

2015 IEEE 23rd International Requirements Engineering Conference (RE 2015)

**Ottawa, Ontario, Canada
24-28 August 2015**

**IEEE Catalog Number: CFP15022-POD
ISBN: 978-1-4673-6906-0**

Contents

Frontmatter

Message from the Chairs Daniel Amyot, Didar Zowghi, and Vincenzo Gervasi — ,	iii
Organization	v
Sponsors	ix

Keynotes

You versus Users – Who Owns Your Roadmap? (Keynote) Aydin Y. Mirzaee — <i>FluidReview, Canada</i>	1
Can You Intentionally Design a Product That Is Cool? (Keynote) Karen Holtzblatt — <i>InContext, USA</i>	2
Requirements, Behaviours, and Software Engineering (Keynote) Michael Jackson — <i>Open University, UK</i>	4

Research Track

Change Impact Analysis for Natural Language Requirements: An NLP Approach Chetan Arora, Mehrdad Sabetzadeh, Arda Goknil, Lionel C. Briand, and Frank Zimmer — <i>University of Luxembourg, Luxembourg; SES TechCom, Luxembourg</i>	6
Requirements Engineering: The Quest for the Dependent Variable Hannes Holm, Teodor Sommestad, and Johan Bengtsson — <i>Swedish Defence Research Agency, Sweden</i>	16
Ambiguity as a Resource to Disclose Tacit Knowledge Alessio Ferrari, Paola Spoletini, and Stefania Gnesi — <i>ISTI-CNR, Italy; Kennesaw State University, USA</i>	26
An Information Theoretic Approach for Extracting and Tracing Non-functional Requirements Anas Mahmoud — <i>Louisiana State University, USA</i>	36
From Requirements Elicitation to Variability Analysis using Repertory Grid: A Cognitive Approach Sangeeta Dey and Seok-Won Lee — <i>Ajou University, South Korea</i>	46
Goal and Preference Identification through Natural Language Fatima Alabdulkareem, Nick Cercone, and Sotirios Liaskos — <i>York University, Canada</i>	56
Selecting Creativity Techniques for Creative Requirements: An Evaluation of Four Techniques using Creativity Workshops Richard Berntsson Svensson and Maryam Taghavianfar — <i>Blekinge Institute of Technology, Sweden; Chalmers University of Technology, Sweden</i>	66
Feature Lifecycles as They Spread, Migrate, Remain, and Die in App Stores Federica Sarro, Afnan Al-Subaihin, Mark Harman, Yue Jia, William Martin, and Yuanyuan Zhang — <i>University College London, UK</i>	76
What You Ask Is What You Get: Understanding Architecturally Significant Functional Requirements Preethu Rose Anish, Maya Daneva, Jane Cleland-Huang, Roel J. Wieringa, and Smita Ghaisas — <i>Tata Consultancy Services, India; University of Twente, Netherlands; DePaul University, USA</i>	86
A Requirements Monitoring Model for Systems of Systems Michael Vierhauser, Rick Rabiser, Paul Grünbacher, and Benedikt Aumayr — <i>JKU Linz, Austria</i>	96
Handling Knowledge Uncertainty in Risk-Based Requirements Engineering Antoine Cailliau and Axel van Lamsweerde — <i>Université Catholique de Louvain, Belgium</i>	106
Bug Report, Feature Request, or Simply Praise? On Automatically Classifying App Reviews Walid Maalej and Hadeer Nabil — <i>University of Hamburg, Germany</i>	116

Forging High-Quality User Stories: Towards a Discipline for Agile Requirements Garm Lucassen, Fabiano Dalpiaz, Jan Martijn E. M. van der Werf, and Sjaak Brinkkemper — <i>Utrecht University, Netherlands</i>	126
Exposing the Susceptibility of Off-Nominal Behaviors in Reactive System Requirements Daniel Aceituna and Hyunsook Do — <i>North Dakota State University, USA</i>	136
Assessment of Risk Perception in Security Requirements Composition Hanan Hibshi, Travis D. Breaux, and Stephen B. Broomell — <i>Carnegie Mellon University, Saudi Arabia; Carnegie Mellon University, USA</i>	146
Resolving Goal Conflicts via Argumentation-Based Analysis of Competing Hypotheses Pradeep K. Murukannaiah, Anup K. Kalia, Pankaj R. Telang, and Munindar P. Singh — <i>North Carolina State University, USA; Cisco Systems, USA</i>	156
Detecting Repurposing and Over-Collection in Multi-party Privacy Requirements Specifications Travis D. Breaux, Daniel Smullen, and Hanan Hibshi — <i>Carnegie Mellon University, USA; Carnegie Mellon University, Saudi Arabia</i>	166
A Quality Model for the Systematic Assessment of Requirements Traceability Patrick Rempel and Patrick Mäder — <i>TU Ilmenau, Germany</i>	176
Sketching and Notation Creation with FlexiSketch Team: Evaluating a New Means for Collaborative Requirements Elicitation Dustin Wüest, Norbert Seyff, and Martin Glinz — <i>University of Zurich, Switzerland; University of Applied Sciences and Arts Northwestern Switzerland, Switzerland</i>	186

