

35th Annual USSD Conference 2015

Managing Risk and Uncertainty – Ensuring
a Sustainable Future for Dams, Levees
and Reservoirs

Louisville, Kentucky, USA
13-17 April 2015

Volume 1 of 2

ISBN: 978-1-5108-2941-1

CONTENTS

Plenary Session

Safety Assessment on the Heightening Project of Danjiangkou Dam 1
Li Songhui, China Institute of Water Resources and Hydropower Research

Managing Risk and Uncertainty

Lessons Learned from Reclamation's Two Decades of Risk Assessment Experience . . . 15
William Engemoen, Daniel Osmun and **William Fiedler**, Bureau of Reclamation

Dam Safety Portfolio Risk Management: Private Sector vs. Government 31
George A. Kelley, Tennessee Valley Authority; **David B. Paul**, Corps of Engineers; and **Robert C. Bachus** and **Glenn J. Rix**, Geosyntec Consultants

The FERC RIDM . . . What's in it for Me? 45
Guy S. Lund, AECOM; and **Bill Christman** and **Gene Yow**, Chelan County Public Utility District

Risk Prioritization and Mitigation Evaluation for a Portfolio of Dams in Kentucky . . . 59
Michelle Meehan and **Jonathan Keeling**, Stantec

The Role of Empiricism in Quantitative Risk Analysis 73
William Engemoen, William Fiedler and **Daniel Osmun**, Bureau of Reclamation

Transitioning to Risk-Informed Design Standards — Corps of Engineers Strategies for Major Revisions to its Design Philosophies 85
Nathan J. Snorteland, David A. Margo, Jeffrey A. Schaefer, Mark W. Pabst, Scott E. Shewbridge and **Richard Varuso**, Corps of Engineers

Evaluation Tool D-SMART for Risk-Based Dam Safety Management. 99
Jeong-Yeul Lim and **Nam-Ryong Kim**, K-water Institute

Site Characterization of Dam Infrastructure for Engineering Risk Assessments Using a GIS 115
Meghann Wygonik, Christopher Kelly, William Walker and **Baron Worsham**, Corps of Engineers

Construction

Design and Construction of a Secant-Pile Cutoff Wall in Variable Ground Conditions. 127
Erik Newman and **Michael Forrest**, URS Corporation; and **Kylan Kegel** and **Kenneth Pattermann**, Corps of Engineers

<i>Hybrid TRD and Jet Grout Cutoff Wall at Lake Manatee Dam</i>	143
James D. Hussin, Glen R. Andersen, Dennis Boehm and Curtis Cook , Hayward Baker Inc.	
<i>Double Row Grout Curtain Design and Construction for Cedar Creek Dam in Malakoff, Texas</i>	155
Daniel P. Bole , Hayward Baker Inc.; Marc T. Miller , Freese & Nichols Inc.; and Billy L. Fisher , Hayward Baker Inc.	
<i>Grouting Underwater Joints in Concrete Intake Structure</i>	171
Michael McCaffrey , Parsons Brinckerhoff; Mark Gross , APGI, Yadkin Division; and Tony Plizga and Florijon Dhimitri , Parsons Brinckerhoff	
<i>Leak Sealing of Underwater Joint on Upstream Face of a Concrete Gravity Dam . . .</i>	183
Kevin Finn , Parsons Brinckerhoff; Jeff Auser and Matthew Johnson , Brookfield Renewable Power; and Paul Shiers and Michael McCaffrey , Parsons Brinckerhoff	
<i>Deep Water at Horse Mesa Dam — Design of Repairs</i>	197
George V. Sabol , Stantec Consulting Services Inc; Roger Baker , Salt River Project; and Michael Langen , Global Diving & Salvage, Inc.	
<i>Deep Water Construction at Horse Mesa Dam</i>	211
Michael Langen , Global Diving & Salvage, Inc., George V. Sabol , Stantec Consulting Services Inc; and Roger E. Baker , Salt River Project	
<u>Embankment Dams</u>	
<i>Evaluating the Mechanics of Piping Erosion Initiation Through Laboratory Modeling</i>	223
Richard Keizer , GEI Consultants, Inc.; and John Rice , Utah State University	
<i>Examination of Three-Dimensional Effects of Internal Erosion (IE) and Piping Processes in Soil</i>	239
Scott Anderson and Keith Ferguson , HDR Engineering, Inc.	
<i>Evaluation of Impact of Density on Filtering Properties of Narrow Vertical Filters</i>	269
Edwin R. Friend , RJH Consultants, Inc., Kerry Repola , Advanced Terra Testing; Robert J. Huzjak , RJH Consultants, Inc.; and Chris Wienecke , Advanced Terra Testing	
<i>Mix Design and Construction of Asphalt Concrete Face Slab in Frozen Region . . .</i>	279
Lu Yihui, Feng Minghui, Xia Shifa, Hao Jutao and Liu Zenghong , China Institute of Water Resources and Hydropower Research	

