# TABLE OF CONTENTS

|                                                                                                                                            |    |
|--------------------------------------------------------------------------------------------------------------------------------------------|----|
| <b>ONLINE DETECTION OF PARTIAL DISCHARGE INSIDE POWER TRANSFORMER WINDING THROUGH IFRA</b> .....                                           | 1  |
| <i>Bahar Mohseni ; Naser Hashemnia ; Syed Islam</i>                                                                                        |    |
| <b>EVALUATING UNINTENTIONAL ISLANDING RISKS FOR A HIGH PENETRATION PV FEEDER</b> .....                                                     | 6  |
| <i>Mohammad Nikkhah Mojdehi ; Prasanta Ghosh</i>                                                                                           |    |
| <b>A DECENTRALIZED REAL-TIME ELECTRICITY MARKET MECHANISM FOR AUTONOMOUS MICROGRIDS</b> .....                                              | 11 |
| <i>Moein Sabounchi ; Jin Wei</i>                                                                                                           |    |
| <b>INTERTURN FAULT AND CONDITION IDENTIFICATION IN BLSG USING MULTIPLE INDICATOR APPROACH</b> .....                                        | 16 |
| <i>Danwei Wang ; Jeevanand Seshadrinath ; Viethung Nguyen ; Abhisek Ukil ; Vinay Jaiswal ; Viswanathan Vaiyapuri ; Sivakumar Nadarajan</i> |    |
| <b>PRIMARY FREQUENCY RESPONSE WITH STOCHASTIC SCHEDULING UNDER UNCERTAIN PHOTOVOLTAIC GENERATION</b> .....                                 | 21 |
| <i>V. Prakash ; K. C. Sharma ; R. Bhakar ; H. P. Tiwari ; S. Sreekumar ; S. Chawda ; F. Teotia</i>                                         |    |
| <b>AN INTERVAL MATHEMATIC BASED METHODOLOGY FOR RELIABLE ESTIMATION OF TRANSMISSION LINE TEMPERATURE</b> .....                             | 26 |
| <i>G. Coletta ; A. Vaccaro ; D. Villacci</i>                                                                                               |    |
| <b>HARMONIC RESONANCE ANALYSIS METHOD BASED ON SINGULAR VALUE DECOMPOSITION THEORY</b> .....                                               | 32 |
| <i>Yang Li ; Zhikang Shuai ; John Shen ; Yi Hong</i>                                                                                       |    |
| <b>FIELD TEST AND SIMULATION OF TRANSIENTS ON THE RTE 225 KV CABLE</b> .....                                                               | 37 |
| <i>Isabel Lafaia ; Akihiro Ametani ; Jean Mahseredjian ; Antoine Naud ; Teresa Correia De Barros ; Ilhan Koçar</i>                         |    |
| <b>ANALYSIS OF INTEGRATED CVR CONTROL PERFORMANCE WITH HIGH EV PENETRATIONS</b> .....                                                      | 38 |
| <i>Yukun Shen ; Haiyu Li ; Kevin Hoban ; Ben Ingham</i>                                                                                    |    |
| <b>VULNERABILITY ANALYSIS AND CONSEQUENCES OF FALSE DATA INJECTION ATTACK ON POWER SYSTEM STATE ESTIMATION</b> .....                       | 43 |
| <i>Jingwen Liang ; Lalitha Sankar ; Oliver Kosut</i>                                                                                       |    |
| <b>APPLICATION OF NEW GENERIC MODELS FOR PV AND BATTERY STORAGE IN SYSTEM PLANNING STUDIES</b> .....                                       | 44 |
| <i>Xiaokang Xu ; Edgar Casale ; Martin Bishop ; Donna G. Oikarinen</i>                                                                     |    |
| <b>DATA-DRIVEN RESIDENTIAL CUSTOMER AGGREGATION BASED ON SEASONAL BEHAVIORAL PATTERNS</b> .....                                            | 49 |
| <i>Kunjin Chen ; Jun Hu ; Ziyu He</i>                                                                                                      |    |
| <b>ADDRESS POWER SWING ISSUE UNDER MARKET TO MARKET FLOW CONTROL COORDINATION</b> .....                                                    | 54 |
