Structural Engineers Association of California
2016 SEAOC Convention Technical Presentations

Preface

The following are unedited papers presented by the authors at the 2016 SEAOC Convention. These papers reflect the opinions, positions, and commentary of the authors and do not represent a consensus viewpoint of the Structural Engineers Association of California. The material presented in this publication should not be used or relied upon for any specific application without competent examination and verification of its accuracy, suitability, and applicability by qualified professionals. This document is not intended, nor should it establish or define a “standard of care” or a “standard of practice.” Users of information from this publication assume all liability from such use.

Table of Contents
CLICK ON TITLE TO JUMP TO PAPER

| | |
|---|-------|
| A Comparison of Code-based and Analysis-based Ductility Demands on Buckling-Restrained Braces (Update) | p. 20 |
| <i>Brandt Saxey, Technical Director, CoreBrace, West Jordan, UT Justin D. Marshall, Associate Professor, Auburn University, Auburn, AL</i> | |
| Advances in California - Ground Improvement Support of Heavy Foundations | p. 32 |
| <i>Tom Farrell MS GE, Principal Engineer; John Ho PhD GE, Principal Engineer; Mitchell Deacon MS PE, Senior Engineer; Sam Warren, Project Engineer; Farrell Design-Build Companies, Inc., Placerville, CA</i> | |
| Analytic Modeling of Cross-Laminated Timber (CLT) Diaphragms 2016 SEAOC Convention | p. 42 |
| <i>Erik Kneer, SE, LEED AP BD+C, Associate Principal Jonas Houston, PE, Senior Engineer Holmes Structures San Francisco, CA Scott Breneman, SE, Senior Technical Director WoodWorks – Wood Products Council Spokane, WA</i> | |
| Application of Low-Cost Base Isolation System for the Retrofit of Residential Structures in Areas of Low to Moderate Seismicity | p. 53 |
| <i>Armin Masroor, PhD, PE, Senior Analyst; Siavash Soroushian, PhD, PE, Analyst; Rob Smith, SE, CEng MICE, Associate Principal; Michael Willford, CEng, Principal; Arup, San Francisco, CA</i> | |
| Application of the US Resiliency Council Seismic Rating Procedure to Two Tall Buildings Designed by Alternative Means | p. 60 |
| <i>Henry V. Burton, PhD., S.E., Sijin Wang; Yu Zhang and John Wallace, PhD., P.E.; University of California, Los Angeles, CA</i> | |

| | |
|--|--------|
| ATC-114 Next-Generation Hysteretic Relationships for Performance-based Modeling and Analysis | p. 73 |
| <i>Ronald O. Hamburger, SE, Simpson Gumpertz & Heger Inc., San Francisco, CA</i> | |
| <i>Greg Deierlein, Stanford University, Palo Alto, CA</i> | |
| <i>Dawn Lehman, Laura Lowes, University of Washington, Seattle, WA</i> | |
| <i>Benson Shing, University of California, San Diego, CA</i> | |
| <i>John van de Lindt, Colorado State University, Fort Collins, CO</i> | |
| <i>Dimitrios Lignos, McGill University, Montreal, Canada</i> | |
| <i>Ayse Hortacsu, Applied Technology Council, Redwood City, CA</i> | |
| Base-Isolated Intermodal Transportation Center Serves Dual Purpose As Emergency Response Nerve Center | p. 86 |
| <i>Sampson Huang, Ph.D. S.E., Principal; Saiful Islam, Ph.D. S.E., President; Matthew Skokan, Ph.D. S.E., Principal; Michael Wang, S.E., Project Manager; Saiful Bouquet Structural Engineers Pasadena, CA</i> | |
| <i>Metin Oguzmert, Ph.D., Assistant Professor, Kennesaw State University, Atlanta, GA</i> | |
| Base Isolation Design Issues of Ryman Retirement Complex in Petone, New Zealand | p. 92 |
| <i>Ronald L. Mayes, PhD and Scott C. Darling, P.E. (CA), Simpson Gumpertz and Heger, San Francisco, CA</i> | |
| <i>Nicholas G. Wetzel, S.E. (CA), CPEng, Cannon Corp, San Luis Obispo, CA</i> | |
| <i>Nick Covich, CPEng and Kevin Vranjes, CPEng, Mitchell Vranjes Consulting Engineers, Auckland, New Zealand</i> | |
| BRB Mast Frames: An Improved Approach to Seismic-Resistant Design Using Buckling-Restrained Braces | p. 106 |
| <i>Leo Panian, SE, Nick Bucci, SE, Tipping Structural Engineers, Berkeley, CA</i> | |
| Building Structure and Carbon | p. 114 |
| <i>Megan Stringer, P.E., LEED AP BD+C, Senior Engineer, Holmes Structures, San Francisco, CA</i> | |
| <i>Anthony Court, S.E., President, A.B. Court & Associates, San Diego, CA</i> | |
| <i>Mark Webster, P.E., Senior Staff II Structures, Simpson Gumpertz & Heger, Boston, MA</i> | |
| Changes To 2016 Edition Of The AISC Seismic Provisions (AISC 341) | p. 121 |
| <i>James O. Malley, Senior Principal, Degenkolb Engineers, San Francisco, CA</i> | |
| <i>Rafael Sabelli, Principal, Walter P. Moore, San Francisco, CA</i> | |
| A Comparative Assessment of the Collapse Performance of Soft, Weak or Open-Front Wall Woodframe Buildings Retrofitted using Alternative Procedures | p. 127 |
| <i>Henry V. Burton, PhD., S.E. and Morolake Omoya, University of California, Los Angeles, CA</i> | |
| <i>Aryan Rezaei Rad, Swiss Federal Institute of Technology (EPFL), Lausanne, Switzerland</i> | |
| <i>Jonathan Buckalew, Nabih Youssef Structural Engineers, Los Angeles, CA</i> | |
| Comparing the Seismic Performance of Conventional and Novel Structural Systems Using PBEE | p. 139 |
| <i>Max T. Stephens, Ph.D., University of Auckland, Auckland, New Zealand</i> | |
| <i>Dawn E. Lehman, Ph.D.; Charles W. Roeder, Ph.D., P.E.; University of Washington, Seattle, WA</i> | |

