# 2018 3rd International Conference on Control and Robotics Engineering (ICCRE 2018)

## Table of Contents

|                                                                                                           |      |
|-----------------------------------------------------------------------------------------------------------|------|
| <b>Preface</b> .....                                                                                      | vii  |
| <b>Committees</b> .....                                                                                   | viii |
| <br><b>Robot Design and Development</b>                                                                   |      |
| Playing Chess with the Assistance of an Industrial Robot .....                                            | 1    |
| <i>Duško Lukač</i>                                                                                        |      |
| Development of Mobile Robot with Vision Inspection System and Three-axis Robot .....                      | 6    |
| <i>Jeng-Dao Lee, Yu-Hsiang Wu Ying-Jie Zhao, Li-Yin Chen, Han-I Chen</i>                                  |      |
| Expressive States with a Robot Arm using Adaptive Fuzzy and Robust Predictive Controllers .....           | 11   |
| <i>Liz Rincon, Enrique Coronado, Hansen Hendra, Julyando Phan, Zur Zainalkefli, Gentiane Venture</i>      |      |
| Multiple Moving Object Capturing in Autonomous Robot-Camera .....                                         | 16   |
| <i>Davood Pour Yousefian Barfeh, Hooman Esmailian, Mohammad Reza Mirzaee, Vladimir Mariano</i>            |      |
| Machine Learning Comparison for Step Decision Making of a Bipedal Robot .....                             | 21   |
| <i>Christos Kouppas, Qinggang Meng, Mark King, Dennis Majoe</i>                                           |      |
| A Self-reliance Assistive Tool for Disable People .....                                                   | 26   |
| <i>Ya-Ting Lee, Chian-Song Chiu, Li-Hu Jhang, Carlo Santiago</i>                                          |      |
| Inverse Dynamics of Different Upright Postures for the developed Bio-Inspired Reconfigurable Robot .....  | 31   |
| <i>Aaditya Chandramouli, P.V. Manivannan</i>                                                              |      |
| Model-based Process Planning for Milling Operations Using Industrial Robots .....                         | 37   |
| <i>Lars Lienenlücke, Lukas Gründel, Simon Storms, Christian Brecher</i>                                   |      |
| Obstacle Avoidance Method Based on the Movement Trend of Dynamic Obstacles .....                          | 45   |
| <i>Yutian Liu, Danjiang Chen, Shaozhong Zhang</i>                                                         |      |
| Design and Prototype of Monolithic Compliant Grippers for Adaptive Grasping .....                         | 51   |
| <i>Chih-Hsing Liu, and Chen-Hua Chiu</i>                                                                  |      |
| <br><b>Control Theory and Control Engineering</b>                                                         |      |
| Statistical Performance Analysis of Hypersonic Vehicle Attitude Control System .....                      | 56   |
| <i>Jiang Ruimin, Guo Jianguo</i>                                                                          |      |
| Finite-time Sliding Mode Based Terminal Area Guidance with Multiple Constraints .....                     | 60   |
| <i>Min Zhou, Jun Zhou, Zongyi Guo</i>                                                                     |      |
| Trajectory Multiobjective Optimization of Hypersonic Morphing Aircraft Based on Variable Sweep Wing ..... | 65   |
| <i>Wuyu Peng, Zhiwei Feng, Tao Yang, Bin Zhang</i>                                                        |      |
| The Electrical Effects of Iridium and Standard Spark Plug for Simple Spark Ignition Engine .....          | 70   |
| <i>Natthapol Chimpai, Jirawath Parnklang</i>                                                              |      |

