

2015 International Symposium on Power Line Communications and its Applications

(ISPLC 2015)

**Austin, Texas, USA
29 March - 1 April 2015**

**IEEE Catalog Number: CFP15843-POD
ISBN: 978-1-4799-8414-5**

Program

2015 IEEE International Symposium on Power Line Communications and Its Applications (ISPLC)

Noise & Interference Mitigation

<i>Blind Adaptive Analog Nonlinear Filters for Noise Mitigation in Powerline Communication Systems</i>	
Alexei V. Nikitin (Avatekh Inc, USA), Dale Scutti (Kansas State University, USA), Bala Natarajan (Kansas State University, USA), Ruslan L. Davidchack (University of Leicester, United Kingdom)	1
<i>Maximum Likelihood Decoding of QPSK Signal in Power Line Communications Over Nakagami-m Additive Noise</i>	
Aashish Mathur (Indian Institute of Technology - Delhi, India), Manav Bhatnagar (Indian Institute of Technology Delhi, India), Bijaya Panigrahi (Indian Institute of Technology - Delhi, India)	7
<i>Constant Envelope OFDM Transmission Over Impulsive Noise Power-Line Communication Channels</i>	
Khaled M. Rabie (University of Manchester, United Kingdom), Emad Alsusa (Manchester University, United Kingdom), Ayokunle Damilola Familua (University of Witwatersrand, South Africa), Ling Cheng (University of the Witwatersrand, South Africa)	13
<i>A Method for Narrowband Interference Mitigation in OFDM by Minimizing Spectral Leakage</i>	
Tarkesh Pande (Texas Instruments, USA), Il Han Kim (Texas Instruments, USA), Anuj Batra (Texas Instruments, USA)	19
<i>Performance of Polar Codes with Successive Cancellation Decoding Over PLC Channels</i>	
Ju Jin (Korea Electricechnology Research Institute, Korea), Hui-Myoung Oh (Korea ElectroTechnology Research Institute, Korea), Sungsoo Choi (Korea Electrotechnology Research Institute, Korea), Jongkwan Seo (Korea Electrotechnology Research Institute, Korea), Jae-Jo Lee (Korea Electrotechnology Research Institute, Korea)	24

Device Modelling & Measurements

<i>Measurements on Rogowski Coils as Coupling Elements for Power Line Communication in Traction Lithium-Ion Batteries</i>	
Oliver Opalko (Karlsruhe Institute of Technology (KIT), Germany), Damian Alonso (Karlsruhe Institute of Technology (KIT), Germany), Klaus M. Dostert (Karlsruhe Institute of Technology (KIT), Germany)	29
<i>A Preliminary Investigation of the UHF Properties of LV Cable for WiFi Over Power Line Communications</i>	
Sean Jordaan (University of Johannesburg, South Africa), Petrus A. Janse van Rensburg (Central Queensland University, Australia), Arnold De Beer (University of Johannesburg, South Africa), Hendrik C Ferreira (University of Johannesburg, South Africa), Han Vinck (University of Duisburg-Essen, Germany)	35
<i>Measurement of Powerlines and Devices Using an Inductive Shunt On-Line Impedance Analyzer</i>	
Cornelis J. Kikkert (James Cook University, Australia)	41
<i>Is Resistive Coupling Feasible for the Reception of Power-Line Communications Data?</i>	
Zwelibanzi W Swana (Walter Sisulu University, South Africa), Petrus A. Janse van Rensburg (Central Queensland University, Australia), Hendrik C Ferreira (University of Johannesburg, South Africa)	47
<i>Software for Control and Calibration of an Inductive Shunt On-line Impedance Analyzer</i>	
Shucheng Zhu (The University of Adelaide, Australia), Cornelis J. Kikkert (James Cook University, Australia), Nesimi Ertugrul (University of Adelaide, Australia)	53

