

34th Air Infiltration and Ventilation Centre Conference (AIVC 2013), 3rd TightVent Conference, 2nd Cool Roofs' Conference and 1st Venticool Conference 2013

Energy Conservation Technologies for Mitigation
and Adaptation in the Built Environment: The Role
of Ventilation Strategies and Smart Materials

Athens, Greece
25 – 26 September 2013

Volume 1 of 2

ISBN: 978-1-5108-3762-1

TABLE OF CONTENTS

Model projected heat extremes and air pollution in the Mediterranean and Middle East in the twenty-first century , Jos Lelieveld, Germany.....	1
Optimization of nighttime ventilation parameters to reduce buildings energy consumption by integrating DOE2 and MATLAB , Hashem Akbari, Canada.....	2
High performance insulation materials , Karim Ghazi Wakili, Switzerland	12
Shifting peak cooling load using thermal storage technology , Branislav Todorovic, Serbia	13
Preferred air velocity and local cooling effect of desk fans in warm environments , Angela Simone, Denmark	19
Indoor air and thermal environment of environment-friendly house by passive design in Japan , Tomoyuki Endo, Japan.....	30
Evaluating the performance of selected thermo-physiological indices on quantifying bioclimatic conditions for pedestrians in a street canyon , Katerina Pantavou, Greece.....	40
Natural ventilation in hospital wards of semi-arid climates: A case for acceptable indoor air quality and patients' health , Mohammed Alhaji, UK.....	48
Individual appraisal of air conditioned surroundings , Samuel Hassid, Israel.....	58
A study on the thermal environment in Greek primary schools based on questionnaires and concurrent measurements , Paraskevi Dorizas, Greece	62
Combining thermal inertia, insulation and ventilation strategies for improving of indoor summer thermal comfort , Evola Gianpiero, Italy	72
Assessment of integrated PV shading systems for energy savings and interior comfort conditions in Mediterranean countries , Theocharis Tsoutsos, Greece	80
The thermal comfort and IAQ of recent Dutch energy efficient office buildings with Thermal Activate Building Systems , Wim Zeiler, Netherlands.....	88
Heat recovery ventilation with closed-loop ground heat exchange , Bart Cremers, Netherlands	99
Impact of climate change on a naturally night ventilated residential building, Greece , Theofanis Psomas, Greece	105
Energy saving effect of the ERV (Energy Recovery Ventilator) with outdoor air cooling , Doosam Song, Republic of Korea.....	115
Double -skin system of room side air gap applied to detached house (part 1) , Kan Lin, Japan.....	123
National survey on ventilation system and occupants' health in Japan , Kenichi Hasegawa, Japan.....	132
Energy efficiency and IAQ aspects of the school buildings in Greece , Niki Gaitani, Greece.....	140
Health issues in relation to building dampness in European Social Housing , Stavroula Karatasou, Greece..	150
Sanitary aspects of domestic ventilation systems: an in situ study , Joris Van Herreweghe, Belgium.....	156
Airtightness and ventilation of social housing in Ireland – A review of field measurements and occupant perspectives pre- and post- retrofit , Derek Sinnott, Ireland	166
Airtightness quality management scheme in France: assessment after 5 years operation , Sandrine Charrier, France.....	176
Preliminary analysis of a French Buildings Airtightness Database , Adeline Bailly, France	187

