> <p>Abstract Paper Presentation</p>
12.3	<p>Options for sulfur dioxide removal using oil shale waste and natural materials: An experimental study 539</p> <p>Mohammad Al-Harashseh¹, Marwan Batiha¹, Khalid Al-Tarawneh¹, Adnan Al-Harashseh², Reyad Al-Shawabkah³, Muhannad Hararah¹ ¹Al-Hussein Bin Talal Univ., Jordan, ²Mutah Univ., Jordan, ³King Fahd Univ. for Petroleum and Materials, Saudi Arabia</p> <p>Abstract Paper Presentation</p>
12.4	<p>Life cycle carbon intensity, water use and EROI of upgraded shale oil products using the Enefit280 technology 540</p> <p>Indrek Aarna; Enefit, Estonia</p> <p>Abstract Paper Presentation</p>
<p>Session 13: Surface Processing</p>	
<p>Chairs: Andreas Orth, Outotec GmbH, Germany; Gordon Taciuk, UMATAC Industrial Processes Inc.</p>	
13.1	<p>Demonstration and commercial design of the Clean Oil Shale Surface Process 548</p> <p>L. Douglas Smoot, Kent Hatfield, Ambar Ochoa; Combustion Resources, Inc., USA</p> <p>Abstract Paper Presentation</p>
13.2	<p>From R&D to commercial plant - Scale-up challenges of the ATP technology 560</p> <p>Steven Odut¹, Markus Mohr²;</p> <p>¹UMATAC Industrial Processes Inc., Canada, ²ThyssenKrupp Polysius AG, Germany</p> <p>Abstract Paper Presentation</p>

13.3	<p>Elements of process design and progress on commissioning the QER Technology Demonstration Plant in Australia 568</p> <p>Ian Henderson; Queensland Energy Resources, Australia</p> <p>Abstract Paper Presentation</p>
<p>Session 14: Pyrolysis</p> <p>Chairs: Alan Burnham, American Shale Oil LLC; Rick Sherritt, PROCOM Consultants Ltd., Australia</p>	
14.1	<p>Study of oil shale pyrolysis to simulate in-situ conversion process 580</p> <p>Yue Ma, Guili Ma, Shuyuan Li; China University of Petroleum</p> <p>Abstract Paper Presentation</p>
14.2	<p>Pyrolysis of oil shale from the Garden Gulch Member of the Green River Formation 594</p> <p>Alan Burnham¹, James McConaghy², Leonard Switzer III¹;</p> <p>¹American Shale Oil LLC, ²Antero Engineering LLC</p> <p>Abstract Paper Presentation</p>
14.3	<p>Microwave pyrolysis of Yaojie oil shale 602</p> <p>Yonghui Song¹, Jianmei She², Xinzhe Lan¹, Wenzhi Shang¹, Xicheng Zhao¹, Rick Sherritt¹, Jimmy Jia³;</p> <p>¹School of Metallurgical Engineering, Xi'an University of Architecture & Technology, China, ²Shenmu Sanjiang Coal Chemical Liability Co., Ltd., China, ³PROCOM Consultants Ltd., Australia</p> <p>Abstract Paper Presentation</p>
14.4	<p>Experimental analysis of multi-scale oil shale pyrolysis 613</p> <p>Pankaj Tiwari, Milind Deo; University of Utah</p> <p>Abstract Paper Presentation</p>
<p>Wednesday, October 19, 2011</p>	

Session 15: International Updates

Chairs: Pearce Bowman, QER Pty Ltd, Australia; John Fraser, Jordan Energy and Mining, Limited

15.1	Oil shale project progress in Jordan 629 Chris Morgan, John Fraser; Jordan Energy and Mining Limited, UK Abstract Paper Presentation
15.2	Chinese current oil shale business 643 Shuyuan Li, Yue Ma, Jialin Qian; China University of Petroleum Abstract Paper Presentation
15.3	Test facilities and first results for the improved solid heat carrier technology (ENEFIT280) for processing different oil shale types 661 Hermann Sieger ¹ , Christian Binder ¹ , Andreas Orth ¹ , Nikola Anastasijevic ¹ , Indrek Aarna ² ; ¹ Outotec GmbH, Germany, ² Eesti Energia AS, Estonia Abstract Paper Presentation
15.4	Jordan's oil shale development: Policy & strategy 670 Hazim Ramini, National Resources Authority, Jordan Abstract Paper Presentation