| | |
|--|--------|
| Damage Assessment and Seismic Retrofit of Buildings Following the 2015 Nepal and 2016 Ecuador Earthquakes | p. 148 |
| <i>H. Kit Miyamoto, PhD SE; Amir SJ Gilani, PhD SE; Miyamoto International, Los Angeles, CA</i> | |
| Design of Safe Base Isolated Structures Using Hardening of Bearing | p. 156 |
| <i>Benshun Shao, Ph.D. Candidate, Stephen A. Mahin, Professor, University of California, Berkeley, CA</i> | |
| Designing Destruction: An Investigation into Controlled Demolition of Complex Structures through Disaster Response Case Studies | p. 171 |
| <i>Sean K. Hallet, P.E., Senior Forensic Engineer, CASE Forensics, Sacramento, CA Patxi Uriz, Ph.D., P.E., Managing Engineer; Morgan Griffith, P.E., Managing Engineer; Exponent Failure Analysis Associates, Menlo Park, CA</i> | |
| Detailing for Increased Capacity of Tension-Only Steel Anchor Rods Embedded in Elevated Concrete Slabs | p. 180 |
| <i>Steve Pryor, S.E.; Emory Montague, S.E.; Scott Fischer, P.E.; Frank Ding, Ph.D.; Gary Mochizuki, S.E.; Simpson Strong-Tie®, Pleasanton, CA</i> | |
| The Effect of Increasing Brace Length on the Expected Design Values for Buckling-Restrained Braces | p. 197 |
| <i>Brandt Saxey, SE, Technical Director, CoreBrace, West Jordan, UT Paul Richards, PhD, PE, Brigham Young University, Provo, UT</i> | |
| Enduring Devotion: The Sanctuary for Sufism Reoriented | p. 205 |
| <i>Stephen Ratchye, Vice President; Graeme Ballantyne, Associate; Thornton Tomasetti, San Francisco, CA</i> | |
| Engineering in the Extreme | p. 210 |
| <i>Eric Lehmkuhl, S.E., Principal, KPF Consulting Engineers, San Diego, CA</i> | |
| Evaluation of Ground-Motion Modification Methods Using Consistent Inelastic Response Spectra & Probabilistic Inelastic Hazard Curves | p. 219 |
| <i>Silvia Mazzoni, Research Engineer & Consultant, University of California, Berkeley, Berkeley, CA Norman A. Abrahamson, Engineering Seismologist, Pacific Gas & Electric, San Francisco, CA Yousef Bozorgnia, Professor in Residence, University of California, Berkeley, Berkeley, CA</i> | |
| Experimental Test and Numerical Study of the Seismic Behavior of a Strongback Braced Frame System | p. 227 |
| <i>Barbara G. Simpson, Graduate Student Researcher, University of California, Berkeley, Berkeley, CA Stephen A. Mahin, Professor, University of California, Berkeley, Berkeley, CA</i> | |
| Five Ds of Moisture Management: Deflection, Drainage, Drying, Distance, and Durable Materials | p. 241 |