RE:Next! Track

Tracing

Inherent Characteristics of Traceability Artifacts: Less is More Jane Huffman Hayes, Giuliano Antoniol, Bram Adams, and Yann-Gaël Guéhéneuc — <i>University of Kentucky, USA; Polytechnique Montréal, Canada</i>	196
Trace Links Explained: An Automated Approach for Generating Rationales Jin Guo, Natawut Monaikul, and Jane Cleland-Huang — <i>DePaul University, USA</i>	202

Goals and NFRs

Handling Non-functional Requirements in Model-Driven Development: An Ongoing Industrial Survey David Ameller, Xavier Franch, Cristina Gómez, João Araujo, Richard Berntsson Svensson, Stefan Biffl, Jordi Cabot, Vittorio Cortellessa, Maya Daneva, Daniel Méndez Fernández, Ana Moreira, Henry Muccini, Antonio Vallecillo, Manuel Wimmer, Vasco Amaral, Hugo Brunelière, Loli Burgueño, Miguel Goulão, Bernhard Schätz, and Sabine Teufl — <i>Universitat Politècnica de Catalunya, Spain; Universidade Nova de Lisboa, Portugal; Blekinge Institute of Technology, Sweden; Vienna University of Technology, Austria; Open University of Catalonia, Spain; University of L'Aquila, Italy; University of Twente, Netherlands; TU München, Germany; University of Málaga, Spain; AtlanMod Team, France; Fortiss, Germany</i>	208
Scalable Modeling and Analysis of Requirements Preferences: A Qualitative Approach using CI-Nets Zachary J. Oster, Ganesh Ram Santhanam, and Samik Basu — <i>University of Wisconsin-Whitewater, USA; Iowa State University, USA</i>	214
Rationalization of Goal Models in GRL using Formal Argumentation Marc van Zee, Floris Bex, and Sepideh Ghanavati — <i>University of Luxembourg, Luxembourg; Utrecht University, Netherlands; Carnegie Mellon University, Luxembourg</i>	220

Cognitive

Cognitive Factors in Inconsistency Management Irit Hadar and Anna Zamansky — <i>University of Haifa, Israel</i>	226
Using Real Options to Manage Technical Debt in Requirements Engineering Zahra Shakeri Hossein Abad and Guenther Ruhe — <i>University of Calgary, Canada</i>	230

QuantUn: Quantification of Uncertainty for the Reassessment of Requirements Nelly Bencomo — <i>Aston University, UK</i>	236
--	-----

Risks

Towards Reuse in Safety Risk Analysis Based on Product Line Requirements Hermann Kaindl, Roman Popp, and David Raneburger — <i>Vienna University of Technology, Austria</i>	241
An Environment-Driven Ontological Approach to Requirements Elicitation for Safety-Critical Systems Jiale Zhou, Kaj Hänninen, Kristina Lundqvist, Yue Lu, Luciana Provenzano, and Kristina Forsberg — <i>Mälardalen University, Sweden; Bombardier Transportation, Sweden; Saab, Sweden</i>	247
Goals at Risk? Machine Learning at Support of Early Assessment Paolo Avesani, Anna Perini, Alberto Siena, and Angelo Susi — <i>Fondazione Bruno Kessler, Italy</i>	252

Mass RE

Democratic Mass Participation of Users in Requirements Engineering? Timo Johann and Walid Maalej — <i>University of Hamburg, Germany</i>	256
Exploiting Online Human Knowledge in Requirements Engineering Anas Mahmoud and Doris Carver — <i>Louisiana State University, USA</i>	262

Frameworks

Towards Engineering Transparency as a Requirement in Socio-technical Systems Mahmood Hosseini, Alimohammad Shahri, Keith Phalp, and Raian Ali — <i>Bournemouth University, UK</i>	268
Towards a General Formal Framework of Coherence Management in RE Alexander Borgida, Ivan Jureta, and Anna Zamansky — <i>Rutgers University, USA; University of Namur, Belgium; University of Haifa, Israel</i>	274

