TABLE OF CONTENTS

PART 1 – BOOK A

CHAPTER ONE: BIOSTATISTICS AND APPLICATION IN MEDICAL RESEARCH

Optimization of Decolorization of Extracts of Eriobotrya japonica by Response Surface Methodology 1
Guang-jie An, Bo Li

A Study of Method of National Happiness Sensation Time 5
Yongmao Dong, Jun Zhang

Optimization of the Extraction of Polyphenols from Apple Residue Under Ultra-high Pressure 9
Guangyuan Zhao, Bo Li

The Application of Bayesian Test with Independent Samples of Difference Distribution in the Medical Examination 14
Longsheng Huang, Yanhui Wei, Riquan Zhang

Estimate the Gene Effect and Type by Orthogonal Regression Approach 20
Xue-Bin Li, Xiao-Ling Yu

Chinese Medicine Therapy in Clinical Research Using Marginal Model 25
Yang Li, Danhui Yi

The Quantitative Study on the Division of Population Function Area in Liaoning Province 31
Zhan-Feng Li, Xu-Guang Song

Empirical Research on the Contribution of Standard to Labor Productivity 37
Chun Hua Xin, Xing Chen Zhang, Jin Yu Zhao

Modeling of Competence Based on AHP: Toward Better Selection of Soccer Coach 41
Jie Xing, Chaobo Zhu

Research on Gene Effect and Interaction by Multiple Regression Method 50
Xiao-Ling Yu, Xue-Bin Li

Cluster and Discriminant Analysis in the Myocardial Infarction Electrocardiogram 55
Guangchen Liu, Mei Song

Analysis of Factors Affecting the Yield of Enzymatic Synthesis of Ursolic Acid Glycoside Esters by Orthogonal Experiment Method 59
Wei Zong, Han-jun Ma, Guang-jie An

Researching on the Extract Technology of Flavoanoids in the Leaves of Acer Truncatum Bunge 62
Hong Wang, Li Wang, Xichao Deng

Assessment on Human Health Damage of Pollution Incident: Methods and Practice 67
Yu Hou, Tianzhu Zhang, Pengkai Zheng

The Comparative Study of Quality Check After Census Project Between China and the U.S. 72
Qingguang He, Guihua Hu

The Enterprise Human Resource Evaluation Model Based On Improved Niche Theory 77
Hai-tao Li

Cluster Analysis on Health Service Level of Different Areas in Our Country 82
Fanglin Li, Zhenhua Zhang

Empirical Analysis on Human Capital Contributing to the Economic Growth of Hebei Province 87
Xiaojing Li, Ting Luo

A New Model of Customer Complaint 92
Yong Li, Guangwei Wang

Analysis and Calculation on Population Carrying Capacity in Dalian 97
Na Liu, Xu-Guang Song

Empirical Research on How Crises of Emergencies Impact National Economy 101
Ying Ma

Research on Factors of Migrant Workers Flow in Shandong Province 107
Weiguang Qin

The Comprehensive Evaluation of Chinese Human All-Round Development model and Empirical Study Based on Standard Deviation and TOPSIS 112
Gang Li , Guo-tai Chi, Yan-qiu Cheng

Comparative Analysis on Constitutional Reform in Central Public Finance and State-owned Enterprises – Explanations from Theory to Practice 119
Sen Li, Hongxia Sun

Estimation of Causal Effect on Treatment on Longitudinal Binary Outcomes in Randomized Clinical Trials with Non-compliance 124
Xiaotong Li

Regression Analysis of the Impact of Factors for Children with Autism 131
Quanhui Liu, Ruina Tang, Hongjie Li, Chunlei Han

Research on Evaluation of Colliery's Safety Production Based on Fuzzy Mathematics Theory 136
Jun Xu

Productivity Change in Chinese Industry 140
Xiangdong Xu

Market Share Analysis and Promotion Decision-making Optimization Based on Markov Chain 145
Guang-qi Wang, Xiaohong Xu, Jian-ping Wei
Researching on Regional Differences of Human Development Level of Shandong Province 151
Yanfang Zhang, Wenhua Jiang
Study on the Comparative of Independent Innovation between Eastern and Central of China's Large and Medium-sized Manufacturing Enterprises 156
Wei Zou

CHAPTER TWO: DATA COLLECTION AND DATA MINING

The Reliability Measurement of Simple Systems and Copulas 161
Wen-de Yi, Gui-wu Wei
A Study of Applying Data Mining Approach for CRM 168
Zhangliang Chen
The Improved Quality-oriented X-bar and R Control Chart 173
Yu Zhang, Musheng Yang
Intrusion Detection System Based on Rough Set and DT-MARS 177
Xiang Cheng, Bing-Xiang Liu
Estimation of Confidence Lower Limits of Reliability for the Storage-Usage Model Based on the Exponential Distribution 181
Jing Cai, Zhi Wu
A Review of Spatial Statistics 185
Pingsheng Dai, Jianbao Chen
The Application of the Variance Analysis in the Performance Evaluation Indicators Selection 194
Ningning Jia, Chunying Zhang
Application of the Reversible Jump MCMC Method to Array Signal Processing 198
Meina Jin, Yongjun Zhao, Jiangwei Ge
A New Multi-response Robust Design Method Based on RSM and TOPSIS 203
Shanting Ding, Lei Bao, Yuning Zhong
Construction of the System of Evaluation Indicators for the Quality of Data 208
Xuesheng Pang, Min Li
The Studies and Discussions on Data Mining Based on Web 213
Hengliang Wu
The Research on the Value of Information Based on Information Entropy 218
Xiang Xie, Xue-yun Zang, Zhong-liang Guan
The Source of Error in Multi-stage Sampling & Determining the Sample Size 227
Houping Liu, Liying Wang
On the Application of Data Mining In Coal Enterprise's Material Management 232
Yueqiang Li, Hui Wang
Reliability Assessment from Performance Degradation Data Based on Time Series Model 236
Qi You, Xiao-bing Ma, Yu Zhao
Study on the Method of Data Preprocessing for QAR Data 241
Hong Wang, Xiu Xia Huan
Systematical Analyzing of Factors Influencing on the Quality of Statistical Data in China 245
Sheng Zhu, Xiaoping Zhou
Research on New Mode of Online Surveys Based on "Human to Human Interface" Interaction Model 251
Ji-ying Wu, Liang-min Wang, Xi-cang Zhao