Session 16: Modeling

Chairs: Nazish Hoda, ExxonMobil Upstream Res. Co.; Rajesh Pawar, Los Alamos National Laboratory

16.1	Economic and technical analysis of two options for an in situ oil shale retort 686 Eric Robertson, Michael McKellar, Lee Nelson; Idaho National Laboratory Abstract Paper Presentation
	Numerical simulation of coupled thermal-hydrological-mechanical-chemical

	<p>processes during in situ conversion and production of shale oil 699</p> <p>Rajesh Pawar¹, Sharad Kelkar¹, Nazish Hoda²;</p> <p>¹Los Alamos National Laboratory, ²ExxonMobil Upstream Research Company</p> <p>Abstract Paper Presentation</p>
16.3	<p>Study of the kinetics and mechanisms of thermal decomposition of Ellajjun oil shale, Jordan 706</p> <p>Omar Al-Ayed; Mutah University, Jordan</p> <p>Abstract Paper Presentation</p>
16.4	<p>Mathematical modeling of oil shale pyrolysis 729</p> <p>Pankaj Tiwari, Jacob Bauman, Milind Deo; University of Utah</p> <p>Abstract Paper Presentation</p>
<p>Session 17: Socioeconomic Issues Plenary</p> <p>Chairs: James Spehar, Past president of the Colorado Municipal League; Ken Parsons, Rio Blanco County Commissioner</p>	
17.1	<p>The ABC's (and X's) of scouting the future for oil shale development 745</p> <p>Jason Hanson, Patty Limerick; University of Colorado at Boulder</p> <p>Abstract Paper Presentation</p>
17.2	<p>Policy implications of local and regional socioeconomic impacts from oil shale development in NW Colorado 763</p> <p>Jim Spehar¹, Ken Parsons², Keith Lambert³, Ford Frick⁴;</p> <p>¹Past President, Colorado Municipal League, ²Rio Blanco County Commissioner, ³Mayor of Rifle, ⁴BBC Research and Consulting</p> <p>Abstract Paper Presentation</p>
<p>Session 18: Poster</p> <p>Chairs: Names</p>	

18.1	The world of oil shale - General and Indian scenario and its cost analysis N/A Shailee Ghiya, Kuldeep Kharolia; Pandit Deendayal Petroleum University, India Abstract Paper Poster
18.2	Abstract Paper Poster
18.3	Characterization and shale oil yield evaluation of Jordanian oil shale 765 Hani Alnawafleh, Feras Fraige; Al-Hussein Bin Talal University, Jordan Abstract Paper Poster
18.4	Geology, stratigraphy & geochemical characteristics of potential oil shale and gas shale basins of India and their prognostic resources N/A Baleshwar Kumar; (Former) National Geophysical Research Institute, India Abstract Paper Poster
18.5	Some aspects of and research need for future development of Piceance Basin oil shale N/A Glenn Miller; Retired, USA Abstract Paper Poster
18.6	Abstract Paper Poster
18.7	Evolution of the Green River Formation, Piceance Creek Basin – Implications for Eocene Lake History, Colorado, Utah, and Wyoming N/A Kati Tanavsuu-Milkeviciene; , J. Frederick Sarg; Colorado School of Mines Abstract Paper Poster
18.8	Oil shale seam stratigraphy of the Attarat um Ghudran deposit, Jordan N/A Hardi Aosaar; Enefit, Estonia Abstract Paper Poster
18.9	Fossil insect larvae provide clues for interpretation of the depositional environment of the Green River Formation 770 Glenn Mason; Indiana University Southeast

