

2015 IEEE MTT-S International Conference on Microwaves for Intelligent Mobility

(ICMIM 2015)

**Heidelberg, Germany
27-29 April 2015**

**IEEE Catalog Number: CFP15IDH-POD
ISBN: 978-1-4799-7216-6**

Table of Contents

Session 1 - Automotive Radar: System Design

Steffen Lutz, Christian Erhart, Thomas Walter University of Applied Sciences Ulm, Germany Robert Weigel University of Erlangen-Nuremberg, Germany	8 Channel MIMO Long Range Radar Concept for Angular Estimation in Multi Target Scenarios....1
Andreas Frischen, Jürgen Hasch Robert Bosch GmbH, Germany Christian Waldschmidt Ulm University, Germany	Contour Recognition with a Cooperative Distributed Radar Sensor Network....5
Reinhard Feger, Andreas Stelzer Johannes Kepler University Linz, Austria	Modulated mm-Wave Radar Signal Generation Using Frequency Multipliers....9
Jürgen Hasch Robert Bosch GmbH, Germany	Driving Towards 2020: Automotive Radar Technology Trends...13

Session 2 - Automotive Radar: RF Signal Processing

Klaudius Werber, Jens Klappstein, Markus Hahn, Jürgen Dickmann Daimler AG, Germany Klaus Dietmayer, Matthias Rapp, Christian Waldschmidt Ulm University, Germany	Automotive Radar Gridmap Representations....17
Dominik Kellner, Michael Barjenbruch, Klaus Dietmayer Ulm University, Germany Jens Klappstein, Jürgen Dickmann Daimler AG, Germany	Wheel Extraction based on Micro Doppler Distribution using High-Resolution Radar....21
Fabian Roos, Dominik Kellner, Klaus Dietmayer, Christian Waldschmidt Ulm University, Germany Jens Klappstein, Jürgen Dickmann Daimler AG, Germany Klaus Müller-Glaser Karlsruhe Institute of Technology, Germany	Estimation of the Orientation of Vehicles in High-Resolution Radar Images....25

Jürgen Dickmann, Jens Klappstein, Markus Hahn, Marc Muntzinger, Nils Appenrodt, Carsten Brenk, Alfons Sailer Daimler AG, Germany	Present Research Activities and Future Requirements on Automotive Radar from a car manufacturer's point of view....29
---	---

Session 3 - Localization and Monitoring

Shengchang Lan, Nan-Nan Wang Harbin Institute of Technology, P.R. China Alexander Denisov Scientific Research Center, Ukraine Francesco Soldovieri CNR, Italy	A New Method towards Traffic Flow Control by Millimeter Wave Radiometers....33
Yassen Dobrev, Martin Vossiek University of Erlangen-Nuremberg, Germany Denys Shmakov Symeo GmbH, Germany	A Bilateral 24 GHz Wireless Positioning System for 3D Real-Time Localization of People and Mobile Robots....37
Dan Kreiser, Denys Martynenko, Oleksiy Klymenko, Gunter Fischer IHP GmbH, Germany	Simple and Efficient Localization Method for IR-UWB Systems based on Two-way Ranging....41
Sven Roehr, Peter Gulden, Denys Shmakov, Igor Bilous Symeo GmbH, Germany	Wireless Local Positioning - Existing Solutions and Novel System Concepts....45

Session 4 - Automotive Radar: Microwave Technology

Shuai Yuan, Hermann Schumacher Ulm University, Germany	Vehicle microwave radar system for 2D and 3D environment mapping....49
Matthias Porranzl, Andreas Stelzer Johannes Kepler University, Linz, Austria Christoph Wagner, Herbert Jäger DICE, Austria	An Active Quasi-Circulator with a Passive Linear TX-Path for 77-GHz Automotive FMCW Radar Systems in SiGe Technology....52
Josef Böck, Rudolf Lachner Infineon, Germany	SiGe BiCMOS and eWLB Packaging Technologies for Automotive Radar Solutions....56

Session 5 - RF for Mobile Systems

Xin Wang, Andreas Stelzer Johannes Kepler University, Linz, Austria	A 79-GHz LTCC RF-Frontend Deploying 45 Degree Linear- Polarized Vertical Parallel- Feed Antennas....60
Eugen Schubert, Frank Meinl, Martin Kunert Robert Bosch GmbH, Germany Wolfgang Menzel Ulm University, Germany	High Resolution Automotive Radar Measurements of Vulnerable Road Users - Pedestrians & Cyclists....64