CHAPTER THREE: ECONOMETRICS

One-way Effect Causal Theory and Its Application 256
Yanwu Chen, Feng Yao, Chengye Wu
Research on the Relationship Between China's Underground Economy and Inflation: An Empirical Study Based on the MSVAR Model 261
Liangqiu Xie, Hao Sun
The Cointegration Analysis Between the Coal Production and GDP in Shaanxi Province 267
Jiajun Li, Hui Gu, Shuang Wu
Methods Appraisal of Index Decomposition and Case Study from China Energy: 1990~2006 271
Jinhe Jiang, Bo Xu
Analysis of Correlation Between Investment in Fixed Assets and the Per Capita GDP in Shandong Province 277
Yi Liu, Xiangzhen Xu
Bayesian Inference for Multiple Change Points in Time Series — Demonstration Based on Chinese GDP Series 283
Wei-guo Wang, Xia Wang, Min Yan
An Application for Ecological Footprints of Chinese Economy: with Input-Output Technique 289
Dong Qiu, Wei Xi, Xu-Guang Song
New Model of Price Index of Commodity Retail Forecasting System 294
Huizhe Yan, Lihua Ma
A Lucas Model for Describing How Quality of Labor Force Impacts China Economic Growth 300
Yinglian Zhong

Research on National Economy Development Mode under Constrain of Energy Supply 305
Zijun Liu, Rong Zhao
The Empirical Analysis of the Coordination Development Between Industry and Agriculture in Xinjiang — Base On ECM and Granger Causality Test Perspective 311
Zhi-gang Gao, Xiao-wei Zhao
Cobu-Doglas Function Applied to Comparing Economic Growth Mode between Liaoning and Guangdong Province 317
Pengfei Jiang, Xuguang Song
An Empirical Test on the Relationship Between Income Inequality and Environmental Quality 322
Guo-zhu Li, Ai-hao Xu
Research on Macroscopic Effect of Reformation of Value-Added Tax 327
Yuping Li
Empirical Analysis on Economy Growth and Environment Quality Impact based on Panel Data and VAR Model 334
Minna Ma, Fei Lian
Study on Difference of the Composite Indices 339
Chunyuan Mao, Yue Zhang
Evaluation of Forest Ecological and Economic System in Heilongjiang Based on the Emergy Analysis 345
Jiehua Lv, Wei Mao, Yunfang An
Construction and Feasibility Study of the Two-level Government Statistical Survey System 350
Zhonghui Wang, Zhiqiang Li
Research on Statistical Monitoring Index System for Regional Circular Economy 355
Huafeng Yang, Jing Wang
The Convergence Research of Guangdong Economic Growth 362
Hong Lin, Zhiyi Zeng
The Capital Productivity Growth Rate and Intensive Economic Growth 366
Jingtai Wu, Zhiping Fan
Empirical Study on the Relationship of CPI and Exchange Rate at Home and Abroad 370
Shuai Zhang
A Comprehensive Evaluation Indicator System of Economic & Social Development and Application of Quantitative Evaluation Methods — A Case of Sichuan Province 374
Zhihua Jiang, BinFei Bai
A Regressive Prediction Model to Measuring VAT Collection Amount in China 382
Jing Huang

CHAPTER FOUR: MATHEMATICAL STATISTICS

Discussion on Establishing Time Series Integrated Forecasting Model Supported with Eviews Software 386
Tingshan Song
Structure Equation Model and Its Application in New Products Development 391
Rong-xi Li, Lin Yang, Li Chen
The Relation Between Conjoint Analysis and Analysis of Variance 397
Zifang Du, Dong Liu
Research on Rectified Definition on Sample Function in Stochastic Process 406
Yong Wei, Jianhua Liu
A Study of the R Software and its Application in Actuarial Simulation 410
Yujie Cui, Ruiqiang Wang
Applying the Principle of Maximum Entropy in Bayesian Prior Distribution Assignment 415
Xinghua Fang, Mingshun Song, Wei Wang
Bayesian Model Selection Using Subjective Training Samples 420
Peng Hua
A Fair Comparison of Randomized Response Model 425
Zixin Liu, Shu Lv
Bootstrap Implementation for Statistical Analysis in Finance with R 430
Jin Lu, Wen-ju Tian, Pu Zhang
Sample Rotation of Poisson Sampling 435
Wen-ying Luan

PART 1 – BOOK B

Order Restricted Duane Model of Reliability Growth 439
Lijuan Shen, Yu Zhao, Dongpao Hong
Bayesian Networks Structure Based on the Maximum Information Entropy and CBR 445
Xinghuo Wan, Yili Tan, Yan Gao, Yan Li
Evaluating the Forecast of ARIMA Models Based on Statistical Methods 450
Sheng Wang
Statistics Factor Analysis Comparison Research and Speculation of the Theories 454
Jia-long Du
The Optimal Estimation of Weibull Parameters 461
Xiaoli Wang

