

2015 IEEE Fourth Symposium on Network Cloud Computing and Applications (NCCA 2015)

**Munich, Germany
11 – 12 June 2015**

**IEEE Catalog Number: CFP15NCC-POD
ISBN: 978-1-4673-7742-3**

2015 IEEE 4th Symposium on Network Cloud Computing and Applications

NCCA 2015

Table of Contents

Message from the General and Program

Chairsvii

Message from the Steering Committee

Chairsviii

Organizing Committee.....ix

Program Committee.....x

Keynote Talk

SDN and NFV for Network Cloud Computing: A Universal Operating
System for SD Infrastructures1
Antonio Manzalini and Noel Crespi

Technical Session: Cloud Computing Infrastructure

A Modular Approach to Collaborative Development in an OpenStack
Testbed7
*Dario Bruneo, Francesco Longo, Giovanni Merlino, Nicola Peditto,
Carmelo Romeo, Fabio Verboso, and Antonio Puliafito*

Exploiting Classes of Virtual Machines for Scalable IaaS Cloud
Management15
Claudia Canali and Riccardo Lancellotti

Toward a Cloud Platform for UAV Resources and Services23
Sara Yousif Mohamed Mahmoud and Nader Mohamed

Technical Session: Scalable, Self-Managing, and Autonomic Cloud Computing Platforms

Experiments with Smart Workload Allocation to Cloud Servers31
Lan Wang and Erol Gelenbe

Implementation of C-BAS: Certificate-Based AAA for SDN Experimental
Facilities36
Umar Toseef and Kostas Pentikousis

A Cooperative Multi Agent Learning Approach to Manage Physical Host Nodes for Dynamic Consolidation of Virtual Machines	43
<i>Seyed Saeid Masoumzadeh and Helmut Hlavacs</i>	

Machine Learning for Achieving Self-* Properties and Seamless Execution of Applications in the Cloud	51
<i>Pierangelo Di Sanzo, Alessandro Pellegrini, and Dimitar R. Avresky</i>	

Technical Session: Security of Cloud Computing Platforms

Estimating the Frequency of Data Items in Massive Distributed Streams	59
<i>Emmanuelle Anceaume, Yann Busnel, and Nicolò Rivetti</i>	

Towards Practical Homomorphic Encryption in Cloud Computing	67
<i>Adil Bouti and Jörg Keller</i>	

The Network Perspective of Cloud Security	75
<i>Fabio Pierazzi, Andrea Balboni, Alessandro Guido, and Mirco Marchetti</i>	

Technical Session: Cloud Computing Applications

A Generic Architecture for Scalable and Highly Available Content Serving Applications in the Cloud	83
<i>Evie Kassela, Ioannis Konstantinou, and Nectarios Koziris</i>	

Cloud-Based Harvest Management System for Specialty Crops	91
<i>Li Tan, Ronald Haley, and Riley Wortman</i>	

Short Papers

Realization of a Virtual Resource Management Framework in IaaS Cloud Federation	99
<i>Anant V. Nimkar and Soumya K. Ghosh</i>	

A Cloud-Assisted Framework for Bag-of-Features Tagging in Social Networks	103
<i>Zhanming Jie, Ming Cheung, and James She</i>	

PvD: A Lightweight Distributed Monitoring Architecture for Cloud Infrastructures	107
<i>Bashar Ahmad, Iris Leitner, and Michael T. Krieger</i>	

Digital Library Recommender System on Hadoop	111
<i>Ahmed Slama Ismail and Haytham Al-Feel</i>	

Author Index	115
