

# **XIII International Conference on Durability of Building Materials and Components (XIII DBMC)**

RILEM Proceedings Pro 96

Sao Paulo, Brazil  
2-5 September 2014

Volume 1 of 2

**Editors:**

**M. Quattrone**

**V. M. John**

ISBN: 978-1-5108-1294-9

# Contents

## Preface

<b>Accelerated aging test to study self cleaning properties of photocatalytic post treatments</b>	
Garcia, G., Werle, A. P., Maranhão, F., Loh, K. and John, V. M. ....	1
<b>Evaluation of a modular framework for performance-based durability engineering through assessment of a coastal reinforced concrete structure</b>	
Flint, M. M. and Billington, S. L. ....	9
<b>Prediction of the sealant modulus change due to outdoor weathering</b>	
White, C. C., Tan, K. T., Hunston, D. L., Pintar, A. and Filliben, J. ....	17
<b>Durability of cool and conventional colored coatings after six months exposure at different environments</b>	
Loh, K., Sato, N. M. N., and Liborio, I. M. S. ....	23
<b>Impact of different European local climate conditions on the moisture performance of wooden commodities</b>	
Bornemann, T., Brischke, C., Alfredsen, G., Humar, M. and Larsson-Brelid, P. ....	30
<b>No concrete is sustainable without being durable!</b>	
De Schutter, G. ....	38
<b>Towards performance based durability standards for wood in construction – part 1: delivering customer service life needs</b>	
Brischke, C., Suttie, E., Englund, F., Heisel, E., Jermer, J., Lorenzo, D., Polášek, M., Thelandersson, S. and Acker, J. V. ....	45
<b>Towards performance based durability standards for wood in construction – part 2: considering moisture risks in wooden components</b>	
Brischke, C., Meyer, L. and Suttie, E. ....	53
<b>Repeated autogenous healing in cementitious composites with microfibres and superabsorbent polymers</b>	
Snoeck, D., Debaecke, S. and De Belie, N. ....	61
<b>Structural recycled concrete science and market: a success story</b>	
Viviani, M., Dorthe, L. and Bugnon, M. ....	69
<b>Improving the resilience and durability of New Zealand’s buildings</b>	
Jones, M. S., Marston, N. J., Shaw, P. and Li, Z. ....	77
<b>Re-assessment of New Zealand’s atmospheric corrosivity</b>	
Marston, N. J., Li, Z., Jones, M. S. and Shaw, P. ....	85

<b>Comparing the influence of fly ash on the durability properties of Portland cement-based and alkali activated slag-based concretes</b>	
Provis, J. L., Bernal, S. A., Ismail, I. Nicolas, R. S., Brice, D. G. and van Deventer, J. S. J. ....	93
<b>Assessment of the hydration constants of post blended blast furnace slag cements</b>	
Visser, J., van Zon, Q., Beijersbergen, H., Hacquebord, A. and van Zwet, R. ....	101
<b>Hygrothermal consequences of applying exterior air barrier systems in highly insulated wood-frame walls: a parameter analysis</b>	
Langmans, J., Vereecken, E. and Roels, S. ....	109
<b>The durability of basalt fibres reinforced polymer (BFRP)</b>	
Alaimo, G., Valenza, A., Enea, D., Fiore, V., Cracolici, A., and Spatafora, M. ....	117
<b>The influence of carbonation on deicer scaling resistance of blast furnace slag concrete (BFSC)</b>	
Egüez, H. E., De Belie, N. and De Schutter, G. ....	126
<b>Dissolution kinetics experiments as a method to assess the reactivity of Supplementary Cementitious Materials (SCMs): the effect of solution composition and SCM structure</b>	
Snellings, R. and Scrivener, K. ....	134
<b>Durability of structural steel in transitional framed buildings</b>	
Bentz, S. P., P.E., R.R.C., R.W.C., R.E.W.C., R.B.E.C., A.W.S.-C.W.I. and Guerrero, S. C., P.E. ....	142
<b>Development of evaluation method by small core specimen for deteriorated fiber cement corrugated sheet and some results of roofs over station platforms</b>	
Ishihara, S. and Tanaka, K. ....	150
<b>Service life prediction and embody CO<sub>2</sub> of wooden buildings</b>	
Nakajima, S., Yamaguchi, N., Koga, J., Nakajima, M., Momohara, I., Ohmura, W. and Tomura, S. ....	158
<b>Performance analysis and durability of environmental and energy sustainability interventions on existing buildings</b>	
Basiricò, T. and Cottone, A. ....	166
<b>Freeze-thaw resistance of ultra-high performance concrete in normal and severe conditions</b>	
Jeroen, D., Boel, V. and De Schutter, G. ....	174
<b>Gypsum efflorescence on clay brick masonry: field survey and literature study</b>	
Chwast, J., Todorovic, J., Janssen, H. and Elsen, J. ....	182
<b>Decay susceptibility of rain exposed wood joints – comparison of two decay models</b>	
Fredriksson, M., Wadsö, L. and Johansson, P. ....	190
<b>The efficiency of autonomous crack healing of mortar in chloride solutions</b>	
Maes, M. and De Belie, N. ....	198
<b>Degradation of brazilian gypsum exterior walls due to hygrothermal action</b>	
Santos, A., Delgado, J. M. P. Q. and Ramos, N. M. M. ....	206