The Finite Time Local Survival Probability of the Compound Poisson Model under the Heavy-tailed with Constant Interest Force 466
Xiuping Zhang, Mingqing Zhao, Jingsheng Liu
A Discussion About Cross-section Error of Panel Data Following ARCH Distribution 471
Yanyan Ren, Xiaoan Hua
An Inducibility of Distribution for Fuzzy Data and Its Applications 476
Dabuxilatu Wang
Bayesian Sample Size Calculations for Comparing Two Binomial Proportions 481
Zhan-Ping Zhao, Rong-Jiang Chen, Nian-sheng Tang
Time Series Regression Forecasting with Measurement Errors 488
Yue Fang
The Monitoring of Exponentional Family Bayesian Dynamic Linear Model and its Application in Forecasting 493
Yuanzhai Fu
Power Study on the Extended Doguwa's Estimator of J Function 499
Xiao-kun Wu, Jian-bao Chen
The Bayes Lower Limit Statistical Analysis of Reliability About Geometric Distribution Model 504
Yi Zhang, Changwei Xiong
Statistical Application of Attraction for Impulsive Stochastic Differential Delay Equations 508
De-zhi Liu, Wei Zhang
Robustness of the Minimum Norm Quadratic Unbiased Estimator of Variance in Linear Model 514
Hongbing Qiu, Ji Luo
The Optimizing Model of Five Empirical Distribution Functions in Mean Once DistanceFunctions in Mean Once Distance 520
Deran Zhang, Wenqing Bao
The Connection Between the Logit Model, Normal Discriminant Analysis Model, and the Multivariate Normal Mixtures 527
Weihu Cheng
Fuzzy Synthetic Evaluation Model Based on Information Proliferation Principle 532
Jiguo Zhang, Gaofeng Liu

CHAPTER FIVE: SOCIAL SCIENCE METHODOLOGY

Discussion on Environmental Changes According with Statistic Analyzing from Local Temperature Data 538
Xiang Zhao, Changhuan Feng
Identification of Main Factors Influencing Rural Resident's Happiness Index in Jilin Province 543
Chunming An, Yinsheng Yang
A Study on Influences of Meteorological Anomaly Indices upon China's Typical Industries 550
Guo Ji, Xianhua Wu, Haibao Yu
Analysis of the Goal of Ejection-decreasing of Sulfur Dioxide in China Based on Dispersed Environmental Kuznets Curve Model 561
Qing Chang, Yongzheng Zhang, Changqing Li
The Application of Promethee Method in Scientific Data Share Organizations' Performance Assessment 567
Xiao-chun Ge
Application of ID3 Algorithm in Customer Classification Based on CRM 574
Xuecheng Zhang, Yunxiao Wang, Feng Dezhen Feng
Statistic and Measurement of Happiness Index of Suzhou Citizen 579
Xiangfen Chen, Lin Feng
Event History Analysis on Chinese Life Course Research 584
Benfeng Du
Study on Dynamic Models of Chinese Social Security System Level Based on Grey System Forecasting 589
Jie Duan, Wei Lin
Management Ownership and Corporate Performance: Empirical Evidence from Private Listed Firms in China 595
Jie Gao, Jinmin Du
An Empirical Study of Factors Influencing Individual Personnel Reward in Team-oriented Environment 600
Hui Hu, Qin Xi, Xiaodeng Mao
The Prediction Analysis of Ecological Environment Conditions in Xinjiang Oases 607
Yongping Liu, Xiaojun Zhi
The Application of Multi-indicator Aggregative Evaluation Based on Aim Tree in Evaluating Harmonious Society of Henan 613
Hui Wang
Research on the Disclosure of Social Responsibility Accounting Information in Chinese Listed Power Companies 618
Shuanglian Hua, Ling Jiang
Application of Fuzzy Set Value Statistical Method in Environment Monitor 624
Guangcan Xiao, Li Wang, Hong Wang
Happiness Index Measuring from an Economic Perspective 629
Wu Jing

CHAPTER SIX: STATISTICS APPLIED IN EDUCATION SCIENCE

Research on the Mathematical Model of University Discipline Level Comprehensive Evaluation 636
Yunrui Guo, Liang Zhao, Panlong Zhang

Value Engineering Model for Describing Inter-relationship between Higher Learning Ability and Education Assessment 644
Jialin Hou, Shuai Ding

Quantitative Sensitive Question Survey in Cluster Sampling and Its Application 648
Mian Wang, Ge Gao

Application of Fuzzy Comprehensive Evaluation in the Undergraduate Education Level Evaluation 653
Ying Chen

SPSS Sorting Method Applied to Studying Effectiveness of Higher Education Resources Distribution in Wuhan City 659
Dan Ma

Robust Liu-Type Estimation and Its Applications in Teaching Satisfaction Assessment 664
Chun-ying Wang

The Application of Structural Equation Model to the Evaluation of Classroom Teaching 668
Shou-fang Zhang

An Investigation on the Equality of Elementary Education in China 673
Jianbao Chen, Xiaomin Du

Gender Difference Impact on Junior Middle School Students' Mathematics Achievement 679
Lin Wang, Chang-huan Feng, Chang-xiong Xiong

Cobb-Douglas Production Function Applied to Describing Structures of Education Output, Resources Allocation and Economy Growth in China 684
Lei Sun

