# TABLE OF CONTENTS

|                                                                                                                                                         |            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>ENERGY DETECTION VERSUS MAXIMUM EIGENVALUE BASED DETECTION: A COMPARATIVE STUDY .....</b>                                                            | <b>1</b>   |
| <i>Asmaa Maali ; Hayat Semlali ; Najib Boumaaz ; Abdallah Soulmani</i>                                                                                  |            |
| <b>WAVELET TRANSFORM BASED FACIAL FEATURE POINTS DETECTION.....</b>                                                                                     | <b>5</b>   |
| <i>Choubeila Maaoui ; Faiza Abdat ; Alain Pruski</i>                                                                                                    |            |
| <b>COMPARATIVE STUDY OF BLIND EQUALIZERS BASED ON OPTIMAL BOUNDING ELLIPSOID ALGORITHMS UNDER AWGN AND FADING CHANNELS .....</b>                        | <b>11</b>  |
| <i>A. Moussa ; M. Pouliquen ; M. Frikel ; S. Bedoui ; K. Abderrahim ; M. M'Saad</i>                                                                     |            |
| <b>CONICAL AND CYLINDRICAL DRAS WITH RECONFIGURABLE BAND REJECTION FOR UWB APPLICATIONS.....</b>                                                        | <b>17</b>  |
| <i>Chafika Aissaoui ; Idris Messaoudene ; Abdelmadjid Benghalia</i>                                                                                     |            |
| <b>A NOVEL ANT COLONIES APPROACH TO MEDICAL IMAGE SEGMENTATION .....</b>                                                                                | <b>22</b>  |
| <i>Anissa Selmani ; Hassene Seddik ; Ezzedine Ben Braiek</i>                                                                                            |            |
| <b>DIRECT AND INDIRECT FIELD ORIENTED CONTROL OF DFIG-GENERATORS FOR WIND TURBINES VARIABLE-SPEED.....</b>                                              | <b>27</b>  |
| <i>Yasmine Ihedrane ; Chakib El Bekkali ; Badre Bossoufi</i>                                                                                            |            |
| <b>SENSORLESS CONTROL WITH AN ADAPTIVE SLIDING MODE OBSERVER FOR WIND PMSG SYSTEMS .....</b>                                                            | <b>33</b>  |
| <i>Marwa Ayadi ; Omar Naifar ; Nabil Derbel</i>                                                                                                         |            |
| <b>NEW MPPT CONTROL FOR WIND CONVERSION SYSTEM BASED PMSG AND A COMPARAISON TO CONVENTIONALS APPROACHS .....</b>                                        | <b>38</b>  |
| <i>Hassan Abouobaida ; El Beid Said</i>                                                                                                                 |            |
| <b>DEVELOPMENT OF A USEFUL WIND TURBINE EMULATOR BASED ON PERMANENT MAGNET DC MOTOR .....</b>                                                           | <b>44</b>  |
| <i>Loubna Benaouinate ; Mohamed Khafallah ; Abdelouahed Mesbahi ; André Martinez</i>                                                                    |            |
| <b>COMPARATIVE STUDY BETWEEN PI AND THE SLIDING MODE CONTROL FOR THE DFIG OF A WIND TURBINE .....</b>                                                   | <b>49</b>  |
| <i>Basma Boujoudi ; Elm'Kaddem Kheddioui ; Nadia Machkour</i>                                                                                           |            |
| <b>INTELLIGENT CONTROL OF WIND PUMP BASED ON PMSG USING PITCH CONTROL.....</b>                                                                          | <b>59</b>  |
| <i>Aroua Slimen ; Hatem Tlijani ; Mehdi Dhaoui ; Rached B. Younes</i>                                                                                   |            |
| <b>UNKNOWN INPUT OBSERVER DESIGN FOR FRACTIONAL-ORDER ONE-SIDED LIPSCHITZ SYSTEMS .....</b>                                                             | <b>65</b>  |
| <i>A. Jmal ; O. Naifar ; N. Derbel</i>                                                                                                                  |            |
| <b>OBSERVER-BASED FAULT TOLERANT CONTROL FOR VEHICLE LATERAL DYNAMICS.....</b>                                                                          | <b>70</b>  |
| <i>Naoufal Elyoussfi ; Mohammed Oudghiri ; Rachid El Bachtiri</i>                                                                                       |            |
| <b>GENERALIZED PREDICTIVE CONTROLLER PERFORMANCES IN AN ANTICIPATIVE CONTEXT .....</b>                                                                  | <b>87</b>  |
| <i>Asma Achhib ; Tudor-Bogdan Airimitoie ; Sergey Abrashov ; Patrick Lanusse</i>                                                                        |            |
| <b>ENHANCING THE PERFORMANCE OF SPEAKER VERIFICATIONS-BASED DVB-T SYSTEMS .....</b>                                                                     | <b>105</b> |
| <i>Omar Daoud ; Qadri Hamarsheh ; Ahlam Damati</i>                                                                                                      |            |
| <b>IMPROVEMENT PHOTOVOLTAIC SYSTEM PROVIDED BUCK CONVERTER ASSURING OPTIMUM FUNCTIONING INDEPENDENTLY .....</b>                                         | <b>116</b> |
| <i>Mostafa El Ouariachi ; Khalil Kassmi ; Tarik Mrabti ; Kamal Kassmi</i>                                                                               |            |
| <b>SLIDING BIFURCATIONS IN RESONANT INVERTERS.....</b>                                                                                                  | <b>122</b> |
| <i>Enrique Ponce ; Luis Benadero ; Abdelali El Aroudi ; Luis Martínez-Salamero</i>                                                                      |            |
| <b>GEOMETRIC OPTIMIZATION OF THE HEAT SINK FOR COOLING HIGH POWER IGBTs MODULES USED IN THE ARM SOLAR CONVERTER .....</b>                               | <b>128</b> |
| <i>Fadwa Haraka ; Ahmad Elouatouati ; Mourad Taha Janan</i>                                                                                             |            |
| <b>NUMERICAL SIMULATION OF ELECTROMAGNETIC FIELD AND EXPERIMENTAL VALIDATION OF RESONANT INDUCTIVE WIRELESS POWER TRANSFER SYSTEM TO FEED LOAD.....</b> | <b>132</b> |
| <i>Y. Ben Fadhel ; S. Ktata ; S. Rahmani ; K. Al-Haddad</i>                                                                                             |            |
| <b>PARTICLE SWARM-BASED OPTIMIZATION OF AN IN WHEEL PERMANENT MAGNET MOTOR .....</b>                                                                    | <b>138</b> |
| <i>Zaaraoui Lassaad ; Mansouri Ali ; Trabelsi Hafedh</i>                                                                                                |            |
