2017 IEEE International Conference on Prognostics and Health Management (ICPHM)

Battery Prognostics

Prognostics of remaining useful life for lithium-ion batteries based on a feature vector selection and relevance vector machine approach

Xiaoli Qin (Beihang University, P.R. China), Qi Zhao (Beihang University, P.R. China), Hongbo Zhao (Beijing University of Aeronautics and Astronautics, P.R. China), Xiumei Guan (Beihang University, P.R. China), Wenquan Feng (Beihang University, P.R. China) 1

Lithium-ion Battery Remaining Useful Life Prediction with Deep Belief Network and Relevance Vector Machine

Guangquan Zhao (Harbin Institute of Technology, P.R. China), Guohui Zhang (Harbin Institute of Technology, P.R. China), Yuefeng Liu (Harbin Institute of Technology, P.R. China), Bin Zhang (University of South Carolina, USA) 7

Prognostics of Lithium Ion Battery Using Functional Principal Component Analysis

Jian Guo (Western New England University, USA), Steven Li (Western New England University, USA) 14

Bearing System PHM

An Improved Fusion Prognostics Method for Remaining Useful Life Prediction of Bearings

Biao Wang (Xi'an Jiaotong University, P.R. China), Yaguo Lei (Xi'an Jiaotong University, P.R. China), Naipeng Li (Xi'an Jiaotong University, P.R. China), Jing Lin (Xi'an Jiaotong University, P.R. China) 18

A Feature Extraction Method Based on Probabilistic Principal Components Analysis and Sampling Importance Resampling for Bearing Fault Detection

Yixiang Huang (Shanghai Jiao Tong University, P.R. China) 25

Machine Learning

Peak Criterion for Choosing Gaussian Kernel Bandwidth in Support Vector Data Description

Deovrat Kakde (SAS Institute Inc., USA), Arin Chaudhuri (SAS Institute, USA), Seunghyun Kong (SAS Institute, USA), Maria Jahja (SAS Institute, USA), Hansi Jiang (SAS Institute, USA), Jorge Silva (SAS Institute, USA) 32

Health-Aware Hierarchical Control for Smart Manufacturing using Reinforcement Learning

Benjamin Choo (University of Virginia, USA), Stephen Adams (University of Virginia, USA), Peter Beling (University of Virginia, USA) 40

Novelty detection of rotating machinery using a non-parametric machine learning approach

Enrique D Angola (Renewable NRG Systems & University of Vermont, USA) 48

Engine Health Management

A Kind of Approach for Aero Engine Gas Path Fault Diagnosis

Qiang Huang (Institute of Automation, Chinese Academy of Sciences, P.R. China), Zhang Guigang (Institute of Automation Chinese Academy of Sciences, P.R. China), Ting Zhang (Chengdu University of Information Technology, P.R. China), Jian Wang (Institute of Automation, Chinese Academy of Sciences, P.R. China) 55

Air Filter Diagnostics & Prognostics in Naturally Aspired Engines

Fakhreddine Landolsi (Ford Motor Company, USA), Hassene Jammoussi (Ford Motor Company, USA), Imad Makki (Ford Motor Company, USA) 61

Enhancement of Prognostic Models for Short-Term Degradation of Gas Turbines

Houman Hanachi (Queens University, Canada), Christopher Mechefske (Queen's University, Canada), Jie Liu (Carleton University, Canada), Avisekh Banerjee (LPTI, Canada), Ying Chen (Carleton University, Canada) 66

Preventative/Predicative Maintenance

Real-time Predictive Maintenance for Wind Turbines Using Big Data Frameworks

Mikel Canizo (IK4-Ikerlan Technology Research Centre, Spain), Angel Conde (IK4-Ikerlan Technology Research Centre, Spain), Enrique Onieva (University of Deusto & Deusto Institute of Technology - DeustoTech, Spain), Santiago Charramendieta (IK4-Ikerlan Technology Research Centre, Spain), Salvador Trujillo (IK4-Ikerlan Technology Research Centre, Spain) 70

Advanced Correlation-Based Anomaly Detection Method for Predictive Maintenance

Pushe Zhao (Hitachi, Ltd., Japan), Masaru Kurihara (Hitachi, Ltd., Japan), Junichi Tanaka (Hitachi, Ltd., Japan), Tojiro Noda (Hitachi Power Solutions Co., Ltd., Japan), Shigeyoshi Chikuma (Hitachi Power Solutions Co., Ltd., Japan), Tadashi Suzuki (Hitachi Power Solutions Co., Ltd., Japan) 78

An Effective Age-Based Preventive Replacement Model

Ferenc Szidarovszky (Ridgetop Group, Inc., USA), Doug Goodman (Ridgetop Group, Inc., USA), Craig Wentzel (Ridgetop Group, Inc., USA) 84