Revisiting a Forgotten Dam Building Technology: Concrete Core Walls in Embankment Dams 289
Richard R. Davidson, URS Corporation; and **Kenneth B. Hansen**, Consulting Engineer

Risk Assessment: Balancing Act to Achieve Long-Term Stability for Safety of Aging Dams 311
William J. Friers and **Kapila S. Pathirage**, CDM Smith; and **Chris E. Wheland**, Department of Public Utilities, City of Troy, NY

Seismic

Pragmatic Design of an Embankment Dam: Bury Deadmen and Forget About It (Forgetaboutit) 325
Michael S. Quinn and **Gary Dale**, CHA Consulting, Inc.

Generalized Scaling Principles for Physical Modeling of Embankment Dams in Evaluation of Seismic Behavior. 343
Nam-Ryong Kim and **Jeong-Yeul Lim**, K-water Institute; and **Ik-Soo Ha**, Kyungnam University

Water Delivery After a Large San Andreas Earthquake — An Unconventional Retrofit Approach 355
Micheale Monaghan, **Gregory Reichert** and **Dustin Jolley**, AECOM; and **Leroy Gullette** and **Tasso Mavroudis**, San Francisco Public Utilities Commission

Seismic Risk to Flood-Control Structures and Agriculture in the New Madrid Seismic Zone of Arkansas and Missouri 369
Christopher A. King, Natural Resources Conservation Service, USDA

Analysis of Seismic Deformations and Cracking for Embankments of the Tekapo Canal 401
Lelio H. Mejia and **Ethan Dawson**, URS Corporation

Dam Failure-Nuclear Plant Seismic PRA Model — Modeling Correlations and Uncertainty 413
Martin W. McCann, Jr., Jack R. Benjamin & Associates, Inc.; **Greg Paxson**, Schnabel Engineering; and **Raymond Schneider** and **Andrea Maioli**, Westinghouse Electric Company, LLC

Hydrology and Hydraulics I

Lessons Learned from the Bluestone Dam Inflow Design Flood Update. 435
D. Moses, **N. Koutsunis**, **K. Halstead** and **D. Margo**, Corps of Engineers

Hydraulic Modeling for Coastal Dams 449
Chad W. Cox, **Kristina Ekholm** and **Bin Wang**, GZA GeoEnvironmental Inc.

<i>Hydrologic Investigation for Saddleback Flood Retarding Structure</i>	465
Bert Clemmens and Suzanne Monk , WEST Consultants, Inc.; Stephanie Gerlach , Flood Control District of Maricopa County; and Chuck Davis , WEST Consultants, Inc.	
<i>Addressing Operational Risks and Uncertainties for Gated Spillways</i>	477
Greg Paxson , Robert Indri and Mark Landis , Schnabel Engineering, Inc.	
<i>Debris and Maintenance of Labyrinth Spillways</i>	501
Brian M. Crookston , Schnabel Engineering, Inc.; Dustin Mortensen and Tina Stanard , Freese and Nichols, Inc.; Blake P. Tullis , Utah State University; and Victor M. Vasquez , Freese and Nichols, Inc.	
<i>Design Approaches and Numerical Modeling of a Stepped Spillway Under High Tailwater Conditions</i>	523
Laura Shearin-Feimster and Brian M. Crookston , Schnabel Engineering, Inc.; and Stefan Felder , University of New South Wales	
<i>Modeling Flooding from a Catastrophic Dike Breach Along Elbe River, Germany June 2013</i>	543
Robert Jüpner , University of Kaiserslautern; André Assmann , geomer GmbH; Thilo Weichel , State Authority for Flood Protection and Water Management; Bernd Ettmer and Stefan Müller , University of Applied Sciences Magdeburg-Stendal; and Nageshwar Bhaskar , University of Louisville	
<i>Dam Removal and Restoration Methods: HEC-RAS Modeling of the Former Chambersburg Reservoir</i>	561
Zachary R. Phillips , Shippensburg University	
<i>Construction Flood Case Histories</i>	579
Daniel D. Mares and David P. Keeney , Bureau of Reclamation	
<i>Update No. 2 of the Calaveras Dam Replacement Project</i>	597
Michael Forrest and John Roadifer , URS Corporation; and Daniel Wade , Susan Hou , Tedman Lee and Carman Ng , San Francisco Public Utilities Commission	
<i>Soil Cement Armoring for Dams: Key Project Controls for Successful Construction.</i>	611
Don Roarabaugh and Dan Stare , Gannett Fleming, Inc.; and Larry Corn , Kiewit Infrastructure South Co.	
<i>Rehabilitation of the Cylinder Gate at SRP's Horseshoe Dam</i>	633
Gary Brady and Noel Guercio , Stantec Consulting Services Inc.; and Kevin Wolford and Roger Baker , Salt River Project	

