# Contents

## MONDAY 1 SEPTEMBER

### ADDRESS

Weeds in the Australian Grains Industry (no abstract available)  
Keith Pengilley

### CAWS ORATION

Plant the white flag or raise the battle standard? Controversies over non-native weeds 1  
Daniel Simberloff

### KEYNOTE PRESENTATION

Using weeds to manage for nature conservation 455  
Jamie Kirkpatrick

### WEED CONTROL AND HERBICIDE RESISTANCE IN AGRICULTURE AND THE ENVIRONMENT

Managing patches of glyphosate resistant *Echinochloa colona*: can they be eradicated? 3  
Jeff Werth, David Thornby, Michelle Keenan and Steve Walker

Amino acid substitutions in ACCase gene of barley grass (*Hordeum glaucum* Steud.) associated with resistance to ACCase-inhibiting herbicides 7  
Lovreet Singh Shergill, Christopher Preston, Peter Boutsalis, Jenna Malone and Gurjeet Gill

Molecular basis of resistance to clethodim in Australian ryegrass (*Lolium rigidum*) populations 11  
Rupinder Kaur Saini, Christopher Preston, Jenna Malone and Gurjeet Gill

Reducing seed viability of flaxleaf fleabane, feathertop Rhodes grass and awnless barnyard grass 15  
Michelle D. Keenan, Jeff Werth, David Thornby and Steve Walker

Tedera tolerance of herbicides and small crumbweed control 20  
John Moore (presented by Catherine P.D. Borger)

Using Pest Central for monitoring control of Hudson pear in Central Queensland 24  
Moya Calvert, John Reeve and Brad Gray (presented by Steve Csurhes)

### TOOLS FOR WEED MANAGEMENT PRIORITISATION AND PLANNING

A decision tool to assist in ranking the declared plants of Western Australia 25  
Elizabeth H. Petersen, Jonathan Dodd and Vivian T. Read

Community engagement for reviewing declared weed policies: how South Australia encourages meaningful input into decision making processes 29  
Michaela Heinson, David Cooke, John Virtue, Peter Michelmores, Greg Patrick, Justine Drew, Rory Wiadrowski, Iggy Honan, Phil Elson, Grant Roberts and Teresa Gurney

Reducing uncertainty in post-border weed risk assessment by changing the role of the weed distribution score 33  
Jackie Steel

I'm from the government and I need your help! Addressing the weed challenge through engagement of Local Government and other stakeholders during the New South Wales weed declaration review <u>Stephen B. Johnson</u> and Megan Power	34
Strategic research, development and extension to address weed problems confronting Australian livestock industries <u>Anthony C. Grice</u> , Louise Morin, John K. Scott, Shuang Liu and Cameron Allan	38
Weed hygiene: what do we do with seeds we find on our clothing? <u>Michael Ansong</u> and Catherine Pickering	42

#### ADVANCES IN WEED BIOLOGICAL CONTROL

Redistribution of the gorse soft shoot moth, <i>Agonopterix umbellana</i> (Fabricius), for the biological control of gorse in Australia <u>John Ireson</u> and Richard Holloway	46
The jewel beetle ( <i>Hylaeogena jureceki</i> ): a new biological control for cat's claw creeper ( <i>Dolichandra unguis-cati</i> ) in Queensland <u>Elizabeth L. Snow</u> and Kunjithapatham Dhileepan	50
Targeting biotypes of <i>Dactylopius tomentosus</i> to improve effective biocontrol of <i>Cylindropuntia</i> spp. in Australia <u>Peter K. Jones</u> , Royce H. Holtkamp and Michael D. Day	55
Is delta arrowhead ( <i>Sagittaria platyphylla</i> ) a suitable target for biological control in Australia? Raelene M. Kwong	59
New insights into the biological and chemical control of English broom ( <i>Cytisus scoparius</i> ) in the Victorian Alps <u>Charlie Pascoe</u> , Robin Adair, Marie R. Keatley and Kally Yuen	63
Seedling establishment of the invasive tree <i>Acer pseudoplatanus</i> (sycamore) Kate G. McAlpine	68