	Abstract	Paper	Poster
18.10	Abstract	Paper	Poster
18.11	<p>Gasification of Jordanian oil shale using nitrogen non-thermal plasma N/A</p> <p>Malik Al-Amayreh¹, Ahmed Al-Salaymeh², Vojislav Jovicic¹, Antonio Delgado¹ ¹FAU Erlangen - Nuernberg, Germany, ²The University of Jordan, Jordan</p> <p>Abstract Paper Poster</p>		
18.12	<p>Adapting wind energy for shale oil recovery 778</p> <p>Jack Bridges, Armin Hassanzadeh; Pyrophase Inc, USA</p> <p>Abstract Paper Poster</p>		
18.13	<p>Evaluation of transport properties of in-situ processed oil shale N/A</p> <p>Thang Tran, John McLennan, Milind Deo, Ryan Okerlund; Univ. of Utah</p> <p>Abstract Paper Poster</p>		
18.14	<p>Microwave processing of oil shale and characterization of shale oil generated by microwave retorting N/A</p> <p>XiaoLong Li, ChaoHe Fang, DeWen Zheng; RIPED Langfang, China</p> <p>Abstract Paper Poster</p>		
18.15	<p>Comparison of oil shale kerogen assay methods N/A</p> <p>Kyle Bake¹, Alyssa Charsky¹, Michael Herron¹, Robert Kleinberg¹, Andrew Pomerantz¹, Pierre Allix², Alan Burnham³; ¹Schlumberger, ²TOTAL S.A., France, ³American Shale Oil LLC</p> <p>Abstract Paper Poster</p>		
18.16	Abstract	Paper	Poster
18.17	Abstract	Paper	Poster
18.18	<p>Comparison of various mineral analysis methods for Green River Formation oil shale N/A</p> <p>Alan Burnham¹, Michael Herron², Susan Herron², Alyssa Charsky², Milind Deo³, Robert Krumm³, Prashanth Mandalaparty³, Andre Levchenko⁴, Pierre Allix⁵; ¹American Shale Oil LLC, ²Schlumberger-Doll Research, ³University of Utah,</p>		

	<p>⁴Setaram, ⁵TOTAL S.A., France</p> <p>Abstract Paper Poster</p>
18.19	<p>Oil shale pyrolysis laboratory and technique N/A</p> <p>Tuong Van Le Doan¹, Neil Bostrom¹, Robert Kleinberg¹, Andrew Pomerantz¹, Pierre Allix², Bernard Corre², Luc Fusetti², Alan Burnham³;</p> <p>¹Schlumberger, ²TOTAL S.A., France, ³American Shale Oil LLC</p> <p>Abstract Paper Poster</p>
18.20	<p>Detailed analytical data from select segments of a Green River Formation oil shale core 783</p> <p>Anita Orendt¹, Lauren Birgenheier¹, Ronald Pugmire¹, Julio Facelli¹, Soenke Seifert², Randall Winans²;</p> <p>¹University of Utah, ²Advanced Photon Source, ANL</p> <p>Abstract Paper Poster</p>
18.21	<p>Abstract Paper Poster</p>
18.22	<p>Review of two photometric methods for estimating shale oil in oil shale 784</p> <p>John Dyni; U.S. Geological Survey</p> <p>Abstract Paper Poster</p>
18.23	<p>Revamping of a 75t/h pulverized coal fired boiler to a 65t/h oil shale-fired high-low bed CFB boiler 785</p> <p>Qing Wang¹, Jian Sun¹, Shaohua Li¹, Yan Zhang¹, Wen Yang²;</p> <p>¹Northeast Dianli University, China, ²Jiangxi Jianglian Energy & Environment Co., Ltd, China</p> <p>Abstract Paper Poster</p>
18.24	<p>Preliminary assessment of the performance of shale-derived diesel fuel 786</p> <p>John Parsons; QER Pty Ltd, Australia</p> <p>Abstract Paper Poster</p>

