TABLE OF CONTENTS

VOLUME 1

Flood Magnitude Estimation: Choose Any Number You Like, So Long As It Matches the Design Rainfall Technique	13
<i>R. Walton, S. Canning, L. McAvoy</i>	
The “In Perpetuity” Dilemma - A Case Study of Closure Hydrology at Pardoo DSO	19
<i>N. Keenan, D. Lachenicht, T. Beattie</i>	
Improving Statistical Streamflow Predictions Using a Water Balance Model for Operational Seasonal Forecasts	28
<i>B. Le, N. Tuteja, A. MacDonald, P. Felkema, S. Zhou, D. Shin, D. Kent, T. Wilson</i>	
Variability in Design Flood Flows from Alternative Rainfall Temporal Patterns	36
<i>J. Ball, J. Ara</i>	
Designing for Mining: Challenges of Hydrological Design in the Pilbara	44
<i>H. Taylor, T. Kerr</i>	
Post-Processing Precipitation Forecasts from a Numerical Weather Prediction Model in Australia	54
<i>D. Shrestha, D. Robertson, J. Bennett, Q. Wang</i>	
A Monte Carlo Framework for the Brisbane River Catchment Flood Study	62
<i>F. Diermanse, D. Carroll, J. Beckers, R. Ayre, J. Schuurmans</i>	
Drainage Philosophy for 200 km Access Road in the Pilbara	70
<i>D. Grace, M. Gillen, S. Dooland, W. Makoni, S. Pruiti-Ciarello</i>	
Development of an Algal Response Model to Inform Water Resource System Operations	78
<i>I. Atazadeh, A. Barton, P. Gell, K. Mills, P. Newall</i>	
Never Mind the Subcatchments, Here's the Rain on Grid	86
<i>A. Taylor, C. Johnson, D. Kapugama</i>	
Drainage Principles and Design for Mine Closure in the Pilbara	94
<i>D. Grace, M. McLeary, G. Davies</i>	
Economic Modelling Functionality of SCA’s Water Supply System Model (Wathnet) for Asset Planning	101
<i>G. Kibria, S. Maheswaran, G. Kuczera</i>	
Flood Hydrology in an Arid Area - Findings from the Gammon Ranges Project	109
<i>D. Kemp, C. Wright</i>	
Water Harnessing in Below Water Table Mining – A Case Study of Water Balance and Hydraulic Design Optimisation	117
<i>W. Zhan, S. Reid, A. Micallef-Jones</i>	
The Bureau of Meteorology’s Recent Improvements in Australia’s Flood Warning System	125
<i>D. Wilson, B. Anderson, J. Robinson, S. Corneadow, E. Dale</i>	
Testing the Suitability of a Probability Distributed Storage Capacity Loss Model for Design Flood Estimation	133
<i>P. Hill, Z. Graszekiewicz, R. Nathan, D. Stephens, L. Pearce</i>	
Oh My God We’re All Going to Dry! Climate Projections and Water Management in Western Australia	141
<i>B. Marillier, C. Meredith</i>	
Evaluation of Trace Elements in Groundwater in Fuchu, Tokyo	151
<i>D. Thuyet, H. Saito, H. Muto, T. Saito, S. Matsukura, S. Moritani</i>	
Estimation of Flood Volume Using Stochastic Rainfall Losses: A Case Study for the NSW East Coast	159
<i>M. Loveridge, A. Rahman</i>	
Using Hydrodynamic Modelling as an Input to a Cost Benefit Analysis of Climate Change Adaptation Measures	166
<i>S. Marginson, M. Collett, L. Raalte, S. Quail</i>	
Using the DRASTIC Model for Determination of Groundwater Vulnerability in Shallow Aquifer in Broke, NSW, Australia	174
<i>S. Askarimarnani, G. Willgoose</i>	
Pilbara Regional Flood Frequency Analysis	182
<i>J. Davies, E. Yip</i>	
Projections Of Storage Reliability Under Future Climate	190
<i>F. Ling, K. Robinson, J. Bennett</i>	
