

Pipelines 2017

Construction and Rehabilitation

Proceedings of Sessions of the Pipelines 2017 Conference

Phoenix, Arizona, USA
6 – 9 August 2017

Editors:

Anna Pridmore
Jim Geisbush

ISBN: 978-1-5108-4734-7

Contents

Bedding

**Failing to Flawless in a Day: Pre-Chlorinated Pipe Bursting Invigorates
Arlington Water Utilities Main Replacement Program.....1**
J. Allen, E. Ambler, and T. Grafenauer

Case Studies

**ASCE Innovation Award Winner: Sandwich Construction Carbon FRP
Pipe.....10**
Mo Ehsani

**Lessons Learned in the Design and Use of Stainless Steel as an Alternate
to Carbon Steel Bolts and Tie Rods26**
Neal Kelemen and Brent Keil

Large Diameter

**An Analysis of Soil Hauling Operations for Tunneling and Pipeline
Installation.....38**
S. Jalalediny Korky, M. Najafi, M. Malek Mohammadi, T. Ashoori, and A. Tabesh

**Comparison of Carbon Footprint of Trenchless and Open-Cut
Methods for Underground Freight Transportation45**
Razieh Tavakoli, Mohammad Najafi, Amir Tabesh, and Taha Ashoori

Leak Detection and Monitoring

**Development and Use of Robotic Equipment for Large Diameter Pipe
Recoating56**
Jess Chism

**Use of Cut-and-Cover Method for Pipeline Installation in Underground
Freight Transportation64**
Taha Ashoori, Mohammad Najafi, Amir Tabesh,
Seyed Mohammad Sadegh Jalalediny Korky,
and Mohammadreza Malek Mohammadi

Lining

Big Pipe in the Big Easy75
James R. Ballintine

CIPP Applications for Pressure Pipeline in High-Profile Area.....87
Ian Lancaster

Design-Build of 48-Inch Water Main Interconnect in Downtown Miami.....93
Agustin Maristany, Mariana Evora, Lin Li, and Victor Fernandez-Cuervo

Kutz Siphon Failure: How to Shut Down Memorial Day Weekend105
W. C. Duke

Lessons from the Global Survey of Sewer Cleaning and Maintenance116
Jey K. Jeyapalan

Managing a Major Scope Change and Unforeseen Conditions during the Performance of a Hot Tap and Plugging Operation on a 90-Inch Concrete Cylinder Pipe to Enable Highway Improvements without Service Interruption129
Charles Herckis

Grand Junction’s Slip-Lining Success138
Lee Cooper and Marvin Lee

The Norris Cut Utility Relocation Project—Updating Aging Infrastructure for System Resiliency with Design-Build Methods145
Terrence Carroll, William Whidden, Eloy Ramos, and Victor Fernandez-Cuervo

What Lies Beneath? Perfecting Grouting Techniques to Prevent Premature Failure of a Large Diameter PCCP Feedermain156
Anthony Parente, Sandra Rolfe-Dickinson, Troy Leyburne, Neil Harvey, and Matthew Marcuccio

Materials

Alternative Delivery Facilitates Design and Construction of a Challenging Sewer Force Main168
Frederick Tack, Daniel Spitzza, and Chad Talbot

City of Houston 30-Inch Water Transmission Main Replaced by Compressed Fit HDPE Pipe Lining178
Arthur Morris, Todd Grafenauer, and Alan Ambler

In-Service Weld Repair Methods for Gas Transmission Pipelines under Public Roads.....186
 T. Tanaka, T. Y. Yano, M. Katsuki, T. Mayumi, Y. Otani, and N. Oguchi

Making Way for the Ho Chi Minh City Subway While Avoiding Suspension of Financial District Activities by Use of Triple Plugging and Bypasses198
 Charles Herckis

Metallic Pipelines

Case Studies in Trench Shoring and Landslide Repair in Difficult Terrain210
 Corey Mislinski

OMID Sewer Rehabilitation: Innovative Slip Lining of a Large Diameter Sewer without Interrupting Service.....225
 N. Bassett, F. Klingler, S. Lockhart, E. Bantios, J. Edberg, and A. G. Mekkaoui

NASSCO PACP

10 Miles of Interceptor CIPP Rehabilitation on the Rillito238
 Mark Poppe, Dan Foley, and Noel Ortiz

DC WATER at Work: Less Cutting to Mitigate Geo-Structural Risks249
 Steve Bian

Use of CFRP as an External Repair for Structurally Deficient Pipes259
 A. Wagner and D. Caughlin