Poster Session

Andreas Loeffler, Stefan Heinrich, Thomas Fechner, Julian Ronczka Continental AG, Germany	24 GHz Series Production Short Range Radar for Highly Automated Driving Applications....68
Tobias Mahler, Jerzy Kowalewski, Tom Schipper, Thomas Zwick Karlsruhe Institute of Technology, Germany	A Pattern Reconfigurable Automotive LTE Antenna employing Synthesized Radiation Patterns....71
Shengchang Lan, Hongjun Chu, Yang Xu Harbin Institute of Technology, P.R. China Alexander Denisov Scientific Research Center, Ukraine	A Novel Millimeter-wave Antenna Module Design for Automotive Radar Sensors....75
Gabor Vinci, Thilo Lehnard InnoSenT GmbH, Germany Christoph Will, Alexander Koelpin University of Erlangen-Nuremberg, Germany	Microwave Interferometer Radar- Based Vital Sign Detection for Driver Monitoring Systems....78
Xin Wang Tianjin University, P.R. China Hsien Wu Tianjin University, Taiwan Ching-Kuang Tzuang National Taiwan University, Taiwan	CMOS 170 GHz Compline Bandpass Filter....82
Tom Schipper, Dora Ahbe, Tobias Mahler, Jerzy Kowalewski, Thomas Zwick Karlsruhe Institute of Technology, Germany Johannes Schlichenmaier Ulm University, Germany	A Simulator for Multi-User Automotive Radar Scenarios....85

Session 6 - Industrial Radar

Marlene Harter, Thomas Zwick Karlsruhe Institute of Technology Andreas Ziroff Siemens, Germany Jürgen Hildebrandt Robert Bosch GmbH, Germany	Error Analysis and Self-Calibration of a Digital Beamforming Radar System....89
Serdal Ayhan, Steffen Scherr, Akanksha Bhutani, Mario Pauli, Thomas Zwick Karlsruhe Institute of Technology, Germany	Radar Sensor for Waveguide based Distance Measurements in Machine Tool Components....93

Session 7 - ITS - Evaluation, Testing and Implementation Issues

Matthias Hein, Christian Bornkessel, Wim Kotterman, Christian Schneider, Rajesh Sharma, Frank Wollenschläger, Reiner Thomä Ilmenau University of Technology, Germany Giovanni Del Gado, Markus Landmann Fraunhofer, Germany	Emulation of virtual radio environments for realistic end-to-end testing for intelligent traffic systems....97
Jürgen Kunisch, Christos Oikonomopoulos-Zachos IMST GmbH, Germany	Radio Channel Modeling for C-ITS Testing....101
Alexander Paier Kapsch TrafficCom, Austria	The End-to-End Intelligent Transport System (ITS) Concept in the Context of the European Cooperative ITS Corridor....105
Erik Ström Chalmers University of Technology, Sweden Katrín Sjöberg Volvo, Sweden Jan Carlsson SP Technical Research Institute of Sweden Amir Majidzadeh Volvo Car Corporation, Sweden	Requirements and test methods for vehicular antenna systems supporting cooperative ITS applications....109
Roman Alieiev, Andreas Kwoczek, Thorsten Hehn Volkswagen AG, Germany	Automotive Requirements for Future Mobile Networks....113

Session 8 - Interference Mitigation

Jonathan Bechter, Christian Waldschmidt Ulm University, Germany	Automotive Radar Interference Mitigation by Cancellation of Interference Component....117
Adel Saleeb Menofia University, Egypt Demyana Saleeb Kafr Elshiekh University, Egypt Ahmed Elkorany Menouf, Egypt	Polarimetry Radar Calibration using Trihedral Corner Reflectors with Electromagnetic Band Gap Polarization Converters...121
Stefano Maddio, Alessandro Cidronali, Giovanni Collodi, Gianfranco Manes, Marco Passafiume Università degli Studi di Firenze, Italy	Interference Cancellation for the Coexistence of 5.8 GHz DSRC and 5.9 GHz ETSI ITS....125
Michael Barjenbruch, Dominik Kellner, Klaus Dietmayer Ulm University, Germany Jens Klappstein, Jürgen Dickmann Daimler AG, Germany	A Method for Interference Cancellation in Automotive Radar....129
