# 2017 International Conference on Robotics and Automation Sciences

(ICRAS 2017)

## Table of Contents

|               |     |
|---------------|-----|
| Preface ..... | vii |
|---------------|-----|

---

### Robot System Design and Control

|                                                                                                         |    |
|---------------------------------------------------------------------------------------------------------|----|
| Reinforcement Learning with Adaptive Networks .....                                                     | 1  |
| <i>Tomoki Sasaki, Satoshi Yamada</i>                                                                    |    |
| Improvement of Pipe Holding Mechanism for Pipe Inspection Robot Using Flexible Pneumatic Cylinder ..... | 6  |
| <i>Kengo Nakagawa, Shujiro Dohta, Tetsuya Akagi, Wataru Kobayashi</i>                                   |    |
| Robust Quadratic Stabilization Tracking Control for Mobile Robot with Nonholonomic Constraint.....      | 11 |
| <i>Jinzhu Peng, Xuhong Ma, Feibiao Meng, Yan Liu</i>                                                    |    |
| Design of Auto Detection System for High-Voltage Insulator Inspection Robot.....                        | 16 |
| <i>Y. Z. Jing, H. J. Liao, C. H. Zhang, T. Peng, Z. Z. Liao, F. Liu</i>                                 |    |
| A Methodology for Evaluating Energy-Efficiency of Different Robot Structures .....                      | 20 |
| <i>Bhanoday Vemula, Giacomo Spampinato</i>                                                              |    |
| Hierarchical Detecting Points Path Planning Algorithm for Climbing Robot in Spatial Trusses .....       | 25 |
| <i>Erchong Liao, Changan Liu, Limei Jiang</i>                                                           |    |
| The Design of Robotic Wheelchair Control System Based on Hand Gesture Control for the Disabled ...      | 30 |
| <i>Xiang Gao, Lei Shi, Qiang Wang</i>                                                                   |    |
| Research on Stereo Vision Matching Algorithm for Rescue Robot .....                                     | 35 |
| <i>Shangmeng He, Ziyuan Tong, Guobin Ma, Mingyun Fan, Ling Lingzhou, Shoufeng Tang</i>                  |    |
| Delta Robot Forward Kinematics Method with One Root .....                                               | 39 |
| <i>Igor Gritsenko, Askar Seidakhmet, Azizbek Abduraimov, Pavel Gritsenko, Abay Bekbaganbetov</i>        |    |
| A Robust Pointer Meter Reading Recognition Method for Substation Inspection Robot.....                  | 43 |
| <i>Jia-Wei Gao, Hai-Tian Xie, Lin Zuo, Chang-Hua Zhang</i>                                              |    |

|                                                                          |    |
|--------------------------------------------------------------------------|----|
| Failure Recovery Method Based on Log for Autonomous Robotic System ..... | 48 |
| <i>Erchong Liao, Limei Jiang, Xuqiang Shao</i>                           |    |

|                                                                                                 |    |
|-------------------------------------------------------------------------------------------------|----|
| Hybrid Optimal Control of Robot Motor Based on Improved Genetic Algorithm and Fuzzy Logic ..... | 53 |
| <i>Chunchao Chen, Jun Luo</i>                                                                   |    |

## Industrial Automation and Control Engineering

|                                                                    |    |
|--------------------------------------------------------------------|----|
| Fuzzy Adaptive Attitude Controller Design for Launch Vehicle ..... | 58 |
| <i>Wang Pei, Lv Mei Bo, Ge Zhi Lei, Xu Shan</i>                    |    |

|                                                                                                                       |    |
|-----------------------------------------------------------------------------------------------------------------------|----|
| Distributed Coordinated Tracking Control for Multiple Nonholonomic Systems with Directed Communication Topology ..... | 64 |
| <i>Qin Wang, Zuwen Chen, Yang Yi</i>                                                                                  |    |

|                                                                                                             |    |
|-------------------------------------------------------------------------------------------------------------|----|
| Improvement of Dynamic Characteristics of Low-cost Servo Valve Using Buckled Tubes and RC Servo Motor ..... | 71 |
| <i>Tetsuya Akagi, Shujiro Dohta, Wataru Kobayashi, Shota Harada, Keiichiro Koga</i>                         |    |

|                                                                                         |    |
|-----------------------------------------------------------------------------------------|----|
| Fault-Tolerant Control of an Electrohydraulic Brake Using Virtual Pressure Sensor ..... | 76 |
| <i>Lok Man Ho, Clemens Satzger, Ricardo de Castro</i>                                   |    |

|                                                                                                   |    |
|---------------------------------------------------------------------------------------------------|----|
| Global Stabilization for Second-Order Nonlinear Systems via Sampled-Data Bounded Controller ..... | 83 |
| <i>Pan Wang, Lin Chai, Shumin Fei</i>                                                             |    |

|                                                                                  |    |
|----------------------------------------------------------------------------------|----|
| Research on Control Method of AUV Terminal Sliding Mode Variable Structure ..... | 88 |
| <i>Zhang Yangyang, Gao Li'e, Liu Weidong, Li Le</i>                              |    |

|                                                            |    |
|------------------------------------------------------------|----|
| Study on Fuzzy-DMC Control System of T-S Fuzzy Model ..... | 94 |
| <i>Shu-bin Wang</i>                                        |    |

