SUNDAY, FEBRUARY 4

16:00–20:00	Pre Function	Arrival and Registration
18:00–20:00	Granhall	Welcome Mixer
18:00–20:00	Granhall	Light Meal – Provided by Granlibakken

MONDAY, FEBRUARY 5

07:00–08:00	Granhall	Breakfast
08:00–09:00	Mountain/Lake	Welcome and Keynote Address * Georgios Skiniotis , Stanford University, USA * Andrew B. Ward , The Scripps Research Institute, USA * Elizabeth Villa , University of California, San Diego, USA Patrick Cramer , Max Planck Institute for Biophysical Chemistry, Germany <i>Integrated Structural Biology of Gene Transcription.....2</i>
09:00–11:30	Mountain/Lake	Visualizing Cells * Elizabeth Villa , University of California, San Diego, USA <i>Opening Windows into the Cell: Bringing Structure to Cell Biology using Cryo-Electron Tomography.....N/A</i> Coffee Break Grant J. Jensen , California Institute of Technology, USA <i>Structure and Function of the Bacterial Type IV Secretion System through Electron Cryotomography.....5</i> Mark H. Ellisman , University of California, San Diego, USA <i>Revealing Secrets Hiding in Plain Sight.....3</i> Christina Heroven , MRC Laboratory of Molecular Biology, UK (1031) <i>Short Talk: In-situ Structural Studies of RPTPmu by Cryo-Electron Tomography of FIB Milled Cells.....25</i> Kanika Khanna , University of California, San Diego, USA (2008) <i>Short Talk: Understanding Morphological Changes Accompanying Sporulation in B. subtilis using in situ Cryo-Electron Tomography.....30</i> On Own for Lunch
11:30–13:00	Bay	Poster Setup
13:00–22:00	Bay	Poster Viewing
16:30–17:00	Pre Function	Coffee Available

Program (current as of January 15, 2018)

MONDAY, FEBRUARY 5 (continued)

17:00–19:00	Mountain/Lake	Visualizing Subcellular Compartments Daniela Nicastro , University of Texas Southwestern Medical Center, USA <i>Probing the Molecular Organization of Cells and Organelles using Cryo-Electron Microscopy.....7</i> Jun Liu , Yale School of Medicine, USA <i>High-Throughput Cryo-Electron Tomography: Visualizing Host-Pathogen Interactions at High Resolution.....5</i> *Kay Grünewald , University of Oxford, UK <i>Trafficking Vesicles and Enveloped Viruses</i> Joshua Hutchings , Birkbeck College, UK (1032) <i>Short Talk: Cryo-EM Tomography and Subtomogram Averaging of COPII Assembled on Membranes.....26</i>
19:00–20:00	Granhall	Dinner
19:30–22:00	Bay	Poster Session 1 <i>Poster sessions provide exciting opportunities for engagement between all levels of investigators. Abstracts beginning with the number 1 are featured during this poster session. Don't miss the plasma screen e-posters during this session!</i>
20:00–21:00	Bay	Social Hour

TUESDAY, FEBRUARY 6

07:00–08:00	Granhall	Breakfast
08:00–11:15	Mountain/Lake	Translational Cryo-EM *Andrew B. Ward , The Scripps Research Institute, USA <i>Structure-Based Vaccine Design.....8</i> Tom Ceska , UCB Celltech, UK <i>Cryo EM as a Tool for Structure Determination in Industry.....2</i> Coffee Break Seungil Han , Pfizer Inc., USA <i>Applications of Cryo-EM in Small Molecule and Biologics Drug Design.....4</i> Christian Wiesmann , Novartis, Switzerland <i>Cryo-Em: A New Tool for Drug Discovery at Novartis.....9</i> Gregory Martin , Oregon Health & Science University, USA (2024) <i>Short Talk: Anti-Diabetic Drug Binding Site in KATP Channels Revealed by Cryo-EM.....38</i> Chitra Shintre , University of Oxford, UK (3015) <i>Short Talk: Structure of the Polycystic Kidney Disease TRP Channel PC2.....48</i> On Own for Lunch
11:15–13:00	Bay	Poster Setup
13:00–22:00	Bay	Poster Viewing

TUESDAY, FEBRUARY 6 (continued)

