# Index of Published Papers

These proceedings are printed directly from manuscripts provided by the authors. These papers express the findings and opinions of the authors and do not necessarily represent the findings and opinions of the International School of Hydrocarbon Measurement (ISHM). The inclusion of a manuscript does not imply endorsement or acceptance of a product therein. Furthermore, the material contained in this publication is for the exclusive use of ISHM. Any reuse of this information outside the School without the expressed written consent of ISHM is strictly prohibited.