#### KEYNOTE PRESENTATION

Nationally coordinated weed management: it's working at the local level Ian Sauer	72
--	----

#### MANAGING WEEDS IN CROPPING SYSTEMS

Seed biology of <i>Chloris truncata</i> (windmill grass) and <i>Chloris virgata</i> (feathertop Rhodes grass) <u>The D. Ngo</u> , Peter Boutsalis, Christopher Preston and Gurjeet Gill	75
Physical and herbicide weed control in wide row lupins in Western Australia <u>Glen P. Riethmuller</u> , Catherine P.D. Borger and Abul Hashem	79
Increased carrier volume and reduced crop residue for improved trifluralin efficiency <u>Catherine P.D. Borger</u> , Glen P. Riethmuller, Michael Ashworth, David Minkey and Abul Hashem	83
Loline alkaloids produced by <i>Epichloë occultans</i> in Australian <i>Lolium rigidum</i> <u>Joseph R. Moore</u> , James E. Pratley, Wade J. Mace and Leslie A. Weston	87

**CAWS DISCUSSION PANEL:  
FUTURE WEED RESEARCH NEEDS IN AUSTRALASIA**

Future weed research needs <u>Rachel Melland</u> , John Virtue and Andy W. Sheppard	91
Coordinated weeds RD&E in Australia: despair or opportunity? <u>John Virtue</u> , Andy Sheppard, John Tracey, Cameron Allan, Ken Young and Jim Thompson	92

**TOOLS FOR WEED MANAGEMENT PRIORITISATION**

Operationalising the triage concept in invasions management <u>Helen T. Murphy</u> , John R. Clarkson and Anthony C. Grice	96
What are the benefits of using a devolved grant model to manage weeds in Tasmania? Peter Stronach	100
Pest adaptation response planning: a practical application of species distribution science in forecasting strategic planning for weed managers <u>Travis A. Sydes</u> and Helen T. Murphy	104
Strategic widespread weed management: key outcomes and challenges from the Bitou Bush Threat Abatement Plan Mark A. Hamilton and <u>Peter J. Turner</u>	108

**IMPROVING THE TECHNOLOGY FOR WEED MANAGEMENT IN AGRICULTURE**

What would make weed management decision support tools more valuable for advisers? <u>Rick S. Llewellyn</u> and Marit Kragt	112
The effect of summer heat and stubble load on endophyte viability in annual ryegrass <u>Joseph R. Moore</u> , James E. Pratley, Wade J. Mace and Leslie A. Weston	116
Clopyralid for knockdown and residual control of flaxleaf fleabane in broadacre cropping and fallows Melissa D. Welsh and <u>Colin Plater</u>	117
The development of a harvester integrated impact mill for devitalising weed seeds <u>Nicholas K. Berry</u> , Chris Saunders and John M. Fielke	120

**Our 10 Point Plan has all the science  
weeded down into simple messages to  
help you win the war on weeds.**

**[www.weedsmart.org.au](http://www.weedsmart.org.au)**

## CONSIDERATIONS IN ASSET PROTECTION: THE 'IMPACT' SIDE OF THE CURVE

Prioritisation of established terrestrial environmental weeds for asset protection in South Africa <u>Andrew Wannenburg</u> , Greg Forsyth, David le Maitre, Patrick O'Farrel and Brian van Wilgen	121
The impacts of <i>Andropogon gayanus</i> (gamba grass) invasion on the fire danger index and fire management at a landscape scale Samantha A. Setterfield, <u>Natalie Rossiter-Rachor</u> , Michael M. Douglas, Damien McMaster, Vanessa Adams and Keith Ferdinands	125
Para grass management and costing trial within Kakadu National Park <u>Damien McMaster</u> , Vanessa Adams, Samantha A. Setterfield, Daniel McIntyre and Michael M. Douglas	129
Using geographic information systems for the prioritisation of buffel grass ( <i>Cenchrus ciliaris</i> ) surveillance and control <u>Troy Bowman</u> and Kate Ellis	134