RUL Prognostics

Long Short-Term Memory Network for Remaining Useful Life Estimation

Shuai Zheng (University of Texas at Arlington, USA), Kosta Ristovski (Big Data Laboratory, Hitachi America Ltd., USA), Ahmed Farahat (Big Data Laboratory, Hitachi America Ltd., USA), Chetan Gupta (Big Data Laboratory, Hitachi America Ltd., USA) 88

Diagnosis for Systems with Multi-component Wear Interactions

Roy Assaf (University of Salford, United Kingdom (Great Britain)), Phuc Do (Research Centre for Automatic Control, France), Philip Scarf (Salford Business School, University of Salford, United Kingdom (Great Britain)), Samia Nefti (University of Salford, United Kingdom (Great Britain)) 96

<i>Machine Remaining Useful Life Prediction Considering Unit-to-unit Variability</i>	
Naipeng Li (Xi'an Jiaotong University, P.R. China), Yaguo Lei (Xi'an Jiaotong University, P.R. China), Ningbo Li (Xi'an Jiaotong University, P.R. China), Jing Lin (Xi'an Jiaotong University, P.R. China)	103

Pump/Air Compressor Diagnostics/Prognostics

<i>Real-Time Remote Monitoring of an Air Compressor Using MTConnect Standard Protocol</i>	
Nishchal K Verma (Indian Institute of Technology Kanpur, India), Raghav Dev (Indian Institute of Technology Kanpur, India), Narendra Dhar (Indian Institute of Technology Kanpur, India), Dhan Jeet Singh (Indian Institute of Technology Kanpur, India), Al Salour (The Boeing Company, USA)	109
<i>Control Adaptation Approach For Fault Detection and Isolation in SIDI High Pressure Fuel Pump</i>	
Azeem Sarwar (General Motors, USA), Chaitanya Sankavaram (General Motors, USA), Xiangxing Lu (General Motors, USA)	117
<i>Real-time monitoring of Machines using Open Platform Communication</i>	
Nishchal K Verma (Indian Institute of Technology Kanpur, India), Teena Sharma (Indian Institute of Technology Kanpur, India), Seetaram Maurya (Indian Institute of Technology Kanpur, India), Dhan Jeet Singh (Indian Institute of Technology Kanpur, India), Al Salour (The Boeing Company, USA)	124

Reasoning and Algorit

<i>The Research on Characteristics of DC Arc Fault Based on HHT</i>	
Yaojia Zhang 、 (Nanjing University of Aeronautics and Astronautics, P.R. China), Li Wang (Nanjing University of Aeronautics and Astronautics, P.R. China), Minghao Ju (Nanjing University of Aeronautics and Astronautics, P.R. China), Jianhua Qin (Nanjing University OF Aeronautics and Astronautics, P.R. China), Ling Mao (Nanjing University of Aeronautics and Astronautics, P.R. China)	130
<i>Uncertainty Quantification in Prognostics: A Data Driven Polynomial Chaos Approach</i>	
Pham Luu Trung Duong (Singapore University of Technology and Design (SUTD), Singapore), Nagarajan Raghavan (Singapore University of Technology and Design (SUTD), Singapore)	135
<i>Damage Detection Using Time-frequency Decay-rate based Features</i>	
Portia Banerjee (Michigan State University, USA), Debejyo Chakraborty (GENERAL MOTORS COMPANY, USA), Teresa Rinker (GENERAL MOTORS COMPANY, USA)	143

Aircraft Health Managment

<i>Fault feature analysis of civil aircraft control surface damage</i>	
Haixia Su (Institute of Automation Chinese Academy of Sciences, P.R. China)	148

<i>Civil Aircraft Health Management Research based on Big Data and Deep Learning Technologies</i>	
Sujie Li (Institute of Automation, Chinese Academy of Sciences, P.R. China), Guigang Zhang (Institute of Automation, Chinese Academy of Sciences, P.R. China)	154
<i>Research on Optimal Sensor Placement for Aircraft Structural Health Management</i>	
Fangyi Wan (Northwestern Polytechnical University, P.R. China), Xingliang Yu (Northwestern Polytechnical University, P.R. China)	160

Health Management Architecture

<i>Research on CBM information system architecture based on multi-dimensional operation and maintenance data</i>	
Long Wang (National University of Defense Technology, P.R. China), Yanling Qian (National University of Defense Technology, P.R. China), Yue Li (National University of Defense Technology, P.R. China), Yanbin Liu (National University of Defense Technology, P.R. China)	167
<i>Advanced packaging for Wireless Sensor Nodes in Cyber-Physical Systems - Impacts of multi-functionality and miniaturization on the environment</i>	
Stephan Benecke (Fraunhofer Institute for Reliability and Microintegration - FhG IZM, Germany), Eduard Wagner (Technical University of Berlin (TU Berlin), Germany)	173
<i>Model-Driven Multi-View Conceptual Architecture Design in a PHM System Environment</i>	
Haifeng Zhu (UTRC, USA), Daniel Hestand (UTRC, USA)	179

