# Table of Contents

Titles are linked to presentations: some authors provided abstracts, also linked

## 1 - Plenary I

Session Chairs: Ning Yan, *University of Toronto*; Chuck Frihart, *USDA Forest Products Laboratory*

**1.1** Current and Future Adhesive Needs of Wood Based Furniture Industry...1  
Johan Bruck, *IKEA of Sweden*

**1.2** Urea-Glyoxal and Melamine Glyoxal Adhesives for Wood Panels and Other Applications by Total Elimination of Formaldehyde...11  
Tony Pizzi, *University of Lorraine*

**1.3** Innovation in Wood Through Advanced Adhesives...22  
Chris Whelan, *Henkel*

**1.4** Academic research: Under the influence...34  
Charles E. Frazier, *Wood-Based Composites Center, Virginia Tech University*

**1.5** Discovery to Validation: Closing the Gap from Lab to Commercial Reality...41  
Michael J. Birkeland, *Solenis*

## 2A - Bio-Based Adhesives-Renewable Feedstock

Session Chair: Hendrikus (Erik) W. G. van Herwijnen, *WoodKplus, Vienna*

**2A.1** Managing Panelboard Volatile Organic Compound Emission Profiles Through Renewables Use...51  
Warren Grigsby, *Scion*

**2A.2** Hemicellulose as a Green Binder for Wood Adhesives...62  
Emelie Norström, *KTH Royal Institute of Technology*

**2A.3** Self-curing Epoxy Resin as a Biobased Adhesive for Wood Products...75  
Yusuf Celikbag, *Auburn University*

**2A.4** Improving Accessibility to Develop a Starch Based Hyperbranched Epoxy Wood Adhesive...85  
Pei-Yu Kuo, *University of Toronto*

**2A.5** Application of Western Red Cedar Bark in pMDI Wood Adhesive...93  
Heyu Chen, *University of Toronto*

## **2B - Analytical Methods and Techniques**

Session Chair: Johannes Konnerth, *University of Natural Resources and Life Sciences*

### **2B.1** Curing Kinetics of Soy Protein Substitution in Phenol Formaldehyde Adhesive in a Superheated Steam Environment...106

William Hand, *Auburn University*

### **2B.2** In-Situ Chemical Structure Analysis of Cured Bond-Line of Aqueous Vinyl Polymer-Isocyanate Adhesive Using FT-NIR Technique...119

Akio Takemura, *University of Tokyo*

### **2B.3** Evaluation of Torque Method for Qualification of Shear Resistance of Adhesive Bonds in CLT Layups...122

Lech Muszynski, *Oregon State University*

### **2B.4** Tack Measurements for Resole Formulations...139

Charles E. Frazier, *Virginia Tech*

### **2B.5** Correlation of Adhesive Performance between Automated Bond Evaluation System Tests and Plywood Tests – A Case Study of Lignin-PF Adhesives...148

Zeen Huang, *FPInnovations*

## **3A - Bio-Based Adhesives-Renewable Feedstock** (Continued)

Session Chair: Yaqui Zhao, *Ashland*

### **3A.1** Some Perspectives of Designing 100% Bio-Based Adhesives: New Approaches to Adhesives for Engineered Wood Product Manufacture...158

Warren Grigsby, *Scion*

### **3A.2** Cottonseed Meal-Based Wood Adhesives for Non-Structural Interior Applications...172

Zhongqi He, *USDA-ARS*

### **3A.3** From Native Wheat Protein Towards Modified Peptides and Their Adhesive Potential...179

Almut Wiltner, *Institut fuer Holztechnologie Dresden gGmbH*

### **3A.4** 2GAR – Second Generation Amino Resins...181

Nádia T. Paiva, *EuroResinas -Industrias Químicas SA*

### **3B: Analytical Methods and Techniques** (Continued)

Session Chair: Darren Rielinger, *Arclin*

#### **3B.1** Air Fingers and Cavitation – Analysis of Bonding Failures...185

Dirk Lukowsky, *Fraunhofer WKI*

#### **3B.2** Rheology of Industrial and Electrical Modified Structural Wood Adhesives After Production and Storage...189

Christoph Winkler, *Eberswalde University for Sustainable Development*

#### **3B.3** Integrity Evaluation of Mechanical Weak Boundary Layer in Order to Understand Wood-Adhesive Bond Formation and Performance...193