The Study of Employment of Non-market Returns to Private Investment in Higher Education 689
Xihou Hu, Chun-lei Han, Jiu Wang

A Qualitative Analysis and Study of Thesis Keywords in Chinese Core Journals on Natural Dialectics: 2000 – 2007 694
Jianmin Tang

Application of Uniform Design in Teaching Quality Evaluation 701
Gen-xia Zhang, Gui-zhi Wang

A Quantitative Analysis Model to Promote the Innovation Ability of University 705
Yong Qi, Qianmu Li

An Analysis of Judges' Assessment Level in College Young Teachers Lecturing Contest 711
Heyun Zhao, Yunrui Guo

CHAPTER SEVEN: BANKING AND FINANCE

Research on Dynamic Early Warning System for Financial Crisis in Listed Company Based on Default Distance Model 717
Li Zhang, Shao-fang Ding, Bing Tian

On Extended Early Warning System for Government Debt Risk in Jilin Province 722
Yinxing Li, LiXia Liu

The Amendment of CreditMetrics Model with China's Reality 730
Jianwei Li, Meifang Du

Empirical Research of M&A Impact on Chinese and American Commercial Banks' Efficiency Based on DEA Method 735
Weiguo Xiao, Ming Li, Yuebin Liu

Construction and Application of the Dynamic Financial Analysis (DFA) Model 743
hong yan Lv

A Joint Distribution of Extreme Value for a Renewal Risk Model with Interest Force 749
Huibing Hao, Chunping Li

Research on The Use of Statistical Sampling in Audit 753
Xiangzhen Xu, Wei Xu

E-realization of Volume-Cost-Profit Analysis 757
Li Yuan Zhou

Exploring SME Financing Access under Dual Economies Character 764
Yong Hai Zheng

The International Experience of the Pre-warning System of the Fragility of the Bank and New Development 769
Hua Chen

CAPM-D-EGARCH Model and Empirical Study 775
Shu-shan Li

The Construction and Application of Capital Allocation Model by Percentile Layer Based on Copula Method 780
Di-hong Chen, Xiao-liang Lin, Wen-wen Sheng

The Costing Model of Commercial Banks based on Activity-based Costing 786
Su-li Hao, Ri-jia Ding

CVaR-EGARCH-GED Model and It's Application in Chinese Financial Field 792
Wei-dong Li, Shu-shan Li

The Empirical Analysis and Suggestions on the Factors of Promoting Tax Growth of Shandong Province 797
Mingxing Pan, Jinli Pang
Actuarial Analysis about Implicit Debt and Fund Operational Situation of Social Medical Insurance in Guangdong Province 803
Shibin Song, Zhiwei Li, Renxu Zhang
On Credit Loan Model and Extended Accommodation among Banking and Insurance Facilities in Rural Areas 808
Jia-xiu Sun
Delay Bivariate Risk Model of Reinsurance 812
Xi-jin Xu, Ming-qing Zhao
The Expected Discounted Penalty Function of M-dimensional Risk Model with Markov-modulated Premium Rate 817
Wenguang Yu, Xia Zhao
Nonparametric Analysis on the Foreign Exchange Reserves and Inflation Rate 822
Zhengming Qian, Dongliang Pang, Yanping Yu
The Comparison Research of the Chinese and Foreign Commercial Banks' Profit Ability Based on Factor Analytic Method 826
Li Shen, He Hu
An Empirical Study on the Measurement of Monetary Policy Rules and Discretion Shocks in China 834
Jing Yuan
Factors of Influence from Individual Credit System on Actuarial Models of Non-life Insurance 839
Naiyue Zhang
Best Capital of Commercial Banks Measurement Methods 844
Yanliang Zhang, Jinyong Liu
Modeling Data Under Non-additive Measure — A Theoretical Frame and Some Applications 848
Chengli Zheng, Yan Chen
A Study on Nondeterrable Factors Affecting Taxpayers' Willingness to Pay Taxes 855
Xiao-ping Kuang, De-qian Yang
Analyzing the Granger Causality between Consumption of Credit Cards and Economics Development in China 863
Suran Liu
Estimate in Investment using MATLAB Simulation 868
Zihou Yuan
The Sustainable System of Competitiveness for Investment Banks Based on "Trigonometry Supporting Mechanism" 873
Ruibo Liu, Yinjia Zhai, Xiaoshui Yu

PART 2 – BOOK A

CHAPTER EIGHT: REGIONAL ECONOMIES AND DEVELOPMENT MODELING

Application of Spatial Statistics for Regional Economic Inequalities 878
HuaLin Xie
The Statistic Characteristics of Urban and Rural Development In China 882
Lulin Huang, Yuechao Ding
Characteristics of Industrialization Progress in Xinjiang Province: From Angles of Knowledge Intensity and Technical Change 887
Lei Li
The Evaluation of Regional Sustainable Development Based on DEA Model 895
Zhigang Li, Yan Huang
Research on the Index System and Quantitative Measuring and Calculating Method of Regional Gap 900
Kong-lai Zhu, Licheng Wang
A Research on the Karez in Turpan Basin Based on Statistical Analyses and Sustainable Development 908
Zulati Litifu, Wupuer Nurdin, Muhtar Sadir, Kamil Kurmayef
Positive Analysis of 15 Vice Provincial Cities' Circulation Economic Statistics Target System 913
Zong-guo Ma
The Effect of Local Government Spending on Regional Economy -- Evidence from China's 31 Provinces during 1995-2005 918
Sifeng Bi
Analysis and Forecast of Urbanization Process in Hebei Province 922
Langang Feng, Qinjun Du, Chen Chen
Evaluation on Enterprise Scale Development in China Oriented by Regional Coordination 927
Shuhua Hu, Jixin Zhang, Rong Li
An Empirical Study on The Effect of Market Divisions on The Coordinated Economic Development of Northeast China 932
Xiuying Ma, Hanbin Li
A Trend Regression to Economy Indicates Forecasting within Next Two Years in Xinjiang Autonomy Region 938
Jun Shen, Fan Zhang
Principle Components and Factor Analysis Applied on Effective Impact in Inter-Province Coordination – Case Study from Southern Areas, Changjiang River 944
Liping Qin, Jiajun Li