14:30–16:30	Mountain/Lake	<p>Workshop 1: Specimen Preparation and Troubleshooting for Single-Particle Work</p> <p>*Iban Ubarretxena, Icahn School of Medicine at Mount Sinai, USA (3032) <i>Structures of Key Intermediates in the Human Mitochondrial Chaperonin Reaction Cycle.....53</i></p> <p>Anika L. Burrell, University of Washington, USA (1012) <i>Human IMPDH1 Retinal Degeneration Mutations Promote Polymer Assembly.....15</i></p> <p>Joel Butterwick, Rockefeller University, USA (1013) <i>Cryo-EM Structure of Orco: The Molecular Basis for Insect Olfaction.....16</i></p> <p>Ziao Fu, Columbia University, USA (1027) <i>Lipid Bilayer Structure in Native Cell Membrane Nanoparticles of Multidrug Exporter AcrB.....23</i></p> <p>Jonas Barandun, Rockefeller University, USA (1004) <i>Structure of the Earliest Stable Precursor of the Ribosome – the Small Subunit Processome.....11</i></p> <p>Vignesh Kasinath, University of California, Berkeley, USA (2006) <i>Cryo-EM Structure of the Full Human PRC2 and Regulation by AEBP2 and JARID2.....29</i></p> <p>Qianhui Qu, Stanford University, USA (3003) <i>Structure of a Histone H3K4 Methyltransferase COMPASS.....43</i></p> <p>Julia Brasch, Columbia University, USA (1009) <i>Assembly of Clustered Protocadherin Neuronal Recognition Complexes Studied by X-ray Crystallography and Cryo-electron Tomography.....14</i></p> <p>Cristina Puchades, The Scripps Research Institute, USA (3002) <i>Hand-Over-Hand: How ATP Drives Protein Translocation.....42</i></p> <p>Harry Low, Imperial College, UK (2017) <i>Architecture of a Bacterial Type II Secretion System.....35</i></p>
16:30–17:00	Pre Function	Coffee Available
17:00–19:00	Mountain/Lake	<p>Frontiers in Cryo-EM</p> <p>Andrej Sali, University of California, San Francisco, USA <i>Integrative Modeling of Biomolecular Assembly Structures and Pathways.....8</i></p> <p>*Sharon Grayer Wolf, Weizmann Institute of Science, Israel <i>Deep Views into Vitriified Cells by Cryo-Scanning Transmission Electron Tomography.....9</i></p> <p>David Baker, University of Washington, USA <i>De novo Design of Self-Assembling Protein Nano Materials1</i></p> <p>Yuxi Liu, University of California, Los Angeles, USA (2015) <i>Short Talk: Near-Atomic Resolution Cryo-EM for a Small Protein on a Symmetric Imaging Scaffold.....34</i></p>
19:00–20:00	Granhall	Dinner
19:30–22:00	Bay	<p>Poster Session 2</p> <p><i>Poster sessions provide exciting opportunities for engagement between all levels of investigators. Abstracts beginning with the number 2 are featured during this poster session. Don't miss the plasma screen e-posters during this session!</i></p>
20:00–21:00	Bay	Social Hour

*Session Chair; () = abstract number

Program (current as of January 15, 2018)