## ADVANCES IN AQUATIC WEED MANAGEMENT

Competitive performance of <i>Cabomba caroliniana</i> <u>Tobias O. Bickel</u> and Christine Perrett	135
Proactive management of aquatic weeds to protect the nationally important Northland dune lakes, New Zealand <u>Paul D. Champion</u> and Rohan D.S. Wells	139
Potential for lake restoration using the aquatic herbicide endothall <u>Rohan D.S. Wells</u> , Paul D. Champion and John S. Clayton	143
Managing a priority outlier infestation of <i>Cabomba caroliniana</i> in a natural wetland in the Blue Mountains, NSW, Australia: could this be eradication? <u>Christina Day</u> , Andrew Petroeschevsky, Belinda Pellow, James Bevan, Terry O'Dwyer, Amy St Lawrence and Geoffrey Smith	147

[www.wildmatters.com.au](http://www.wildmatters.com.au)

Providing comprehensive services to government, industry and the community in environmental and natural resource management

**Contact** Dr Matt Sheehan, Director  
matt@wildmatters.com.au

Melbourne | Sydney | Adelaide

Australia-wide consultancy working from the national to local level, delivering tools to assist with:

- Strategic planning & management of invasive species
- Community engagement & consultation
- Facilitation & training

## TUESDAY 2 SEPTEMBER

### KEYNOTE PRESENTATIONS

- Weeds at home: observations and theory from travels in the western Mediterranean and South Africa 456  
Steven Hopper
- The regulation of pesticides and veterinary medicines in Australia (no abstract available)  
Kareena Arthy
- Future directions and issues for the national surveillance of weeds, insects and plant pathogens  
in Australia 457  
Greg Fraser

### MANAGING WEED IMPACTS IN CROPPING SYSTEMS

- Harvest weed seed control: is there a role in northern region farming systems? 153  
Michael J. Widderick, Michelle D. Keenan and Michael J. Walsh
- Who's who in the fleabane (*Conyza* spp.) family? 157  
Hanwen Wu and Xiaocheng Zhu
- Dead, not gone: weed residues revealed as an inoculum reservoir for multiple *Diaporthe* species 161  
Sue M. Thompson, Yu Pei Tan, Roger G. Shivas, Susan M. Neate and Elizabeth A.B. Aitken
- Management of Paterson's curse (*Echium plantagineum*) through canola interference 162  
Md. Asaduzzaman, David J. Lockett, Min An, James E. Pratley and Deirdre Lemerle
- Silverleaf nightshade: progress and prospects for management of a new Australian WoNS 166  
John W. Heap

### WEED HYGIENE AND BIOSECURITY

- Toward improved effectiveness: weed hygiene regulation within Australia 170  
Michael Noble
- Agriculture, big business and the gas fields: practical tools for weed hygiene at the mega-scale 174  
Belinda J. Callanan
- Protecting new markets: quantifying the risks to new carbon markets from invasive species and  
prioritising areas for immediate action 178  
Vanessa M. Adams and Samantha A. Setterfield
- Risks for New Zealand's biosecurity from internet trading of plants 182  
Heather G. Pearson and Richard L. Hill
- Environment Health Australia: a proposal to strengthen environmental biosecurity 186  
Andrew Cox and Carol Booth

**NEW TOOLS AND TECHNOLOGIES TO BETTER MANAGE WEEDS**

Controlling desert ash ( <i>Fraxinus angustifolia</i> subsp. <i>angustifolia</i> ): have we found the silver bullet? <u>Tony M. Dugdale</u> , Trevor D. Hunt and Daniel Clements	190
Using genetic tools to diagnose dieback in <i>Parkinsonia aculeata</i> <u>Tracey V. Steinrucken</u> , Jeff R. Powell, Andrew B. Bissett, Anil K.H. Raghavendra and Rieks D. van Klinken	194
Using weeds for temporary needs Ben Simon	196
Smartphone apps for environmental weed management <u>Steve Taylor</u> and <u>Jenny Conolly</u>	197
Detection of alligator weed using an unmanned aerial vehicle <u>Daniel Clements</u> , Tony Dugdale, Trevor Hunt, Robert Fitch, Calvin Hung, Salah Sukkarieh and Zhe Xu	201