Participatory GIS: A Tool Towards Water Resources Management In Coastal Area of Bangladesh	198
<i>M. Rahman</i>	

Estimation of RORB Kc Parameter for Ungauged Catchments in the Pilbara Region of Western Australia	206
<i>M. Pearcey, S. Pettett, S. Cheng, D. Knoesen</i>	
Water Resources Modelling to Support an Assessment of the Economic Impacts of Climate Change in South Africa	215
<i>J. Cullis, K. Strzepek, G. Jager, A. Chang</i>	
Integration of Multi-Temporal Satellite Imagery in Modeling Urban Expansion Effects on Runoff in the City of Sharjah, United Arab Emirates	223
<i>A. Shanableh, R. Al-Ruzouq</i>	
A Regional Method for Estimating Peak Flows and RORB K_c for Small to Medium Sized Catchments in South-west Western Australia	231
<i>T. Smythe, S. Rodgers</i>	
Spatial and Temporal Downscaling Approach to Develop IDF Curves for Melbourne Airport Region	239
<i>S. Herath, R. Sarukkalgige</i>	
Bore Hole Monitoring – Unconventional Gas Projects in Southern Queensland	247
<i>M. Saunders</i>	
A Practical Application of Regionalisation to Large Scale Floodplain Modelling	251
<i>A. Wyatt, S. Shield</i>	
Geomorphic, Hydraulic and Sediment Transport Modelling for Minerelated Channel Realignment – Case Study: Caves Creek, Pilbara, Western Australia	259
<i>M. Harvey, M. Pearcey, K. Price, B. Devkota</i>	
Large Scale Distributed Hydrologic Modelling Using A Massively Parallelised Two Dimensional Finite Volume Hydrodynamic Model	267
<i>G. Collecutt, B. Syme, C. Nielsen, M. Roberts</i>	
How Climate Change is Currently Being Incorporated into Intensity-Frequency-Duration (IFD) Design Rainfall – An Overview	277
<i>J. Green, F. Johnson</i>	
Hydrology and Sediment Modelling in a South Pacific Environment	285
<i>M. Ind</i>	
Practical Considerations for Interpreting Flood Hazard	293
<i>G. Smith, M. Mack</i>	
Statistical Modelling of Rainfall Intensity-Frequency-Duration Curves Using Regional Frequency Analysis and Bayesian Hierarchical Modelling	302
<i>S. Solytk, M. Leonard, A. Phatak, E. Lehmann</i>	
Experiences Selecting, Implementing and Reviewing the Performance of a Debris Flow Model	310
<i>T. Rigby, C. Mazengarb, M. Stevenson, M. Hannon</i>	
If God Gave Us The Truth, What Would We Do With It? Reality Checking Flood Magnitude Estimates through Regionalisation	318
<i>R. Walton, L. McAvoy, S. Canning</i>	
Spatio-Temporal Characteristics Of Blended Radar/Gauge Data And The Estimation Of Design Rainfalls	326
<i>D. Jakob, A. Seed</i>	
Predicting Sediment Liberation, Transport and Fate Following Dam Decommissioning	334
<i>K. Russell, A. Ladson, J. Tilleard</i>	
No ORDinary Dam – Rainfall and Flood Hydrology for the Ord River Dam	342
<i>K. Kinkela, L. Pearce</i>	
Use of CLIGEN to Simulate Decreasing Rainfall Trends in Southwest of Western Australia	350
<i>P. Vaghefi, B. Yu</i>	
The Variability of “Nature’s Limit” in South Australia	358
<i>C. Tozer, D. Verdon-Kidd, A. Kiem</i>	
Stochastic Simulation of Inflow Hydrographs to Optimise Flood Mitigation Benefits Provided by Wivenhoe and Somerset Dams	366
<i>P. Jordan, R. Nathan, P. Hill, M. Raymond, T. Malone, E. Kordomenidi</i>	
