

Pipelines 2017

Planning and Design

Proceedings of Sessions of the Pipelines 2017 Conference

Phoenix, Arizona, USA
6 – 9 August 2017

Editors:

Anna Pridmore
Jim Geisbush

ISBN: 978-1-5108-4732-3

Contents

Alternate Project Delivery

Corridor Analysis of a Raw Water Transmission Pipeline1
 Amanda Powers and Wesley Stolz

Case Studies

A General Self-Cleansing Model for Drainage System Design14
 Mir Jafar Sadegh Safari, Mirali Mohammadi, Golezar Gilanizadehdizaj,
 and Hojjat Seyyedi

**Case History: Large Diameter High Volume Water Resource
 Development and Conservation Project at USBR’s Minidoka North,
 South Central Idaho, Located A&B Irrigation District Incorporating
 “Sustainable Design Principles”25**
 Dan Temple, Daniel Murdock, Bruce Sandoval, and Ron Bishop

**Education: A Critical Component for Future Leaders for Industry
 Advancement.....35**
 Seyed Saleh Behbahani and Tom Iseley

**Lateral Loading Experiments for Pipe–Soil Interactions in
 Liquefied Sandy Soil.....44**
 Kohei Ono, Yu Yokota, Yoko Ohta, Yutaka Sawada, Hoe I. Ling,
 and Toshinori Kawabata

**Preparing for the Worst, Expecting the Best: Removing the Guessing from
 Pipeline Contingency Planning and Response Strategies54**
 Christopher Garrett

**Recycled Water Infrastructure Provides Critical Water Supply in
 Midst of Drought.....64**
 Adam Nelkie, Steve Kirkpatrick, Michael H. Matson, and Christy Nelson

**Reliability of Documentation: How Can We Reliably Design or Construct
 When Our Information Is Being Hijacked?.....76**
 B. Bosse

Planning

A Lab Scale Study to Investigate the Monochloramine Demand and Decay in the Tarrant Regional Water District’s Large Diameter Pipelines in the Presence of Biofilm84
 Srinivas Prabakar, Andrew Kruzic, and Shelly Hattan

Large Axial Deformation Performance of Steel Pipeline Designed for Fault Crossings.....96
 B. P. Wham, C. Pariya-Ekkasut, C. Argyrou, M. Stack, T. D. O’Rourke, H. E. Stewart, H. Nakazono, and N. Hasegawa

Model for Optimal Operation of Water Distribution Pumps with Uncertain Demand Patterns107
 Puneet Khataavkar and Larry W. Mays

Professional Development

Design of Symmetric Wye Branches118
 Jack Call and Chris Sundberg

Life Cycle Cost Analysis of an Underground Freight Transportation (UFT) System in Texas.....134
 Saeed Janbaz, Mohsen Shahandashti, and Mohammad Najafi

Rehabilitation

A Trenchless Approach to Lift Station Elimination.....144
 Scott Maughn, Daniel Huffines, and Lindy Higginbotham

Design Guideline for Fiberglass Pipelines Installed Using Horizontal Directional Drilling.....157
 Sri Rajah

Design of Mid-Path Intercept HDD Crossing of the Santa Maria River.....168
 Jon Hanlon, Andrew E. Romer, Jesus Lopez, Josh Nord, Eileen Shields, and Michael Nunley

Environmental Impacts of Pipeline Construction for Underground Freight Transportation181
 Amir Tabesh, Mohammad Najafi, Taha Ashoori, Razieh Tavakoli, and Seyed Mohsen Shahandashti

Investment Valuation of an Underground Freight Transportation (UFT) System in Texas.....192
 S. Ehsan Zahed, S. Mohsen Shahandashti, and Mohammad Najafi

Kings River Pipeline202
T. J. Loper and J. J. Kriss

**Methods for Accommodating the Classical Problem of Differential
Movement in Buried Pipeline Systems**211
Roger Beielser

Simplified Design Guidelines for Sizing Air Release Valves222
Andrew E. Romer

Research and Design

**Direct Pipe Construction: An Engineering Perspective on Quality
Assurance**.....227
J. L. Robison and N. A. Arens

Six Improvements in AWWA C900-16 That You Need to Know about239
Bob Walker

Risk and Resilience

**Planning and Design of Sewerage Infrastructure for a Congested Area in
Delhi: A Case Study Towards Pollution Abatement in River Yamuna**.....249
Deepika, Raman Kumar, and Foster McMasters

Deflection of Large Diameter Butterfly Valves in Fat Clays.....261
Marc T. Miller, Brad B. Watson, and A. Scott Maughn

**Quantitative Study on How Model Simplification Affects Pipeline
Network Surge Results**275
David Cheng and Roberto Portillo

Seismic

**Seismic Fragility Evaluation of Water Pipelines Part 2: Framework for
Practical Applications**286
Sri Rajah

**Synergistic Corrosion Protection of Ductile Iron Pipe Utilizing Metallic
Zinc Coating in Combination with Enhanced Polyethylene Encasement**.....295
A. M. Horton and David A. Hughes Jr.