WEDNESDAY, FEBRUARY 7

07:00–08:00	Granhall	Breakfast
08:00–11:00	Mountain/Lake	Cryo-EM of Small Single Particles Dmitry Lyumkis , The Salk Institute for Biological Studies, USA <i>High-Resolution Cryo-EM Studies of Retroviral Intasomes.....6</i> Maofu Liao , Harvard Medical School, USA <i>Single Particle Cryo-EM Studies of Lipid-Protein Interactions.....5</i> Coffee Break *Gabriel C. Lander , The Scripps Research Institute, USA <i>How Low Can You Go? Size and Resolution Limits using Conventional Cryo-EM.....5</i> Moran Shalev-Benami , Stanford University, USA (3014) <i>Short Talk: Cryo-EM Structure of the Synaptic Wiring Protein Teneurin.....47</i> Christopher P. Hill , University of Utah, USA (2033) <i>Short Talk: Structural Basis for Protein Translocation by the Vps4 AAA ATPase.....25</i> Daniel Southworth , University of California, San Francisco, USA (3036) <i>Short Talk: Visualizing the Substrate Translocation Mechanism of the Hsp104 AAA+ Disaggregase.....48</i> On Own for Lunch
11:00–13:00	Bay	Poster Setup
13:00–22:00	Bay	Poster Viewing
14:30–16:30	Mountain/Lake	Workshop 2: Modeling and Refining Structures of Macromolecules in Cryo-EM Maps *Gunnar Schroeder , Forschungszentrum Julich, Germany (3013) <i>Fibril Structure of Amyloid-β(1-42) by Cryo-Electron Microscopy.....47</i> Jane S. Richardson , Duke University, USA (3007) <i>CaBLAM – A New Tool Designed to Validate 2.5-4Å Models from Cryo-EM</i> Doo Nam Kim , Los Alamos National Laboratory, USA (2010) <i>CryoFIT: Flexible Fitting of Biomolecule Structures from Cryo-EM Maps with User-Friendly Molecular Dynamics Simulation</i> Jianpeng Ma , Baylor College of Medicine, USA (2021) <i>Application of Parallel Continuous Simulated Tempering to Cryo-EM Structural Refinement at Near-Atomic Resolution</i> Abhishek Singharoy , Arizona State University, USA (3016) <i>Molecular Dynamics Flexible Fitting at sub-5 Å Resolution</i> Till Rudack , Ruhr University Bochum, Germany (3010) <i>ModelMaker: An Interactive Integrative Modeling Tool to Build Complete Macromolecular Machines</i> Kelly Brock , Harvard Medical School, USA (1010) <i>Using Evolutionary Couplings to Help Build and Refine Cryo-EM Models</i>
16:30–17:00	Pre Function	Coffee Available

WEDNESDAY, FEBRUARY 7 (continued)

17:00–19:15	Mountain/Lake	<p>Cryo-EM of Large Macromolecular Assemblies Kiyoshi Nagai, Medical Research Council, UK <i>Cryo-EM Snapshots of the Spliceosome Provide Insights into the Mechanism of Pre-mRNA Splicing.....7</i> Gira Bhabha, New York University School of Medicine, USA <i>Architectures of Lipid Transport Systems in Bacteria.....1</i> *Adam Frost, University of California, San Francisco, USA <i>Function Follows Form: Cryo-EM Insights into Cell Biology.....N/A</i> Eva Nogales, University of California, Berkeley, USA <i>Challenges and Progress in the Study of Large Human Complexes in Gene Expression Regulation.....8</i></p>
19:15–20:15	Granhall	Dinner
19:30–22:00	Bay	<p>Poster Session 3 <i>Poster sessions provide exciting opportunities for engagement between all levels of investigators. Abstracts beginning with the number 3 are featured during this poster session. Don't miss the plasma screen e-posters during this session!</i></p>
20:00–21:00	Bay	Social Hour

THURSDAY, FEBRUARY 8

07:00–08:00	Granhall	Breakfast
08:00–11:15	Mountain/Lake	<p>Cryo-EM of Membrane Proteins *Georgios Skiniotis, Stanford University, USA <i>Cryo-EM Visualization of G Protein-Coupled Receptors.....N/A</i> Judy Hirst, University of Cambridge, UK <i>CryoEM Structure of Mammalian Respiratory Complex I, an Asymmetric 1 MDa Energy-Converting Enzyme.....4</i> Coffee Break Doreen Matthies, National Institutes of Health, USA <i>Single Particle Cryo-EM of a 200 kDa Magnesium Ion Channel.....6</i> Eric Gouaux, Oregon Health & Science University, USA <i>Structure and Mechanism of AMPA Receptor – Auxiliary Protein Complexes.....4</i> Kei Saotome, The Scripps Research Institute, USA (3012) <i>Short Talk: Structure of the Mechanically Activated Ion Channel Piezo1.....46</i> Luke H. Chao, Massachusetts General Hospital, USA (1017) <i>Short Talk: Single Particle Cryo-EM Studies of Mitochondrial Inner-Membrane Fusion.....19</i></p>
		On Own for Lunch
16:30–17:00	Pre Function	Coffee Available

*Session Chair; () = abstract number

Program (current as of January 15, 2018)

THURSDAY, FEBRUARY 8 (continued)