<b>A new performance test to assess the potential deleterious effect of sulphide-bearing aggregates for concrete</b>	
Duchesne, J., Rodrigues, A. and Fournier, B. ....	214
<b>Vacuum insulation technology for buildings – a comparative LCA study of a Swedish multifamily building</b>	
Gudmundsson, K., Karami, P. and Sjöström, C. ....	222
<b>System model of mould growth on building materials</b>	
Li, Y. ....	231
<b>Assessment of damage due to alkali-silica reaction through microscopic and mechanical tools</b>	
Sanchez, L. F. M., Fournier, B., Jolin, M. and Bastien, J. ....	236
<b>An <i>in-situ</i> and laboratory study of the effect of the intrinsic properties of mortars on their potential bioreceptivity</b>	
Tran, T. H., Govin, A., Guyonnet, R., Grosseau, P., Lors, C., Damidot, D., Deves, O. and Ruot, B. ..	244
<b>Influence of material characteristics on electrochemical realkalisation of carbonated concretes</b>	
Ribeiro, P. H. L. C., Meira, G. R. and Ferreira, P. R. R. ....	252
<b>Environmental impact assessment of fire retardant treated wood used in exterior claddings</b>	
Fufa, S. M. and Bohne, R. A. ....	260
<b>Performance analysis of wood subjected to treatments modified with titanium dioxide and clay nanoparticles</b>	
Fufa, S. M. and Jelle, B. P. ....	267
<b>Performance over time of adhesive systems for bonding ceramic tiles on façades – a case study</b>	
Freitas, V. P., Corvacho, H., Quintela, M. and Delgado, J. M. P. Q. ....	275
<b>Hygrothermal performance of a naturally ventilated gypsum house – the Brazilian climate influence</b>	
Almeida, R. M. S. F., Freitas, V. P., Delgado, J. M. P. Q. and Paula, P. ....	283
<b>Actual service life prediction of building components</b>	
Niels-Jørgen, A., Brandt, E. and Hansen, E. J. P. ....	291
<b>Alkaline hydrolysis of polymers in contact with cement based materials</b>	
Wadsö, L. and Karlsson, O. J. ....	300
<b>The environmental benefits of service life extension of buildings components with transformable design strategies</b>	
Paduart, A., Temmerman, N. De, and Vandenbroucke, M. ....	304
<b>Experimental study on carbonation and chloride migration coefficients of self-compacting concrete (SCC) with binary and ternary mixtures of fly ash (FA) and limestone filler (LF)</b>	
Silva, P. R. and Brito, J. ....	312

<b>Resistant-based moisture content measurements on water repellent treated mortar and brick</b>	
Sachse, K. A., Littmann, K., Fege, R. L. and Oremek, X. ....	320
<b>Durability of roof underlays exposed to long time exposure under in-use conditions</b>	
Brandt, E. and Hansen, E. K. P. ....	328
<b>Drying rate as a transport index for concrete</b>	
Villagrán-Zaccardi, Y. A., Alderete, N. M., Pittori, A. and Di Maio, A. A. ....	336
<b>Development of a methodological procedure for the durability evaluation of existing exterior finishings</b>	
Erba, S., Daniotti, B. and Rosina, E. ....	344
<b>Stochastic, deterministic, statistical and artificial intelligence based models to predict the service life of rendered facades</b>	
Silva, A., Gaspar, P. L. and Brito, J. ....	351
<b>Influence of limestone powder on the setting and hydration of cement paste in the fresh state</b>	
Villagrán-Zaccardi, Y. A., Falcone, D. D. and Benito, D. E. ....	359
<b>In-situ measurements of moisture content and temperature in wooden constructions</b>	
Sandberg, K., Dahlquist, S. and Pousette, A. ....	367
<b>Experimental evaluation of performances of different solutions of finishing for masonry buildings for determining durability</b>	
Nicolella, M. and Iucolano, F. ....	375
<b>A methodology for evaluating maintainability as a tool for durable and sustainable buildings</b>	
Nicolella, M. ....	384
<b>Investigation of the effects of leaching on the scaling resistance of concrete</b>	
Rosenqvist, M., Hassanzadeh, M., Long-Wei, P. and Terzi, A. ....	392
<b>Service life of innovative siloxane coating formulations</b>	
Enea, D. and Alaimo, G. ....	400
<b>Evaluation of rising damp using infrared thermography</b>	
Barreira, E., Delgado, J. M. P. Q. and Guimarães, A. S. ....	409
<b>Effect of confinement and concrete strength upon crack behavior induced by corrosion-product expansion</b>	
Shinohara, Y. and Aryanto, A. ....	417
<b>A new test method to evaluate the resistance of cementitious materials exposed to biogenic attack in sewer networks</b>	
Lavigne, M. P., Bertron, A., Cockx, A., Jean-Noël, F., Escadeillas, G. and Paul, E. ....	425
<b>Durability of quaternary cements containing calcareous fly ash, slag and limestone</b>	
Durdziński, P. T., Haha, M. B. and Scrivener, K. L. ....	434

