2018 IEEE International Conference on Energy Internet ICEI 2018

Table of Contents

Message from the ICEI 2018 Chairs .xiii.....	
ICEI 2018 Conference Organizers .xiv.....	
ICEI 2018 Regular Session Overviews .xv.....	

Session 1: Architecture and System Design of Energy Internet

Preliminary Study on Planning and Design of Urban Intelligent Energy System .1.....	
<i>Xue Wang (State Grid Energy Research Institute Co.), Xin Chen (State Grid Energy Research Institute Co.), Yizhe Jiang (State Grid Energy Research Institute Co.), and Gang Lu (State Grid Energy Research Institute Co.)</i>	
The Construction of User Centric Service System of Energy Internet .7.....	
<i>Cuifen Bai (State Grid Energy Research Institute Co.), Lu Zhang (State Grid Shaanxi Electric Power Economic Research Institute), Runqiu Li (State Grid Shaanxi Electric Power Economic Research Institute), Yikun Jiao (State Grid Shaanxi Electric Power Economic Research Institute), Yan Zhang (State Grid Energy Research Institute Co.), and Xinyang Han (State Grid Energy Research Institute Co.)</i>	
Design and Application of Standardized Power and Communication Module for Energy Router .13.....	
<i>Chuantong Hao (Tsinghua University) and Junwei Cao (Tsinghua University)</i>	
The Application of Power Grid Equipment Plug and Play Based on Wide Area SOA .19.....	
<i>Zhenyu Chen (China Electric Power Research Institute), Dapeng Li (China Electric Power Research Institute), Zhaoyun Deng (State Grid Fujian Electric Power Company), Xingyu Gao (Institute of Microelectronics), Fangchun Di (China Electric Power Research Institute), and Qiaoyun Xie (State Grid Fujian Electric Power Company)</i>	
Definition and Framework Study for Aggregator of PEVs as Controllable Load in V2G Technology .24.....	
<i>Lin Liu (State Grid Energy Research Institute Co.) and Jun Zhang (State Grid Energy Research Institute Co.)</i>	
Energy Management Model of Charging Station Micro-Grid Considering Random Arrival of Electric Vehicles .29.....	
<i>Wenhua Li (Nation University of Defense Technology), Tao Zhang (Nation University of Defense Technology), and Rui Wang (Nation University of Defense Technology)</i>	
A Hierarchical Decision Architecture for Network-Assisted Automatic Driving .35.....	
<i>Yunqiu Xiao (China Mobile Communications Group Co.) and Dakai Ren (China Mobile Communications Group Co.)</i>	

Session 2: Energy Market, Energy Trading and Economical Optimization of Energy Internet

Research on Modes of Energy Utilization in Regional Energy Internet .38.....	38
<i>Yongqiang Zhu (North China Electric Power University), Na Zhao (North China Electric Power University), Shaoqian Zhang (North China Electric Power University), and Wanjun Wang (North China Electric Power University)</i>	
Design of Carbon Emission Trading Market Mechanism Based on Integrated Energy Service Providers' Participation .43.....	43
<i>Bo Qu (China Electric Power Research Institute), Wei Huang (China Electric Power Research Institute), Xinhe Zhang (China Electric Power Research Institute), and Yunting Yao (Southeast University)</i>	
A Visualization Compression Algorithm Considering Interactive Structure for Energy Trading of Microgrid System .49.....	49
<i>Yidi Shen (Beijing University of Posts and Telecommunications), Xiangming Wen (Beijing University of Posts and Telecommunications), Luhan Wang (Beijing University of Posts and Telecommunications), and Wanqing Guan (Beijing University of Posts and Telecommunications)</i>	
Pricing Mechanism of Integrated Energy Services Based on User Demand Analysis .55.....	55
<i>Hongkun Bai (State Grid Henan Electric Power Corporation of China), Jingwen Wang (Sichuan University), Xiaopeng Yu (State Grid Henan Electric Power Corporation of China), Wenfeng Li (State Grid Henan Electric Power Corporation of China), Yuanpeng Hua (State Grid Henan Electric Power Corporation of China), Jiangbo Wang (State Grid Henan Electric Power Corporation of China), Meng Yang (State Grid Henan Electric Power Corporation of China), Shuo Yin (State Grid Henan Electric Power Corporation of China), and Fangzhao Deng (State Grid Henan Electric Power Corporation of China)</i>	
Capacity Allocation for Regional Integrated Energy System Considering Typical Day Economic Operation.60...	60
<i>Zejian Liu (South China University of Technology), Ping Yang (South China University of Technology), Jiajun Peng (South China University of Technology), Wenzhi Lin (South China University of Technology), and Chao Ji (South China University of Technology)</i>	
A Novel Power System Source-Grid-Load Coordinated Planning Model Considering Both Efficiency Power Plant and Demand Response .66.....	66
<i>Ning Zhang (State Grid Energy Research Institute) and Zhaoguang Hu (State Grid Energy Research Institute)</i>	
Joint Adjustment of Emergency Demand Response Considering Data Center and Air-Conditioning Load .72.....	72
<i>Yongxian Yi (Jiangsu Electric Power Company Research Institute), Aixia Zheng (Jiangsu Electric Power Company Research Institute), Xuesong Shao (Jiangsu Electric Power Company Research Institute), Gaoying Cui (Jiangsu Electric Power Company Research Institute), Gang Wu (Southeast University), Gege Tong (Southeast University), and Ciwei Gao (Southeast University)</i>	