A Comprehensive Data Analyze on Urban Development Sustainability – Survey from Nanning City 949
Guoyan Wei
The DEA-based Evaluation of the Performance of Regional Technology Innovation Eco-system 956
Yafei Luo, Shijun Yang
The Regional Differences of Innovation Ability Analysis on the Large and Medium-sized Industrial Enterprises in Our Country 963
Ying zi Nan
Analytical Model and Calculation of Regional Structure Effects on Human Capital 969
Jun Liu, Ning Ma
Factor Model and its Application on R&D Activities of Industrial Enterprises in Jiangsu and Zhejiang Provinces of China 973
Jie Liu, Mei-ling Zhao, Hai-bo Chen
Gray SPA Model Applied to Predicting GDP in Tibet Autonomous Region 980
Xiaoxi Zhang

CHAPTER NINE: STOCK ANALYSES AND EQUITY ASSESSMENT

Testing for the Long-Range Dependence in Chinese Stock Markets 985
Meng Gen Chen
An Empirical Study of Financial Distress Prediction of Listed Companies Based on Support Vector Machine 991
Guan Hua Zhao, Qian Lin
Multivariate Analysis of Determinants of the Abnormal Returns of A-Shares on the First Listed Day 996
Linhai Zhao, Ridong Hu
EVA Model Research and Application on Listed Company Evaluation in China Stock Market 1001
Shao-fang Ding, Li Zhang, Xiu-Qin Liu
The Nonparametric Additive ACD Model and the Application in the Stock Market of China 1006
Lina Dai
Create Financial Index to Measure the Performance of Listed Companies based on Factor Analysis 1012
Chang-huan Feng, Shi-qiang Feng
Empirical Study on How IPO Offering Policies Impact Price in Stock Market in China 1017
Fangliang Huang, Kui Zhang
The Study on a Mean-VaR Portfolio Optimal Model under Different Riskfree Rates and Constraint of Investment Chance 1022
Qiguang An, Qingchun Meng
Forecasting Stock Market Volatility with Macroeconomic Variables 1029
Zhao-xu Chen, Xiao-wei He, Yu-xin Geng
The Empirical Analysis of Optimal Capital Structure Based on Companies in Shanghai-Shenzhen 300 Index 1034
Jinmin Du, Jian Liao
Investigating Special Characteristics on Shanghai Stock Market Index and Related Forecasting Model 1041
Jun-yan Guo
Study on Dynamic VaR Measurement Base on ARMA(1,1)-APGARCH(1,1) Model and EVT 1046
Changqing Liu, Shushan Li
On the Ruin Probability for a Corporation with Credit Rating Migration 1051
Qingbin Meng, Aimin Zhou, Menghai Wang
An ARCH Model to Share Selecting and Extended Practice Review in China Stock Market 1056
Feng Li
The Distributional Properties of Realized Volatility: Evidence from the Stock Market of China 1062
Su Mimi, Zhang Teng
Mutual Fund Performance: An Empirical Study on Mutual Funds in UK 1068
Xiaofei Zhang
Construction and Test of the Logistic Regression Analysis Model in China listed Companies' Early Financial Warning 1073
Yanli Chen
The Positive Analysis of Listed Company's Corporate Governance and Stock Rights Structure in China 1081
Jing Liu, Lili Chen
The Choice of the GARCH Family in Risk Measure and It's Application in China's Stock Market 1087
Zhen-quan Zhao, Linlin Zhang
Estimating Portfolio of Bonds Credit Risk Value-at-Risk based on Copula Function 1093
Tao Bi, Xiaofei Zhang
An Empirical Analysis of Causality Between Warrants and the Underlying Stocks in China 1098
Qiping Liao
An Efficient Method for Measuring Path Dependence Intensity of Options 1103
Chuanhe Shen, Zhongwen Liu
A New Quantitative Estimation Method with Dependent Portfolio VaR Based on Properties of Copula 1108
Jiayin Tang, Jianpeng Wang
The Estimation of Public Physical Capital Stock in China 1113
Puzhao Wu, Yaohui Wang
Stock Market Forecasting Based on Artificial Neural Network Model 1119
Shaofu Zhou, Yang Xu

Empirical Research On Transfer Behavior of Benefits from Closed-end Funds to Open-end Funds 1124
Yiqing He, Hongliang Liu