<b>Rating building asset degradation with efficiency indexes</b>	
Re Cecconi, F., Dejaco, M. C. and Maltese, S.....	441
<b>Durability of fibre-cement roofing corrugated sheets</b>	
Fiorelli, J., Savastano Junior, H., Tonoli, G. H. D. and Santos, S. F.....	449
<b>Thermal shock effects on bonding of cement mortar renderings</b>	
Esquivel, J. F. T. and Barros, M.....	458
<b>Effect of carbonation on the chloride diffusion of mortar specimens exposed to cyclic wetting and drying</b>	
Malheiro, R., Camões, A., Ferreira, R. M., Meira, G. and Amorim, T. ....	467
<b>Accelerated climate ageing of wood surface treatments and their evaluation by Fourier Transform Infrared Spectroscopy</b>	
Jelle, B. P., Fufa, S. M. and Olsen, M. B.....	475
<b>Nanorenders on building facades: technical, economic and environmental performance</b>	
Soares, A., Flores-Colen, I. and Brito, J. ....	483
<b>An investigation of the effectiveness and durability characteristic of biomass ashes as pozzolanic materials</b>	
Demis, S., Rodrigues, C. S., Santos, L. A. and Papadakis, V. G.....	491
<b>Multi-physics modelling for durability evaluation of ETICS</b>	
Daniotti, B., Re Cecconi, F., Paolini, R., Cocchetti, G., Galliano, R. and Cornaggia, A.....	499
<b>Microstructure development in slag-cement systems</b>	
Berodier, E. and Scrivener, K.....	507
<b>A numerical study of the influence of the hydraulic interface contact on the hygric performance of a multi-layered system</b>	
Vereecken, E. and Roels, S.....	512
<b>Evaluation of damage of building facades in Brasilia</b>	
Bauer, E., Kraus, E., Silva, M. N. B. and Zanoni, V. A. G.....	520
<b>Accelerated ageing and characterization of expanding weather stripping foam</b>	
Jelle, B. P., Jorun-Marie, H., Gao, T., Bugten, A., Rognvik, E. and Kvalvik, M. ....	527
<b>Development of a 2D numerical model for rainwater runoff on vertical planes</b>	
Bossche, N. van D., Ge, H., Vogelaere, T. D., Pacco, M. and Janssens, A. ....	535
<b>Airtightness of the window-wall interface in wood-frame walls</b>	
Bracke, W., Devos, L., Maertens, S., Bossche, N. van D., N. and Janssens, A.....	543
<b>A model of carbonation and a technique to determine the degree of carbonation</b>	
Fridh, K. and Lars-Olof, N.....	554
<b>Nondestructive determination of chloride ion using Ag/AgCl electrode prepared by electrochemical anodization</b>	
Pargar, F., Koleva, D. A., Copuroglu, O., Koenders, E. A. B. and Breugel, K. van.....	561