17:00–18:00	Mountain/Lake	Recent Technological Advances in Cryo-EM Radostin Danev , Max Planck Institute of Biochemistry, Germany <i>Single Particle Imaging with the Volta Phase Plate.....2</i> *Bridget Carragher , New York Structural Biology Center, USA <i>Sample Vitrification Issues and Some Ideas about How to Overcome Them.....1</i>
18:00–18:45	Mountain/Lake	Closing Keynote Address Joachim Frank , Columbia University, USA <i>Story in a Sample: Multiple Ribosome Structures in a Single Cryo-EM Experiment.....N/A</i>
18:45–19:00	Mountain/Lake	Meeting Wrap-Up: Outcomes and Future Directions (Organizers)
19:00–20:00	Granhall	Dinner
19:00–20:00	Granhall	Social Hour
20:00–23:00	Granhall	Entertainment

FRIDAY, FEBRUARY 9

Departure

*Congratulations to Dr. Joachim Frank on his 2017
Nobel Prize and his contributions to the Cryo-EM field!*

Poster Session 1

Monday, February 5 | 19:30–22:00

Bay

Presenter	Poster #	Abstract Title
Aller, Stephen	1001 <i>e-poster</i>	Structure of the Nematode Endosymbiont Xenorhabdus nematophilus Toxin Complex A at 3.1 Å resolution.....10
Axelrod, Jeremy	1002	A laser-based Zernike phase plate for cryo-em: recent progress and future prospects.....10
Aydin, Halil	1003	The structural basis of regulated sphingolipid synthesis.....11
Barandun, Jonas	1004	Structure of the earliest stable precursor of the ribosome – the small subunit processome.....11
Bergeron, Julien	1005 <i>e-poster</i>	Structural characterization of the R-body complex, a macromolecular piston-like nano-machine.....12
Berndsen, Zachary	1006	Heterogeneity and Dynamics in the HIV-1 Envelope Glycan Shield.....12
Bigalke, Janna	1007	Cryo EM structure of the activated receptor tyrosine kinase RET signalling complex reveals the importance of its cysteine rich domain.....13
Boehning, Jan	1008	Structural analysis of a Parkinson’s Disease LRRK2 mutant via cellular cryo-electron tomography and sub-tomogram averaging.....13
Botte, Mathieu	1033	Structure Based Drug Discovery of Membrane Protein Targets for Medicine that Matters.....14
Brasch, Julia	1009	Assembly of Clustered Protocadherin neuronal recognition complexes studied by X-ray crystallography and cryo-electron Tomography.....14
Brock, Kelly	1010	Using evolutionary couplings to help build and refine cryoEM models.....14
Buffalo, Cosmo	1011	Role of the dileucine motif in Nef-induced trimerization of the Arf1:AP-1 clathrin adaptor complex15
Burrell, Anika	1012	Human IMPDH1 retinal degeneration mutations promote polymer assembly.....15
Butterwick, Joel	1013	Cryo-EM Structure of Orco: The Molecular Basis for Insect Olfaction.....16
Byrd, R.	1014	Design and Construction of Membrane Surface Complexes for Magnetic Resonance and CryoEM Studies.....16
Cash, Jennifer	1015	Structural Snapshots of a Dynamic Process in the Regulation of P-Rex, a Metastatic Factor.....17
Castano, Daniel	1037	Dynamo: flexible software tools for cryoelectron tomography data.....17
Cavadini, Simone	1034	The molecular basis for UV-damage recognition in chromatin.....18
Chang, Wen	1016	Structure analyses of vaccinia viral A26 protein that is critical for mature virus endocytosis.....18
Chao, Luke	1017	Single particle Cryo-EM studies of mitochondrial inner-membrane fusion.....19
Chen, James	1018 <i>e-poster</i>	Super-resolution Single-Particle Electron Microscopy.....19
Chmielewski, David	1035	CryoEM structure of Mayaro virus: a re-emerging New World alphavirus.....19

Listing is in alphabetical order by presenter’s last name.

Poster abstracts are viewable on the mobile app or on your Keystone Symposia online account.