18.25	<p>Pilot plant test data for Combustion Resources' Shale Oil Surface process 787</p> <p>Craig Eatough, Robert Jackson, Ambar Ochoa; Combustion Resources, Inc.</p> <p>Abstract Paper Poster</p>
18.26	<p>Sulfur dioxide uptake by Jordanian oil shale ash 788</p> <p>Mohammad Al-Harashseh, Marwan Batiha, Leema Makhadmah; Al-Hussein Bin Talal University, Jordan</p> <p>Abstract Paper Poster</p>
18.27	<p>Removal of sulfur dioxide by Jordanian zeolitic tuff 789</p> <p>Marwan Batiha¹, Mohammad Al-Harashseh¹, Muhannad Hararah¹, Khalid Tarawneh¹, Adnan Al-Harashseh², Reyad Shawabkeh³;</p> <p>¹Al-Hussein Bin Talal University, Jordan, ²Mutah University, Jordan, ³King Fahd University for Petroleum and Minerals, Saudi Arabia</p> <p>Abstract Paper Poster</p>
18.28	<p>Compressive strength of concrete made from mixtures of Portland cement and combusted Piceance Basin oil shale fly ash 790</p> <p>Roger Moore; Retired, USA</p> <p>Abstract Paper Poster</p>
18.29	<p>Oil shale wastewater treatment using high frequency ultrasound techniques 791</p> <p>Zaid Al-Anber, Mohamad Matouq; Al Balqa Applied University, Jordan</p> <p>Abstract Paper Poster</p>
18.30	<p>A study of the effects of concentration on the performance of a cyclone separator with oil shale ash N/A</p> <p>Yang Jingxuan, Sun Guogang, Wang Yang; China University of Petroleum</p> <p>Abstract Paper Poster</p>
18.31	<p>Web-based dynamic water resources application for oil shale development N/A</p> <p>Matthew Minnick, Wendy Zhou; Colorado School of Mines</p> <p>Abstract Paper Poster</p>

18.32	<p>Geologic and hydrologic modeling in the Uinta Basin, Utah N/A</p> <p>Paul Quinn¹, Bob Prucha²;</p> <p>¹Ambet, ²Integrated Hydro</p> <p>Abstract Paper Poster</p>
18.33	<p>Tell Ertl Oil Shale Repository: Delving into content N/A</p> <p>Julie Carmen; Colorado School of Mines</p> <p>Abstract Paper Poster</p>
<p>Thursday, October 20, 2011</p>	
<p>Session 19: Introduction and Initial Technical Session</p> <p>Chair: Justin Birdwell, U.S. Geological Survey</p>	
19.1	<p>Welcome and introductions</p> <p>Justin Birdwell, U. S. Geological Survey, USA</p> <p>Abstract Paper Presentation</p>
19.2	<p>Assessments of in-place oil shale resources of the Eocene Green River Formation, Colorado, Utah, and Wyoming—a foundation for calculating recoverable resources 796</p> <p>Ronald Johnson, Tracy Mercier, U. S. Geological Survey, USA</p> <p>Abstract Paper Presentation</p>
19.3	<p>Issues impacting methodology for quantitative assessments of oil shale 840</p> <p>Ronald R. Charpentier, Troy Cook, U. S. Geological Survey, USA</p> <p>Abstract Paper Presentation</p>

Session 19: Technical Session 2

Chairs: Ronald C. Johnson, U.S. Geological Survey

19.4	Geochemical methods and assessment of oil shales 857 Tim Ruble, Weatherford International, USA Abstract Paper Presentation
19.5	Use of well logging methods in oil shale assessment 877 Robert Kleinberg, Schlumberger, USA Abstract Paper Presentation
Session 19: Panel Discussion and Summary	
Chair: Jeremy Boak, COSTAR, Colorado School of Mines	
19.6	Panel Discussion – Additional Issues, Interactions Justin Birdwell, Ronald Johnson, Tracy Mercier, Ronald R. Charpentier, U. S. Geological Survey; Tim Ruble, Weatherford International; Robert Kleinberg, Schlumberger Abstract Paper Presentation