Christopher Hunt, *USDA Forest Service, Forest Products Laboratory*

#### **3B.4** Rheology of Adhesive Systems; From Product Development to End User Process Simulation...197

Trine Viljugrein, *Dynea AS*

#### **3B.5** Biogenic Formaldehyde: It's in the Wood...200

Charles E. Frazier, *Virginia Tech*

### **4 - Poster Session and Student Poster Competition**

– See end of Table of Contents

Session Chair: Linda Caudill, *Wood-Based Composites Center*

### **5 - Plenary Session II**

Session Chair: Venla Hemmilä, *IKEA of Sweden*

#### **5.1** Perspectives on the Future of Engineered Wood Markets...210

David Fell, *FPInnovations*

#### **5.2** Analysis of Adhesive Bonds Under Tension Using Coupled 3D X-Ray Computer Tomography and Numerical Modeling...222

John A. Nairn, *Oregon State University*

#### **5.3** Practical Considerations to Optimize Mill Formaldehyde Certification Systems for CARB/TSCA VI Compliance...235

Peter De Jong, *Hexion*

### **6A - Bio-based Adhesives**

Session Chair: Akio Takemura, *University of Tokyo*

#### **6A.1** Highly Bio-Based Raw Material for Production of Wood Adhesives...242

Stig Bardage, *RISE Research Institutes of Sweden AB*

**6A.2** Advancements in Sustainable Binder Technology for Composite Wood Panel Applications...246  
Niels Smeets, *EcoSynthetix*,

**6A.3** Syntheses of Low Formaldehyde- Emitting Diethylene Tricarbamide- Formaldehyde (DF) and Copolymer Resins Made with Urea and Melamine as Minor Components and Their Wood Composite Binder Performances...255  
Moon Kim, *Mississippi State University, Department of Sustainable Bioproducts*

**6A.4** Comparable Technological Evaluation of Formaldehyde-Free Adhesives for the Particle Board Production...267  
Hendrikus W. G. van Herwijnen, *Kompetenzzentrum Holz GmbH (Wood K plus)*

**6A.5** Coaxing Soy Adhesives into Living Up to Their Potential...280  
Christopher Hunt, *USDA Forest Service, Forest Products Laboratory*

## **6B - Structure-Property Relationships**

Session Chair: Bo Kasal, *Fraunhofer Wilhelm-Klauditz-Institute*

**6B.1** Silane-Modified-Polyether (SMP) Hybrid Polymers...289  
Daniel Mania, *Wacker Chemical Corporation*

**6B.2** Insights of Low F/U Mole Ratio UF Resins as Wood Adhesives...293  
Byung-Dae Park, *Kyungpook National University*

**6B.3** Role of Moisture in the Penetration of Isocyanate Resin...305  
David Harper, *University of Tennessee*

**6B.4** Inter-Relationship Between Viscosity, Molecular Weight and Adhesion of Urea-Formaldehyde Resin for Bonding Wood...314  
Bora Jeong, *Department of Wood and Paper Sciences, Kyungpook National University*

**6B.5** Use of Ultra-High-Molecular-Weight Polyvinyl Alcohol for Vinyl Acetate Type Emulsion...328  
Gabe Ghebremeskel, *Kuraray America, Inc.*

## **7A - Bio-based Adhesives (Continued)**

Session Chair: Jessica Jennings, Specialist, *Georgia-Pacific Chemicals*

**7A.1** Which Lignin is Suitable to Entirely Replace Phenol in Phenolic Adhesive Formulation?...333  
Mojgan Nejad, *Michigan State University*

**7A.2** The Effect of Starch Amylose and Amylopectin Content on Adhesion Performance of Formaldehyde-Free Starch-Based Epoxy Adhesives...334  
Nicole Tratnik, *University of Toronto*

**7A.3** Soy Protein Substitution in Phenol Formaldehyde Adhesive used in Oriented Strand Board...345  
William Hand, *Auburn University*

## **7B - Structure-Property Relationships (Continued)**

Session Chair: Xiabao Gong, *Ashland LLC*

**7B.1** Influencing Factors On The Cold Tack Of Urea Formaldehyde Used For Birch Plywood...354  
Elfriede Hogger, *Wood K plus, Competence Centre of Wood Composites and Wood Chemistry*

**7B.2** Some Interfacial Interactions Between Isocyanates and Metals Which Impact Release in Composite Wood Panel Production...358  
Christopher Phanopoulos, *Huntsman Polyurethanes*

**7B.3** Study of Differences in Wetting Behavior of Single Wood Fibers and Bundles Towards Isocyanate Based Resins...362  
Daniele Pratelli, *Huntsman Polyurethanes*

**7B.4** Wetting and Penetration Analysis of Resin/Wood Interfaces...368  
Christa Stables, *Virginia Tech*

## **8A - Adhesive-Substrate Interactions**

Session Chair: Joseph Jakes, *USDA Forest Service Forest Products Lab*

**8A.1** Small Angle Neutron Scattering as a New Tool to Study Moisture-Induced Swelling in the Nanostructure of Chemically Modified Wood Cell Walls...381  
Nayomi Plaza, *U.S. Forest Service, Forest Products Laboratory*