A Comparison of Annual Maximum and Partial Duration Series in Frequency Analysis	374
<i>S. Srikanthan</i>	
Reconstructing Flood and Drought Cycles in the Murray-Darling Basin using Paleoclimate Archives	382
<i>M. Ho, D. Verdon-Kidd, A. Kiem</i>	
Flood Risk Estimation in Australia’s Coastal Zone: Modelling the Dependence Between Extreme Rainfall and Storm Surge	390
<i>F. Zheng, S. Westra, S. Sisson, M. Leandard</i>	
Forecast Guided Stochastic Scenarios of Monthly Streamflows Out to 12 Months	397
<i>Q. Wang, J. Bennett, Y. Song, P. Pokhrel, D. Robertson, M. Li, A. Schepen</i>	

A Methodology for Developing Drought Severity-Duration- Frequency (SDF) Curves	405
<i>S. Rahmat, N. Jayasuriya, M. Bhuiyan</i>	
Flood Management Using "Stormwater Source Control" Principles in Dhaka City, Bangladesh	413
<i>F. Ahammed, G. Hewa, J. Argue</i>	
The Impact of Differences in Rainfall Seasonality on Antecedent Catchment Wetness and Flood Risk	421
<i>B. Bennett, M. Lambert, M. Thyer, B. Bates, S. Westra</i>	
Investigating the Relationship Between East Coast Lows (ECLs) and East Australian Rainfall	429
<i>A. Kiem, C. Twomey</i>	
Practical Stormwater Planning For Small Rural Townships Following an Extreme Flood Event	437
<i>D. Wallis, A. Griffiths, K. Price</i>	
Trend Analysis of Australian Annual Maximum Flood Data: Exploring Relationship with Climate and Catchment Characteristics	445
<i>E. Ishak, A. Rahman, S. Westra, A. Sharma, G. Kuczera</i>	
Estimating Probable Maximum Precipitation (PMP) – Are We Serving Your Needs?	453
<i>D. Jakob, K. Xuereb, D. Walland</i>	
Review of the Design Criteria for Managing Stormwater Runoff Generated by Small Rainfall Events at Source in Western Australia	461
<i>B. Till, A. Bhandari</i>	
Towards The Development Of Flood Vulnerability Curves For Urbanised Areas In Australia	469
<i>T. Micevski, G. Willgoose</i>	
The Relationship Between ENSO/IOD and Rainfall Extremes in Australia	477
<i>K. Xuereb, D. Jakob</i>	
Assessing the Effectiveness of three Water Sensitive Urban Design (WSUD) Measures in SE Melbourne	485
<i>R. Adams, N. Jayasuriya</i>	
Trend Analysis of Annual Maximum Flood Series in South East Australia Using Most Up-To-Date Flood Data	493
<i>M. Hossain, M. Haque, A. Rahman</i>	
Daily Rainfall Disaggregation for a Monsoon Catchment in Vietnam	501
<i>P. Thi, J. Ball</i>	
Modelling of Water Sensitive Urban Design Principles at Indented Head	509
<i>L. Friend, N. Jayasuriya</i>	
Comparison Of Observed And GCM-Simulated Trends In Rainfall Over The Pilbara Region, Western Australia	517
<i>F. Mpelasoka</i>	
Why The Observed Turbulence Intensities In Non-Uniform Flow Deviate From Those In Uniform Flow?	525
<i>I. Alfadhli, S.-Q. Yang, M. Sivakumar</i>	
Changes To The Intensity-Frequency-Duration (IFD) Design Rainfalls Across Australia	533
<i>J. Green, F. Johnson, K. Xuereb, C. Beesley, C. The, C. Jolly</i>	
Monthly Recharge Modelling for the Gngangara Mound	541
<i>A. Brown, G. Kuczera, L. Cui, C. Xu, N. Milligan, M. Canci, C. Jeeveraj, M. Donnelly</i>	

VOLUME 2

Mahaweli Ganga Water Resources Model Development	549
<i>S. Elakanda, M. Nanseer, D. Milton, K. Yamagata</i>	