CHAPER TEN: GLOBAL TRADING AND FOREIGN DIRECT INVESTMENT

Study on the Optimum Scale and Structure of FDI Based on Environmental Protection 1130
Zhijian Zhang, Jin-sheng Zhu, Ming Li
The Index of Fine Arts Market: A Two-Edged Sword in the Fine Arts Market? 1138
Jian Ma
Research on Statistical Method for Patent Based on Hierarchical Clustering 1142
Luchen Huang, Shuang Cai
A Statistics Analysis of International Anti-dumping 1148
Pei Gao
The Effect Analysis for the Impact of International Direct Investment on Chinese Trade 1153
Tao Huang
A Statistical Analysis of Strategy Choices in WTO Dispute Settlement 1995-2007 1158
Xin Rong Liu, Shi Hui Yang
The Relationship Between the Oil Consumption and Economic Growth: An Application of Panel Cointegration theory 1163
Li Wang
A Vendor Selecting Based on the Method of Fuzzy Clustering Analysis 1171
Lingling Zheng, Shixiang Huang
The Measurement and Analysis of Foreign Technology Dependence 1177
Qian-long Cai, Ya-fei Luo
Application of Markov Chain in Market Shares Prediction – Case Study from Fresh Dairy Products in Nanjing Market 1187
Liuying Yang, Longsheng Cheng
Research of Customer Value Evaluation in Retail Enterprise Based on CRM 1193
Cuifen Zhang, Fang Zhou, Ying Gao
Analysis for Efficiency of Primary Energy in Reducing and Saving for Energy of China 1198
Wei-wei Kong, Li-jun Xia
Regression Analysis of China's Oil Consumption Growth Based on Image Difference 1205
Qin Wan, Chang-huan Feng
Application on Eviews 5.0 to Measure How US Antidumping Cases Impact Listed Sourcing Companies in China 1212
Shoudao Wei, Ping Yu
Analysis on How FDI Impact Productivity in China Manufacturing Sector based on Co-integration Test and ECM 1217
Yongrong Xin, Qi Chen, Junzhe Xiao
General Equilibrium Analysis of Mid-long Term Energy Intensity Changing Trend in China 1222
Aijun Li
Vector Autoregression Model Application on Forecasting China Energy Demand Up To Year 2020 1227
Shujuan Xu
Research on the Index System of Measuring Urban Intellectual Capital 1233
Bingfa Zhang, Yanyan Zhang, Fengrong Chu
The Study on Relationship Between FDI and Economical Development in Shandong Province Which Based on Panel Data Models 1237
Feizhou Wang
Impacts of Crude Oil Price Fluctuation on Net Exports 1243
Lily Wu, Yanyun Gao
Quantitative Estimation and Increment Forecast on Surplus Labor Force from Rural of Jilin Province 1248
Lifang Zhang, Yinsheng Yang, Kunliang Shu
Quantitative Analysis on the Difference of Chinese Region's Energy Efficiency 1253
Rui Zhang
The Establishment of the Evaluation Index System of Coal Enterprises Recycling Economic and Experimental Analysis 1259
Chuangeng Liu, Faming Wang
Sensor Market Statistics Quantitative Analysis and Model 1266
Yuansheng Guo, Wei Lu
The Dynamics of FDI Between Jiangsu & Zhejiang 1270
Zijun Ning
An Empirical Analysis on Destruction Effect of Trading Policy 1276
Shihui Yang, Shoudao Wei

CHAPTER ELEVEN: INDUSTRY STRUCTURE AND INNOVATION

Optimization of Engine Torque Model Based on The Multiple Linear Regressions 1281
Yanying Guo, Zhonghong Sun
Synthetic Analysis of Reliability Tests for Explosive Initiator 1287
Dongpao Hong, Yu Zhao, Yuquan Wen

Shift-Share Analysis Method Applied to Measuring the Competitiveness of Manufacturing Sector in Heilongjiang Province 1292
Yaoji Ju, Genhang Li, Qian Zhang
Statistical Analysis of Earnings Management 1301
Wensheng Sun, Guanghua Jin
A PLS Method based on Schmidt Transformation of Multi-block Independent Variables: An Application 1307
Lan-hui Wang, Hui-wen Wang

PART 2 – BOOK B

Matthew Effect in Monopoly Industry 1313
Qiuping Wei, Bo Zhang
Dimension Developing and Structure Testing of Nonprofit Learning Organizations 1317
Yangcheng Hu
Reliability Analysis of Cracked Structure Based on Evolutionary Neural Network and Monte-Carlo 1323
Chunhe Liu, Dangxiang Yi
Study On Listed Companies' Competitiveness Appraisal Based On The Matching Of Corporate Governance And Management 1328
Wei-zhu Wang
Construction of Statistical Indicator System of Enterprises' Independent Innovative Capability 1335
Feifei Qiu, Zhiqiang Pang
Synthetic Appraisal on Enterprises' Technical Innovation performance based on Cross-efficiency DEA Models 1343
Limei Xie
Analysis for Efficiency of Labor Adaptation of Industry Structure of China 1348
Xiao-Feng Liu, Wei-wei Kong
Gray-Periodic Extensional Combinatorial Model and Its Application in Power Load Forecasting 1354
Chao Ding, Feng Ren, Gang Lu
Data Processing and Estimation of Initiator Life Based on Stepped Stress Accelerated Life Testing 1359
Binyi Ji, Xiaoyu Li, Bo Zheng
Research on Competitiveness Evaluation of the Listed Companies in the Electric-power Industry 1363
Chao Li
Changing of Internal Governance Mode and Performance in Family Firms after Professional Manager Recruitment 1368
Qianbing Li, Donghong Ding, Suning Huang
Research on Structural Competitiveness of the Private-owned Enterprise —Based on the Eastern, Central and Western Panel Data 1378
Xiang-dong Li
The Calculation of Ecological Footprints of Liaoning Province and Quantitative Analysis on Its Influencing Factors 1384
Yan Liang, Xu-Guang Song
Change in Managerial Ownership and Firm Value---Based on Chinese Listed Manufacturing Companies 1388
Hongjuan Ma, Jinmin Du
An Empirical Research on Three-level Model for All Elements Innovation 1393
Changqing Shui, Zhiwei Lin
A Technical and Economic Evaluation Model of Eco-Industrial Parks Project Based on Recycle Economy 1398
Malin Song
An Empirical Study on the Relationship between Enterprise Capital Structure and achievement performance of Public Utility in China 1403
Yingjie Song, Cuicui Lv
Empirical Study on Enterprise Innovative Environment Among Different Organization Size 1408
Rui Sun, Naijing Wang
The Optimal Combination of Pumps in Pipeline Process Design 1414
Lizhi Wang
Construction of China Leisure City Identification System 1419
Rirong Bai
The Evaluation of Enterprises' Independent Innovation Ability Based on Factor Analysis 1425
Feng Dong, Qing- mei Tan
An Evaluation on Corporate Culture Core Competence 1432
Wen-sheng Wu
A LS-SVM Model for Describing and Forecasting Regional Innovation Capability among Thirty-one Provinces in China 1438
Ziku Wu
Comparative Study of the Bandwidth in Nonparametric Density Estimated 1443
Guojing Xiong
Assessment Modeling on Governance Risk from Controlling Shareholder and Related Corporate Performance from Listed Companies 1449
Wei Xu, Mingming Wei
Stakeholder Theory Applied to Measure Visitor's Interest Demand in Tourist Destination – Jiuhua Mountain 1455
Guo-rong Yao, Lin Lu