**8A.2** Local Adhesion Testing on Lignocellulosic Fibers with Nanoindentation...386  
Johannes Konnerth, *BOKU University of Natural Resources and Life Sciences - Vienna, Institute of Wood Technology and Renewable Materials*

**8A.3** Comparison of Direct Adhesion of Thermoplastic Polymers to Lignocellulosic Model Fibers...388  
Johannes Konnerth, *BOKU University of Natural Resources and Life Sciences - Vienna, Institute of Wood Technology and Renewable Materials*

**8A.4** Measuring the Effects of Adhesive Penetration on Load Transfer Across Wood Adhesive Bonds Using Digital Volume Correlation...389  
Daniel Ching, *Oregon State University*

## **8B - Structure-Property Relationships (Continued)**

Session Chair: Christopher Phanopoulos, *Huntsman Polyurethanes*

### **8B.1** Chemical Structure Design of Heat- Resistant Polyurethane Adhesives...401

Martin Feng, *FPIInnovations*

### **8B.2** Chemical Species of Cured Urea-Formaldehyde Resins After Hydrolysis Using GPC, <sup>13</sup>C-NMR and FTIR Analysis...409

Muhammad Adly Rahandi Lubis *Department of Wood and Paper Sciences, Kyungpook National University*

### **8B.3** The Use of Ethylene Modified Vinyl Alcohol Polymer for Eco-Friendly Wood Adhesive...422

Yuta Taoka, *Kuraray America, Inc.*

### **8B.4** Applications of Quantum Chemistry Methods in Exploration of Wood Adhesive Chemistry...423

Taohong Li, *Southwest Forestry University*

### **8B.5** Tannin Based Bio-Composites originally "Formation of Uron Structure Under Alkaline Condition Throughout: A Quantitative <sup>13</sup> C-NMR Study"...427

Xiaojian Zhou, *Southwest Forestry University*

## **9A - Replacement of Phenol with Bio-Products**

Session Chair: Martin Feng, *FPIInnovations*

### **9A.1** Lignin Based Binders: An Industrial Reality, Latest Developments...440

Sanna Valkonen, *UPM Bio Chemicals*

### **9A.2** The Impact of Molecular Weight of Kraft- Lignin on Adhesive Performance of Lignin Based Phenol Formaldehyde Resins...447

Pia Solt, *Wood K plus – Competence Center of Wood Composites and Wood Chemistry*

### **9A.3** CatLignin – Reactive Lignin for Phenol Replacement in Resins...449

Hanne Wikberg, *VTT Technical Research Centre of Finland*

### **9A.4** Lignin Modification with Ionic Liquid for Bio-Based Polyurethane Adhesive Applications...453

Mojgan Nejad, *University of Toronto*

## **9B – Composites**

Session Chair: Andreja Kutnar, *Primorska University*

### **9B.1 DOL Effect in Glued Wooden Lap Joints...465**

Simon Aicher, *MPA Universität Stuttgart*

### **9B.2 Duration of Load Testing of Wood-Adhesive Bonds...491**

Markus Knorz, *TU Munich*

### **9B.3 Adhesive Bond Integrity in Hybrid Cross-Laminated Timber (CLT) Layups...495**

Lech Muszynski, *Oregon State University*

### **9B.4 Study of the Influence of Pressing Conditions and Conditioning on the Physic-Mechanical Properties of MDF Panels...514**

Ana Gomes, *ARCP - Associação Rede Competência em Polímeros*

## **10A - Adhesive-Substrate Interactions**

Session Chair: Klaus Richter, *Technical University of Munich*

### **10A.1 Integrating Multi-Scale Studies of Adhesive Penetration into Wood...517**

Joseph Jakes, *U.S. Forest Service, Forest Products Laboratory*

### **10A.2 Fire Performance of Large Scale Cross-Laminated Timber (CLT) Wall and Floor Assemblies Bonded with Polyurathane Recative and Melamine- Urea-Formaldehyde Adhesives...529**

Lech Muszynski, *Oregon State University*

### **10A.3 Numerical Simulation of Adhesive Penetration into Realistic Wood Cell Structures...555**

John Nairn, *Oregon State University*

## **10B - Composites (continued)**

Session Chair: Greg Smith, *University of British Columbia*

### **10B.1 Effect of Refining on Wood Fiber Quality...568**

Mohammad Tasooji, *Virginia Tech*

### **10B.2 Investigation of Production Parameters of a Bamboo-Based Natural Fibre Composite Using Acrylate Resin...584**

Felix Böck, *University of British Columbia*

**10B.3** Volatile Organic Compound Emissions from Engineered Wood Products...591  
Charles Frihart, *USDA Forest Service, Forest Products Laboratory*