| <i>Yonghong Chen ; Yong Jiang ; Tom Mallinger</i>                                                                                          |    |
| <b>POWER SYSTEM SIMULATION USING THE MULTI-STAGE ADOMIAN DECOMPOSITION METHOD</b> .....                                                    | 59 |
| <i>Nan Duan ; Kai Sun</i>                                                                                                                  |    |
| <b>ELECTROMAGNETIC TRANSIENT SIMULATION OF CIGRÉ DC GRID TEST SYSTEM WITH HYBRID CONVERTER TOPOLOGIES</b> .....                            | 60 |
| <i>Zhuoxuan Shen ; Ning Lin ; Venkata Dinavahi</i>                                                                                         |    |
| <b>OPTIMAL REACTIVE POWER DISPATCH WITH ACCURATELY MODELED DISCRETE CONTROL DEVICES: A SUCCESSIVE LINEAR APPROXIMATION APPROACH</b> .....  | 65 |
| <i>Zhifang Yang ; Anjan Bose ; Haiwang Zhong ; Ning Zhang ; Qing Xia ; Chongqing Kang</i>                                                  |    |
| <b>IMPACT OF MEASUREMENT ERRORS ON SYNCHROPHASOR APPLICATIONS</b> .....                                                                    | 66 |
| <i>Jiecheng Zhao ; Jin Tan ; Ling Wu ; Lingwei Zhan ; Wenxuan Yao ; Yilu Liu ; Jose R. Gracia ; Paul D. Ewing</i>                          |    |
| <b>CONSENSUS CONTROL FOR ENERGY STORAGE SYSTEM</b> .....                                                                                   | 71 |
| <i>Javad Khazaei ; Zhixin Miao</i>                                                                                                         |    |
| <b>OPTIMIZATION BASED REAL-TIME FREQUENCY DEPENDENT REDUCED ORDER MODELING OF POWER GRID</b> .....                                         | 72 |
| <i>Abilash Thakallapelli ; Sukumar Kamalasadan</i>                                                                                         |    |
| <b>IMPACT OF ACTIVE FRONT END TOPOLOGY ON WIND FARM RESONANCE</b> .....                                                                    | 77 |
| <i>Camila Elias Almeida ; Braz De Jesus Cardoso Filho</i>                                                                                  |    |

|                                                                                                                                                      |            |
|------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>FORMULATION AND CHARACTERIZATION OF POWER SYSTEM ELECTROMECHANICAL OSCILLATIONS .....</b>                                                         | <b>82</b>  |
| <i>Bin Wang ; Kai Sun</i>                                                                                                                            |            |
| <b>SOLVING THE NATURAL GAS FLOW PROBLEM USING SEMIDEFINITE PROGRAM RELAXATION .....</b>                                                              | <b>83</b>  |
| <i>Abhi Ojha ; Vassilis Kekatos ; Ross Baldick</i>                                                                                                   |            |
| <b>OPTIMAL CAPACITOR BANK CAPACITY AND PLACEMENT IN DISTRIBUTION SYSTEMS WITH HIGH DISTRIBUTED SOLAR POWER PENETRATION .....</b>                     | <b>88</b>  |
| <i>Gyu-Jung Cho ; Yun-Sik Oh ; Min-Sung Kim ; Ji-Soo Kim ; Chul-Hwan Kim ; Barry Mather ; Bri-Mathias Hodge</i>                                      |            |
| <b>TWO-STAGE ENERGY MANAGEMENT OF RESIDENTIAL MICROGRID COMMUNITY USING PAIRING STRATEGY.....</b>                                                    | <b>93</b>  |
| <i>Chengquan Ju ; Peng Wang ; Yan Xu</i>                                                                                                             |            |
| <b>SIMULATION ANALYSIS OF ARC GROUNDING FAULT IN NON-SOLIDLY EARTHED NETWORK.....</b>                                                                | <b>98</b>  |
| <i>Shurong Li ; Yongduan Xue ; Bingyin Xu</i>                                                                                                        |            |