MIMO PLC

<i>Broadband MIMO Powerline Channel Emulator Verification and Testing Results</i>	
Andreas Engelen (Devolo AG, Germany), Nico Weling (devolo AG, Germany), Stephan Thiel (Devolo AG, Germany)	59
<i>Proposed Frame and Preamble Structure for MIMO Narrowband Power Line Communications</i>	
Mostafa Sayed (University of Texas at Dallas, USA), Il Han Kim (Texas Instruments, USA), Tarkesh Pande (Texas Instruments, USA), Anuj Batra (Texas Instruments, USA), Naofal Al-Dhahir (University of Texas at Dallas, USA)	65
<i>Interference Alignment for MIMO Power Line Communications</i>	
Md. Jahidur Rahman (University of British Columbia, Canada), Lutz Lampe (University of British Columbia, Canada)	71
<i>Multi-User MIMO Broadcasting/Multicasting for Medium-Voltage Narrowband-PLC Networks</i>	
Ahmed ElSamadouny (University of Texas at Dallas, USA), Naofal Al-Dhahir (University of Texas at Dallas, USA), Andreas Chrysochos (Aristotle University of Thessaloniki, Greece), Theofilos A. Papadopoulos (Democritus University of Thrace, Greece), Grigoris K Papagiannis (Aristotle University of Thessaloniki, Greece), Mohamed M. Abdallah (Texas A&M University at Qatar, Qatar)	77
<i>Design Tradeoffs in Joint Powerline and Wireless Transmission for Smart Grid Communications</i>	
Ghadi Sebaali (UT Austin, USA), Brian L Evans (The University of Texas at Austin, USA)	83

Network Performance & Simulators

<i>Routing Overhead Optimization in Smart Grid Networks</i>	
Muhammad Owais Khan (University of Texas at Austin, USA), Kumaran Vijayasankar (Texas Instruments, USA), Ramanuja Vedantham (Texas Instruments Inc., USA)	89
<i>An Experimentally Validated PRIME Subnetwork Simulation Model for Utility Applications</i>	
Janire Larrañaga (University of Deusto & Deustotech - Deusto Institute of Technology, Spain), Jon Legarda (Deusto Institute of Technology, Spain), Iker Urrutia (Iberdrola, Spain), Alberto Sendin (Iberdrola, Spain)	95
<i>Performance Evaluation of AMR Simultaneous Polling Strategy in a PRIME PLC Network</i>	
Eduardo Alonso (Universidad Pontificia Comillas, Spain), Javier Matanza (Universidad Pontificia Comillas, Spain), Carlos Rodriguez-Morcillo (Universidad Pontificia Comillas, Spain), Sadot Alexandres (Universidad Pontificia Comillas, Spain)	101
<i>Impact of the Weak Link Count Mechanism on G3-PLC LOADng Routing Protocol</i>	
François Van Trimpont (University of Mons, Belgium), Gaston Bayot Katumba (University of Mons, Belgium), Véronique Moeyaert (Université de Mons (UMONS) & Faculté Polytechnique, Belgium), Sébastien Bette (University of Mons - Faculty of Engineering, Belgium)	107
<i>Modeling Approach of Broadband In-home PLC in Network Simulator 3</i>	
Ievgenii Anatolijovuch Tsokalo (Technische Universität Dresden, Germany), Ralf J. Lehnert (Technische Universität Dresden, Germany)	113

Signal Processing for PLC Transceivers

<i>Topology Reconstruction for Power Line Network Based on Bayesian Compressed Sensing</i>	
Xu Ma (Tsinghua University, P.R. China), Fang Yang (Tsinghua University, P.R. China), Wenbo Ding (Tsinghua University, P.R. China), Jian Song (Tsinghua University, P.R. China)	119
<i>Wake-Up Transceiver Protocol for Power Line Communications</i>	
Matthias Kuba (Fraunhofer Institute for Integrated Circuits IIS, Germany)	125
<i>A Novel Weight Reset Strategy for the LMS Algorithm Subject to Abrupt Channel Variations</i>	
Carlo Tripodi (University of Parma, Italy), Gianluigi Ferrari (University of Parma, Italy), Riccardo Pighi (Selta Spa, Italy), Riccardo Raheli (University of Parma, Italy)	131

<i>A Bit Loading Technique with Reduced Complexity for Periodically Time Varying PLC Channel</i> Guilherme Colen (Federal University of Juiz de Fora, Brazil), Fabricio Campos (Universidade Federal de Juiz de Fora, Brazil), Haniph A. Latchman (University of Florida, USA), Moises Vidal Ribeiro (Federal University of Juiz de Fora, Brazil)	137
<i>Optimal Power Allocation for Non-Regenerative Multicarrier Relay-Assisted PLC Systems with QoS Constraints</i> Xiaolin Wu (Curtin University, Australia), Yue Rong (Curtin University, Australia)	142