<b>Modification of cellulose-cement composites by admixture of sugar cane bagasse ash</b> Rodrigues, C. S., Zukowski, B., Figueiredo, S. C. and Santos, L. A. ....	569
<b>Accelerated ageing and durability of double-glazed sealed insulating window panes</b> Asphaug, S. K., Jelle, B. P., Gullbrekken, L. and Uvsløkk, S.....	577
<b>Tortuosity and electrical impedance of contaminated mortars with nitrates of Cr<sup>3+</sup>, Pb<sup>2+</sup>, and Zn<sup>2+</sup></b> Venâncio, C., Rocha, J. C. and Cheriaf, M. ....	585
<b>The influence of wetting prior and addition of fines in produced mortars with recycled aggregate</b> Jochem, L. F., Rocha, J. C. and Cheriaf, M. ....	593
<b>Mould risk assessment for thermal bridges: what is the impact of the mould prediction model?</b> Vereecken, E. and Roels, S.....	599
<b>A method for blind validation of hygrothermal calculation tools</b> Mundt-Petersen, S. O. and Harderup, L.-E. ....	607
<b>Methods for compensate lack of climate boundary data</b> Mundt-Petersen, S. O. and Wallentén, P. ....	616
<b>Fragility curves for thin-walled cold-formed steel wall frames with different sheathing systems affected by ground settlements due to land subsidence</b> Ortiz, J. A., Hernandez, L. A., Hernandez, M., Pacheco, J., Soto, J. J., Ramos, J., Fernandez, R. and Soto, M. A.....	625
<b>Self-healing of self-compacting concretes made with Brazilian blast furnace slag cements activated by crystalline catalyst</b> Takagi, E. M., Lima, M. G. and Helene, P. ....	633
<b>Durability assessment of innovative building products in Brazil: example of PVC components used as stay-in-place forms and finishing of concrete walls</b> Oliveira, L. A., Rodolfo Junior, A., Fontenelle, J. H. and Mitidieri Filho, C. V. ....	641
<b>Sulfate ingress and microstructural changes in cement pastes at early age</b> Ragoug, R., Omikrine-Metalssi, O., Divet, L., Deman, A., Barberon, F., Gegout, P., Baroghel-Bouny, V. and Roussel, N.....	650
<b>Determination of criteria for the exploration and for obtaining indicators in evolutionary analysis of degradation in urban facades</b> Gibert, V., Serrat, C. and Casas, J. R. ....	656
<b>Maintenance and refurbishment; market price and fixed assets value</b> Marteinsson, B. ....	664
<b>Chemical treatment with oxalic acid to improve the durability of cement-based materials in acid environments</b> Voegel, C., Bertron, A., Erable, B. and Escadeillas, G.....	670

<b>Method development for the particle size analysis of supplementary cementitious materials</b>	
Arvaniti, E. C. and De Belie, N. ....	679
<b>Synthesis, characterization and durability of self-cleaning antireflection coatings for glazing applications</b>	
Gao, T. and Jelle, B. P. ....	687
<b>Evaluation of chloride ion penetration methods in concrete with recycled concrete aggregate and rice husk ash</b>	
Kulakowski, M. P., Fedumenti, M. B., Kazmierczak, C. S. and Mancio, M. ....	695
<b>Performance of the copper treated, and naturally durable wood in laboratory and outdoor conditions</b>	
Humar, M., Lesar, B. and Thaler, N. ....	703
<b>From lab scale to in situ applications - the ascent of a biogenic carbonate based surface treatment</b>	
Muynck, W. D., Boon, N. and De Belie, N. ....	711
<b>Microscopy and computed micro-tomography for evaluation of microbial self-healing in concrete</b>	
Wang, J., Tittelboom, K. van and De Belie, N. ....	719
<b>Microbially influenced degradation of cement-based materials in biogas production environments</b>	
Voegel, C., Bertron, A. and Erable, B. ....	727
<b>Durability problems with zinc clad roofs due to improper underlays</b>	
Bunch-Nielsen, T. and Brandt, E. ....	737
<b>The high school “Giustino Fortunato” in Rionero in Vulture (Potenza, Italy): how to refurbish an higher education institute made in brutalist architecture of ‘80, leading it to be a NZEB and preserving its formal features</b>	
Lembo, F. and Marino, F. P. R. ....	744
<b>Durability and microstructure of mortar with calcined marl as supplementary cementing material</b>	
Justnes, H. and Østnor, T. A. ....	752
<b>Embodied energy as a tool to sustainable strategic decisions on refurbishment</b>	
Gaspar, P. L. and Santos, A. L. ....	762
<b>The influence of the substrate characteristics on the behavior of the mortar</b>	
Torres, I., Veiga, R. and Freitas, V. P. ....	770
<b>Durability of PVC roofing and waterproofing membranes – case studies after 40+ years of exposure</b>	
Beer, H. R. and Bonnet, M. ....	778
<b>Durability of reinforced concrete made with low clinker, ternary blend cement</b>	
Martirena, J. F., Vizcaíno, L. M., Antoni, M. G., Henocq, P., Alujas, A. and Scrivener, K. L. ....	786

