

2014 International Conference on Electronics, Communication and Computational Engineering

(ICECCE 2014)

**Hosur, Tamilnadu, India
17-18 November 2014**

IEEE Catalog Number: CFP1420Y-POD
ISBN: 978-1-4799-5749-1

TABLE OF CONTENTS

Sl.No	Paper Id	Title of the Paper	Page Nos.
1.	4	Design and Implementation of Telescopic OTA in 8 Bit Second-Order Continuous-Time Band-Pass Sigma-Delta ADC Jamuna G, Siva Yellampalli, Swetha S	1-7
2.	7	16-bit Velocious Fault Lenient Parallel Prefix Adder Shanil Mohamed.N, Siby T Y	8-11
3.	9	Nonlinearity Effect of Power Amplifiers in Wireless Communication Systems Shatrughna Prasad Yadav, Subhash Chandra Bera	12-17
4.	24	A Comparison of C-dump and One Common Switch Converter Configurations for SRM used as Electric Actuator in Flight Control System Sudakshina. K. Sreedhar , Dr. H. V. Manjunath, Girish. G. Dixit, Dhanusha. K. Abhijith	18-24
5.	27	PLC Based Controller Simulation for Raytheon Precision Laser Driller/Welder Pradeep R, Asha Surendran, Dr. C Ramachandra, Dr. H V Manjunath	25-29
6.	28	Low Speed Estimation of DTC controlled Induction motor drive using MRAS Mini.R, Rani Sreenivasan, Dr. M.N Dinesh	30-35
7.	31	Modified Low Power STUMPS Architecture Nayana M, Siva Yellampalli, G. Harish	36-39
8.	32	Comparative Analysis of Scan Compression Techniques Praveen Sakrappanavar, Siva Yellampalli, Ashish Kothar	40-44
9.	33	Optimization of Test Time and Fault Grading of Functional Test Vectors using Fault Simulation Flow S. Praveen, Siva Yellampalli, Ashish Kothari	45-48
10.	41	Information Jamming in Electronic Warfare: Operational Requirements and Techniques Shesh Vardhan, Anubhav Garg	49-54
11.	42	A DC-DC Multi-output SEPIC Converter for Suburban Power Application Nayana.K , V.Sailaja, Deepa.K, H.V.Manjunath	55-60

12.	46	Reconfigurable Solar Converter for PV Battery Application Malu Vikraman Nair, Lekshmi S	61-66
13.	51	Automated Extraction of Digital Images Features of three kinds of Cotton Leaf Diseases P.R. Rothe, R. V. Kshirsagar	67-71
14.	56	Field-of-View based Hierarchical Clustering to Prolong Network Lifetime of WMSN with Obstacles Sandip K Chaurasiya, Joydeep Mondal, Suman Dutta	72-77
15.	57	Design of Series Active Filter for Power Quality Improvement Kalyanapu Pradeep, Ilango. K	78-82
16.	59	A comparative survey of symmetric and asymmetric key Cryptography Sourabh Chandra., Smita Paira, Sk Safikul Alam, Goutam Sanyal	83-93
17.	61	A Novel Chaotic Color Image Encryption /Decryption Based on Triangular Confusion Ranjith kumar.R, Saranraj.B	94-100
18.	62	"Guardian" Protocol for Mobile Wireless Sensor Networks Ankit Kalbande, Divyesh Dixit	101-108
19.	63	Secured Document Management through A Third Party Auditor Scheme in Cloud Computing Dr. Kumar Parasuraman, Dr. P. Srinivasababu, S. Rajula Angelin and T. Arumuga Maria Devi	109-118
20.	67	A Novel Wavelet based Thresholding for Denoising Fingerprint Image K. Sasirekha, K. Thangavel	119-124
21.	68	A Comparative Analysis of Jitter Estimation Techniques Vijender Kumar Sharma, Jai Narayan Tripathi, Rajkumar Nagpal, Sujay Deb, Rakesh Malik	125-130
22.	70	A Comparative and Analytical Study on Symmetric Key Cryptography Bidisha Mandal, Sourabh Chandra, Sk Safikul Alam, Subhendu Sekhar Patra	131-136

