

International Conference on Sustainable Infrastructure 2014

Creating Infrastructure for a Sustainable World

**Long Beach, California, USA
6-8 November 2014**

Volume 1 of 2

Editors:

**John Crittenden
Chris Hendrickson
Bill Wallace**

ISBN: 978-1-5108-0057-1

Contents

VOLUME 1

Situation: Current and Projected

Pavement Management for Honduras	1
Carlos Montoya Rodriguez, Kadri Parris, William Wolfe, and Carlos Montoya Thumann	
Suburban Rail Systems to the Rescue of Urban Infrastructure Crises Faced by Metropolitan Cities in Emerging Economies.....	11
Khader Basha Syed, Naveen Chandra, Sathya Sankaran, Sanjeev Dyamnavar, and T. G. Sitharam	
Infrastructure Resilience in the UK: An Overview of Current Approaches.....	23
Karen Lee Hansen and Brian S. Neale	
Working with the Mississippi River for Sustainable Storm Protection.....	33
Russ J. Joffrion, David S. Eley, and Blake E. Cotton	

Sustainability and Competitiveness

Completing the Sustainability Cycle: Reclaimed Water, Pelletization, Biogas, and Solar Power	43
Stephen McGrew and Maurice Tobon	
Waterfund/IBM: The True Cost of Water	54
Peter Williams and Scott Rickards	
Applying Sustainability Principles to Benefit the Overall Project Delivery Cycle of Infrastructure Systems.....	69
Peter D. Binney	
Raising the Grades—Sustainable Solutions to Infrastructure Challenges	79
A. Herrmann	
Transformational Changes Associated with Sustainable Stormwater Management Practices in Onondaga County, New York.....	89
Carli Flynn, Cliff I. Davidson, and Joanne Mahoney	

Climate Change Mitigation and Adaptation

Water Operator Twinning Partnership between the Palm Beach County Water Utilities Department and Manila Water Concessionaires on Planning for Climate Change Impacts	101
Maurice Tobon and David Yates	
Evaluation of PAH and Metal Contents of Different Biochars for Use in Climate Change Mitigation Systems	114
Erin N. Yargicoglu and Krishna R. Reddy	
Thinking Inside the Box: Modular Energy Systems for RE < C	126
Dan Millison	

Minimization of CO₂ Emissions for Spread Footings under Biaxial Uplift Using a Big Bang-Big Big Crunch Algorithm	138
Andrew Assadollahi and Charles V. Camp	
Development of an Adaptation Framework for the Climate Change Engineering Assessment of Transportation Assets	150
Amit Armstrong, Michael Flood, and Michael Meyer	
Evaluating Sustainability and Resilience in Infrastructure: Envision, SANDAG, and the LOSSAN Rail Corridor	164
Richard Dial, Bruce Smith, and Gheorghe Rosca, Jr.	
Climate Change Vulnerabilities and Risk-Based Management Approaches Used on Transportation Assets	175
Arthur H. Hirsch and Benjamin E. Kunstman	
Critical Infrastructure Resilience: A Baseline Study for Georgia	186
A. M. Carpenter	
Sea-Level Change Considerations for Marine Civil Works—COPRI Committee Update on Best Practices	198
Jean O. Toilliez, Todd J. Mitchell, and Austin Becker	
Indicator-Based Vulnerability Screening for Improving Infrastructure Resilience to Climate Change Risks	215
Christopher Evans, Angela Wong, Cassandra Snow, Anne Choate, and Beth Rodehorst	
Adapting Infrastructure Practices to Climate Change	229
J. Rolf Olsen, Bilal M. Ayyub, Ted S. Vinson, and Richard N. Wright	
NYC Wastewater Resiliency Plan: Climate Risk Assessment and Adaptation	246
Pinar Balci and Alan Cohn	

Challenges and Barriers

Rationale for Studying How Institutional Capacity Can Influence the Adoption of Decentralized Approaches to Stormwater Infrastructure	257
Nicole Barclay and Leidy Klotz	
Risk Assessment in Underground Rail International Construction Joint Ventures in Singapore	264
Bon-Gang Hwang, Xianbo Zhao, and Gwendolyn Shiyun Yu	
Pipe Jacking in the Special Geology of Tehran City	274
Keivan Pakiman, Arash Jenabi, Payam Soltan Sanjari, and Babak Mohammadi	
Overcoming Barriers to Implement Sustainable Street Lighting While Using Another Project’s Mitigation Measures in North Park, San Diego	287
René A. Vidales	
Coming to Grips with Project-Level NEPA As a Barrier to Sustainability and Ideas for the Future	299
Richard L. Record	