Concrete Dams

- Seismic Fragility for Risk Assessment of Concrete Gravity Dams* 645
Yusof Ghanaat, Quest Structures, Inc.; and **Robert C. Patev** and **Anjana K. Chudgar**, Corps of Engineers
- Evaluating Seismically Induced Hydrodynamic Loads on Spillway Gates* 661
Jerzy Salamon, Bureau of Reclamation
- Crack Mechanism and Prevention Measures of Concrete in the Initial Pouring Based on Field Temperature Gradient Experiment*. 673
Liu Youzhi, **Zhang Guoxin** and **Wang Zhenhong**, China Institute of Water Resources and Hydropower Research; and **Li Renjiang**, China Three Gorges Corporation
- Evaluating Relative Condition of Repeated Structural Elements with Performance-Based Testing*. 683
Spenser Anderson, **Peter Orme** and **Ziyad Duron**, Harvey Mudd College; and **Kevin Marshall** and **Randy Nash**, Grant County Public Utility District
- Analytical and Numerical Modeling of the Wanapum Pier-Ogee Spillway* 699
Peter Orme, **Spenser Anderson** and **Ziyad Duron**, Harvey Mudd College; and **Kevin Marshall** and **Randy Nash**, Grant County Public Utility District
- Wanapum Future Unit Intake Dynamic Analysis for Risk Informed Decision Making* 713
James H. Rutherford, Hatch Associates Consultants, Inc.; **Kevin Marshall** and **Dave Mishalanie**, Grant County Public Utility District; and **Dan Curtis** and **Gurinderbir Sooch**, Hatch Associates Consultants, Inc.
- New Innovative Technique for Strengthening Old Buttress Dams and Multiple Arch Dams* 731
Thomas Konow, Consultant Engineer — Dam Safety, Norconsult, Norway
- Evaluation and Monitoring of Argonaut Dam* 745
Christopher M. Abela, Corps of Engineers
- The Damage Rating Index: Assessing the Severity of Alkali-Aggregate Reaction in Concrete Dams* 759
Fred H. Shrimmer, Golder Associates
- Old Dams, New Faults — Now What?* 775
John C. Stoessel, Southern California Edison Co., **C. Mike Knarr**, Consulting Civil/Structural Engineer, **Nicholas Von Gersdorf** and **Matt Muto**, Southern California Edison Co.; and **Zee Duron**, Harvey Mudd College

Gate Trunnion Anchor Removal and Analysis 787
Jesse Kropelnicki, Parsons Brinckerhoff; **Robert F. Lindyberg**, FDH
Engineering; and **Tony Plizga**, Parsons Brinckerhoff

*Metolong Dam and Raw Water Pump Station — Challenges, Successes, and
Lessons Learned* 799
Stephen L. Whiteside, CDM Smith; **David Bosshart**, Metolong Program
Management Unit; and **Peter P. Macy**, CDM Smith

*Highlights and Challenges of Constructing the Portugues Thick-Arch RCC Dam
in Puerto Rico* 819
Rafael Ibáñez-de-Aldecoa, **David Hernández** and **Eskil Carlsson**, Dragados
USA, Inc.