Optimal Design Approach for Accelerated Life Test of Electronic Equipments 1460
Dangxiang Yi, Chunhe Liu
The Application of VaR in Risk Measure of Inventory Management 1465
Fang Yuan
The Model of Manufacturing System Flexibility for Enterprises Based on EAHP 1470
Shizhuan Han
Research on Reliability Test and Evaluation Method of an Airborne Product 1476
Zhaohui Hu, Yi Wang
Statistical Applied Research on Carrying out Activity-Based Costing in International Express Mail Service 1481
Zhiqin Huang, Xinsheng Wang, Bin Li
Multivariate Quality Control Theory and Its Application in High-Technology Enterprise Quality Management 1486
Chang-jun Wen, Yuan-guan She
A Method of Measuring of Rationalization of Industrial Structure Based on Rough Set 1491
Li-zhu Zhang, Xin-hua Wang, Zhong-hua Guo
Analysis and Forecast of Hebei's Industrial Structure Based on the Compositional Data Model 1498
Wenfang Zhou, Tengyun Dong, Chongfei Shan
Factors Influencing Respondents Drop Out of Internet Surveys 1505
Donghong Zhu
Monitoring, Evaluation & System Management on Process of Eco-Province Construction 1509
Wanyong Jiang, Hongli Liu
A New Model for Highway Freight Traffic Volumes Forecasting Based on Grey Theory and Statistical Learning Theory 1516
Dongdong Chen, Qiyuan Peng
A Research on Tourism Economic Analysis of Maintenance Application Based on Statistics 1520
Min Wei
Empirical Study on Circulation Industrial Clusters and Technological Progress Based on the Human Capital — Evidence from Zhejiang Province 1524
Diping Zhang
Applied Research of Data Mining In Papermaking Industry 1530
Hongjun Guan, Aiwu Zhao
Research of Appraisal Indicator System and Evaluation Methods in Eco-Industrial Parks' Investment Environment 1534
Huayin Yu
A GM(1,N) Quantitative Analytic Model and Factors Analysis to Describing Development Stage of Service Industry 1539
Shibing You, Bi Wu
Study on Fuzzy Multi-attribute Evaluating Core-competence of Enterprises 1552
Zhoufeng Zhang, Honghui Chen

CHAPTER TWELVE: URBANIZATION AND HOUSING PRICE

The Regional Differences of Real Estate Investment Based on the Local Preferences: an Analysis of China with Panel Data 1559
Jin-tao Li, Shu-kui Tan, Hui-qing Sun
Can the Baseline of 1.8 Billion Mu Cultivated Land be Retained in China? -A Macro Approach to Land Reservation from Improved MGM Model 1565
Ke-pei Men, Hong-ting Zhu, Liang-yu Jiang
Cointegration Model Study Between Urban Population Change and the Housing Price in China 1570
Zhi Chen
The Statistics and Study on Housing Consumption Level of Urban Residents in Shandong Province 1574
Wen An
A Granger Cause Test Applied to Studying Relativity between Housing Price Index and Nation's Macro Economy 1580
Lihong Li, Yan Gao, Junna Jiang
Application of Early Warning Index System on Real Estate Industry in Shanghai 1584
Keren Sun, Chunxiang Zhang
Statistics and Analysis of Influencing Factors of Housing Consumptions of Urban Residents' in Jinan 1590
Ruyan Wang
Analyzing Real Estate Price and Macroeconomic Fluctuation in China Based on VAR Model 1595
Zhonghua Huang, Cifang Wu, Xuejun Du
Empirical Study on Interaction Between Real Estate Taxes and Housing Price in China 1600
Xuejun Du, Zhonghua Huang
The Model Analysis for Stochastic Age-Dependent Population with Poisson Jumps 1605
Lasheng Wang, Jie Sun, Bin Huang

CHAPTER THIRTEEN: HOUSEHOLD INCOME AND EXPENDITURE

The Study of Assessment on Green Ecological Residential Area in China 1612
Weimin Cai, Xiaodan Sun