Application of ANUSPLIN to Produce New Intensity-Frequency-Duration (IFD) Index Rainfalls Across Australia	557
<i>C. The, M. Hutchinson, F. Johnson, C. Beesley, J. Green</i>	
A Monthly Network Flow Program Emulator of the PRAMS Gngangara Groundwater Model	565
<i>L. Cui, G. Kuczera, C. Xu, N. Milligan, M. Canci, C. Jeeveraj, M. Donnelly</i>	
Good Health and Economics Suggest Removal of the Need For Bottled Drinking Water in Shanghai	573
<i>J. Peng, I. Cordery</i>	
Short Duration Areal Reduction Factors for Greater Sydney	581
<i>P. Stensmyr, M. Babister</i>	
Perched Water Table Mounding Between Subsoil Drains in Sand Fill for Urban Development	589
<i>G. Serafini, J. Davies, A. Rogers</i>	
Environmental Load Reduction by Introduction of Super Water-Saving Toilets at Highway Service Areas in Japan	597
<i>N. Nakagawa, A. Kawamura, H. Amaguchi</i>	

Enhancing the New Intensity-Frequency-Duration (IFD) Design Rainfalls – Sub-Annual IFDs	605
<i>J. Green, K. Xuereb, C. Jolly</i>	
A Custom Built Numerical Model For Predicting Seasonal Variation And Mounding Of Groundwater In Urban Areas	613
<i>K. Norris, H. Brookes</i>	
Spatial Assessment of Estuary Shoreline Erosion Susceptibility	621
<i>C. Arrowsmith, G. Race</i>	
Comparison between Rainfall IFD in ARR (1987) and BoM (2013) for Western Australia	629
<i>J. Davies, G. Serafini, W. Green</i>	
A Review of the Broome Sandstone Aquifer to Enable Planning for Irrigation and Other Uses	637
<i>R. Paul, R. George, P. Gardiner</i>	
Hydrodynamic Modelling of Seawater Intrusion in a Riverine Wetland in North Queensland, Australia	645
<i>F. Karim, M. Nicholas, T. Grice, S. Marvanek, J. Wallace</i>	
A High-Level API to Access Centralised Australian Rainfall and Runoff Data	653
<i>P. Brady</i>	
Water Balance Modelling to Support Water Release Management from Lake Argyle for Competing Demands	661
<i>S. McCallum, K. Smith, S. Rodgers</i>	
Room for the River - A New Zealand Perspective	670
<i>D. Boothway</i>	
An Overview of Preparation of Streamflow Database for ARR Project 5 Regional Flood Method	678
<i>A. Rahman, K. Haddad, A. Rahman, M. Haque, G. Kuczera, E. Weinmann</i>	
Planning for the Growing Demand on the Ord River Water Resource	686
<i>I. Loh, S. Worley</i>	
How Rainfall Variability Affects Vegetation - Hydrology Co-Evolution in Wetlands	694
<i>J. Coletti, R. Vogwill, M. Hipsey</i>	
An Overview of the Development of the New Regional Flood Frequency Estimation (RFFE) Model for Australia	702
<i>A. Rahman, K. Haddad, G. Kuczera, E. Weinmann, W. Weeks, P. Stensmyr, M. Babister</i>	
Supporting Water Managers Making Effective Decisions by Using HydroNET	710
<i>L. Reichard, A. Lobbrecht, S. Clark, C. Catalano, B. Tate, D. Cox</i>	
Environmental Flows Planning to Improve Ecological Realism and Address Operational Reality	718
<i>N. Marsh, N. Bond, A. Wealands</i>	
Development and Application of a Large Flood Regionalisation Model for Australia	726
<i>K. Haddad, A. Rahman, E. Weinmann, G. Kuczera</i>	
Simple Indicators for Water Resource Management	734
<i>A. Kitsios</i>	
Optimisation Of The Scheduling Of Wetland Hydrological Regimes To Meet Landscape Ecological Objectives	742