Levees

Analysis of Ship Grounding for Dams of the Panama Canal Expansion Project . . . 835
Lelio Mejia, **Ethan Dawson**, and **Rajendrum Arulnathan**, URS Corporation;
and **Maximiliano De Puy**, Panama Canal Authority

Modeling Geomorphic Features in Levee Reliability Analyses 849
Lourdes Polanco-Boulware and **John Rice**, Utah State University

When Your Levee Cannot be AccreditedThen What? 873
Maureen P. Cissel, McCormick Taylor

Best Practices for Seepage Data Collection During Levee Flood Fights 885
Cory Williams and **Noah Vroman**, Corps of Engineers

Tailings and Ash Impoundments

Evaluation of Mine Breakthrough at Coal Tailings Impoundments 899
Aaron Antell, **Erik R. Schuller** and **Robert M. Shusko**, D’Appolonia
Engineering

Factors Affecting Upstream Construction at Coal Tailings Impoundments 913
Robert M. Shusko, **Aaron J. Antell** and **Andrew J. Antell**, D’Appolonia
Engineering

*Seismic Evaluations for Coal Combustion Residual Impoundments in the
Eastern Seismic Zone* 923
W. Shin, **James McNash** and **Ramachandran Kulasingam**, Geosyntec
Consultants

Conditions of Coal Ash Embankments 939
John Seymour, **Omer Bozok**, **Amanda Hughes** and **Brad Bodine**, Geosyntec
Consultants

Geotechnical Properties and Diagenesis of Pondered Fly Ash. 965
Robert C. Bachus, Geosyntec Consultants; and **J. Carlos Santamarina**, Georgia
Institute of Technology

*Preservation of Piezometers and Associated Automated Data Acquisition
Systems in Tailings Dams*. 985
Dennis J. Fela and **David R. Welters**, D'Appolonia Engineering

Dam Safety and Security

Implementation of New York State's Guidance for Dam Hazard Classification. . . . 999
Kevin Ruswick and **Gregory Daviero**, Schnabel Engineering

*From Data Graveyards to Smart Phones: Leveraging Technology to Modernize
Dam Hazard Assessments*. 1021
Benjamin Israel-Devadason, **Paul G. Schweiger**, **Kate Aulenbach** and **Amanda
J. Hess**, Gannett Fleming, Inc.; and **Karen Goff**, North Dakota State Water
Commission

*Potential Failure Modes for a Natural Dam Including Estimated Duration of
Failure Modes*. 1029
David Thompson, MWH Global; **Li Yan**, BC Hydro; **Greg Rollins**, MWH
Global; and **Ken Lum**, BC Hydro

*A Near-Miss — A Historic Rainfall Located the Weak Link in Upgraded
Embankment Dam*. 1043
Daniel L. Johnson, Tetra Tech, Inc.; **Brad Dallam**, City of Lafayette, Colorado;
and **Ryan D. Schoolmeesters**, State of Colorado

Conveying Lessons Learned from Dam Incidents and Failures. 1057
Paul Schweiger and **Greg Richards**, Gannett Fleming, Inc.

*Exposure: A New Decision Metric for Selecting Effective Sets of Security
Upgrades*. 1065
Kevin E. Burns, **James D. Morgeson** and **Jason A. Dechant**, Institute for
Defense Analyses; **Yazmin Seda-Sanabria**, Corps of Engineers; and **Enrique E.
Matheu**, U.S. Department of Homeland Security

*Blast Impacts Assessment for Embankment Dams: Parametric Study Results
and Design Implications*. 1081
James Parkes and **Rodney Sedillo**, Parsons Brinckerhoff, Inc.

Systems Analysis of Dam Safety at Operating Facilities. 1097
R. Ascila, Vattenfall; **G.B. Baecher**, University of Maryland; **D.H.D. Hartford**,
BC Hydro; **A.N-A. Komey**, University of Maryland; **R.C. Patev**, Corps of
Engineers; and **P.A. Zielinski**, OPG

Monitoring

- Using Monitoring Programs to Manage Dam Safety Risks* 1115
Jay N. Stateler, Bureau of Reclamation; and **Brad Iarossi**, U.S. Fish and Wildlife Service
- Construction and Monitoring of Extraction Wells at the Blue Ridge Dam Embankment* 1133
Peter Zimmerman, ARCADIS; and **Lindsay McMichen**, Tennessee Valley Authority
- Performance Monitoring to Help Manage Risk for Dams and Impoundments* 1149
W. Allen Marr, Geocomp Consulting Inc.
- Time-Function Method to Establish Piezometer Performance Parameters* 1167
Brian Hart, Bureau of Reclamation
- TVA's Instrumentation and Monitoring Program — Helping Manage Risks Associated with Waste Impoundments* 1183
W. Allen Marr, Geocomp; **Nicolas McClung** and **Scott Turnbow**, Tennessee Valley Authority; and **Dori Ross**, Geocomp Corp.
- Predicting Piezometric Response During High Loading Events Based on Limited Historical Data* 1197
Chun-Yi Kuo, **Troy S. O'Neal** and **Richard B. Hockett**, Corps of Engineers