**KEYNOTE PRESENTATION**

Habitat degradation, weed overgrowth and plant toxicity: threats to the health of the southern hairy-nosed wombat Lucy Woolford	458
---	-----

**HERBICIDE RESISTANCE IN AGRICULTURE AND THE ENVIRONMENT**

A hidden threat: widespread Group B herbicide resistance in brome across south-eastern Australia Peter Boutsalis, Sam Kleemann, Gurjeet S. Gill and <u>Christopher Preston</u>	202
A new glyphosate resistant weed species confirmed for northern New South Wales and the world: common sowthistle ( <i>Sonchus oleraceus</i> ) <u>Tony Cook</u> , Bill Davidson and Rebecca Miller	206
A new method for determination of herbicide resistance: using Diversity Array Technology to determine annual ryegrass resistance to trifluralin (Group D herbicide) <u>Aaron Preston</u> , Jim Pratley, Joseph Moore and Andrzej Kilian	210
Patch management solves early infestations of glyphosate resistant awnless barnyard grass <u>David Thornby</u> , Jeff Werth, and Steven Walker	214

**CAWS DISCUSSION PANEL:  
BIOSECURITY – WHAT IS THE ‘BIOSECURITY APPROACH’  
AND HOW WILL IT IMPACT WEED MANAGEMENT?**

What is the biosecurity approach and how will it impact weed management? Hillary Cherry	218
--	-----

## MANAGING THE CONSERVATION IMPACTS OF WEEDS

Evaluation of restoration of vegetation infested with cat's claw creeper vine ( <i>Dolichandra unguis-cati</i> ): soil seed bank response to herbicide and physical removal <u>Olusegun O. Osunkoya</u> and Christine Perrett	219
Seed germination may explain differences in invasiveness and prevalence: a case study using cat's claw creeper ( <i>Dolichandra unguis-cati</i> ) <u>Joshua Comrade Buru</u> , K. Dhileepan, Olusegun O. Osunkoya and Tanya Scharaschkin	223
The emerging weed challenge of managing native plant species: what are we doing in New South Wales? Stephen B. Johnson	227
African boxthorn ( <i>Lycium ferocissimum</i> ) and asset protection from a national perspective <u>Michael Noble</u> , Robin Adair and Alan Yen	231

**DON'T LET FAT-HEN  
GORGE ON YOUR PROFITS**

**ForageMax™**  
HERBICIDE  
**ARYLEX™**  
ACTIVE

Grow your own quality feed instead of buying it in. New ForageMax Herbicide will help you grow forage brassicas over summer without fat-hen, fumitory, thistles and other broadleaf weeds gobbling up your profits. For more information call 1800 700 096 [www.dowagrosciences.com.au](http://www.dowagrosciences.com.au)

**Confidence  
in a drum**

Solutions for the Growing World

®™ Trademark of The Dow Chemical Company ("Dow") or an affiliated company of Dow  
\* Registration pending from APVMA

**IMPROVING WEED MANAGEMENT IN PASTORAL AND VITICULTURE SYSTEM**

- Effectiveness of spraying herbicides in the centre compared to all over rosettes of *Cirsium vulgare* and *Jacobaea vulgaris* 235  
Clyton Moyo, Kerry C. Harrington, Peter D. Kemp and Han (J.P.J.) Eerens
- Effects of pine oil, sugar and covers on germination of serrated tussock and kangaroo grass in a pot trial 239  
David A. McLaren, Kym L. Butler and Julio Bonilla
- Yellow bristle grass presence in two key New Zealand dairy regions: trends in pasture infestations and roadside spread 243  
Katherine N. Tozer, Frances M. Miller and Catherine A. Cameron
- South Australian initiatives to reduce herbicide spray drift damage 248  
Leah J. Feuerherdt and David Stephenson