Channel, Noise and Interference Characterization (I)

<i>Statistical Modeling of PLC-to-DSL Interference</i> Stefano Galli (ASSIA, Inc., USA), Kenneth Kerpez (ASSIA, Inc., USA), Hubert Mariotte (Orange Labs, France), Fabienne Moulin (Orange Labs, France)	148
<i>On Modeling of Sporadic Impulsive Noise Rate Within In-Home Power Line Networks</i> Salvatore D'Alessandro (WiTiKee srl & University of Udine, Italy), Marco De Piante (University of Udine, Italy), Andrea M Tonello (University of Klagenfurt, Austria)	154
<i>The Impact of PLC-to-DSL Interference on VDSL2, Vectored VDSL2, and G.fast</i> Kenneth Kerpez (ASSIA, Inc., USA), Stefano Galli (ASSIA, Inc., USA), Hubert Mariotte (Orange Labs, France), Fabienne Moulin (Orange Labs, France)	160
<i>Channel Characterization for Underwater Broadband PLC Sensor Networks</i> Vladimir Burstein (Jacobs University & Atlas Elektronik GmbH, Germany), Werner Henkel (Jacobs University Bremen, Germany)	166
<i>The Influence of High Pressure Sodium Lamps on the Power Line Communications Channel</i> Allan Emleh (University of Johannesburg, South Africa), Arnold De Beer (University of Johannesburg, South Africa), Hendrik C Ferreira (University of Johannesburg, South Africa), Han Vinck (University of Duisburg-Essen, Germany)	172

Channel, Noise and Interference Characterization (II)

<i>On PLC Channel Emulation Via Transmission Line Theory</i> Florian Gruber (University of Erlangen, Germany), Lutz Lampe (University of British Columbia, Canada)	178
<i>Statistical Modeling of the Average Channel Gain and Delay Spread in In-Home PLC Channels</i> Thiago Oliveira (IFSEMG - Federal Institute of Education, Science and Thechnology of the Southwest of Minas Gerais, Brazil), Camila Zeller (Federal University of Juiz de Fora (UFJF), Brazil), Sergio Lima Netto (UFRJ, Brazil), Moises Vidal Ribeiro (Federal University of Juiz de Fora, Brazil)	184
<i>The Effects of Periodic Impulsive Noise on OFDM</i> Thokozani Shongwe (University of Johannesburg, South Africa), Han Vinck (University of Duisburg-Essen, Germany), Hendrik C Ferreira (University of Johannesburg, South Africa)	189
<i>Electromagnetic Compatibility in Europe for OFDM Based PLC Access Data Transmission in the Frequency Range 150 kHz to 500 kHz</i> Sebastian Ponzelar (Devolvo AG, Germany), Anil Mengi (Devolvo AG, Germany), Michael Koch (Devolvo AG, Germany)	195
<i>A Semi-Hidden Markov Modeling of a Low Complexity FSK-OOK In-House PLC and VLC Integration</i> Ayokunle Damilola Familua (University of Witwatersrand, South Africa), Alain Richard Ndjiongue (University of Johannesburg, South Africa), Kehinde Ogunyanda (University of Johannesburg, South Africa), Ling Cheng (University of the Witwatersrand, South Africa), Hendrik C Ferreira (University of Johannesburg, South Africa), Theo G. Swart (University of Johannesburg, South Africa)	199