Demos and Posters

SACRE: A Tool for Dealing with Uncertainty in Contextual Requirements at Runtime Edith Zavala, Xavier Franch, Jordi Marco, Alessia Knauss, and Daniela Damian — <i>Universitat Politècnica de Catalunya, Spain; University of Victoria, Canada</i>	278
ReqPat: Efficient Documentation of High-Quality Requirements using Controlled Natural Language Markus Fockel and Jörg Holtmann — <i>Fraunhofer IPT, Germany</i>	280
Holistic Security Requirements Analysis: An Attacker's Perspective Tong Li, Elda Paja, John Mylopoulos, Jennifer Horkoff, and Kristian Beckers — <i>University of Trento, Italy; City University London, UK; TU München, Germany</i>	282
Breeze: A Modeling Tool for Designing, Analyzing, and Improving Software Architecture Luxi Chen, Linpeng Huang, Hao Zhong, Chen Li, and Xiwen Wu — <i>Shanghai Jiao Tong University, China</i>	284
StakeCloud Tool: From Cloud Consumers' Search Queries to New Service Requirements Irina Todoran Koitz and Martin Glinz — <i>University of Zurich, Switzerland</i>	286
An Enhanced Requirements Gathering Interface for Open Source Software Development Environments Jaison Kuriakose and Jeffrey Parsons — <i>Memorial University, Canada</i>	288
Supporting Quantitative Assessment of Requirements in Goal Orientation Robert Darimont and Christophe Ponsard — <i>Respect-IT, Belgium; CETIC, Belgium</i>	290
Web Tool for Goal Modelling and Statechart Derivation João Pimentel, Jéssyka Vilela, and Jaelson Castro — <i>Federal University of Pernambuco, Brazil</i>	292
Challenges of Requirements Engineering in AUTOSAR Ecosystems Mozhan Soltani and Eric Knauss — <i>University of Gothenburg, Sweden; Chalmers University of Technology, Sweden</i>	294

Industry Track

Reuse of Architecturally Derived Standards Requirements Michael C. Panis — <i>Teradyne, USA</i>	296
--	-----

Systematic Elicitation of Mode Models for Multifunctional Systems Andreas Vogelsang, Henning Femmer, and Christian Winkler — <i>TU München, Germany; MAN Truck Bus, Germany</i>	305
Requirements Problems in the Development of a New User Interface for Healthcare Equipment Maria Holmegaard, Jens Bæk Jørgensen, Michael Sørensen Loft, and Martin Stig Stissing — <i>Mjølner Informatics, Denmark</i>	315
Experience Requirements in Video Games: Definition and Testability David Callele, Philip Dueck, Krzysztof Wnuk, and Peitsa Hynninen — <i>Experience First Design, Canada; Blekinge Institute of Technology, Sweden; Aalto University, Finland</i>	324
Agile Requirements Engineering with Prototyping: A Case Study Marja Käpyaho and Marjo Kauppinen — <i>Futurice, Finland; Aalto University, Finland</i>	334
The Myth of Bad Passive Voice and Weak Words: An Empirical Investigation in the Automotive Industry Jennifer Krisch and Frank Houdek — <i>Daimler, Germany</i>	344
Understanding Changes in Use Cases: A Case Study Mohammad R. Basirati, Henning Femmer, Sebastian Eder, Martin Fritzsche, and Alexander Widera — <i>TU München, Germany; Munich Re, Germany</i>	352
Using the Requirements Specification to Infer the Implicit Test Status of Requirements Tobias Morciniec and Andreas Podelski — <i>Daimler, Germany; University of Freiburg, Germany</i>	362
The Need of Complementing Plan-Driven Requirements Engineering with Emerging Communication: Experiences from Volvo Car Group Ulf Eliasson, Rogardt Heldal, Eric Knauss, and Patrizio Pelliccione — <i>Volvo, Sweden; Chalmers University of Technology, Sweden</i>	372

Doctoral Symposium

Incorporating Preferences from Multiple Stakeholders in Software Requirements Selection: An Interactive Search-Based Approach Antonio Mauricio Pitangueira — <i>Federal University of Bahia, Brazil</i>	382
How Can Corpus Linguistics Help Improve Requirements Writing? Specifications of a Space Project as a Case Study Maxime Warnier — <i>CLLE-ERSS, France</i>	388
The Personal Information Security Assistant Roeland H. P. Kegel — <i>University of Twente, Netherlands</i>	393
Security Assurance Requirements Engineering (STARE) for Trustworthy Service Level Agreements Yudhistira Nugraha — <i>University of Oxford, UK</i>	398
A Magnet-and-Spring Based Visualization Technique for Enhancing the Manipulation of Requirements Artifacts Parisa Ghazi — <i>University of Zurich, Switzerland</i>	400
A Language for Writing System Specifications in an Aeronautical Context Benoît Lebeaupin — <i>École Centrale Paris, France</i>	406

Panel Papers

Ready-Set-Transfer! Technology Transfer in the Requirements Engineering Domain Jane Cleland-Huang, Mona Rahimi, and Mehdi Mirakhori — <i>DePaul University, USA; Rochester Institute of Technology, USA</i>	412
Technology Transfer – Requirements Engineering Research to Industrial Practice: An Open (Ended) Debate Carlos Henrique C. Duarte and Tony Gorschek — <i>Brazilian Development Bank, Brazil; Blekinge Institute of Technology, Sweden</i>	414