23.	76	An improved low power high speed full adder design with 28nm for extended region of operation Deepak K Jena, R K Lal, Rakesh Malik, Apurva Sen,,Jeswanth K Geda	137-141
24.	77	Design and Development of Digital Controller for Raytheon Precision Laser Welder/Driller Pradeep R, Asha Surendran, Dr. C Ramachandra, Dr. H V Manjunath	142-147
25.	78	Comparitive Analysis of Different Modes of Operation For Zigbee MAC With Variation In Network Size And Traffic Meenakshi Yadav, Pankti Brar, Prabhjot Kaur	148-152
26.	79	Lifetime aware MPR selection in OLSRfor MANET <i>Prathviraj N, Prashanth Kumar A</i>	153-156
27.	81	Leakage Current Suppression for Transformerless Inverter for Grid Connected PV Power Systems S.Ayswarya ,P.Prabhu M.E	157-162
28.	82	Lexico-Syntactic Normalization Model for Noisy SMS Text Greety Jose, Nisha.S.Raj	163-168
29.	87	Performance of MIMO MC-CDMA System with Channel Estimation Equalization and Relay N. Tamilarasan, L.Nithyanandan	169-172
30.	89	Data Labeling method based on Rough Entropy for Categorical Data Clustering Mr.G.Sreenivasulu, Dr.S.Viswanadha Raju ,N.Sambasiva Rao	173-178
31.	90	Automated Vigilant Transportation System for Minimizing the Road Accidents Chaitra V.R. Thota, Lavanya K. Galla, Ramya Narisetty, Uttam Mande	179-183
32.	92	Efficient VLSI architecture for FIR filter using DA-RNS Raj Kamal, Piyush Chandravanshi, Neha Jain, Rajkumar	184-187
33.	94	Battery Charging using Induction Motor's Slip Power V.Sailaja, E. Roma Harshan, Anusha Voleti, Bharath Reddy	188-199
34.	96	Reversible Image watermarking using Interpolation Technique Dr. Kumar Parasuraman and Deeparani G	200-205

35.	99	Simulation and analysis of an Intelligent Fuzzy logic Controller model for low power photovoltaic energy Utilization system Kakarla .Deepti, P.Srihari, Manjunadh Achari	206-209
36.	105	Prolonging the Network Lifetime of Heterogeneous WSNS using MECRSEP Shobti Saini, Meenakshi Sharma	210-215
37.	107	Investigations on Classification Algorithms for Intrusion Detection System in MANETS Anusha.K, Ezhilmaran.D	216-219
38.	109	A Machine Learning Adaptive approach to Remove Impurities over Bigdata Akash Devgun	220-225
39.	110	A Rule based Mathematical Model to Improve Risk Assessment on Cloud Server Akash Devgun	226-231
40.	111	Space Complexity Analysis of Various Sparse Matrix Storage Formats used in Rectangular Segmentation Image Compression Technique Sumithra Sriram, Saira Banu.J, Rajasekhara Babu	232-235
41.	113	Analysis of Ground Effect on Multi-Rotors Sanjukta Aich, Chahat Ahuja, Tushar Gupta, P. Arulmozhivarman	236-241
42.	114	Implementation of Home Automation using Eye Blink Sensor B.S.Sourab ,Ranganatha Chakravarthy H.S, Sachith D'Souza	242-244
43.	115	Modified SLM and PTS Approach to Reduce PAPR in MIMO OFDM B.Somasekhar, A.Mallikarjunaprasad	245-253
44.	118	Performance Comparison of GTS Mechanism enabled IEEE 802.15.4 based Wireless Sensor Networks using LAR and DYMO protocol P. Samundiswary ,R.Surender	254-258
45.	123	Acoustic Echo Cancellation using Time and Frequency Domain Adaptive Filter Methods on Tms320c6713dsk Gopalaiah,.K. Suresh	259-263

46.	125	Labview Implementation of identification of Early Signs of Breast Cancer Meharunnisa S.P , K.Suresh	264-267
47.	131	Vulnerability Ontology for web applications to predict and classify attacks J.Shenbagam, P.Salini	268-272
48.	133	Automated Detection of Diseases by Nicking Quantification in Retinal Images Dr. Kumar Parasuraman and Ramya R	273-278
49.	142	Literature Review: Dynamic Resource Allocation Mechanism In Cloud Computing Environment Jayanthi S	279-281
