Monday **DAY 1**

We've gathered leaders in the industry to stage a full day of engaging 45-minute presentations sure to expand your thinking and generate new ideas. Choose from 27 detailed presentation topics across five tracks.

TECHNICAL PRESENTATIONS

ELECTRICAL SAFETY

- Root Cause Analysis for Electrical Safety 1
Dennis Neitzel, AVO Training Institute, Inc.
- Identifying Residual Risk from Electrical Hazards: Avoiding Pitfalls to Achieve Risk ALARP 7
H. Landis Floyd, Electrical Safety Group, Inc.
- Safety Tips for Qualified Persons 19
Jim White, Shermco Industries
- Risk Assessment in the Design Phase 27
Mike Doherty, eHazard
- A Program Within a Program 32
Terry Becker, Danatec Educational Services Ltd.
- Implementation of Human Performance Initiative: A Lessons-Learned Case Study 43
Rorry Phillips, Shermco Industries

EQUIPMENT

- The Importance of Condenser Type Bushing 49
Keith Hill, Doble Engineering Company
- Review of Medium-Voltage Asset Failure Investigations 74
William Higinbotham, EA Technology LLC
- A Customer's Perspective: Electrical Testing Agencies 91
Randall Sagan, MBUSI
- Don't Let a Bad Leak Spoil Your Day – The Latest Solutions for Online Leak Repair of Transformers, Circuit Breakers, and GIS 111
Jim Hackett, The Colt Group
- Application of OLPD Sensor Technologies 122
Michael Nie, Power Monitoring and Diagnostic Technology LTD.
- Proper Grounding to Avoid Disasters 138
David Brender, Copper Development Association, Inc.

RELIABILITY

- Performing Cable Diagnostics on MV Cables with Special Emphasis on Offline Partial Discharge 196
Craig Goodwin, HV Diagnostics
- Timing and Travel Analysis of Medium-Voltage Vacuum Circuit Breakers 218
Albert Livshitz, CE Power Engineered Services, LLC
- The Importance of Power Factor Testing SF₆ Gas Circuit Breakers 226
Jay Garnett, Doble Engineering Company
- The Art and Science of High-Voltage System Reliability in Industrial Applications 246
Alan Ross, SD Myers, Inc.

- The Differences Between Acceptance and Maintenance Testing of Medium-Voltage Distribution Power Circuits 251
Henning Oetjen, Megger
- How to Perform a Power Survey 262
Ross Ignall, Dranetz

TRANSFORMERS

- Transformer Oil Processing and Transformer Field Vacuum Dryout 279
Gregory Steeves, Baron USA
- A Review of Wye/Delta Transformer Connections and How It Affects Current and Voltage Measured on Both Sides of the Transformer 316
Todd Martin, Basler Electric
- Diagnostic Testing and Assessing Insulation System Life 334
Nicholas Perjanik, Weidmann Diagnostic Solutions, Inc.
- Applying Sweep Frequency Response Analysis and Leakage Reactance to Determine Mechanical Faults in a Power Transformer 343
Charles Sweetser, OMICRON electronics Corp. USA
- Transformer Insulation Field Diagnostics 1.0 355
Diego Robalino, Megger
- Narrow Band DFR Transformer Condition Assessment 370
Robert Breazeal, Southern California Edison Company

RELAYS

- Presentation of IEEE PSRC, WG I-25 Report 397
Will Knappek, OMICRON electronics Corp. USA
- Transformer Differential Testing & Commissioning 440
John Lane, Doble Engineering Company
- Who Has the 32? 451
Benjamin Kazimier, Basler Electric

A full moon over the Washington Memorial.