## **11 - Panel Discussion: Strengths, Weaknesses, Opportunities and Threats in the Bonded Wood Products Industry.**

Moderator: Fred Kamke, *Oregon State University*

### **Panelists:**

**Joe Marcinko**, *Polymer Synergies, LLC*

**Byung Dae Park**, *Kyungpook National University, Korea*

**Mark Anderson**, *Senior VP, Research and Technology Arclin*

**Kristina Đurkić**, *Business Development Manager, Dynea AS, Norway*

**Bruno Gorrini**, *Celulosa Arauco y Constit SA*

## **4 - Poster Session and Student Poster Competition**

Session Chair: Linda Caudill, *Wood-Based Composites Center*

**4.1** Epoxy Resin Cross-linked with Wood Pyrolysis Bio-oil by Acetone Pretreatment for Wood Adhesion...597

George Cheng, *Auburn University*

**4.3** Light Microscopic Detection Of Resin Distribution In Industrial Wood-Based Panels...598

Elfriede Hogger, *Wood K Plus, Competence Centre for Wood Composites and Wood Chemistry*

**4.4** Unsaturated Polyester Resin as a Formaldehyde-Free Adhesive Used in Particleboard...599

Zhengzheng Wu, *Lulea University of Technology and Fujian Agriculture and Forestry University*

**4.5** Formulating Bio-Based Phenolic Adhesive...600

Somayyeh Kalami, *Mississippi State University*

**4.6** Synthesis Process Development of Diethylene Tricarbamide (D) as a Starting Material for Wood Composite Binder DF Resins...601

Moon Kim, *Mississippi State University, Department of Sustainable Bioproducts*

**4.7** Removal of Cured Urea-Formaldehyde Resins from Recycled Medium Density Fiberboard...602

Muhammad Adly Rahandi Lubis, *Department of Wood and Paper Sciences, Kyungpook National University*

**4.8** Improving the Bonding Performance of Modified Wood by Surface Processing Techniques...603

Bernd Lütke-meier, *University of Goettingen, Wood Biology and Wood Products*

**4.9** Hyperbranched Poly(3-Ethyl-3- (Hydroxymethyl)Oxetanes) as the Functional Components of Adhesive Materials...605

Mariusz Maminski, *Warsaw University of Life Sciences*

**4.10** Durability of Steam Treated Beech Joints...606

Goran Mihulja, *University of Zagreb*

**4.11** Bond Quality of Cross-Laminated Timber Manufactured Using Emulsion Polymer Isocyanate Adhesives...607

Junko Miyazaki, *Hokkaido Research Organization, Forest Products Research Institute*

**4.13** How do Some Selected Production Parameters Influence the Mechanical Properties of pMDI Bonded Wood Strands?...608

Pia Solt, *Wood K plus – Competence Center of Wood Composites and Wood Chemistry*

**4.14** Characteristic Changes of Sucrose by the Addition of Ammonium Dihydrogen Phosphate toward Development of a New Natural Adhesive...609

Kenji Umemura, *Kyoto University*

**4.15** Wood Adhesives from Lignocellulosic Biomass Liquefaction...610

Dominika Janiszewska, *Wood Technology Institute*

**4.16** Tannin Adhesive Modified with Hyperbranched Polyamide I: Effect on Polycondensation Temperature of Hyperbranched Polyamide...611

Cui Juqing, *Nanjing Forestry University*

**4.17** Dry-Shear Strength, Bondline Thickness, and Adhesive Penetration Depth Interactions between Hickory Veneer and Soy Adhesive at Low Moisture Contents...612

Cody Wykle, *Virginia Tech*

**4.18** Developing a Bio-based Wood Composite Using Refined Cottonseed Protein Adhesive...613

Julianne Stratton, *Mississippi State University*

**4.19** Heat Generation of Formaldehyde in Pinus taeda Wood...614

Benjamin R. Peed, *Virginia Tech*

**4.21** Flexible Polyurethane Prepolymer Synthesis with Lower Isocyanate Content for Recycle Foams...615

Cihan Efe Kılıç, *Gebze Technical University/Hurkimsa Kimya As.*

**4.22** Wood Adhesives Research at Fraunhofer WKI...616

Bo Kasal, *Fraunhofer Wilhelm-Klauditz- Institute, Germany*

**4.23** Characterization of the crystalline regions of cured urea formaldehyde resin

Ming Lu, *Mississippi State (NO MATERIAL IN PROCEEDINGS)*

**4.24** Effect of  $\beta$ -cyclodextrin/Boric Acid Complexes on the Setting Behavior of Polymeric Methylene Diphenyl Diisocyanate (pMDI) for Oriented Strand Board...617

Lili Cai, *Mississippi State University*

**4.25** Laser Drilling Method to Improve Adhesive Bonding of Panel Products...618

Houri Sharifnia, *Virginia Tech*