Financing Infrastructure Projects

Means and Methods for Making the Business Case for Infrastructure Projects in Support of a Sustainable Society	312
Gary McVoy and Philip Schaffner	
MARTA Project Delivery Approach: A Summary of the Program Implementation Plan for MARTA System Expansion Projects	323
Adelee Marie Le Grand, Cheryl L. King, and Richard Wolsfeld	
Power for the People: Early Lessons from Utility-Scale Solar Power Development in India	337
Dan Millison, Don Purka, and Len George	
Public Transport in Dhaka: Organizational, Funding, and Financing Issues for Sustainable Development.....	349
Md. Shoaib Chowdhury	
Conservation of Historical Districts in Urban Construction Operations: A Step towards Sustainable Development.....	360
Karim Moosazadeh Mehrabani	
The Provision of Public Recharging Infrastructure for Electric Vehicles in North East England—Is There Life after Subsidies?	365
Josey Wardle, Yvonne Hübner, Phil Blythe, and Jane Gibbon	
Project Selection Regarding Life-Cycle Oriented and Equity-Intensive Projects: A Critical Assessment of the PPP Project Selection Process in the Construction Industry	377
S. Weissenböck and G. Girmscheid	

Sustainable Cities

A Blueprint for Healthy Communities—Case Study of Mueller Community and Colony Park Project in Austin, Texas	388
Hessam Sadatsafavi, Autumn Leveridge, Matt McCreary, Jeffrey Slater, Travis Wit, Chia-Yuan Yu, Dan Zhao, and Xuemei Zhu	
Social Physics Techniques for Meeting ITS Deployment Challenges in Cities of Emerging Economies	402
Kelsey L. Lantz, Leidy E. Klotz, and Mashrur A. Chowdhury	
Case Studies in Sustainable Urban Stormwater Management Design and Innovation.....	408
Jamil Bou-Saab and Christopher Miehle	
Evaluation of Sustainable Infrastructure: Development Context Matters.....	420
M. B. Reiner, S. Fisher, and J. Sperling	
A Framework to Identify the Sustainable <u>and</u> Resilient Zone of Urban Infrastructure System Planning and Design.....	434
Arka Pandit, Reginald DesRoches, Glenn J. Rix, and John C. Crittenden	
The Broader Environmental Impacts of Combined Heat and Power (CHP) Systems Using an Infrastructure Ecology Approach	442
J. C. James, A. Pandit, and J. C. Crittenden	

Sustainable Transportation Systems for Dhaka Metropolitan City: Issues and Opportunities	448
Md. Shoaib Chowdhury	
Flood Control and Stormwater Treatment As Sustainable Groundwater Recharge: 21st Street Improvements in Paso Robles, California	460
Andy Rowe and Larry Kraemer	
Meeting the Infrastructure Challenges of African Cities	471
Daniel Hoornweg, Katherine Sierra, Michael Sanio, and Kim Pressnail	
City of Los Angeles—The Green Blue City One Water Program, Part 1 of 5: Abstract, Introduction, Water Supply—Imported Water	482
Adel Hagekhalil, Shahram Kharaghani, Wing Tam, Richard Haimann, and Ken Susilo	
City of Los Angeles—The Green Blue City One Water Program, Part 2 of 5: Water Supply, Continued—Recycled Water, Conservation, Storm Water Harvesting	493
Adel Hagekhalil, Shahram Kharaghani, Wing Tam, Richard Haimann, and Ken Susilo	
City of Los Angeles—The Green Blue City One Water Program, Part 3 of 5: Pollutant Load Reduction—Public Green Infrastructure.....	502
Adel Hagekhalil, Shahram Kharaghani, Wing Tam, Richard Haimann, and Ken Susilo	
City of Los Angeles—The Green Blue City One Water Program, Part 4 of 5: Pollutant Load Reduction 2—Public Green Infrastructure Continued, LID Ordinance for Private Green Infrastructure	514
Adel Hagekhalil, Shahram Kharaghani, Wing Tam, Richard Haimann, and Ken Susilo	
City of Los Angeles—The Green Blue City One Water Program, Part 5 of 5: Los Angeles River Revitalization, Big Picture—One Water System	526
Adel Hagekhalil, Shahram Kharaghani, Wing Tam, Richard Haimann, and Ken Susilo	
Analysing the Urban Metabolic Trends to Come to Terms with Ecological Wisdom: A Case Study of Dalian	529
Gengyuan Liu, Zhifeng Yang, and Lixiao Zhang	
Decomposition Analysis of Carbon Emissions and Water Consumption of the Urban Manufacturing Industry: A Case in Dalian, China	538
Lei Chen, Linyu Xu, Qiao Xu, and Zhifeng Yang	
Development of a Design and Modelling Framework for Grey Water Reuse in Tianjin, China	548
Jinhui Jeanne Huang and Xiang Gao	
EHBR (Enhanced Hybrid Biofilm Reactor) Application in the Wastewater Treatment of the Pharmaceutical R&D Building.....	559
Linquan Sun, Ziyi Wang, and Baoan Li	