| <b>DEVELOPMENT AND ANALYSIS OF AN ENERGY STORAGE SIZING TOOL FOR RESIDENTIAL DEPLOYMENT .....</b>                                                    | <b>103</b> |
| <i>Michael Starke ; Nevin Sawyer ; Benjamin Dean ; Mitch Smith ; Guodong Liu ; Dirk Spiers ; Bryan Schultz ; Harvey Harman</i>                       |            |
| <b>IMPROVING POWER FLOW ROBUSTNESS VIA CIRCUIT SIMULATION METHODS.....</b>                                                                           | <b>108</b> |
| <i>Amritanshu Pandey ; Marko Jereminov ; Gabriela Hug ; Larry Pileggi</i>                                                                            |            |
| <b>PERFORMANCE EVALUATION OF DTC IM DRIVE FOR AN EV APPLICATION .....</b>                                                                            | <b>113</b> |
| <i>C. Upendra Reddy ; Kashyap Kumar Prabhakar ; Amit Kumar Singh ; Praveen Kumar</i>                                                                 |            |
| <b>ADAPTIVE ADJUSTMENT OF NOISE COVARIANCE IN KALMAN FILTER FOR DYNAMIC STATE ESTIMATION .....</b>                                                   | <b>118</b> |
| <i>Shahrokh Akhlaghi ; Ning Zhou ; Zhenyu Huang</i>                                                                                                  |            |
| <b>EFFECT OF TIME DELAY ASYMMETRIES IN POWER SYSTEM DAMPING CONTROL .....</b>                                                                        | <b>123</b> |
| <i>Felipe Wilches-Bernal ; Ricky Concepcion ; Jason C. Neely ; David A. Schoenwald ; Raymond H. Byrne ; Brian J. Pierre ; Ryan T. Elliott</i>        |            |
| <b>HARDWARE-IN-THE-LOOP SIMULATION OF A DISTRIBUTION SYSTEM WITH AIR CONDITIONERS UNDER MODEL PREDICTIVE CONTROL .....</b>                           | <b>128</b> |
| <i>Annabelle Pratt ; Mark Ruth ; Dheepak Krishnamurthy ; Bethany Sparr ; Monte Lunacek ; Wesley Jones ; Saurabh Mittal ; Hongyu Wu ; Jesse Marks</i> |            |
| <b>SYSTEM PERFORMANCE IN MICROGRIDS BASED HYBRID PV SYSTEMS .....</b>                                                                                | <b>133</b> |
| <i>Mohamad-Amin Nasr ; Ehsan Nasr-Azadani</i>                                                                                                        |            |
| <b>ACTIVE CONTROL OF DC FAULT CURRENTS IN DC SOLID-STATE TRANSFORMERS DURING RIDE-THROUGH OPERATION OF MULTI-TERMINAL HVDC SYSTEMS .....</b>         | <b>138</b> |
| <i>Rui Li ; Lie Xu ; Liangzhong Yao ; Barry Williams</i>                                                                                             |            |
| <b>DESIGN OF NETWORKED PROTECTION SYSTEMS FOR SMART DISTRIBUTION GRIDS: A DATA-DRIVEN APPROACH .....</b>                                             | <b>139</b> |
| <i>Younes Seyedi ; Houshang Karimi</i>                                                                                                               |            |
| <b>HVDC CONNECTION TO LARGE NUCLEAR POWER PLANTS: A CASE STUDY ON MOORSIDE IN GREAT BRITAIN.....</b>                                                 | <b>144</b> |
| <i>Inmaculada Martínez Sanz ; Balarko Chaudhuri ; Rajat Majumder</i>                                                                                 |            |
| <b>DESIGNING K-NEAREST NEIGHBORS MODEL FOR LOW VOLTAGE LOAD FORECASTING .....</b>                                                                    | <b>149</b> |
| <i>Oleg Valgaev ; Friederich Kupzog ; Hartmut Schmeck</i>                                                                                            |            |
| <b>TRANSMISSION LINE AMPACITY IMPROVEMENTS OF ALTALINK WIND PLANT OVERHEAD TIE-LINES USING WEATHER-BASED DYNAMIC LINE RATING.....</b>                | <b>154</b> |
| <i>Bishnu P. Bhattarai ; Jake P. Gentle ; Porter Hill ; Tim McJunkin ; Kurt S. Myers ; Alex Abboud ; Rodger Renwick ; David Hengst</i>               |            |
| <b>ENERGY STORAGE CONTROL BASED ON USER CLUSTERING AND BATTERY CAPACITY ALLOCATION .....</b>                                                         | <b>159</b> |
