TABLE OF CONTENTS

Paper n°	Title	Page
LO-26	Case Histories on Motor Current Signature Analysis (MCSA) for Diagnosis of Airgap Eccentricity Problems in HV Induction Motors in Oil and Gas Installations	
LO-69	Understanding of gas engines responses to system load changes	17
LO-70	Modular Integration of Process Equipment Packages for Oil and Gas Facilities	
LO-73	Root cause analysis and remediation of an arc flash incident onboard a pipe	
LO-74	Lighting Practices and Applications, Use of Light Sources / Luminaires in hazardous areas	
LO-75	Operation of Power Systems Incorporating Fault Current Limiting Devices	49
LO-77	Advanced Rotor Fault Diagnosis for High Voltage Induction Motors via Continuous Transforms	
LO-79	Risk Profiles for Electrical Assets	
LO-80	Advances in MI Cable Capabilities for Downhole and Offshore Applications	
LO-81	Circulating zero sequence currents in offshore oil-installation distribution system caused by asymmetric phase induction	
LO-82	Investigating Ways to Prevent Electrical Arc Flash	90
LO-90	Industrie 4.0 – What can Oil & Gas and Petrochemical sector learn from this concept?	
LO-91	Comprehensive deployment of emerging condition monitoring technologies in electrical switchgears	108
LO-92	How does 'designing-in' permanent thermal monitoring lead to improvements in the operational Safety and Reliability of a complex Oil & Gas facility?	115
LO-94	Arc-flash hazards at a temporary construction site	
LO-97	On-line partial discharge (OLPD) condition monitoring (CM) of complete high voltage (HV) networks in the oil and gas industry	
LO-100	Maximise Power Efficiency and Profitability through Medium Voltage Electric Heating Technology with Zero Emissions	139
LO-101	Relative Merits of Off-line and On-Line Testing of Rotating Machine Stator and Rotor Windings	
LO-104	Using a multiphysics model to Ensure Power Cables are Restrained Safety	151
LO-107	Large 2-parallel VSI drive system for 2-pole two windings synchronous motor without current balancing reactor	160
LO-109	What is new in next edition of IEC 60079-7 standard of Ex e motors?	
LO-110	EI Model Code of Safe Practice Part 21: Relation ship of 3 rd (2013) Edition To Previous Editions and Other Static Electricity Standards	
LO-115	MTBF comparison of state of the art medium voltage drive topologies for Oil & Gas applications	180
LO-116	Design and Optimization of an Off-grid Hybrid System for Supplying Offshore Platforms in Arctic Climates	
LO-119	Trace heated PIP, Islay feedback and path to future	
LO-124	Trace Heating Sheath Temperatures Unlocking Mysteries & Exposing Myths	
LO-127	A systemic way to proof the robustness of the Motorformer-and HVDC-technology	
LO-132	Managing Electrical Safety at work place – working with specialist contractors	229
LO-135	Strategic management of ageing assets to maximise recovery of oil and gas	
LO-137	Lifetime extension study Electrical motors Polymers	
LO-138	Analyzing the Impact of Increasing the Efficiency of Large Induction Motor	
LO-141	Light emitting diodes (LED) for installation in Zone 1: a feasible procedure to determine the equivalent protection level	254
LO-147	Separation of Water-in-Oil Emulsions Using Selective Heating