A stochastic approach to predict the relationship between dwelling permeability and operational infiltration in English apartments , Benjamin Jones, UK.....	199
The climate effects of increasing the albedo of roofs in a cold region , Hashem Akbari, Canada	210
Interlaboratory comparison of cool roofing material measurement methods , Afroditi Synnefa, Greece.....	216
Development and analysis of inorganic coating for energy saving for buildings , Denia Kolokotsa, Greece	227
Study on the appropriate selection of urban heat island measure technologies to urban block properties , Hideki Takebayashi, Japan.....	237
Passive cooling dissipation techniques for buildings and other structures: The state of the art , Denia Kolokotsa, Greece	247
Experimental analysis of different operational configurations for single sided natural ventilation as part of a low energy retrofit , Paul O'Sullivan, Ireland.....	257
Ventilative cooling of residential buildings: Strategies, measurement results and lessons-learned from three Active Houses in Austria, Germany and Denmark , Peter Foldbjerg, Denmark.....	269
Evaluation of ventilative cooling in a single family house , Bruno Peuportier, Denmark	278
Securing the quality of ventilation systems in residential buildings: Existing approaches in various countries , Arnold Janssens, Belgium (Invited Speaker).....	288
Overview of the UK residential ventilation market and initiatives to improve the quality of the installed systems , Alan Gilbert, United Kingdom (Invited Speaker)	297
Detailed analysis of regulatory compliance controls of 1287 dwellings ventilation systems , Gaelle Guyot, France	307
Effect of ageing processes and atmospheric agents on solar reflectivity of clay roofing tiles , Chiara Ferrari, Italy.....	317
Field observation of cooling energy saving by the high reflectance paint , Chihiro Yamada, Japan.....	326
Composite material for renovation of roofs in existing buildings , Stella Chadiarakou, Greece	333
Cooling roofs through low temperature solar-heat transformations in hydrophilic porous materials , Dimitrios Karamanis, Greece	341
Parametric analysis of environmentally responsive strategies for building envelopes specific for hot hyperarid regions , Isaac Meier, Israel	351
A low-energy innovative system for space cooling , Giouli Mihalakakou, Greece.....	360
Double facades: comfort and ventilation at an extreme complex case study , Wim Zeiler, Netherlands	368
Double skin system of room side air gap applied to detached house (Part 2), Simulation analysis for reduction of cooling load by natural ventilation in the wall , Togo Yoshidomi, Japan.....	377
Building Envelope Design for climate change mitigation: a case-study of hotels in Greece , Ifigenia Farrou, UK.....	388
The effect of a novel roof pond to the indoor air temperature for passive cooling , Artemisia Spanaki, Greece	400
Passive ventilation in multi-storey Atrium buildings: A first-order design guide , Andrew Acred, UK	407
Investigation of the air flow field in front of the reinforced slot exhaust hood , Ondrej Pech, Czech Republic.....	418
A study on effects of energy saving by applying complex insulation integrated the soft material in apartment house , Mi Yeon Lee, Republic of Korea.....	425
Energy saving and Indoor Air Quality in office buildings , Eleni Provata, Greece.....	433

Occupancy estimation based on CO2 concentration using Dynamic Neural Network Model, Hwataik Han, Republic of Korea.....	443
Analysis of Indoor Air Quality in Greek primary schools, Paraskevi Dorizas, Greece	451
Does Indoor Environmental Quality affect students' performance?, Paraskevi Dorizas, Greece	461
Indoor and outdoor distribution of airborne pollutants in naturally ventilated classrooms, Paraskevi Dorizas, Greece	471
Instationary operation of a ventilation system, Martin Schmidt, Germany.....	478
Energy saving opportunities by suitable HVAC management: the Procuratie case in Venice, Luigi Schibuola, Italy.....	486
High efficiency retrofit in historic buildings by demand-controlled ventilation, Luigi Schibuola, Italy.....	496
Uncertainties in different level assessments of domestic ventilation systems, Regina Bokel, Netherlands	505
Measurements and modelling of an earth- to- air heat exchanger for retail building ventilation, Andrzej Gorka, Poland.....	515
Durability and measurement uncertainty of airtightness in extremely airtight dwellings, Arnold Janssens, Belgium.....	524
Airtightness of buildings - Calculation of combined standard uncertainty, Christophe Delmotte, Belgium	535
Impact on IAQ of building material emitted pollutants through building leaks: State of the art and sample testing methodology, Sarah Juricic, France	545
Application of blower door measurements in the evaluation of workmanship influence in airtightness, Nuno Ramos, Portugal.....	552
Control of airtightness quality management scheme in France: results, lessons and future developments, Sandrine Charrier, France	561
Airtightness of very large volume buildings: Measuring method and first results, Florent Boithias, France	572
Comparison of different air tightness and air exchange rate measurements in a very small test building before and after sealing, Stanislavs Gendelis, Latvia	576
Use of cool materials in outdoor places in order to mitigate the urban heat island in a medium size city in Greece, Argiro Dimoudi, Greece.....	584
Cool fluorocarbon coatings in industrial buildings: Optical properties and energy performance, Eleni Mastrapostoli, Greece.....	594
Using cool paving materials to improve microclimate of urban areas- Design realisation and results of the Flisvos project, Mat Santamouris, Greece	603
Experimental determination of comfort benefits from cool-roof application to an unconditioned building in India, Vishal Garg, India.....	612
Simulation of the cooling effect of roof added photovoltaics, Vasilios Kapsalis, Greece.....	627
Experimental analysis of small scale roof ponds, protected by a variety of materials in different positions in regard to water level, Artemisia Spanaki, Greece	635
A case study of sustainable urban planning with the use of a decision support system, Afroditi Synnefa, Greece	641
Urban gardens: As a solution to energy poverty and urban heat island, Vasiliki Tsilini, Greece.....	653
A holistic approach of the development and application of innovative composite cool-thermal insulating materials, Sofia – Natalia Boemi, Greece	662
Solar optical and thermal properties of mesoporous materials for cooling applications compared to typical building materials, Spyros Krimpalis, Greece	669

