# TABLE OF CONTENTS

| ID | Paper Title<br>Author(s)                                                                                                                                                                                                                                         | Page |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| 3  | <b>PI Control of Quad-Rotor Unnamed Vehicle Based on Lagrange Approach Modelling</b><br>BENBOUALI Abderrahmen , TALEB Rachid , CHABNI Fayçal , BESSAAD Taieb                                                                                                     | 1    |
| 6  | <b>Using Fuzzy Logic and Hysteresis Current Control to Reduce Harmonics in Three Level NPC Shunt Active Power Filter</b><br>TAMERSIT Khalil, DJEFFAL Fayçal                                                                                                      | 5    |
| 9  | <b>Robust Block Roots Relocation via MIMO Compensator Design</b><br>BEKHITI Belkacem, DAHIMENE Abdelhakim, NAIL Bachir, HARICHE Kamel                                                                                                                            | 10   |
| 16 | <b>Modeling of a New Graphene-Based Smart Sensor for High Performance pH Monitoring Applications</b><br>TAMERSIT Khalil, DJEFFAL Fayçal                                                                                                                          | 16   |
| 17 | <b>A Comparative Study between two Open-circuit Fault Detection and Localization Techniques in a Three-phase Inverter Fed Induction Motor</b><br>CHERIF Bilal Djamal Eddine, BENDJEBBAR Mokhtar, BENOZZA Nourdine, BOUDINAR Ahmed Hamida, BENDIABDELLAH Azeddine | 22   |
| 18 | <b>Coupling &amp; Decoupling Control Study On Aircraft (Airbus A320)</b><br>CHEUNG Chiu Wo, ZHU Quan Min                                                                                                                                                         | 29   |
| 23 | <b>A summary of Vibration analysis techniques for fault detection and diagnosis in bearing</b><br>BOUDIAF Adel, DJEBALA Abederrazek , BENDJAMA Hocine, BALASKA Adel, DAHANE Amine                                                                                | 37   |
| 24 | <b>Novel control scheme for unified power quality conditioner based on three-level (NPC) inverter using intelligent systems</b><br>CHENNAI Salim                                                                                                                 | 43   |
| 25 | <b>Direct Torque control based multi-level inverter and artificial neural networks of wind energy conversion system.</b><br>MOUALDIA Abdelhafidh, BOUDANA Djamel, WIRA Patrice                                                                                   | 49   |
| 26 | <b>Implementation of Features Detection and Matching Algorithms on FPGA Using Nios II</b><br>LATI Abdelhai, IRKI Zohir, NEMRA Abdelkrim, SAKHI Samir, HAMERLAIN Mustapha                                                                                         | 55   |
| 27 | <b>Different technics of observation of the flux and the speed of an induction motor (KUBOTA and MRAS observers)</b><br>DRIS Ahmed, BENDJEBBAR Mokhtar                                                                                                           | 61   |
| 28 | <b>A Survey of Development Frameworks for Robotics</b><br>HENTOUT Abdelkettah, MAOUDJ Abderraouf, BOUZOUIA Brahim                                                                                                                                                | 67   |
| 30 | <b>Quadrotor Position and Attitude Control via Backstepping Aproach</b><br>MATOUK Djihad, GHEROUAT Oussama, ABDESSEMED Foudil, HASSAM Abdelouahab                                                                                                                | 73   |
| 32 | <b>An Improved Position Errors Test Method of Image Recorded by Voyage Data Recorder</b><br>CHEN He, YANG Zhijun, WU Zhaochun, ZHAO Kejia, LI Difei, MA Xiaoqing, TIAN Di                                                                                        | 80   |
| 41 | <b>Virtual Flux Predictive Direct Power Control of Three-level Multiterminal VSC-HVDC Transmission System</b><br>REGUIG BERA Ahmed, BARKAT Said, BOUZIDI Mansour                                                                                                 | 85   |
| 42 | <b>Robust observer based backstepping controller for robot manipulator</b><br>BENADDA Hakima, BOURAHLA Boumediene, MANSOURI Abdellah                                                                                                                             | 91   |
| 45 | <b>Sensorless Sliding Mode Control of a Five-Phase PMSM using Extended Kalman Filter</b><br>BOUNASLA Noureddine, BARKAT Said, BENYOUSSEF Elakhdar, TOUNSI Kamel                                                                                                  | 97   |
| 46 | <b>DTC-SVM of Five-Phase Permanent Magnet Synchronous Motor Drive</b><br>TOUNSI Kamel, DJAHBAR Abdelkader, BARKAT Said                                                                                                                                           | 103  |
| 47 | <b>Hybrid Synchronization of Multiple Fractional-order Chaotic Systems with Ring Connection</b><br>LASSOUED Abir, BOUBAKER Olfa                                                                                                                                  | 109  |
| 49 | <b>Control of a wind energy conversion system equipped by a STACOM for power quality improvement</b><br>ABDELOUAHED Touhami, ZIDI Sid ahmed, HADJERI Samir                                                                                                       | 115  |
| 51 | <b>Bagley-Torvik Fractional Order System Performance Characteristics Analysis</b><br>GHERFI Kaddour, CHAREF Abdelkettah, ABBASSI Hadj Ahmed                                                                                                                      | 122  |
| 56 | <b>Detection and Target Tracking With a Quadrotor using Fuzzy Logic</b><br>BOUDJIT Kamel, LARBES Cherif                                                                                                                                                          | 127  |
| 60 | <b>Numerical analysis of the different parameter corona discharge in an electrostatic precipitators</b><br>ACHOURI Imed Eddine, NOURI Hamou, ACHOURI Farid                                                                                                       | 133  |
| 61 | <b>A New Formulation and Solving of Protective Relays Setting and Coordination Problem Using Multi-objective Optimization and Fuzzy Logic</b><br>BENABID Rabah                                                                                                   | 138  |
| 64 | <b>Neuro-Fuzzy classifier for fault detection and classification in photovoltaic module</b><br>BELAOUT Abdesslam, KRIM Fateh, MELLIT Adel                                                                                                                        | 144  |

|            |                                                                                                                                                                                                                                                                 |            |
|------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>67</b>  | <b>Point-to-Point FTTH Supervision using Geographic Information System tool</b><br><i>HADJADJ Khadidja, DJOUAMA Allaeddine, YUCEF ETOUMI Fatiha</i>                                                                                                             | <b>150</b> |
| <b>68</b>  | <b>Simultaneous Localization and Mapping Algorithm for Unmanned Ground Vehicle with SVSF Filter</b><br><i>DEMIM Fethi, NEMRA Abdelkrim, LOUADJ Kahina , MEHAL Zakaria, HAMERLAIN Mustapha , BAZOULA Abdelouahab</i>                                             | <b>155</b> |
| <b>71</b>  | <b>Artificial neural network modelling of a gas sensor for liquefied petroleum gas detection</b><br><i>LAMAMRA Kheiredine, RECHEM Djamil</i>                                                                                                                    | <b>163</b> |
