

25th Annual Conference of the International Society of Exposure Science (ISES 2015)

Exposures in an Evolving Environment

Henderson, Nevada, USA
18 - 22 October 2015

ISBN: 978-1-5108-1423-3

Printed from e-media with permission by:

Curran Associates, Inc.
57 Morehouse Lane
Red Hook, NY 12571

Some format issues inherent in the e-media version may also appear in this print version.

Table of Contents

Arranged by Day and Time

Note: Sessions are numbered as follows:

- First two letters indicate day (Su=Sunday, Mo=Monday, Tu=Tuesday, We=Wednesday, Th=Thursday)
- Next letter indicates type of presentation (P=Poster; S=Symposium; O=Oral)
- Next letter indicates room (A=Modena 1, B= Modena 2, C= Modena 3, D=Molise 2, E= Molise 3, F= Molise 4, G= Molise 5)
- First numeric digit indicates order of session in the day (1=early morning, 2=late morning, 3=early afternoon, 4=late afternoon)
- Numeric digits after the dash are unique abstract numbers indicating order within the session

For example, Mo-S-A1-01 is the first talk in a Monday, early morning, symposium session will be held in Modena 1.

SUNDAY, OCTOBER 18, 2015

Student Poster Competition.....	6
---------------------------------	---

MONDAY, OCTOBER 19, 2015

Mo-S-A1: Advances in Reducing Tobacco Smoke Exposure in Casinos	36
Mo-S-B1: Heat Exposure and Health: Impacts on Communities and Workers.....	38
Mo-S-C1: Understanding and controlling residential exposures to ambient PM2.5	40
Mo-S-D1: The Exposome: State of the Science and Next Steps in Implementation.....	42
Mo-O-E1: Identifying and Assessing Exposures for Vulnerable Populations.....	44
Mo-O-F1: Epidemiological Investigations - I.....	47
Mo-O-G1: Consumer Products - I.....	49
Mo-S-A2: Thirdhand Smoke: Advances in Understanding Exposures and Risks.....	51
Mo-S-B2: Heat Exposure and Health: Impacts on Communities and Workers - II.....	53
Mo-S-C2: Air Exposure Science.....	54
Mo-S-D2: Derivation and Use of ACGIH BEI's	55
Mo-O-E2: Children's Exposures and Health.....	56
Mo-S-F2: Advances in use of pharmacokinetic models to estimate exposure in epidemiologic studies.....	58
Mo-O-G2: Consumer Products - II	59
Mo-S-A3: Thirdhand Smoke: Advances in Understanding Exposures and Risks - II.....	61
Mo-S-B3: Human Exposure Assessment of Environmental Contaminants in Community Settings - Advances and Opportunities	63
Mo-O-C3: Dietary Exposures	64
Mo-O-D3: Evolving Approaches to Biomonitoring: Alternative Matrices and Approaches	66
Mo-O-E3: Traffic and Ultrafine Particle Exposures - I	69
Mo-O-F3: Epidemiological Investigations - II.....	71
Mo-O-G3: Consumer Products - III.....	73
Mo-S-A4: Do you mind if I toke? Documenting exposure and health impact of secondhand marijuana smoke	76
Mo-S-B4: Protecting children from lead exposure at toxic hotspots worldwide.....	77

Mo-O-C4: Biomonitoring	79
Mo-O-D4: Occupational Exposure to Dusts and Mineral Fibers.....	82
Mo-O-E4: Traffic and Ultrafine Particle Exposures - II	84
Mo-O-F4: Epidemiological Investigations - III	86
Mo-O-G4: Consumer Products - IV	88
Mo-P: Poster Session Monday	91