Heat island phenomenon and cool roofs mitigation strategies in a small city of elevated temperatures, Eftychios Vardoulakis, Greece	676
Assessing thermal risk in urban areas – An application for the urban agglomeration of Athens, Anastasios Polydoros, Greece	683
Evaluation of the application of cool materials in urban spaces: a case study in the center of Florina, Stamatis Zoras, Greece	693
Recent developments to integrate ventilative cooling in the Danish regulatory context, Per Heiselberg, Denmark	703
Recent developments to integrate ventilative cooling in the Austrian regulatory context, Peter Holzer, Austria	710
Market transformation towards nearly zero energy buildings through widespread use of integrated energy design, Theoni Karlessi, Greece	718
The first Dutch Passive house and Plus energy schools: some Dutch IAQ experiences in schools, Wim Zeiler, Netherlands	727
Optimization method for the ventilation system choice in zero energy buildings, Patrick Ampe, Belgium	737
Using cool pavements as a mitigation strategy to fight urban heat island- A review of the actual developments, Mat Santamouris, Greece	748
Green and cool roofs. Urban heat island mitigation potential in European climates for office buildings under free floating conditions, Denia Kolokotsa, Greece	758
Preliminary studies for cool roofs? Energy rating and labelling system in Italy roofs', Michele Zinzi, Italy	768
Simultaneous integration of urban heat island mitigation technologies in the existing urban fabric in Athens, Greece, Elli Calokerinou, Greece	779
Urban rehabilitation at the municipality of Acharnes, Greece, Niki Gaitani, Greece	789
Urban recreation energy efficient retrofit for carbon zero and socio-oriented urban environments, Annarita Ferrante, Greece	799
Comparative studies of the occupants' behaviour in a University building during winter and summer time, Despina Serghides, Greece	811
Fuel poverty and the financial crisis: A household survey in Greece, Mat Santamouris, Greece	821
Micro-climate modification and potential for reduction in summertime over-heating in social housing, South Wales.UK, David Holmes, UK.....	845
Impact of climate change on indoor thermal comfort of naturally ventilated public residential buildings in Singapore, Steve Kardinal Jusuf, Singapore	855
Potential of night ventilative cooling strategies in office buildings in Spain. Comfort analysis, Olatz Irulegi, Spain	866
Study on the future weather data considering the global and local climate change for building energy simulation, Hideki Kikumoto, Japan.....	877
Proposed research agenda for achieving indoor air quality supporting health and comfort in highly energy efficient buildings, Pawel Wargocki, Denmark.....	887
Why we ventilate, Max Sherman, United States.....	897
Green roofs and vertical greenery systems evaluation - Heat and Mass Transfer Modelling and Experimental Quantification, Marija Todorovic, Serbia.....	905
The effect of solar radiation on thermochromic building coatings: testing the performance and proposing methods for their improvement, Theoni Karlessi, Greece.....	918