**EXAMINING WEED ERADICATION AND CONTAINMENT: THE ‘POINTY END’ OF THE CURVE**

- Geometric insights into managing breaches of containment and eradication of invasive plants 251  
Cameron S. Fletcher, David A. Westcott, Helen T. Murphy, Anthony C. Grice and John R. Clarkson
- Issues and solutions for researching weed eradication target species 255  
Simon J. Brooks and Stephen D. Setter
- Innovation vs. invasion: innovative techniques to assist the eradication of weed populations 259  
Brad Chandler
- Across borders and basins: reducing the risk of aquatic weed spread in Australia’s Murray-Darling River system 263  
Hillary Cherry and Paula Bosse

**STRATEGIC WEED MANAGEMENT AT LOCAL AND REGIONAL LEVELS**

- Time to get serious: a review of weed management in New South Wales 267  
John Keniry
- Using Weed Risk Management assessments to inform on-ground action for new and emerging environmental weeds in New South Wales 269  
Mark A. Hamilton, Hillary Cherry, Leigh J. Martin, Peter J. Turner and Stephen B. Johnson
- Weeds in South Australia: a regional account of the assault 273  
Chris J. Brodie, Peter J. Lang and Michelle Waycott
- Urban fringe weed management initiative in the Dandenong Ranges: multi-agency, strategic weed control achievements and learnings 274  
Kym Saunders and Marty White

## WEDNESDAY 3 SEPTEMBER

### KEYNOTE PRESENTATIONS

- Perspective of weeds in future of food security (no abstract available)  
Holger Meinke
- Recent trends in agricultural and food production in Tasmania (no abstract available)  
Hugh Griffiths

### NATIONAL INTEGRATED WEED MANAGEMENT INITIATIVE SYMPOSIUM

SPONSORED BY: **GRDC** **Grains Research & Development Corporation**  
Your GRDC working with you

- East-west crop row orientation reduces annual ryegrass fecundity 278  
Catherine P.D. Borger, Abul Hashem and Stephen B. Powles
- Extent of herbicide resistance in three broadleaf weed species in southern New South Wales 282  
John C. Broster, Eric A. Koetz, Adam J. Shephard and Hanwen Wu
- AHRI and WeedSmart Communications 286  
Lisa Mayer, Peter Newman and Brogan Micallef
- Evaluation of harvest weed seed control systems 288  
Michael J. Walsh, Charlotte Aves and Stephen B. Powles
- Recurrent selection on wild radish (*Raphanus raphanistrum* L.) flowering time leads to rapid adaptation of reproductive phenology 292  
Michael B. Ashworth, Michael J. Walsh, Ken C. Flower and Stephen B. Powles
- Comparison of grain crops and their associated residues for weed suppression in the southern Australian mixed farming zone 296  
Leslie A. Weston, Rex Stanton, Hanwen Wu, James Mwendwa, Paul A. Weston, Jeffrey Weidenhamer, and William B. Brown
- Wild oats seed bank dynamics: a long-term study in southern New South Wales 300  
Hanwen Wu and Eric Koetz
- Influence of disc seeding systems on pre-emergence herbicide control of annual ryegrass (*Lolium rigidum*) in wheat 304  
Samuel G.L. Kleemann, Jack Desbiolles, Chris Preston and Gurjeet S. Gill
- The Northern Grains Region: its unique herbicide resistance challenges 308  
Tony Cook
- Improved management of key northern region weeds: diverse problems, diverse solutions 312  
Michael Widderick, Tony Cook, Andrew McLean, John Churchett, Michelle Keenan, Bec Miller and Bill Davidson
- Strategic tillage impacts in long-term no-till 316  
Yash Dang, Mark Crawford, Anna Balzer, Vivian Rincon-Florez, Clement Ng, Mike Bell, Ram Dalal, Phil Moody, Peer Schenk, Suzette Argent and Lilia Carvalhais
- Recent work on microwave-based weed control for cropping systems 320  
Graham Brodie, Eloise Hollins and John Woods-Casey