Maintainability and Maintenance

<i>A method for the maintainability assessment at design stage based on maintainability attributes</i>	
Xu Luo (National University of Defense Technology, P.R. China)	187
<i>Particle Filtering based Estimation of Remaining Useful Life of Lithium-ion Batteries Employing Power Fading Data</i>	
Arijit Guha (IIT Kharagpur, India), Amit Patra (Indian Institute of Technology, Kharagpur, India)	193
<i>Research of K-MEANS Analysis Model on High-Speed Railway CIR Device Maintenance</i>	
Fan Jiaming (Beijing Jiaotong University, P.R. China)	199

Electronics/Electricity Load Prognostics

<i>An Optimal Multi-Degree Open-Circuit Faults Diagnostic Algorithm for Photovoltaic System</i>	
Jianhua Qin (Nanjing University OF Aeronautics and Astronautics, P.R. China), Li Wang (Nanjing University of Aeronautics and Astronautics, P.R. China), Shanshui Yang (Nanjing University of Aeronautics and Astronautics, P.R. China), Ling Mao (Nanjing University of Aeronautics and Astronautics, P.R. China)	205

<i>Towards a New Health Prognostics Method for Inverters: Power SiC-GTO Failures and its Precursors</i>	
Lifang Liu (Microsystem and Terahertz Research Center, China Academy of Engineering Physics, P.R. China), An Xiang (Microsystem and Terahertz Research Center, China Academy of Engineering Physics, P.R. China), Shun Li (Microsystem and Terahertz Research Center, China Academy of Engineering Physics, P.R. China), Yijia Du (Microsystem and Terahertz Research Center, China Academy of Engineering Physics, P.R. China), Dai Gang (Microsystem and Terahertz Research Center, China Academy of Engineering Physics, P.R. China)	209
<i>Short-term Electricity Load Forecasting with Time Series Analysis</i>	
Hung Nguyen (Eastern Washington University, USA), Christian Hansen (Eastern Washington University & IEEE Reliability Society, USA)	214

Degradation and Performance Evaluation

<i>Running State Detection and Performance Evaluation Method for Feed Mechanism of Numerical Control Machine</i>	
Xun Zhang (Xi'an Jiaotong University, P.R. China), Qing Zhang (Xi'an Jiaotong University, P.R. China), Luyao Tan (Xi'an Jiaotong University, P.R. China), Guanghua Xu (Xi'an Jiaotong University, P.R. China)	222
<i>A Metaheuristic Approach for Remaining Useful Life Estimation of Systems Subject to Multiple Degradation Mechanisms</i>	
Pham Luu Trung Duong (Singapore University of Technology and Design (SUTD), Singapore), Nagarajan Raghavan (Singapore University of Technology and Design (SUTD), Singapore)	227
<i>Performance Analysis of a Twin Shaft Industrial Gas Turbine at Fouling Conditions</i>	
Samuel Cruz-Manzo (University of Lincoln, United Kingdom (Great Britain)), Sepehr Maleki (University of Lincoln, United Kingdom (Great Britain)), Vili Panov (Siemens Industrial Turbomachinery, United Kingdom (Great Britain)), Yu Zhang (University of Lincoln, United Kingdom (Great Britain)), Anthony Latimer (Siemens Industrial Turbomachinery, United Kingdom (Great Britain))	234

Rotating Machinery

<i>Visualization method for spectrum analysis of vibration acceleration signals</i>	
Shijie Chu (Xi'an Jiaotong University, P.R. China), Qing Zhang (Xi'an Jiaotong University, P.R. China), Bin Xu (Xi'an Jiaotong University, P.R. China), Fei Liu (Xi'an Jiaotong University, P.R. China), Lin Liang (Xi'an Jiaotong University, P.R. China)	239
<i>A Comparative Study of Helicopter Planetary Bearing Diagnosis with Vibration and Acoustic Emission Data</i>	
Fang Duan (London South Bank University, United Kingdom (Great Britain))	246
<i>Using Independent Component Analysis Scheme for Helicopter Main Gearbox Bearing Defect Identification</i>	
Fang Duan (London South Bank University, United Kingdom (Great Britain))	252

General Topics

Research on Electric Vehicle (EV) Driving Range Prediction method based on PSO-LSSVM
Zhuo Wang (Beihang University, P.R. China), Xiaohong Wang (Beihang University, P.R. China),
Lizhi Wang (Beihang University, P.R. China), Xiaofen Hu (Beihang University, P.R. China),
Wenhui Fan (Beihang University, P.R. China) 260

*Fault Sound Simulations from Normal Sounds for Data-Driven Prognosis Based on Human
Expert and Vibration Knowledge*
Takuya Nishino (Knowledge Information Processing Laboratories & Fujitsu Laboratories
Limited, Japan), Shun Takeuchi (Fujitsu Laboratories LTD, Japan), Takahiro Saitou (Fujitsu
Laboratories LTD, Japan), Isamu Watanabe (Fujitsu Laboratories LTD, Japan) 266

2017 IEEE International Conference on Prognostics and Health Management (ICPHM)
took place June 19-21, 2017
in Dallas, TX, USA.