Influence of the Irradiance Spectrum on Solar Reflectance Measurements , Chiara Ferrari, Italy.....	928
Performance of self-cleaning cool cementitious surface , Ana Werle, Brazil	937
Development and Testing of Photovoltaic Pavement for Heat Island Mitigation , Chrysanthi Efthymiou, Greece	946
A numerical and experimental analysis of the aging of the cool roofs for buildings in Greece , Elena Mastrapostoli, Greece.....	955
Nearly zero energy hotels, the European project Nezeh , Theocharis Tsoutsos, Greece.....	964
The impact of temperature increase in Greece on the energy demand of buildings , Triantafyllia Nikolaou, Greece.....	974
Development of an algorithm for predicting the performance and optimizing the design of an energy efficient lighting system , Konstantina Vasilakopoulou, Greece.....	984
A development of a lighting controller using smart sensors , Sotiris Papantoniou, Greece	995
Development of an Innovative Energy Management System for University Campuses , Ariadni Vasilomichelaki, Greece.....	1004
Guidelines for health-based ventilation in Europe , Pawel Wargocki, Denmark.....	1014
Filter pressure drop control in balanced ventilation systems for dwellings , Alain Ginestet, France.....	1019
Air flow model for sub-slab depressurization systems design , Thierno Diallo, France.....	1029
Heating energy penalties of cool roofs: the effect of snow accumulation on roof , Hashem Akbari, Canada	1041
Influence of cool materials on building energy demand at district scale , Adrien Gros, France	1050
Design impacts of cool roof coating, skylights and ground inertia on commercial low-rise building energy demand and summer comfort , Remon Lapisa, France.....	1061
Cool Roof for passive cooling: simulations of an existing building in Southern Italy , Vincenzo Costanzo, Italy	1071
Development and application of “thermal radiative power” for urban environmental evaluation , Yupeng Wang, Canada.....	1081
Development of self-cleaning top-coat for cool roof , Takeshi Sonoda, Japan	1089
Effect of cool roofs and green roofs on temperature in the tropical urban environment , Steve Kardinal Jusuf, Singapore	1099
Ventilation and energy aspects of food retail and catering facilities service buildings , Maria Kolokotroni, United Kingdom	1109
Optimizing the operation of earth-to-air heat exchangers in high-performance ventilation systems for low-energy buildings - A case study , Alexandru Tudor, Romania	1121
Are heat recovery systems necessary for nearly zero energy buildings in mild climates? , Florentzos Flourentzou, Switzerland.....	1129
Indoor environmental quality in very low income households during the winter period in Athens , Mat Santamouris, Greece.....	1134
Dwelling Environmental Quality Index: an indicator of indoor environmental quality in residential buildings , Marina Laskari, Greece.....	1144
Uncertainties in air exchange using continuous-injection, long term sampling tracer-gas methods , Max Sherman, United States	1152
On investigating instantaneous wind-driven infiltration rates using CO2 decay method , Dimitrios Kraniotis, Norway	1163

Experimental performance characterization of a new single room ventilation device with heat recovery, Samuel Gendebien, Belgium	1177
Modelling of urban canyon: analytical and experimental remarks, Federico Rossi, Italy.....	1190
On the analysis of cool roofs for cooling system efficiency, Anna Laura Pisello, Italy	1202
Toward designing strategies for UHI mitigation based on multiscale flow considerations, Marina Neophytou, Cyprus.....	1213
Studying the effect of 'cool' coatings in street urban canyons and its potential as a heat island mitigation technique, Chrissa Georgakis, Greece.....	1223
The thermal characteristics and the mitigation potential of a medium size urban park in Athens, Greece, Fotini Skoulika, Greece	1233
Evolution over time of UV-Vis-NIR reflectance of cool roofing materials in urban environments, Riccardo Paolini, Italy	1242
Experimental investigation of the thermal and optical behaviour of the intensive green roof system installed in an office building in Athens, Panagiota Karachaliou, Greece.....	1253
Considering the Attica Example: Hotel Location as a determinant factor of tourist carbon footprint, Stella Panayiota Pieri, Greece	1265
Resource- and Cost-effective integration of renewables in existing high-rise buildings, Theoni Karlessi, Greece	1275
Retrofitting an office building towards a zero-energy building (NZEB), Eleni Pyloudi, Greece	1288
Development of a Smart Sensor for controlling Artificial Lights and Venetian Blinds, Pantelis Foutrakis, Greece	1300
Exergy analysis of biogas-fed SOFC, George Fragoyiannis, Greece	1310
Pilot Application of Flywheels in RES-based Power Plants, George Prodromidis, Greece.....	1316