Poster Session 1

Monday, February 5 | 19:30–22:00

Bay

Presenter	Poster #	Abstract Title
Christie, Michelle	1019	Deciphering the structure of a novel class of cholesterol-dependent cytolysin like proteins.....20
Clark, Lindsay	1020	Cryo-EM studies of the human sterol transporter G5G8 in nanodiscs.....20
Croxford, Matthew	1021 <i>e-poster</i>	Silicon Nitride as a Platform for Cryo-Electron Tomography Based Structural Cell Biology21
Davies, Simon	1023	Use of Amphipathic Polymers in Preserving Native Lipids for Membrane Proteins in Cryo-EM.....21
Ekiert, Damian	1025	Architectures of lipid transport systems for the bacterial outer membrane.....22
Freyberg, Zachary	1026 <i>e-poster</i>	Ribosome-Associated Vesicles: a dynamic vesicular endoplasmic reticulum in secretory cells22
Fu, Ziao	1027	Lipid Bilayer Structure in Native Cell Membrane Nanoparticles of Multidrug Exporter AcrB.....23
Gan, Lu	1028	Exploration of eukaryotic nuclei at molecular resolution.....23
Greber, Basil	1029	The cryo-EM structure of human TFIH.....24
Harris, Audrey	1030	Structures of nanoparticle immunogens for vaccine development.....24
He, Jun	1036	Embracing cryoEM in drug discovery.....25
Heroven, Christina	1031	In-situ structural studies of RPTPmu by cryo-electron tomography of FIB milled cells.....25
Hutchings, Joshua	1032	Cryo-EM tomography and subtomogram averaging of COPII assembled on membranes.....26
Kollman, Justin	1038	Polymerization of CTP synthase homologs in different filament geometries generates regulatory diversity.....33
Luo, Yu-Chun	1039	Purification of vaccinia viral a26 protein for biochemical analysis and crystallization.....36

Listing is in alphabetical order by presenter's last name.
Poster abstracts are viewable on the mobile app or on your Keystone Symposia online account.

Poster Session 2

Tuesday, February 6 | 19:30–22:00
Bay

Presenter	Poster #	Abstract Title
Hill, Christopher	2033	Structural basis for protein translocation by the Vps4 AAA ATPase.....25
Huynh, Kevin	2001 <i>e-poster</i>	CryoEM Structure of the Human Sodium-Coupled Acid-Base Transporter NBCe1.....26
Ivanov, Ivaylo	2002	Electron microscopy and integrative modeling shed light on the mechanisms of transcription initiation.....27
Janulienė, Dovile	2003	Structure of the human MHC-I peptide-loading complex.....27
Kalia, Raghav	2004	Structural Basis of Mitochondrial Receptor Binding and GTP-Driven Conformational Constriction by Dynamin-Related Protein 1.....28
Kang, Jin Young	2005	Molecular mechanism of RNA hairpin-stabilized pause and pause inhibition by elongation factors NusG and RfaH during bacterial transcription.....28
Kasinath, Vignesh	2006	Cryo-EM structure of the full human PRC2 and regulation by AEBP2 and JARID2.....29
Kefauver, Jennifer	2007	Architecture of Volume-Regulated Anion Channels.....29
Khanna, Kanika	2008 <i>e-poster</i>	Understanding morphological changes accompanying sporulation in <i>B. subtilis</i> using in situ cryo-electron tomography.....30
Khayat, Reza	2009	Mechanism of cellular recognition and entry by porcine circovirus 2.....30
Kim, Doo Nam	2010 <i>e-poster</i>	CryoFIT: Flexible Fitting of Biomolecule Structures from Cryo-EM Maps with User Friendly Molecular Dynamics Simulation.....30
Kim, Laura	2011	The Ins and Outs of Benchmarking your cryo-TEM.....32
Kim, Seung Joong	2034	Structural and Functional Anatomy of a Nuclear Pore Complex.....31
Kirchdoerfer, Robert	2012	Structural insights into the SARS Spike-ACE2 receptor complex.....32
Kizziah, James	2013	<i>Staphylococcus aureus</i> pathogenicity islands use competing scaffolding proteins for the molecular pirating of bacteriophage capsids.....32
Liang, Bo	2035	Structure and Regulation of Respiratory Syncytial Virus RNA Polymerase.....33
Liu, Yuxi	2015	Near-atomic resolution cryo-EM for a small protein on a symmetric imaging scaffold.....34
Lo, Yu-Hua (Daisy)	2016	Structural Analysis Reveals the Features of Ribosome Assembly Factor Nsa1/WDR74 Important for Localization and Interaction with the AAA-ATPase Rix7/NVL2.....34
Low, Harry	2017	Architecture of a bacterial type II secretion system.....35
Lucato, Christina	2018	An integrated structural characterization of P-Rex1 activity in cancer cell signaling.....35
Ludlam, William	2019	Structure of the mLST8-CCT Folding Complex.....35
Luo, Min	2020	Cryo-EM reveals directional R-loop formation and substrate handover mechanisms in Type I CRISPR-Cas system.....N/A
Ma, Jianpeng	2021	Application of Parallel Continuous Simulated Tempering to Cryo-EM structural refinement at near-atomic resolution.....36

