

2015 IEEE Colombian Conference on Communications and Computing (COLCOM 2015)

**Popayan, Colombia
13-15 May 2015**

**IEEE Catalog Number: CFP1552S-POD
ISBN: 978-1-4799-8835-8**

TABLE OF CONTENTS

DACA - Disjoint Path and Clustering Algorithm for Self-Healing WSN	1
<i>Sergio Diaz, Diego Mendez</i>	
Region-Based Image Retrieval Using Color and Texture Features on Irregular Regions of Interest	6
<i>Yuber Velazco-Paredes, Roxana Flores-Quispe, Raquel E. Patino Escarcina</i>	
Shortest Path for Optimal Routing on Advanced Metering Infrastructure Using Cellular Networks.....	12
<i>Esteban Inga, Roberto Hincapie, Carlos Suárez, Germán Arévalo</i>	
Optimum Deployment of FiWi Networks Using Wireless Sensors based on Universal Data Aggregation Points	18
<i>Arturo Peralta-Sevilla, Esteban Inga, Renato Cumbal, Roberto Hincapie</i>	
Business Process Modeling with Levels of Abstraction: A Survey of Practitioners with Experience	24
<i>Carlos Monsalve, Alain April, Alain Abran</i>	
Adaptive Beamforming for Moving Targets Using Genetic Algorithms and a CDMA Reference Signal.....	30
<i>Diego Burgos, Rodrigo Lemos, Jonas Kunzler, Hugo Silva</i>	
Study of Spectrum Usage in Urban Areas of Bogota Colombia.....	35
<i>Katherine Johanna Galeano, Luis Fernando Pedraza, Ingrid Patricia Páez</i>	
Captura, Control y Monitoreo de Variables Físicas y Fisiológicas en Ciclismo Bajo Techo. Estado Actual.....	41
<i>Hugo Armando Cristancho Chinome, Jorge Enrique Otálora Luna, Andrea Catherine Alarcón Aldana</i>	
Methodology to Implement Pilot Testing of Opportunistic Use of Radio Spectrum in White Spaces	47
<i>Freddy Alexander Acosta Tafur, Javier Enrique Arévalo Peña, Jorge Guillermo Barrera Medina, Juan David Zapata Pulido, Martha Liliana Suarez Peñaloza</i>	
Performance Analysis of WiLD Technology in the Andean Region of Ecuador	52
<i>Román Lara-Cueva, Gonzalo Olmedo, Viviana Tamayo, Evelyn Barrionuevo</i>	
Characterization of Interchannel Interference Effects in Multicarrier 32-Gbaud QPSK/16QAM Nyquist Systems	57
<i>Jhon James Granada Torres, Ana María Cárdenas Soto, Neil Guerrero González</i>	
Scalability in Ad Hoc Networks Under Hierarchical Architectures.....	63
<i>Juan Pablo Ospina Lopez, Henry Zarate Ceballos, Jorge Eduardo Ortiz Trivino</i>	
Low-cost and Reliable Wireless Communication System for Monitoring a Photovoltaic Source.....	69
<i>Diana M. Hincapie, Gabriel G. Duarte, Sergio B. Sepulveda</i>	
Management System for the Measurement of Radio Spectrum on Mode Remote.....	74
<i>Johanna Patricia Ardila Lerma, Homero Ortega Boada</i>	
Design and Implementation of an Application with Android for Remote Management of a Smartphone.....	80
<i>Tito Torres, Darwin Alulema, Carlos Romero</i>	
A Portable Electronic System for Health Monitoring of Elderly People.....	85
<i>Geovanny P. Guano, Darwin Alulema, Enrique V. Carrera</i>	
Modeling of a Load Balancer for Call Center Systems	91
<i>Henry Armando Rizo Sandoval, Gustavo Adolfo Ramírez Espinosa, Luis Carlos Trujillo Arboleda</i>	
Performance Evaluation of Future AMI Applications in Smart Grid Neighborhood Area Networks.....	98
<i>Diego F. Ramirez, Sandra Cespedes, Carlos Becerra, Christian Lazo</i>	
A Bridge Structural Health Monitoring System Supported by the Internet of Things.....	104
<i>Christian Lazo, Paulo Gallardo, Sandra Cespedes</i>	
Research about Coefficient of Variation for the Measurement Methodology of the Electric Field Strength Proposed by the UIT-R P.1406-1 Recommendation.....	110
<i>Joam Manuel Rincón Zuluaga, Cristian Camilo Ospina Alzate, John Bayro Ocampo Gracia, Héctor Fabio Bermúdez Orozco</i>	
MIMO SDR-based Implementation of AoA Algorithms for Radio Direction Finding in Spectrum Sensing Activities	115
<i>Alfredo D. Redondo, Tibisay Sanchez, Cristina Gomez, Leonardo Betancur, Roberto Hincapie</i>	
Energy Consumption Optimization for Sensor Networks in the IoT	119
<i>Angela Rodriguez, Armando Ordóñez, Hugo Ordoñez</i>	
Basic Programmable Logic controller with FPGA and Artificial Neural Networks.....	125
<i>Jorge Ramirez, Victor Proaño, Darwin Alulema</i>	
The Solution for the Construction Topology Problem for Rural Wireless Networks	129
<i>Milton J. R os Rivera, Leonardo Rodr uez Mujica</i>	

Coverage Evaluation of an Ais Radio Receiver Station for Traffic Control Onto the Magdalena River in Colombia	135
<i>José de Jesús Rugeles Uribe, Juan Felipe Paz Leytón, Cristhian Bermudez</i>	
Methodology to Calculate the Coverage of AIS Station Implementing Base Station Traffic Measurements	141
<i>José de Jesús Rugeles Uribe, David Cardenas Guzman, Cristhian Bermudez</i>	
Implementation of DeJong Radio Propagation Algorithm As a Virtual Sensor for Cloud Services to Enhance Radio Spectrum Management.....	147
<i>Homero Ortega Boada, Manuel Guillermo Flórez, Juan David Rodríguez Ariza, Maria Alejandra Alfonso Muñoz, César Augusto Pico Martinez, Celso Andrés Forero</i>	
Cognitive Network Validation Using NS-3	154
<i>Dick Carrillo</i>	
Structural Health Monitoring Using WifiPhones: Study of the Network Power Consumption Using Simulation Models	160
<i>Ricardo Gonzalez, Mónica Huerta, Giovanny Sagbay, Roger Clotet, Diana Rivas, Ana Pérez, Esteban Ordoñez, David Rivas</i>	
Experimental Evaluation of Performance for Spectrum Sensing: Matched Filter vs Energy Detector	166
<i>Avendaño Fernández Eduardo, René Geovani González Caballero</i>	
Development of Mobile Robotics Platform for Identification of Land Mines Antipersonal in Different Areas of Colombia	172
<i>C.A. Casas-Díaz, E.E. Roa-Guerrero</i>	
Implementation of Stateless Routing Mechanisms for Multicast Traffic on NetFPGA Card	178
<i>Roberto B. Martínez-Aguilar, Gonzalo M. Fernández</i>	
Performance Analysis of ITU G 992.5 Standard in a Real Environment	183
<i>Rodolfo Xavier Gordillo, Carlos Romero, Orlando Misael Macías</i>	
Implementation Analysis of Hybrid Functions Adapted to SBTVD and HbbTV	189
<i>Andrés Felipe Chicaíza Gómez, Luis Geraldo P. Meloni</i>	
Author Index