Emerging Systems & Solutions

<i>HomePlug Green PHY for the LVDC PLC Concept: Applicability Study</i>	
Antti Pinomaa (Lappeenranta University of Technology, Finland), Jero Ahola (Lappeenranta University of Technology, Finland), Antti Kosonen (Lappeenranta University of Technology & Institute of Energy Technology, Finland), Pasi Nuutinen (Lappeenranta University of Technology, Finland)	205
<i>6LoPLC for Smart Grid Applications</i>	
Augustine Ikpehai (Manchester Metropolitan University, United Kingdom), Bamidele Adebisi (Manchester Metropolitan University, United Kingdom)	211
<i>Power Line Communication Technology in Industrial Networks</i>	
Samuel Castro Pereira (Federal Institute of Education, Science and Technology of São Paulo, Brazil), Alexandre Simião Caporali (Federal Institute of Education, Science and Technology of São Paulo, Brazil), Ivan Casella (Federal University of ABC, Brazil)	216
<i>High-Voltage Power Line Communication System for Hybrid Vehicle</i>	
Yoshiyuki Hattori (TOYOTA Central R&D Labs., Inc., Japan), Masaki Takanashi (TOYOTA Central R&D Labs., Inc., Japan), Tomohisa Harada (TOYOTA Central R&D Labs., Inc., Japan), Hiroya Tanaka (Toyota Central R&D Labs. Inc., Japan), Hiroaki Hayashi (TOYOTA Central R&D Labs., Inc., Japan), Atsuhiko Takahashi (TOYOTA Central R&D Labs., Inc., Japan)	222
<i>A Novel Power Line Communication System for Outdoor Electric Power Grids</i>	
Moises Vidal Ribeiro (Federal University of Juiz de Fora, Brazil), Fabricio Campos (Universidade Federal de Juiz de Fora, Brazil), Diogo Fernandes (Federal University of Juiz de Fora & Smarti9, Brazil), Guilherme Colen (Federal University of Juiz de Fora, Brazil), Hugo Schettino (Federal University of Juiz de Fora, Brazil), Lucas Sirimarco (Electrical Engineering UFJF Brazil, Brazil), Victor Fernandes (Federal University of Juiz de Fora & Smarti9, Brazil), Antonio A. M. Picorone (Federal University of Juiz de Fora & CEMIG Distribuição S.A., Brazil)	228

Transmission and Detection Techniques

<i>Detection of Wireless Signals in Broadband Cognitive PLC Using the Modified 2-D LAD ACC Algorithm</i>	
Risto Vuontoniemi (University of Oulu, Finland), Johanna Vartiainen (University of Oulu, Finland), Juha-Pekka Mäkelä (University of Oulu, Finland), Jari Iinatti (University of Oulu, Finland)	234
<i>The Influence of Transmission Power and Frequency Bandwidth on In-home Cooperative Power Line Communication</i>	
Michelle Soares Pereira Facina (Federal University of Juiz de Fora, Brazil), Moises Vidal Ribeiro (Federal University of Juiz de Fora, Brazil)	239
<i>Guard Interval Adaptation for In-home Power Line Communication</i>	
Nhan Vo (Telecom Bretagne, France), Karine Amis (Institut TELECOM ; TELECOM Bretagne & Université européenne de Bretagne, France), Thierry Chonavel (Institut Télécom; Télécom Bretagne & Université Européenne de Bretagne, France), Pierre Siohan (Orange Labs, France)	245
<i>A New Digital Front End Structure for Cognitive PLC Systems</i>	
Hongjian Gao (China Electric Power Research Institute, P.R. China), Gerd Bumiller (Hochschule Ruhr West & University of Applied Sciences, Germany), Weilin Liu (State Grid Corporation of China, P.R. China), Jianqi Li (China Electric Power Research Institute, P.R. China)	250

PLC System Performance

<i>Performance of Gabidulin Codes for Narrow-band PLC Smart Grid Networks</i>	
Wendyida Abraham Kabore (University of Limoges, France), Vahid Meghdadi (University of Limoges, France), Jean-Pierre Cances (XLIM, France), Philippe Gaborit (Universite de Limoges, France), Olivier Ruatta (XLIM, France)	256

<i>Analysis Tool for Temporal Evolution of Frame Error Rate Performance in Narrowband PLC</i> Aurélien Van Laere (University of Mons - Faculty of Engineering, Belgium), Sébastien Bette (University of Mons - Faculty of Engineering, Belgium), Véronique Moeyaert (Université de Mons (UMONS) & Faculté Polytechnique, Belgium)	262
<i>Feasibility Study of Ubiquitous Sensor Networks by Inductively Coupled PLC Over PV Power Systems</i> Shinji Tsuzuki (Ehime University, Japan), Yoshio Yamada (Ehime University, Japan)	268
<i>High Bitrate Downhole Telemetry System</i> Thanh Tran (Halliburton Company & Texas Instruments, USA)	274

Additional Papers

<i>Powerline-Channel Adopted Layer-Design and Link-Layer for Reliable Data Transmission</i> Gerd Bumiller (University of Applied Sciences Ruhr West, Germany).....	279