Listing is in alphabetical order by presenter's last name.

Poster abstracts are viewable on the mobile app or on your Keystone Symposia online account.

Poster Session 2

Tuesday, February 6 | 19:30–22:00

Bay

Presenter	Poster #	Abstract Title
Ma, Jinbiao	2022	Cryo-EM study of RISC loading complex Dicer2-R2D2.....37
Mangala Prasad, Vidya	2023	Using cryo-electron tomography and sub-tomogram averaging to study the integrated virus fusion machinery in intact influenza virions.....37
Martin, Gregory	2024	Anti-diabetic drug binding site in KATP channels revealed by Cryo-EM.....38
Martinez-Ortiz, Wilnelly	2025 <i>e-poster</i>	Conserved structural motifs can be used to improve cryoEM modeling of voltage gated ion channels.....38
Mishanina, Tatiana	2026	Global conformational changes in RNA polymerase accompany nascent RNA hairpin-stabilized transcriptional pause.....39
Morris, Kyle	2027	HIV-1 Nef as a cargo-selective switch in hijacking AP-1 clathrin adaptor complexes.....39
Navarro, Paula	2028	Corpora amylacea are dense membranous labyrinths containing intact mitochondria and vesicles.....39
Nguyen, Thi Hoang Duong	2029	Cryo-EM structure of human telomerase and new insights into its assembly and function.....40
Pallesen, Jesper	2031	Conformational Plasticity in Viral Glycoproteins.....40
Phillips, Chris	2032	Mechanistic insights into PIKK family function: High resolution cryoEM studies of ATM, ATR and DNA-PK provide a structural basis to understanding the regulation of the DNA damage response.....41
Porebski, Przemyslaw	2038	Molstack - platform for comparative presentation of density maps and their interpretations.....41
Pryor, Jr., Edward	2039	An update on detergent usage in Cryo-EM structure determination of membrane proteins.....42
Roll-Mecak, Antonina	2040	Mechanistic insights from the cryo-EM visualization of the microtubule severing enzyme katanin.....45
Sterling, Sarah	2036	Structural characterization of septin filaments and their membrane association.....49
Turner, Hannah	2037	Visualizing polyclonal HIV vaccine responses using single particle electron microscopy.....52

Listing is in alphabetical order by presenter's last name.
Poster abstracts are viewable on the mobile app or on your Keystone Symposia online account.