The Analysis of the Average Cash Expenditures of Rural Households Based on the Principal Component Analysis 1618
Chunrong Hu, Changhuan Feng
Bayesian Unit Root Test for Chinese Residents' Consumption Models 1623
Sufang Li, Huiming Zhu
Investigation in Community Inter-movement and Influencing Factors of the Aged Couples in Urban Areas — Based on a Questionnaire Survey of 245 aged persons in Yantai 1628
Ruifang Zhao
A Study of Hedonic Price Indexes for Chinese Notebook PC 1633
Yanyun Gao
The Statistical Analysis and Construction of Indicators System for the Quality of Residents' Life 1639
Jiantao Shi, Linjie Li, Xiaofei Tian
Consumption Structure Analysis on Urban Residents in Shandong Province Based on ELES 1645
Guofeng Li, Xiaoyan An
A Study on Evolution of Rural-urban Income Inequality in China: 1993-2005 1649
Jianguo Du, Faxin Cheng
Canonical Correlation Analysis Applied to Examine Urban–Rural Income Gap and Related Influencing Factors 1655
Linjie Li, Ling Gu, Yana Song
A Theil's Entropy Measure Applied to Calculating Income Disparity in China Urban Residents Since Mid – 1980s 1661
Fei-liang Niu, Qing-hua Huang
Regional Difference Analysis of Scientific and Technological Strength and Statistics Study of "Gini Coefficient" 1666
Binhui Wang, Yawen Hou
The Researches on the Synthetical Development Levels of Basic Old-age Insurance for Enterprise Employees 1672
Lijian Wang, Jia Liu
Attempt of Computing a Rational Gini-Coefficient Using the Ridge Regression Model 1677
Bao-yu Li, Hong-wei Yao
Statistic Analysis About Life Quality of Urban Residents in China 1682
Cuiju Li, Hui Zhang
The Impact of Income Gap Upon the Consumption of the Urban Residents in Shandong Province 1687
Jie Ni, Xiaona Ding
Study on Grey Hierarchy Evaluation of Community Health Service Organization's Performance 1692
Wenshan Zheng
Principle Components and Influential Factors Applied to Measuring Living Standard of Rural Farmers 1699
Xiangdong Wu, Mingchuan Ji, Huachen Sun
Review "Income Inequality – Health" Hypothesis Based on Panel Data 1704
Ai-ying Jiang, Shao-jin Wang
Comparison of the Living Arrangements of the Elderly in China and Korea 1708
Mingxian Lin, Ik-Ki Kim, MinLu Ru
Macro Statistics Research Indicating that Urbanization Expanding Inequality Income Distribution between Urban and Rural Areas 1715
HongTao Wang, LinJie Li
The Statistical Analysis of Income Growth Difference among Farmers 1720
Mingchuan Ji, Ping Yang, Wen Zhao
On the Influence Degree of the Income Distribution on the Saving 1725
Jianming Hou, Keren Sun

CHAPTER FOURTEEN: APPLICATION ON AGRICULTURE AND RURAL DEVELOPMENT

Fitting Chapman-Richards Models with Fixed and Random Coefficients for Dahurian Larch in S-Plus 1729
Yaoxiang Li
Study on the Comprehensive Evaluation on Regional Agricultural Development in China 1734
Hongling Qi, Mingming Zhang, Ning Li
Application of Spatial Statistical Method in Botanical Research 1740
Liu-cang Wu, Hui-qiong Li, Lin Dai
Evaluation of Chinese Agricultural Mechanization and Institutional Transformation based on TOPSIS Algorithm 1748
Shuyu Guo, Yinsheng Yang, Zhaohua Sun
Nonlinear Mixed Models for Tree Height Growth 1754
Lichun Jiang
A Nearest Neighbor - Radial Basis Function Network to Forecasting Grain Production 1759
Qifu Zheng, Guodong Su
Process Optimization of Preparing Stable Chicken Oil-Compound Flavoring Emulsion 1764
Liang Zhao
A Granger Causality Method to Testing Relations between Price of Agri-Share Sector and National Agriculture Economy 1770
Yonghong Hu
Empirical Study on Farmer's Income from Agriculture Production Influenced by Market Performance 1775
Yu Zhao, Chunjie Qi
Agriculture Production Based on Contract and Risk Management under Option Pricing Modelling 1780
Dongsheng Li, Yang Hu

Study on Coordinated Development of Regional Resource-Environment-Economy System - A Case Study of Anhui Province 1785
Jian Ke
Statistic Analysis Employed in Classifying Influence Factors on Countryside Construction Booming – Survey from Changchun City, Jilin Province? 1791
Xiaoyan Liu, Yinsheng Yang
Utilizing Eview 3.0 Software to Analyzing Agriculture Investment and Return from Rural Farmers in Zhejiang Province 1799
Chi Ma, You Cao
Non-agricultural Population, Employment and Land: An Econometric Study in an Integrated Framework 1803
Wei-yan Hu, An-lu Zhang
Peasant Laborer's Medical Insurance Pattern Study Based on Investigation 1814
Chuan-jian Wu, Yu-fang Wang
Comprehensive Assessment on Construction of New Socialist Countryside Community Using Factor Analysis 1818
Ruicheng Yang
Study on the Earning Distribution Mechanism of Vertical Integrated Agri-Food Processing Company 1823
Yanbing Cai
The Dynamics Relation Analyses About the Agriculture, Cotton and Economy of the Xinjiang Corps — Base on Vector Autoregression Model 1829
Bin Tan
Study on the Spatial Difference of Economic Development Level Among Counties in Shandong Province 1834
Shu-bo Yu
Application of Matlab Software to Optimize Crushing Temperature for Cloudy Apple Juice 1840
Chunpeng Jiang, Bo Li
Author Index