Sewer/Stormwater Inspection

Relocating Large Diameter PCCP in a Congested Right-of-Way to Make Way for an Interstate Widening.....315
 R. E. Deremiah and J. S. Koenig

Water to Wine: Providing Los Carneros Vineyards with a New Irrigation Source.....325
 A. Prudhel, T. Clinton, and J. Stewart

Survey Control and Mapping

Earthquakes, Fires, and Landslides, Oh My! Pipeline Replacements in a Hazard-Prone, California Neighborhood334
 K. Moita

Surveying and Geomatics As-Builts and Visualization

Design-Build Delivery of Off-Site Conveyance Facilities345
 Frederick Tack, Ryan Danielson, and Phil Slagel

Steel Pipe Installation in Poor Soil Conditions: A Determination of Optimum Trench Width353
 Robert J. Card and Brent Keil

Surveying Geomatics and Utility Risk Management Poster

A Case Study on Design, Testing, and Installation of One of World’s Largest Subaqueous Pressure Pipelines366
 Henry H. Bardakjian and Mehdi S. Zarghamee

Trenchless

Augmenting “Tunnel” Vision for Blue Horizon378
 Steve Bian and Willam Elledge

Can Transmission Pipelines and Interstate Highways Coexist? Formulating the Flagstaff Red Gap Pipeline Route within the I-40 Corridor389
 Douglas Smith and Bradley Hill

Case Study: Challenges to Install Vertically Curved HDPE Casing Pipes for 36-Inch Large Diameter Water Mains Crossing Highway400
 Jonghoon Kim, Robert Lyons, Jinsung Cho, and Dan D. Koo

Challenges of Planning a 40-Mile Regional Water Transmission Pipeline within a Rural Setting Brazosport Water Authority.....	410
Jennifer Harrison, Kim Chanslor, Ronald Woodruff, Larry Nutt, and Wyatt Ringgold	
Design and Construction of Camanche Water Transmission Pipeline Project.....	420
George Chiu	
Exploring the Six Dimensions of Lifeline Infrastructure Resiliency	431
Ahmad Habibian and Ehsan Minaie	
Fast Track Replacement of Existing 72-Inch and 90-Inch Pipeline Sections during 60-Day Shutdown Window.....	442
Michael S. McCure and Steven Metzler	
Finite Element Modeling of a New PVC Pipe Buried with Native Soils.....	457
Marjan Shahrokh Esfahani, Mohammad Najafi, Ameya Paradkar, and Nader Mavaddat	
Fundamentals of Differential Settlement of Pipelines.....	469
Chris Sundberg	
Geotechnical Engineering Aspects of Deep Microtunneled Pipeline Crossings of Honolulu Harbor in Very Soft Sediments	482
James Kwong, Kealohi Sandefur, and Jon Nishimura	
Identifying Geotechnical Risk and Assigning Ownership on Water and Wastewater Pipeline Projects Using Alternative Project Delivery Methods	494
Tober Francom and Chris Markham	
JEA Scores Twice-2 Major HDDs Launched from Jaguars Stadium Parking Lot.....	504
Christine Ellenberger, Elizabeth DiMeo, Michelle Macauley, Tiffany Shaw, and Ted Foltz	
Mechanical Response of Steel Pipe Welded Lap Joints in Seismic Areas.....	515
Spyros A. Karamanos, Evangelia Koritsa, Brent D. Keil, Robert J. Card, and Patricia Pappa	
Optimized Terminal Design for UFT Systems in Integrated Subterranean Pipeline Infrastructure	528
Fatemeh Rezaeifar, Mohammad Najafi, Siamak A. Ardekani, and Sirwan Shahooei	

Pipeline Design Coordination and Procurement of Large Valves at a Reservoir540
 J. D. Shirk and S. Hattan

Utility Engineering Asset Management

Developing a Successful Specification for Horizontal Directional Drilling.....553
 Aaron Cohen and Samuel T. Ariaratnam

Fall Creek CCS Phase I Multiple CSO Capture in an Urban Setting564
 Maceo R. Lewis IV, Nick J. Maynard, and Jeff A. Glover

Utility Engineering Large Projects

Ductile Iron Pipe Restrained Joint Development down through the Years.....573
 Christopher Dillard and Maury D. Gaston

Update to the Improved Approach for the Design of Thrust Blocks in Buried Pipelines586
 Steve Shumaker, Gina Cashon, Allen Cox, Randall Conner, and Sri Rajah

Water Distribution System Pipe Replacement Given Random Defects-Case Study of San Francisco’s Auxiliary Water Supply System.....597
 D. York, C. Scawthorn, D. Myerson, E. Ling, and K. Smith

Utility Engineering Operation and Maintenance

Air Valve Selection for Competing Pipeline Project Needs609
 Thomas J. Charles, Shilpa Shivakumar, and Gina Cashon