## IMPROVING MANAGEMENT OF WEEDS IN CONSERVATION SYSTEMS

- Management of invasive *Poa annua* in the sub-Antarctic wilderness of Macquarie Island 324  
Laura K. Williams, Paul Kristiansen, Brian M. Sindel, Justine D. Shaw and Susan C. Wilson
- Cabomba control for the protection of the Ramsar listed Myall Lakes 328  
Terry Inkson, Andrew Petroeschevsky, David Officer and Terry Schmitzer
- Growth of Queensland *Jatropha gossypifolia* biotypes under varying water regimes 333  
Dianne B.J. Taylor and Kunjithapatham Dhileepan
- Wilding conifer management in New Zealand: a changing landscape 337  
Sherman Smith
- Applying a re-emergence model to inform weed monitoring visitation rates 338  
Keith A. Primrose, Cindy E. Hauser and Nicholas S.G. Williams

## ENGAGING THE COMMUNITY IN WEED MANAGEMENT

- Social science methods to improve community participation in weed management programs in New South Wales 342  
Birgitte Verbeek, Elissa Van Oosterhout and Jessica Grantley
- The role of local networks in biological control of broom, *Cytisus scoparius*: a case study from the Victorian highlands 347  
Greg Lefoe
- Adventure volunteering or volunteering for adventure: using volunteers for environmental management 351  
Jon Marsden-Smedley
- Invasiveness and the Atlas of Living Australia 356  
Lee Belbin and Melodie McGeoch
- Control of water hyacinth (*Eichhornia crassipes*) in Rwanda: a survey of local residents' perceptions 360  
Jean L. Seburanga, Beth A. Kaplin, Elias Bizuru, Edward N. Mwavu and Theodette Gatesire

## MANAGING THE IMPACTS OF WEEDS: CONTROL AND DETECTION

- The challenges of controlling an extensive radiata pine (*Pinus radiata*) infestation in native bushland 365  
Denna Kingdom
- Improving methods for wilding conifer control in New Zealand 369  
Keith Briden, Pete Raal and Stefan Gous
- Herbicide persistence in soil following wilding *Pinus contorta* boom-spray operations 372  
Clayson J. Howell
- Determining the feasibility of training a dog to detect *Hieracium* species 374  
Louise Hanigan and Neil Smith

**PLANT HEALTH AUSTRALIA AND CAWS DISCUSSION PANEL AND WORKSHOP:  
COMMUNITY INVOLVEMENT IN WEED SURVEILLANCE AND MANAGEMENT**

The importance of public engagement in weed management 377  
Denis Giasli

Community involvement in weed surveillance and management 378  
Denis Giasli and Nicholas Woods

**DEMONSTRATION** Hawkweed detector dog demonstration with Steve Austin and sniffer dog Missy

**PREVENTING NEW AND EMERGING WEEDS**

Emerging weed threats in Tasmania: what we know and what it tells us for future weed programs 379  
Kiowa Fenner, David Lane and Michael Askey-Doran

Plants from tropical Queensland becoming environmental weeds in sub-tropical Australia:  
an emerging threat 382  
Sheldon Navie

Persistence and detection of weed locations in some northern New Zealand island weed programmes 383  
David Havell

*Melaleuca parvistaminea* (Myrtaceae) in South Africa: invasion risk and feasibility of eradication 387  
Llewellyn E.O. Jacobs, David M. Richardson and John R. Wilson

**IMPROVING NATIONAL BIOSECURITY  
OUTCOMES THROUGH PARTNERSHIPS**

[www.planthealthaustralia.com.au](http://www.planthealthaustralia.com.au)

**PHA is the national coordinator of the government-industry  
partnership for plant biosecurity in Australia**

Australia maintains a strong biosecurity system to defend our plant industries and our unique natural environment against new pests.