|                                                                                                                     |     |
|---------------------------------------------------------------------------------------------------------------------|-----|
| Trajectory Tracking Control Strategy using Co-Reference for Rear-Steered Vehicle .....                              | 74  |
| <i>Anugrah K. Pamosoaji</i>                                                                                         |     |
| NURBS Path Tracking Control of a Scanning Mirror System Based on EtherCAT Fieldbus.....                             | 79  |
| <i>Ruei-Yu Huang, Chung-Wei Cheng, An-Chen Lee</i>                                                                  |     |
| Research and Comparison of Automatic Control Algorithm for Unmanned Ship.....                                       | 85  |
| <i>Bao Yao, Jie Yang, Qingnian Zhang, Zhiqiang Guo, Rong Hu</i>                                                     |     |
| Applying Radar Chart for Process Control Behavior .....                                                             | 90  |
| <i>Sawai Pongswatd, Krit Smerpitak</i>                                                                              |     |
| Modeling and Co-Simulation of Actuator Control for Lower Limb Exoskeleton .....                                     | 94  |
| <i>Norazam Aliman, Rizauddin Ramli, Sallehuddin Mohamed Haris</i>                                                   |     |
| On a New Adaptive Multivariable Twisting Sliding Mode Control Approach and Its Application .....                    | 99  |
| <i>Zongyi Guo, Jinlong Zhao, Min Zhou, and Jun Zhou</i>                                                             |     |
| Feedforward Hybrid Control Using Foundation Fieldbus: A Case Study of Temperature Control with Delta V System ..... | 104 |
| <i>Pittaya Pannil, Sutee Jaroenla, Amphawan Julsereewong, Sart Kumool</i>                                           |     |
| Consensus of Second-order Multi-agent Systems with Time Delays.....                                                 | 109 |
| <i>Chunyang Chen, Zhiguo Wang, Liqiang Jin, Yanyan Yinb, Fei Liu</i>                                                |     |
| Switching Sliding Mode Control for Systems with Unknown Time-Varying Control Direction .....                        | 114 |
| <i>Jinlong Zhao, Zongyi Guo, and Jun Zhou</i>                                                                       |     |
| Discrete-Time PIDA Controller Designed by Tustin's Method with and without Frequency Pre-warping .....              | 119 |
| <i>Prapart Ukakimaparn, Mathee Khwunthong, Thanit Trisuwannawat, Pittaya Pannil</i>                                 |     |
| Min-Max Merged with Quadratic Cost for Repetitive Control of Minimum Phase Systems .....                            | 125 |
| <i>Pitcha Prasitmeeboon</i>                                                                                         |     |
| <b>Modern Electronic Information Technology and Application</b>                                                     |     |
| Research on Image Detection and Matching Based on SIFT Features.....                                                | 130 |
| <i>Feng Guo, Jie Yang, Yilei Chen, Bao Yao</i>                                                                      |     |
| Modeling and Implementation of High-Gain Coupled-Inductor Switched-Capacitor Step-Up DC-DC Converter .....          | 135 |
| <i>Yuen-Haw Chang, Jia-Syun Lin</i>                                                                                 |     |
| Two-Input Two-Output Current-Mode Universal Biquad Using Only VDTAs and Grounded Capacitors.....                    | 139 |
| <i>Pitchayanin Moonmuang, Praty Mongkolwai, Worapong Tangsrirat</i>                                                 |     |
| Linearly Tunable CMOS VDBA Design.....                                                                              | 143 |
| <i>Natchanai Roongmuanpha, Tattaya Pukkalanun, Worapong Tangsrirat</i>                                              |     |
| Concept Development Stage of Hyper Sensitivity Dynamic Airflow Sensor in Low Velocity Region .....                  | 147 |
| <i>Mohamad Dzulhelmy bin Amari, Sukarnur Che Abdullah, Muhammad Azmi Ayub</i>                                       |     |
| Performance Comparison of Bit-Level Median Filtering Circuits Based on Binary Search Algorithm .....                | 151 |
| <i>Anan Wongjan, Amphawan Julsereewong, Kei Eguchi</i>                                                              |     |
| Analog Median Filtering Circuit Using CMOS Three-Input Max/Min Cell.....                                            | 155 |
| <i>Anan Wongjan, Amphawan Julsereewong, Tipparat Junsing</i>                                                        |     |
| Hydropower Plant Generator System.....                                                                              | 160 |
| <i>Sirichai Tammaruckwattana, Saravut Reangkittakarn, and Apinai Rerkratn</i>                                       |     |
| Reliability Modeling for Integrated BPCS and ESD System Case Study: A twophase gas-liquid separator process .....   | 165 |
| <i>Teerawat Thepmanee</i>                                                                                           |     |

|                                                                                                                                                |     |
|------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Research and Application of High Robust Automatic Mesh Deformation Technique .....                                                             | 169 |
| <i>Bin Zhang, Zhiwei Feng, Tao Yang, Jianquan Ge, Wuyu Peng</i>                                                                                |     |
| Multi-person Speech Interaction for Tele-science Experiments.....                                                                              | 173 |
| <i>Taotao Fu, Ge Yu, Lili Guo, Ji Liang</i>                                                                                                    |     |
| Effect of Vertical Vibrations on Human Postural Balance.....                                                                                   | 178 |
| <i>Mahboubeh Keyvanara, Mohammad Jafar Sadigh</i>                                                                                              |     |
| A Machine Vision Assisted Mechatronic Seed Meter for Precision Planting of Corn.....                                                           | 183 |
| <i>Adrian A. Borja, Rossana Marie C. Amongo, Delfin C. Suministrado and Jaderick P. Pabico</i>                                                 |     |
| Resistorless Current-mode Universal Filter using Current Differencing Cascaded Transconductance Amplifiers .....                               | 188 |
| <i>Danupat Duangmalai, Winai Jaikla</i>                                                                                                        |     |
| Electronically Controllable First-order Multifuntion Filter with Using Single Active Building Block.....                                       | 192 |
| <i>Kobkiat Chinpark, Winai Jaikla, Surapong Siripongdee, Peerawut Suwanjan</i>                                                                 |     |
| Research on Fault Current Limiter Based on Fast Switching Technology.....                                                                      | 196 |
| <i>Huating Jiang, Lijun Qin</i>                                                                                                                |     |
| New Realization of Single CFCTA-Based Voltage-Mode Multifunction Filter.....                                                                   | 201 |
| <i>Chaiyan Chanapromma, Winai Jaikla, Amornchai Chaichana</i>                                                                                  |     |
| <b>Wireless Communication and Data Transmission</b>                                                                                            |     |
| Design and Improvement of Wireless Crayfish Breeding System by Controlling Water Temperature and Monitoring pH via Cloud System Services ..... | 205 |
| <i>Thongchai Photsathian, Thitiporn Suttikul, Worapong Tangsrirat</i>                                                                          |     |
| Integration of WirelessHART Devices Into Mitsubishi PLC For Plant Monitoring.....                                                              | 209 |
| <i>Apinai Rerkratn, Issara Laosuwan, Sirichai Tammaruckwattana, Jirawath Parnklang</i>                                                         |     |
| LDPC-Coded OFDM-System with BPSK Modulation-Performance Comparison with Uncoded OFDM System .....                                              | 213 |