Oil and Gas

Design/Build for Trenchless Rehabilitation—Find and Fix: Lessons for Success268
 Jonathan E. Kunay and Nicholas J. Rystrom

Rehabilitation of 48-Inch and 42-Inch Steel Cylinder Concrete Pipe (SCCP) via Slipline: Las Vegas, NV.....281
 R. Pearson

PCCP

A Contractor’s Perspective on Constructability for Trenchless Project Design.....289
 Arvid Veidmark III

Alternative Delivery Methods in the Water and Wastewater Industry: Challenges and Opportunities297
 Mounir El Asmar and Samuel T. Ariaratnam

Construction Phase—Large Diameter Pipeline Seismic Retrofit Mitigates Landslide Hazard.....308
 Darren Baune

Combined Interceptor Rehabilitation: Large-Diameter Sewer Presents Large Obstacles and Great Opportunity for North Charleston Sewer District320
 James C. Reigart and Jarred R. Jones

Rehabilitation of Non-Round Sewers Utilizing Profile Shaped Fiberglass Pipe.....332
 Ryan Toles, Jeffrey LeBlanc, and Don Colich

State Transportation Agencies Acquiring Trenchless Technologies for Their In-House Operations: A Case Study of ODOT Acquiring HAB Machine341
 Simon Adamtey, Lameck Onsarigo, and Alan Atalah

Penstocks

Performance Modeling of Wastewater Collection Networks Using Multi-Proactive Renewal Analysis352
 Hadi Ganjidoost, Amin Ganjidoost, Mark Knight, and Andre Unger

Pipe Material

Shooting at a Moving Target: Forensic Analysis of CFRP Strengthened PCCP Confirms the Evolution of Joint Detailing and Design363
 Michael Gipsov, Scott F. Arnold, and Rasko Ojdrovic

Technical Viability of Renovating Segments of Existing Large Diameter Pressure Pipelines with Cured in Place (CIPP) and Other Thermoset Resin Lining Systems.....373
 Ricardo Vieira and Fred Tingberg Jr.

Planning

Development of a Trenchless Renewal Strategy for Process and Fire Main Failures at an Industrial Facility385
 M. A. Knight and R. J. Cooper

**Increasing Pipeline Pressure Rating Using CFRP Liners:
A Case Study on an NTMWD Pipeline.....398**
Murat Engindeniz, Kyle Sanderson, Anthony Samarripas, and Aliza Caraballo

**Looking for Simplified Design Models for Non-Circular Liner Design:
Moving Beyond WRc Type II Sewer Design Methodologies for the
North American Market409**
Adam Braun and Chris Macey

**Rehabilitating a 155-Year-Old Arch Shaped Brick Sewer under the Ross
Bay Cemetery with Glass Reinforced Polymers421**
Chris Macey, Adam Braun, Eric Leydon, Mike Brady, and Carla Coghlan

Sahuarita Slipliner Project432
Kevin L. Miller

Planning and Design Poster

**16th Avenue Sanitary Trunk Sewer Rehabilitation Pilot Study:
Sprayed Geopolymer Lining.....445**
Paul Headland, James Steele, Mike Nuhfer, Birju Shah, and Vinor Servera

Advanced Applications for HDPE Pipe with New PE-RT457
H. W. Long

**Asbestos Cement Drinking Water Replacement at the City of Yuma, AZ:
A Case Study465**
Samuel T. Ariaratnam, Noel Guercio, Jonghoon Kim, and Xanthi Panos

Design-Build of a 72-Inch Force Main Rehabilitation475
Olena Lytvyn, Victor E. Fernandez-Cuervo, and Robert J. Card

Manufacturing of Emergency Repair Pipe for 210” Irrigation Siphon484
Vic DeGrande and Joel Olmos

**MDWASD Tunnels Miami: Large Diameter Gravity Sewer Microtunnel
within Downtown Brickell District.....494**
Jeremy Jardell, Joanne Roederer, Andrew Bursey, Victor Fernandez-Cuervo,
and Daniel Mancini

**Underground Challenges on the Wilburton Sewer Project: Complex
Design Elements Are Put to the Test during Construction.....508**
James Chae and Brandon Cole

WSSC Breaks Its Record in CFRP Lining of PCCP in One Outage522
Murat Engindeniz, Rasko P. Ojdrovic, and Michael P. Gipsov
