## TABLE OF CONTENTS

CRUDE/VACUUM DISTILLATION & COKING Q&A SESSION .....	5
Introduction to Session .....	5
Introduction of Panelists .....	5
Safety .....	7
Question 42: What are your typical H <sub>2</sub> S (hydrogen sulfide) detection and monitoring methods used on heavy oil fractions being transported via truck, rail, or barge? What are the mitigation options you employ?.....	7
Question 42: Answer Book Responses .....	8
Question 43: Have you experienced high corrosion rates in carbon steel piping in resid service operating below 500°F? Please comment on corrosion mechanisms.....	11
Question 43: Answer Book Responses .....	14
Crude Distillation.....	14
Question 44: What issues do you consider to establish a purchased crude oil custody transfer Best Practices from various sources? .....	14
Question 45: What criteria and requirements that you use to determine mixing equipment for crude tankage? How do you map the sludge level? What methods do you use for sludge removal to shorten time to clean the tank? .....	21
Question 46: What measurement methods (i.e., analytical, inferential, and/or online analyzers) do you use in crude and coker units for feed, process, and product quality management? How do you use the information to improve unit reliability and profitability? .....	24
Question 46: Answer Book Response.....	26
Question 47: Given the increased volatility of crude and product prices, what additional steps do you take to adjust your crude unit cutpoints to maximize profitability? .....	27
Question 47: Answer Book Response.....	30
Crude Coker .....	31
Question 48: What are important considerations for evaluating the methods used for fouling detection and mitigation in preheat exchangers and furnaces in crude and coker units? .....	31
Question 48: Answer Book Responses .....	37
Question 49: What criteria for materials of construction do you use for structured packing at the different sections of the crude, vacuum, and coker towers? What criteria do you use to replace packing during turnaround?.....	38
Question 49: Answer Book Responses .....	49
Question 50: In the absence of individual dipleg sample points, how do you manage corrosion in the vacuum overhead system? .....	50
Question 50: Answer Book Responses .....	52

Question 51: What key parameters of coker furnace tube design and metallurgy do you experience that can impact run-length? What metallurgy do you use specifically to increase run-length and tube life? .....	52
Question 51: Answer Book Response.....	57
Question 52: What are your Best Practices for a waterwash system to control corrosion in delayed coking fractionator overhead and light-ends systems?.....	58
Question 52: Answer Book Responses .....	62
Question 53: What operational improvements do you make to reduce silicone from antifoam agents in coker products?.....	62
Question 53: Answer Book Response.....	67
Question 54: When using coker LPG (liquefied petroleum gas) for propylene production, what contaminants are a concern for you and how do you mitigate them?.....	67
Question 54: Answer Book Responses .....	71
<i>ANSWER BOOK ONLY</i> .....	72
Question 55: What are your effective ways of measuring vacuum overflash flow in a gravity seal loop (not pumped)? Please comment on overflash measurement for controlling wash oil flow. ....	72
<i>ANSWER BOOK ONLY</i> .....	72
Question 56: What mechanical/design alterations to the "standard" crude furnace design do you require to prevent fouling when processing LTOs (light tight oils)?.....	72
<i>ANSWER BOOK ONLY</i> .....	73
Question 57: Please discuss desalter level control equipment and its effectiveness at detecting and controlling rag layer, oil undercarry and water carryover. ....	73
<i>ANSWER BOOK ONLY</i> .....	74
Question 58: What techniques do you use to rapidly detect fouling in the top section of the crude tower besides top section differential pressure? .....	74
<i>ANSWER BOOK ONLY</i> .....	74
Question 59: What is the contribution to salting in crude fractionators and overhead systems due to steam condensate amines, and what are your mitigation strategies? .....	74