<i>J. Szemis, K. Aldridge, L. Roosmalen, T. Bjornsson, G. Dandy, M. Gibbs</i>	
Understanding Peak Demand Factors for Water and Wastewater Supply Systems Design	750
<i>S. Gato-Trinidad, K. Gan</i>	
Assessing Water Quality Limits and Risks from Intensified Irrigation Development: a New Zealand Case Study	758
<i>A. Fenemor, L. Lilburne, S. Green, R. Young</i>	
Combining Regional Flood Frequency Estimates With An At Site Flood Frequency Analysis Using A Bayesian Framework: Practical Considerations	766
<i>P. Pedruco, C. Nielsen, G. Kuczera, A. Rahman</i>	
Establishment of a Hydrological Benchmark for Mitigating Urbanisation Impacts at Logan Village, South-east Queensland	774
<i>K. Alam, A. Rahman, K. Ranaweera, S. Markar</i>	
Brisbane River Three-Dimensional (3D) Hydraulic Model: Sensitivity Analysis of Methods used to Extract Velocities for Structural Design Purposes	782
<i>J. Charalambous, J. Luck</i>	
Sensitivity of the Regionalised Inputs in the Monte Carlo Simulation Technique to Design Flood Estimation for New South Wales	788
<i>W. Caballero, A. Rahman</i>	
Uncertainty in Estimation of Urban Runoff	796
<i>B. Phillips, R. Thomson, S. Pathiraja</i>	
Calculating Peak Flows On Extreme Flood Events, Ord River Flood 2011 Case Study	804
<i>D. Palmer</i>	

Application of Artificial Neural Networks and Genetic Algorithm for Regional Flood Estimation in Eastern Australia	812
<i>K. Aziz, S. Rai, A. Rahman</i>	
Post-urban Water Prediction Modelling Gngangara Mound, Western Australia	820
<i>C. Davies, K. Lavell, A. Filardi, J. Tierney, S. Hewitt, D. Williams</i>	
Force Balance Components in a Mildly Curved Channel with and Without Bank Vegetation	828
<i>S. Gorrnick, J. Rodriguez</i>	
Comparison of Regional Flood Methods in New South Wales	836
<i>I. Gilmore, P. Stensmyr, M. Babister, M. Retallick, J. Ball</i>	
Understanding Groundwater Recharge Under Urban Areas Of The Swan Coastal Plain	844
<i>P. Kelsey</i>	
Hydrodynamic Assessment of Environmental Flows Downstream of Woronora Dam	852
<i>B. Bozorgy, J. Corfield</i>	
The Prediction of Turbulence Intensities in Unsteady Flow	860
<i>I. Alfadhi, S.-Q. Yang, M. Sivakumar</i>	
Challenges in Calibrating a Surface Water-groundwater Model for an Urban Stream on the Perth Coastal Plain	867
<i>R. Connolly</i>	
Improving Rating Curves with 2D Hydrodynamic Modelling	873
<i>B. Tate, K. Russell</i>	
Using 2D Site Modelling and Event Water Level Data to Quantify Flow Behaviours at Road Impediment Sites in Low Gradient Valley Landscapes	881
<i>D. Farmer, R. Sarukkalige</i>	
Robust Optimisation of Urban Water Resource Systems in the Face of Known and Unknown Unknowns	889
<i>M. Mortazavi-Naeini, G. Kuczera, A. Kiem, B. Henley, B. Berghout, E. Turner, L. Cui</i>	
Customisations To Source To Save Time On Large Models And Scenarios	897
<i>A. Herron, G. Davis, P. Jordan, M. Blackmore</i>	
1D-2D Integrated Flood Modelling of Strelley Brook Catchment, Western Australia	905
<i>D. Coremans, A. Basnayaka</i>	
The Performance of a New Ensemble Flood and Short-term Streamflow Forecasting System for Australia	913
