

# **2015 Wireless Telecommunications Symposium**

**(WTS 2015)**

**New York City, New York, USA  
15-17 April 2015**

**IEEE Catalog Number: CFP15WTS-POD  
ISBN: 978-1-4799-6777-3**

## Table of Contents

Refereed conference papers accepted for Xplore are listed in order of their corresponding files.

Buffer Overflow Simulation in Self-Similar Queuing Networks with Finite Buffer Capacity Accelerated Using RESTART/LRE....	1
Analysis of an Adaptive Modulation and Coding Scheme with HARQ for TCP Traffic....	8
A 2-Stage SI Estimation Scheme for SLM-OFDM Systems without SI Transmission....	14
Improved Reliability Information for OFDM Systems on Time-Varying Frequency-Selective Fading Channels....	19
The Impact of Integrated Wireless and Mobile Communication Technologies on the Corporate World....	26
MIMO Linear Precoders with Reduced Complexity....	31
Topology Refresh Data Forwarding Protocol for Opportunistic Networks....	38
Cell Sectorization-Based Pilot Assignment Scheme in Massive MIMO Systems....	45
WLAN Covert Timing Channel Detection....	50
A Filter Bank Multicarrier Scheme Running At Symbol Rate for Future Wireless Systems....	55
Multi-Hop Relay Selection Based on Fade Durations....	60
User-Specific QoS Aware Scheduling and Implementation in Wireless Systems....	66
A Highly Efficient and Secure Shared Key for Direct Communications Based on Quantum Channel....	73
An IP-Based Triggering Method for LTE MTC Devices....	79
Efficient Approaches to Resource Allocation in MIMO-based Wireless Mesh Networks....	85
Designing Wireless Metropolitan-Area Networks Using Mathematical Optimization....	92
Relay Selection in Multiple Clustered Relay Networks....	100
MobileCoach: A Novel Open Source Platform for the Design of Evidence-based, Scalable and Low-Cost Behavioral Health Interventions - Overview and Preliminary Evaluation in the Public Health Context....	106
QR Codes and Authentication Protection....	112

A High Payload Video Steganography Algorithm in DWT Domain Based on BCH Codes (15, 11)....	119
Disintegrated Channel Estimation in Scalable Filter-and-Forward Relay Network with IRI Coordination....	127
Energy-Detection Based Spectrum-Sensing in Cognitive Radio Networks over Multipath/Shadowed Fading Channels....	133
Using Long Samples in Subjective Testing Of Voice Transmission Quality in IP Network....	139
A New Call Admission Control Scheme Based on Pattern Prediction for Mobile Wireless Cellular Networks....	143
A Remote Triggered Wireless Sensor Network Testbed....	149
Mobile Device Access: Effect on Online Purchases....	156
A New Bandwidth-Efficient Multicast Routing Scheme for Mobile Ad hoc Networks....	163
Link Adaptive Relaying with Noncoherent BFSK and DPSK Modulations in Multiple Access Relay Channels....	170
Analysis of Full Volterra nonlinear Equalizer for Downlink LTE System....	175
Optimal Wake-Up Scheduling for Energy Efficient Fixed-Rate Wireless Transmissions with Real-Time Constraints....	181
Decoding of Short LT Codes over BIAWGN Channels with Gauss-Jordan Elimination-Assisted Belief Propagation Method....	186
Impact of DSRC Information Content and Transmission Rate for Highway Vehicle Platoons....	192
Energy-Cost-Distortion Optimization for Delay-Sensitive M-Health Applications....	198
Full-Duplex Communications with the use of Parasitic Array Radiators....	203
Analytical Modeling of Uplink Power Control in Two-tier Femtocell Networks....	210
Assistive Visual Aid for the Elderly Hearing Impaired....	216
An Efficient Fuzzy-based Power Control Scheme for Ad hoc Networks....	221
Statistical Functions Describing Two-Hop Amplify and Forward Relay Systems under Ricean Fading....	229
Adaptive Ubiquitous Mobile Gaming System for Youth Obesity Rehabilitation....	234
Predictive Broadcasting in Mobile Multimedia Communications....	240
Enhancing Satellite System Throughput Using Adaptive HARQ for Delay Tolerant Services in Mobile Communications....	244

IEEE 802.11ac: Performance of MIMO Detectors Based on List Detection and/or Lattice Reduction Techniques with Hard-Decision Viterbi Decoding....	251
Comparison and Performance Study of Different I/Q Imbalance and Channel Compensation Schemes for OFDM Receivers....	259
Conceptualizing mBusiness....	265
Revisit on Maximum Ratio Combining Reception Practically Attained across Correlated Nakagami-m Branches....	271
Hybrid SDN Architecture for Resource Consolidation in MPLS Networks....	278
Accurate Performance evaluation of Semi-Blind Dual-Hop Wireless Relay Systems under Generalized Fading....	286
Wireless channel measurements and modeling for an office topology at 3.5 GHz....	292
Symbol Request Sharing Scheme for Mobile Cooperative Receivers in OFDM Systems....	298
Integration of Wireless and Data Technologies for Personalized Smart Applications....	304
Energy Consumption Evaluation of SAODV with Trust Management Scheme under Gray-Hole Attacks....	312
On the Accuracy of In-body TOA Ranging inside the Gastrointestinal Tract Using Carrier Frequency....	320
Optimal Sample Delay for OFDM Error Floor over Small-Delay Dispersion Channel....	325