VOLUME 2

Indicator System Perspectives on the Development of Eco-Cities in Contemporary China.....	566
Tian Chen, Xiaojun Wang, and Liangliang Wang	
The Urban Waters Federal Partnership: An Emerging Model for Revitalizing Urban Rivers and Communities	581
Rachel Muir	
Construction of a Sustainable Development Indicator System of Green Blocks.....	589
Xinyu Zang, Tian Chen, and Qiao Wang	
Urban Ecological Infrastructure: Challenges, Construction, and Management.....	604
Feng Li and Rusong Wang	

Materials, Tools, and Methodologies

Mountain Lake Embankment Slope Stabilization by Vertical Vibrated Stone Columns, Highway 1, San Francisco Bay Area	609
Mahmood Momenzadeh, Tung Nguyen, Matthew Gaffney, and Tim Pokrywka	
LCA and Sustainability Assessment for Selecting Deep Foundation Systems for High-Rise Buildings	621
Rajiv K. Giri and Krishna R. Reddy	
Green Building Rating Systems and Environmental Impacts of Energy Consumption from an International Perspective	631
Sami G. Al-Ghamdi and Melissa M. Bilec	
Urban Agriculture Characterized by Life Cycle Assessment and Land Use Change.....	641
Stephen Fisher and Arunprakash Karunanithi	
Municipal Solid Waste Incineration Bottom Ash (IBA) As an Aerating Agent for the Production of Aerated Lightweight Concrete	650
Zhitao Chen, Yiquan Liu, and En-Hua Yang	
Performance Assessment of Sustainable Composite Roofing Assemblies Using Experimentation	659
V. V. Sakhare, S. P. Raut, S. A. Mandavgane, and R. V. Ralegaonkar	
Waste Management to Storm Water Management: The Use of Recycled Plastics in Storm Sewer Production.....	671
Daniel J. Figola and John Kurdziel	
Performance Benchmark of Greenhouse Gas Emissions from Asphalt Pavement in the United States.....	678
Xiaoyu Liu, Qingbin Cui, and Charles Schwartz	

Envision Rating System

Envision Case Study: Seaport Dolphin Berth Improvements.....	690
Evan Sheesley, Brandon Whitaker, Mike Wray, and John Klekotka	
Sustainable Performance Evaluation of a Remediated Oil Field Using Envision	701
Evan Sheesley, Douglas Sereno, and Mike Wray	

Envision As Choice Architecture: Can Smarter Defaults Lead to More Sustainable Designs?	711
Tripp Shealy and Leidy Klotz	
Sustainable Pedestrian Bridge Design: A Discussion of the Envision Rating System	722
C. Huang	
The Gerald Desmond Bridge Replacement Envision: Using Key Project Innovations to Understand the Envision Framework	735
Josh Mattheis, Mike Iswalt, Josue Enriquez, and Joshua Bird	
A Value-Based Rating System for Envision	744
Christopher Behr	
Designing for the 21st Century: Sustainable Infrastructure in NYC	755
Dennis J. Stanford	
Marrying Cost-Benefit Analysis (CBA) with BIM (CBA-BIM)	760
John C. Parker	
Envision Sustainability Rating: Sun Valley Watershed Multi-Benefit Project	772
Rossana D'Antonio, Youn Sim, Joseph Li, Margaret Terrell, Richard Gomez, Christine Wartman, and Sarah Ahmed	
Envision As a Solution to Standards and Capacity Challenges	778
John F. Williams	
Sustainable Infrastructure—From Business Case to Investment	786
Martin Janowitz	

Sustainability, Society, and Culture

Life Cycle Analysis of Municipal Solid Waste (MSW) Land Disposal Options in Bangalore City	795
G. L. Sivakumar Babu, P. Lakshmikanthan, and L. G. Santhosh	
Towards Engineering for Sustainability	807
Douglas Nuttall	
Sustainable Rest Areas Design and Operations	819
Arthur H. Hirsch	
Social Sustainability Evaluation Matrix (SSEM) to Quantify Social Aspects of Sustainable Remediation	831
Krishna R. Reddy, Bala Yamini Sadasivam, and Jeffrey A. Adams	
Sustainability Issues in the California Delta	842
Lawrence H. Roth	
Business Sustainability Requires Ethics	853
Sarah Hansen and Peter Beukema	