Foundations

- The Efficacy of Predrilling in Seepage Barrier Wall Construction* 1213
John W. France, AECOM; **Michael F. Zoccola**, Corps of Engineers; and **Li Yan**, BC Hydro
- Seepage Control Upgrade for Ruskin Dam Right Abutment* 1233
Nathan Sweeney, **Li Yan** and **Saman Vazinkhoo**, BC Hydro
- Moose Creek Dam — Risk Assessment of an 8-Mile Long Dam Founded on Deep Sand and Gravel Deposits with Discontinuous Permafrost in Fairbanks, Alaska* . . 1253
Troy S. O'Neal and **Chun-Yi Kuo**, Corps of Engineers
- Evaluating Erodibility of Gravelly Fine-Grained Soils Using the Submerged Jet Erosion Test* 1269
Tony L. Wahl, Bureau of Reclamation

Using Combined Field Geologic Mapping and Photogrammetry to Document Foundation Structural Geology and Weathering, Folsom Auxiliary Spillway Joint Federal Project, Folsom, CA 1283
Tatia R. Taylor and **F. James Martin**, Corps of Engineers; and **Joshua E. Domme**, Kiewit Infrastructure West Co.

Public Awareness

Building a Floodwall in Manhattan 1307
Matthew Redington, HDR Engineering, Inc.

Juggling Conflicting Needs at Tims Ford Dam for Warm and Cold-Water Species, Recreation, and Flood Control 1323
Colleen R. Montgomery and **John T. Baxter Jr.**; Tennessee Valley Authority

Dam Decommissioning

Demolition of Dams and Potential Development of Run-of-River Projects Using Alternative Fish Screen Intakes 1341
Jon Y. Kaneshiro, Parsons Corporation; and **Don Dodds**, North Pacific Research

Geotechnical Meets Geology — Investigating the Carmel River Reroute and Dam Removal Project 1355
Kami Deputy, Kleinfelder, Inc.

Managing Uncertainties during Hydropower Dam Removals 1365
Peter E. Haug, Ayres Associates Inc.

AMP Hydro Projects

Time to Generate Power — New Hydro Development on the Ohio 1375
Paul R. Blaszczyk, MWH Americas, Inc.; **Kevin Griebenow**, Federal Energy Regulatory Commission; and **Philip E. Meier**, American Municipal Power, Inc.

Holding Back the Ohio — Cofferdam and Cut-off Design and Construction 1391
Thomas G. Andrews, **Lin Zhao** and **John M. Hynes**, MWH Americas, Inc.; and **Philip E. Meier**, American Municipal Power, Inc.

From the Ground Up — Ground Improvement for Hydro Development on the Ohio River 1421
Abid A. Mirza, **Lin Zhao**, **John M. Hynes** and **Thomas G. Andrews**, MWH Americas, Inc.; and **Philip E. Meier**, American Municipal Power, Inc.

Optimized — Hardfill Mix Design and Testing 1451
Terrence Arnold and **Brandi Antal**, MWH Americas, Inc.; **Philip E. Meier**, American Municipal Power, Inc.; and **Taylor M. Scott**, MWH Americas, Inc.

Built to Last — Hardfill Construction 1481
Stefano M. Truschke, Terrence E. Arnold and Taylor M. Scott, MWH Americas, Inc.; and **Philip E. Meier**, American Municipal Power, Inc.

Upgraded — New Powerhouses at Existing USACE Dams on the Ohio 1511
Jason A. Bodily and Christ Konstantellos, MWH Americas, Inc.; and **Philip E. Meier**, American Municipal Power, Inc.

Better Safe than Sorry — Surveillance and Monitoring of Hydro Construction on the Ohio. 1531
John M. Hynes, Lin Zhao, Abid A. Mirza and Thomas G. Andrews, MWH Americas, Inc.; and **Philip E. Meier**, American Municipal Power, Inc.