Poster Session 3

Wednesday, February 7 | 19:30–22:00

Bay

Presenter	Poster #	Abstract Title
Pillon, Monica	3001	Structure of the Essential Eukaryotic Grc3/Las1 RNA Processing Machinery.....41
Puchades, Cristina	3002	Hand-over-hand: How ATP drives protein translocation.....42
Qu, Qianhui	3003	Structure of a histone H3K4 methyltransferase COMPASS.....43
Razi, Aida	3005	Ribosome biogenesis: emerging view for a central role of assembly factors in the maturation of the ribosomal subunits functional core using Cryo-EM.....43
Rheinberger, Jan	3006	Structural and Functional Characterization of a Cyclic Nucleotide-gated Ion Channel.....44
Richardson, Jane	3007	CaBLAM – A New Tool Designed to Validate 2.5-4Å Models from CryoEM.....44
Rodriguez, Alejandro	3008	Inhibitory Role of Functionalized Fullerenes in HIV-1 Maturation.....44
Roh, Soung Hun	3009	The 3.5 Å CryoEM Structure of Nanodisc Reconstituted Yeast Vacuolar ATPase Vo Proton Channel.....45
Rudack, Till	3010	ModelMaker: An interactive integrative modeling tool to build complete macromolecular machines.....45
Santosh, Vishaka	3011	Understanding AAV DNA packaging.....46
Saotome, Kei	3012	Structure of the Mechanically Activated Ion Channel Piezo1.....46
Schroeder, Gunnar	3013	Fibril structure of amyloid-β(1-42) by cryo-electron microscopy.....47
Shalev-Benami, Moran	3014	Cryo-EM structure of the synaptic wiring protein Teneurin.....47
Shintre, Chitra	3015 <i>e-poster</i>	Structure of the polycystic kidney disease TRP channel PC2.....48
Singharoy, Abhishek	3016 <i>e-poster</i>	Molecular Dynamics Flexible Fitting at sub-5 Å Resolution....48
Southworth, Daniel	3036	Visualizing the Substrate Translocation Mechanism of the Hsp104 AAA+ Disaggregase.....48
Su, Min	3017	Go Beyond Gctf in CTF Determination for Tilt Application in Single-Particle Cryo-EM.....50
Su, Zhaoming	3018	Electron Cryo-Microscopy Reveals Essential Ebola Nucleoprotein Interactions in Nucleocapsid-like Helical Assembly.....49
Sun, Chang	3019 <i>e-poster</i>	Cryo-EM structure of alternative complex III/ aa3 cytochrome oxidase supercomplex from <i>Flavobacterium johnsoniae</i>50
Sun, Stella	3020	Flagellum couples cell shape to motility in <i>Trypanosoma brucei</i>51
Tsai, Chi-Hang	3039	Differential Vaccinia Virus entry and innate immune signaling in macrophages.....51
Tsutakawa, Susan	3021	Small angle X-ray scattering for data assisted protein structure prediction in CASP12 with prospects to improve accuracy of predictions.....52
Ubarretxena, Iban	3032 <i>e-poster</i>	Structures of key intermediates in the human mitochondrial chaperonin reaction cycle.....53
Wang, Jinliang	3023	A Point Mutation that Leads to a Human Neurodegenerative Disorder Destabilizes the Heat Shock Protein 60 Chaperonin.....53

Listing is in alphabetical order by presenter's last name.

Poster abstracts are viewable on the mobile app or on your Keystone Symposia online account.

Poster Session 3

Wednesday, February 7 | 19:30–22:00

Bay

Presenter	Poster #	Abstract Title
Wang, Yuhang	3024 <i>e-poster</i>	Multisegment Molecular Dynamics Flexible Fitting for cryo-EM.....53
Watanabe, Reika	3025	The in situ structural analysis of a pathogenic mutant LRRK2 protein in Parkinson's Disease using cryo-electron tomography.....54
Williams, James	3026	Visualizing mechanisms of influenza virus neutralization by intact IgG and Fab fragments requires complementary electron microscopy approaches.....54
Williamson, James	3033	Assembly of the Bacterial Large Ribosomal Subunit.....55
Woldeyes, Rahel	3027	Using X-ray Free Electron lasers to visualize solvent in the M2 proton channel.....55
Wu, Chao	3037	CryoEM structure and biochemical analysis reveal assembly and regulation mechanisms of Ebola nucleocapsid in viral RNA synthesis.....56
Wysocki, Vicki	3034	Native MS in Structural Biology: Surface Collisions of Protein and Nucleoprotein Complexes.....56
Xu, Pengbiao	3038	Structural insights into the role of phosphorylated IRF3 in IFN- β transcription.....57
Yokom, Adam	3028	Conformational dynamics reveal translocation mechanism of Hsp104, a yeast AAA+ disaggregase.....57
Zhang, Cheng	3035	Ribosome labeling: a method for high-resolution structural analysis of small RNAs using cryoEM.....58
Zhao, Rui	3029 <i>e-poster</i>	CryoEM structure of the yeast spliceosomal P complex at 3.3 Å resolution, the last major piece of the missing puzzle in the splicing cycle.....58
Zhou, Keda	3030	Single particle cryoEM reveals the specific recognition of centromeric nucleosomes by CENP-N.....59
Zhou, Qiangjun	3031	The Primed SNARE-Complexin-Synaptotagmin Complex for Neurotransmitter Release.....59

Listing is in alphabetical order by presenter's last name.
Poster abstracts are viewable on the mobile app or on your Keystone Symposia online account.