<b>Pull-out tests of cast-in-place anchor studs with different embedment depths</b>	
Delhomme, F., Roure, T., Arrieta, B., Trunfio, R. and Limam, A. ....	794b
<b>Service life assessment of concrete structures based on site testing</b>	
Torrent, R. J. and Luco, L. F. ....	801
<b>Environmental sustainability performance of residential buildings' thermal retrofits</b>	
Cetiner, I. and Ecem Edis, E. ....	810
<b>Specifications for external renders and internal plasters: a review on durability assessment</b>	
Sá, A. V., Abrantes, V. and Sousa, H. ....	818
<b>Anisotropic expansion of ASR affected concrete prism specimens</b>	
Gautam, B. P. and Panesar, D. K. ....	826
<b>The influence of crack width on the durability of reinforced concrete structures</b>	
Blagojević, A., Koleva, D. A. and Walraven, J. C. ....	834
<b>Time-dependent passive infrared thermographic inspection of facades</b>	
Edis, E., Flores-Colen, I. and Brito, J. ....	842
<b>Study of wood waste ash as a pozzolanic addition</b>	
Matos, A. M., Ramos, T. and Sousa-Coutinho, J. ....	850
<b>Probabilistic modeling durability of wooden window frames</b>	
Straalen, I. J. J. van, Abspoel-Bukman, L. M., Courage, W. M. G. and Mennink, J. ....	858
<b>Durability of jointed reinforced concrete pavements under sever exposure conditions: a case study in Iran</b>	
Arabali, P. and Shekarchi, M. ....	866
<b>Response monitoring of national heritage five story wooden pagoda by the use of image processing</b>	
Mikoshiba, T., Niitsu, Y., Hanazato, T. and Minowa, C. ....	874
<b>Outdoor exposure test of photocatalyst-coated materials in various test locations within Asia</b>	
Toyoda, H., Murakami, T., Sano, T. and Takeuchi, K. ....	882
<b>Rehabilitation of a wastewater treatment plant</b>	
Barreto, M. P. and Torres, I. ....	889
<b>Bacteriogenically induced sulfuric acid attack on concrete in an Austrian sewer system</b>	
Grengg, C., Mittermayr, F., Baldermann, A., Böttcher, M. E., Leis, A., Koraimann, G. and Dietzel, M. ....	897
<b>Durability of cement-reduced eco-friendly concretes against sulfate attack</b>	
Hainer S., Rezvani M., Baldermann A., Proske T. and Mittermayr F. ....	904
<b>Physical and chemical properties of cementitious materials undergoing accelerated decalcification</b>	
Babaahmadi, A., Tang, L. and Abbas, Z. ....	912

<b>Evolution of the cement mortar microstructure caused by salt crystallization and water freezing investigated by multicyle mercury intrusion porosimetry</b>	
Grymin, W., Koniorczyk, M., Konca, P., Marciniak, A. and Gawin, D. ....	920
<b>Durability performance of concrete with glass powder as supplementary cementitious material</b>	
Du, H. and Tan, K. H. ....	928
<b>Use of 2-D nano-particle to enhance the concrete resistance to chloride ingress</b>	
Du, H., Gao, H. J. and Pang, S. D. ....	936
<b>Characteristics of in-service, 30-year-old EPDM roof membrane</b>	
Hutchinson, T. W., Trischuk, K. and Paroli, R. M. ....	944
<b>Evaluation of clustered distribution of superabsorbent polymers and its relation to autogenous shrinkage behaviour of internally cured mortars</b>	
Yokota, K. and Shin-ichi, I. ....	950
<b>Hail protected ETFE-roof lights for the new elephant park building of zoo Zurich</b>	
Flüeler, P., Kübler, W. and Hohl, A. ....	958
<b>Characterization of mortars with ceramic residues</b>	
Matias, G., Torres, I. and Faria, P. ....	966
<b>Study of the durability of mortar for structural concrete made with fine powder of white glass</b>	
Sales, F. A., Sales, R. B. C., Corrêa, E. C. S., Molhallem, N. D. S. and Aguilár, M. T. P. ....	974
<b>Adhesive tapes for building purposes: framework for evaluation of performance and durability</b>	
Fufa, S. M., Kvalvik, M. and Rütther, P. ....	983
<b>Investigation methods of the resistance of UHPC to chemical attack and its classification in the exposure classes of the european standard</b>	
Schmidt, H., Schmidt-Döhl, F., Franke, L. and Deckelmann, G. ....	991