TUESDAY, OCTOBER 20, 2015

Tu-S-A1: Applying Exposure science to disaster response through restoration: Making this a reality	112
Tu-O-B1: Occupational Exposures	114
Tu-S-C1: Evolution of the use of urinary biomonitoring data in risk assessment	116
Tu-S-D1: Hydraulic fracturing and Unconventional Natural Gas Development: Evidence for exposures in air and water	118
Tu-S-E1: Exposures to mineral fibers in the environment of the western States.....	120
Tu-O-F1: Consumer Product Exposures	122
Tu-O-G1: Spatial Variability and Uncertainty in Air Pollution.....	124
Tu-S-A2: Activity-based assessment of personal exposure to air pollution	126
Tu-O-B2: Occupational Exposure - Models for Cross-Industry Evaluations	128
Tu-S-C2: Biomonitoring: Population Studies and Integrated Approaches	129
Tu-S-D2: Green Buildings and Health.....	131
Tu-S-E2: Exposures to mineral fibers in the environment of the western States - II.....	132
Tu-S-F2: The agriculture-urban interface: understanding population residency and mobility for exposure assessment in probabilistic population-based risk assessments.....	133
Tu-O-G2: Sensors - Monitoring and Responses	135
Tu-S-A3: Engaging citizen scientists in the aftermath of disasters & emergence of new concerns.....	136
Tu-O-B3: Exposure Modeling - Air Pollution	138
Tu-S-C3: The development of new biomarkers to enhance the use of human biomonitoring in a co-operation between government agencies and industry.....	141
Tu-S-D3: Measuring Greenness: Concepts, Challenges, and New Approaches for Greenspace Exposure Assessment.....	143
Tu-S-E3: Exposures to mineral fibers in the environment of the western States - III	146
Tu-O-F3: Epidemiological Investigations: Exposures and Outcomes	148
Tu-O-G3: Inhalation Exposures	150
Tu-S-A4: Can Public Health Laboratories Help You?.....	152
Tu-O-B4: Exposure Modeling - Land Use and Spatio-Temporal Considerations.....	154
Tu-S-C4: Integrating Exposure Modeling with Human Biomonitoring towards total exposure assessment (body burden)	156
Tu-S-D4: Advances in Science and Law: Exposure Science in the Court Room.....	158
Tu-O-E4: Oil and Natural Gas Development: Assessing Population and Environmental Impacts	160

Tu-O-F4: Infiltration and Indoor Air	162
Tu-O-G4: Emerging Contaminants, Metabolomics, and Environmental Forensics	164
Tu-P: Poster Session Tuesday	166

WEDNESDAY, OCTOBER 21, 2015

We-O-A1: Is it Hot In Here? Climate Change and Exposure	187
We-S-B1: International comparison of chemical exposures during pregnancy.....	189
We-O-C1: Occupational Exposures to Diesel, Gasoline, and Combustion Products	191
We-S-D1: Pesticide Exposure: Evolving Monitoring, Methods and Models in Consumer and Worker Risk Assessment.....	194
We-O-E1: Sensors - I	195
We-O-F1: SVOC Exposures	197
We-S-A2: Simple mineral dust: Constituents, exposure pathways, and health effects	200
We-S-B2: Enhancing techniques for non-targeted evaluation of xenobiotics in environmental and biological samples	202
We-O-C2: Biomonitoring: Varied Approaches to Population Exposure Assessments	204
We-S-D2: Pesticide Exposure: Evolving Monitoring, Methods and Models in Consumer and Worker Risk Assessment - II.....	207
We-O-E2: Sensors - II.....	209
We-O-F2: Particulates from Indoor Cooking and Stoves	211
We-S-A3: Valley Fever: Ecology and Public Health.....	213
We-S-B3: Harnessing "Smart" Technologies for Estimating Time-Location Activity in Exposure Studies	215
We-O-C3: Exposure Modeling - Biomonitoring and Biokinetics	217
We-S-D3: Pesticide Exposure: Evolving Monitoring, Methods and Models in Consumer and Worker Risk Assessment - III	220
We-O-E3: Sensors - III	222
We-O-F3: Indoor Air Pollution.....	225
We-S-A4: Assessing Environmental Exposures in Tribal Populations - The Navajo Birth Cohort Study from Inception to Implementation.....	227
We-O-B4: Exposure Science in Policy Development.....	229
We-O-C4: Exposure Modeling - Population Modeling	232
We-S-D4: Evolving Analytical Methods	234
We-S-E4: Field testing and validation of personal exposure monitoring in exposure assessment and epidemiological studies	236
We-O-F4: Modeling of Air Pollution: Facility, Regional, and Global Scales	238
We-P: Poster Session Wednesday.....	241

THURSDAY, OCTOBER 22, 2015

Th-S-A1: Use of Spot Biomonitoring Samples for Environmental Epidemiology: An audience debate using a case study of chlorpyrifos	261
Th-S-B1: Exposure Science in the 21st Century Federal Partners Working Group	262
Th-S-C1: Perchlorate Exposure in the American Southwest and Beyond.....	265
Th-S-D1: Advances in modeling exposures to traffic-related air pollution.....	266
Th-O-E1: Particulates Matter - I	269
Th-O-F1: Occupational Exposures to Lead and Heavy Metals	271
Th-S-A2: Reporting biomonitoring and environmental exposure measurements to study participants	274
Th-S-B2: The Use and Implications of Big Data and Models in Exposure Assessment	275
Th-S-C2: Perchlorate Exposure and Health Effects.....	277
Th-S-D2: Advances in modeling exposures to traffic-related air pollution: II	278
Th-O-E2: Particulates Matter - II	279
Th-O-F2: Mold and Microbes	281