There is much to guard against—PHA has identified over 300 exotic pests, including insects and diseases, that prevent or reduce production elsewhere in the world. Each has the potential to significantly reduce the ability to grow particular crops in Australia or close markets for our produce, should they establish here.

PHA works to prevent new pests damaging the livelihoods of producers as well as regional economies and trade.

In turn, our efforts contribute to protecting food security and Australia's reputation as a producer of clean, quality food and fibre.

## USING WEED SYSTEMATICS TO IMPROVE WEED MANAGEMENT

- Don't let them sit idly by: the role of systematic biologists in tackling invasive plants 388  
John R. Clarkson
- Taxonomy and nomenclature of invasive plants in a review of state-level weed policies and weed declarations 389  
David A. Cooke, Tim Reynolds, Michaela Heinson and Julie Dean
- Origins and diversity of exotic silverleaf nightshade (*Solanum elaeagnifolium*) present in Australia as determined by sequence analysis of a chloroplast intergenic spacer region 392  
David Gopurenko, Aisuo Wang, Xiaocheng Zhu, Brendan J. Lepschi and Hanwen Wu
- Selection of DNA barcoding regions for identification and genetic analysis of two *Echium* invaders in Australia: *E. plantagineum* and *E. vulgare* 396  
Xiaocheng Zhu, Lucie Meyer, David Gopurenko, Paul A. Weston, Geoff M. Gurr, Ragan M. Callaway, Brendan J. Lepschi and Leslie A. Weston

**Sustainable land management is a priority in Tasmania's southern region**

**NRM South is leading the way**

NRM South facilitates the implementation of the Natural Resource Management Strategy for Southern Tasmania by building partnerships, securing funding and increasing the capacity of others to engage in NRM activities. We work to ensure that land management in the region is sustainable, improving productivity and long term viability, contributing to the economy and the community. We work with landholders, partners and community groups for the sustainable management of land in the region.

We're pleased to be supporting the Australasian Weeds Conference 2014 and look forward to sharing our ideas and experience of Tasmania's southern region with you.

**For more information about NRM South call 03 6221 6111**  
**Visit the website [www.nrmsouth.org.au](http://www.nrmsouth.org.au) or**  
**[www.facebook.com/nrmsouthTas](https://www.facebook.com/nrmsouthTas) or [twitter.com/nrmsouth](https://twitter.com/nrmsouth)**

## POSTER PRESENTATIONS

- The development of a DNA barcode system for species identification of *Conyza* spp. (fleabane) 401  
Karen Alpen, David Gopurenko, Hanwen Wu, Brendan J. Lepschi and Leslie A. Weston
- Online weed risk management database for new and emerging weeds 405  
Bruce A. Auld and Stephen B. Johnson
- Increased options for controlling mikania vine (*Mikania micrantha*) with foliar herbicides 409  
Simon J. Brooks and Stephen D. Setter
- Exploring herbicide alternatives to delay glyphosate resistance developing in common sowthistle (*Sonchus oleraceus*) in the northern grain region 413  
John D. Churchett, Andrew R. McLean and Michael J. Widderick
- A simple quick test for detecting resistance to glyphosate in perennial ryegrass (*Lolium perenne*) 414  
Hossein Ghanizadeh, Kerry C. Harrington, Trevor K. James and David J. Woolley
- Weed Societies: building better communications between weed stakeholders 415  
Rebecca Grant
- What weeds? Stop weed evasion now! 419  
Leila W. Huebner
- Are weed seeds spread along roadsides from cartage of chopped maize for silage? 422  
Trevor James and Claire Dowsett
- Cooperative weed management and local government: a story from the east coast of Tasmania 423  
Melanie Kelly, David Tucker and Nicky Meeson
- Herbicide and phytotoxicity effects of foramsulfuron in Korean lawn grass (*Zoysia japonica*) 424  
Sang-Su Kim, Jae-up Park, Byeong-Chul Moon, Young-Lim Kim, Min-Ju Kim, Guen-Sik Lee and Yang-Bin Ihm