Innovation

Building Crossrail-A Holistic Approach to Sustainability	868
Michael de Silva and Robert Paris	

Impacts and Mitigation Strategies from Solar Array Systems within the Colorado Department of Transportation’s Highway Right of Way Areas	880
Arthur H. Hirsch	
Effectively Addressing the Risks to Infrastructure Presented by Extreme Hazards: The Need for a Shift in the Design Paradigm.....	892
Garry D. Myers and John E. Crawford	
The South Los Angeles Wetland Park—Achieving the Triple Bottom Line: A New Paradigm in Sustainable Public Urban Infrastructure	899
Sean P. Vargas and Shahram Kharaghani	
Innovative Modification to Improve the Resilience of the Los Angeles Aqueduct after the Next San Andreas Fault Earthquake.....	912
Michelle Sutherland, Jeffrey Keaton, Nagamuthu Kuganenthira, Ray Hamilton, Michael Palmer, and Bruce Corkle	
Design, Creation, and Implementation of Technology for Sustainable Nuclear Remediation Projects	924
S. D. Rima	
Sustainable Innovation for Private and Public Sector Infrastructure: Next Generation Challenges for Engineering Education	929
Terry F. Yosie	

Cross-Cutting Issues

Exploring Infrastructure Solutions through Bio-Inspired, Adaptable, Structural Art	936
Diana A. Chen, Brandon E. Ross, and Leidy E. Klotz	
Infrastructural Ecologies: A Macroscopic Framework for Sustainable Public Works.....	949
Hillary Brown	
Introducing First-Year Engineering Students to Infrastructure Sustainability Rating Systems	961
Angela R. Bielefeldt	
Energy and Water Management for Industrial Users	974
Todd M. Musteraid and James R. Jensen	
Utilizing a Unit Commitment and Dispatch Model to Temporally Resolve Water Use Data in the Western United States’ Power Sector.....	983
Kelly T. Sanders	
Green Infrastructure to Reduce Stormwater Runoff in New York City: Post-Construction Monitoring over Multiple Years and Lessons Learned.....	990
John McLaughlin, Matthew Jones, William Leo, Thomas Newman, and Julie Stein	

Water Budget Triangle: A New Conceptual Framework for Comparison of Green and Gray Infrastructure 999
C. G. Eger, D. G. Chandler, B. Kasaei Roodsari, C. I. Davidson,
and C. T. Driscoll

Defining and Measuring Sustainable Transport Solutions..... 1007
Fares Beainy, Sebastian Wikander, Aleksander Podolak, Lei Li,
and Toshiaki Carrhagiwara

Introducing Sustainability into the Engineering Curriculum..... 1018
Cliff I. Davidson and Miriam Heller

Research Needs and Advances

Decision Support Model for Integrated Intervention Plans of Municipal Infrastructure 1028
H. Elsawah, M. Guerrero, and O. Moselhi

Flexural Retrofitting of Reinforced Concrete Structures Using Green Natural Fiber Reinforced Polymer Plates..... 1040
Ignacio Cervantes, Lisa Aung Yong, Kyle Chan, Yu-Fu Ko,
and Sergio Mendez

Occupant Satisfaction with Indoor Environmental Quality: A Study of the LEED-Certified Buildings on the Arizona State University Campus..... 1052
Mounir El Asmar, Abbas Chokor, and Issam Srour

Assessing LEED versus Non-LEED Energy Consumption for a University Campus in North America: A Preliminary Study 1060
Claire Tilton and Mounir El Asmar

Preliminary Heat Transfer Analysis for a Large Extensive Green Roof..... 1066
Mallory N. Squier, J. B. Ahmad, Zhi Cui, and Cliff I. Davidson

A Sustainability Rating System for Roads in Developing Countries 1075
Robert Montgomery, Howard Schirmer, Jr., and Art Hirsch

Sustainability Quantification System: A Quantitative Approach to Evaluate Transportation Sustainability in U.S...... 1086
Hariharan Naganathan, Wai Kiong Chong, and Steven D. Schrock

Linking Disaster Resilience and Sustainability1097
Tonatiuh Rodriguez-Nikl, Matthew Comber, Simon Foo,
Sally J. Gimbert Carter, Lionel Lemay, Panagiotis Koklanos,
Lindsey Maclise, Martha G. VanGeem, and Mark D. Webster