<i>D. Robertson, J. Bennett, D. Shrestha, Q. Wang, D. Enever, H. Hapuarachchi, N. Tuteja</i>	
Localised Rainfall Runoff Modelling to Estimate Farm Dam Inflows and Reliabilities	921
<i>M. Braccia, J. Hall</i>	
Direct Rainfall Flood Modelling: The Good, the Bad and the Ugly	929
<i>J. Hall</i>	
Evaluating Different Approaches For Using The Box-Cox Transformation To Model Heteroscedasticity In Residual Errors Of Hydrological Models	937
<i>D. McInerney, M. Thyer, D. Kavetski, G. Kuczera</i>	
Modelling of Nattai Catchment Using Source Catchment	945
<i>R. Upreti, S. Maheswaran</i>	
Development of a Methodology for Catchments Exhibiting Sheetflow Characteristics in the Pilbara Region	953
<i>A. Broit, G. Boytar</i>	
Assessment of the Impacts of Rating Curve Uncertainty on At-Site Flood Frequency Analysis: A Case Study for New South Wales, Australia	962
<i>A. Rahman, M. Haque, K. Haddad, A. Rahman, G. Kuczera, E. Weinmann</i>	
Intercomparison of Methods for Regionalising Rainfall-runoff Model Predictions Over Large Domains	970
<i>N. Viney, J. Vaze, B. Wang, Y. Zhang, A. Yang, J. Vleeshouwer, A. Ramchum, A. Frost</i>	
Rainfall Analysis of Perth Hailstorm 22 March 2010	978
<i>J. Davies, G. Gaylard</i>	
Innovative Ways to Estimate Recharge to Perth's Groundwater Mound	986
<i>R. Silberstein, C. Macfarlane, T. Lambert, A. Hawdon, D. McJannet</i>	
Improving Fuzzy-based Model for Seasonal River Flow Forecasting	994
<i>H. Badrzadeh, R. Sarukkalige</i>	
Bayesian Hierarchical Model For Estimating Subcatchment Rainfall At Daily Time Steps	1002
<i>Y. Song, Q. Wang, D. Robertson, J. Mashford</i>	
Stream-Aquifer Interaction in the Lower Campaspe Valley, Victoria, Australia – An Example of “Fortuitous Aquifer Recharge”	1010
<i>A. Wade, B. Cossens</i>	

The AWRA Modelling System	1018
<i>N. Viney, J. Vaze, J. Vleeshouwer, A. Yang, A. Dijk, A. Frost</i>	
Stochastic Simulation of Space-Time Rainfall Patterns for the Brisbane River Catchment	1026
<i>A. Seed, P. Jordan, C. Pierce, M. Leonard, R. Nathan, E. Kordomenidi</i>	
Interactions Between Acid Saline Groundwater And Surface Waters And The Long Term Risks Of Catchment Acidification. A Case Study: Lake Gore Western Australia	1040
<i>A. Lillicrap, V. Biermann, C. Oldham</i>	
Hydrologic Reference Stations to Monitor Climate-Driven Streamflow Variability and Trends	1048
<i>S. Zhang, M. Bari, G. Amirthanathan, D. Kent, A. MacDonald, D. Shin</i>	
Catchment Wide Hydrology Using Radar Rainfall	1056
<i>R. Drie, P. Milevski, S. Roberts, M. Simon</i>	
Changes in Run-Off and Groundwater Conditions under Saltbush Grazing Systems: Results of a Ten Year Paired Catchment Study	1064
<i>D. Bennett, R. George, R. Silberstein, A. Ryder, T. Lambert</i>	
SOM-ANN-Based Rainfall-Runoff Modelling Using Data Of Multiple Stations	1072
<i>A. Baghanam, M. Mehrvand, V. Nourani</i>	
Can Seasonal Groundwater Level Rises Explain Non-linear Increases in Baseflow?	1080
<i>J. Costelloe, K. Halbert, T. Peterson, A. Western, J. McDonnell</i>	
Seasonal Hybrid-CE Method for Estimating the Annual Flood Distribution	1088
<i>J. Li, M. Thyer, M. Lambert, G. Kuczera, A. Metcalfe</i>