|                                                                                                                   |    |
|-------------------------------------------------------------------------------------------------------------------|----|
| The Build of High Speed Gas Flow Calibration System Based on Dual Buffer Tanks and Parallel Standard Meters ..... | 98 |
| <i>Yuezhong Li, Meigao Lv, Hualing Wu, Lingyuan Zeng</i>                                                          |    |

|                                                                                |     |
|--------------------------------------------------------------------------------|-----|
| Optimal Reactive Power Dispatch Control Considering Uncertain Wind Power ..... | 103 |
| <i>Yuanzheng Li, Ping Wang, Hoay Beng Gooi, Yun Liu, Jian Ye</i>               |     |

|                                                                                                                               |     |
|-------------------------------------------------------------------------------------------------------------------------------|-----|
| Segmented Optimal Design of Ballistic Trajectory of Gliding Extended Range Projectile Subjected to Multiple Constraints ..... | 108 |
| <i>Zhilei Ge, Yanni Wang, Yan Huang, Suyun Liu</i>                                                                            |     |

|                                                                                                                            |     |
|----------------------------------------------------------------------------------------------------------------------------|-----|
| Mecanum Wheels with Astar Algorithm and Fuzzy PID Algorithm Based on Genetic Algorithm.....                                | 114 |
| <i>Rongyan Wen, Minming Tong</i>                                                                                           |     |
| Lyapunov-like Energy Function for a Detailed Structure Preserving Power System .....                                       | 119 |
| <i>Yong Wan</i>                                                                                                            |     |
| Configuration Optimization and Kinematic Analysis of a Wearable Exoskeleton Arm .....                                      | 124 |
| <i>Yongfei Xiao, Yunhai Zhu, Xuelin Wang, Yongguo Zhao, Qichuan Ding</i>                                                   |     |
| Corrosion Detection in Industrial Pipes Using Guided Acoustics and Radial Basis Function Neural Network.....               | 129 |
| <i>M. Fahad, K. Kamal, T. Zafar, R. Qayyum, S. Tariq, K. Khan</i>                                                          |     |
| Soft-Sensing Modeling Based on GK-LSSVM Method for Online Predictions of BOD in Activated Sludge Process.....              | 134 |
| <i>Fei Luo, Xinghong Qiao, Weihao Liao</i>                                                                                 |     |
| <b>Communication and Information Engineering</b>                                                                           |     |
| Sampling Based One-Source Link Prediction in Directed Network.....                                                         | 139 |
| <i>Liu Qinghe, Chen Ling</i>                                                                                               |     |
| Bio-inspired Place Recognition with Dynamic Growing Self-organizing Neural Network.....                                    | 144 |
| <i>MengYuan Chen, Tong Xu</i>                                                                                              |     |
| Robust Transceiver Design for Up-Link Multi-User Multiple-Input Multiple-Output System with Amplify-and-Forward Relay..... | 149 |
| <i>Xiao-min Chen, Zhu Fang, Xu-jun Hu, Qiu-ming Zhu, Bin Chen</i>                                                          |     |
| Real-time Risk Assessment for Construction Workers' Trunk Posture Using Mobile Sensor.....                                 | 153 |
| <i>Mingyuan Zhang, Zhengzong Bai, Xuefeng Zhao</i>                                                                         |     |
| Research and Design of Remote Data Acquisition System Based on CC3200 .....                                                | 158 |
| <i>Zhao Jinxiang, Sun Chuanwei</i>                                                                                         |     |
| <b>Signal Analysis and Processing</b>                                                                                      |     |
| A Class of Blind Source Extraction Method Using Second-Order Statistics .....                                              | 162 |
| <i>Wang Rongjie, Zhou Haifeng, Zhan Yiju</i>                                                                               |     |
| Fetal ECG Extraction Using Time-Frequency Analysis Techniques.....                                                         | 167 |
| <i>B. T. Krishna</i>                                                                                                       |     |

## Computer Theory and Applications

|                                                                                                                |     |
|----------------------------------------------------------------------------------------------------------------|-----|
| Feature Selection and Comparison for the Emotion Recognition According to Music Listening.....                 | 172 |
| <i>Sung-Woo Byun, Seok-Pil Lee, Hyuk Soo Han</i>                                                               |     |
| Coaching: Human-Assisted Approach for Reinforcement Learning.....                                              | 177 |
| <i>Nakarin Suppakun, Thavida Maneewarn</i>                                                                     |     |
| Impact of Defect Velocity at Class Level .....                                                                 | 182 |
| <i>Ebubeogu Amarachukwu Felix, Sai Peck Lee</i>                                                                |     |
| A Novel Genetic Algorithm Based on Circles for Larger-Scale Traveling Salesman Problem .....                   | 189 |
| <i>Xingfu Wang, Pengcheng Li, Lin Wang, Lei Wang</i>                                                           |     |
| A Gesture Recognition System Using a Flexible Epidermal Tactile Sensor Based on Artificial Neural Network..... | 195 |
| <i>Bo-Ra Shin, Heui-Su Son, Seok-Pil Lee, Hyuk Soo Han</i>                                                     |     |
| Harmony Search Algorithm's Parameter Tuning for Traveling Salesman Problem .....                               | 199 |
| <i>Tanapat Tongchan, Choosak Pornsing, Tongtang Tonglim</i>                                                    |     |
| An Integrated Model for Home Health Care and Patients Cluster Based Care.....                                  | 204 |
| <i>Jamal Abdul Nasir, Chuangyin Dang</i>                                                                       |     |