Session 3: Renewable Energy Generation and Control in Energy Internet

Sizing and Siting Strategy of Dispersed Wind Farm for Reducing Network Loss and Improving Loadability .77.....	
<i>Chunsheng Wang (State Grid Liaoning Electric Power Company Limited Economic Research Institute), Xiao Pan (State Grid Liaoning Electric Power Company Limited Economic Research Institute), Yan Liu (State Grid Liaoning Electric Power Company Limited Economic Research Institute), Xinyang Deng (State Grid Liaoning Electric Power Company Limited Economic Research Institute), Jia Cui (Shenyang University of Technology), and Qiwei Wang (Shenyang University of Technology)</i>	
Adaptive Zone-Division AVC Method Based on Reactive Power Margin Evaluation for Wind Farm .83.....	
<i>Yang-Wu Shen (State Grid Hunan Electric Power Institute), Bin Zhang (State Grid Hunan Electric Power Institute), Liqing Liang (State Grid Hunan Electric Power Institute), Yushi Feng (Hunan University), Yu Rao (Changsha University), and Jian Zuo (State Grid Hunan Electric Power Institute)</i>	
Distribution Network Voltage Control with High Proportion of Photovoltaic Generation .89.....	
<i>Kai Che (State Grid Jiangsu Power Supply Company), Minxiu Wu (State Grid Jiangsu Power Supply Company), Lin Li (Key Laboratory of Smart Grid of Ministry of Education, Tianjin University), and Shengchi Yan (China Electric Power Research Institute Co.)</i>	
A Transient Control Strategy of Distributed PV during Three-Phase Short Fault .94.....	
<i>Yang-Wu Shen (State Grid Hunan Electric Power), Liqing Liang (State Grid Hunan Electric Power), Yongyan Liu (State Grid Hunan Electric Power), Bin Zhang (State Grid Hunan Electric Power), Chen Zhang (Wuhan University), and Ting Cui (State Grid Hunan Electric Power)</i>	
Peak Regulation Strategy of Regional Power Systems for Large-Scale Renewable Generation Accommodation .99.....	
<i>Tianhui Meng (State Key Laboratory of Operation and Control of Renewable Energy and Storage Systems & Harbin Institute of Technology), Minhui Qian (State Key Laboratory of Operation and Control of Renewable Energy and Storage Systems), Dawei Zhao (State Key Laboratory of Operation and Control of Renewable Energy and Storage Systems), Ning Chen (State Key Laboratory of Operation and Control of Renewable Energy and Storage Systems), Ningbo Wang (Wind Generation Technology Center), and Wei Zhang (Harbin Institute of Technology)</i>	
Optimization of Generator Starting Scheme Including Multiple DC Converter Stations .105.....	
<i>Chengqian Lin (Shandong University) and Hongtao Wang (Shandong University)</i>	

Session 4: Power Storage and Dispatch in Energy Internet

Active Power Analysis for the Battery Energy Storage Systems Based on a Modern Cascaded Multilevel Converter .111.....	
<i>Abuzaid Saeed Gadalla (North China Electric Power University), Xiangwu Yan (North China Electric Power University), and Hashim Hasabelrasul (North China Electric Power University)</i>	

Research on the Detection of Capacity and Capacity Fading of Li-Ion Battery of Electric Vehicles Based on Tomographic Imaging .117.....	
<i>Junwei Hou (South China University of Technology) and Lifu Li (South China University of Technology)</i>	
An Energy Storage Capacity Determination Model of Electric Vehicle Aggregator Considering the Real-Time Response State .123.....	
<i>Kai Yuan (State Grid Economic and Technological Research Institute Co. Ltd.), Yi Song (State Grid Economic and Technological Research Institute Co. Ltd.), Yapeng Zhang (Key Laboratory of Smart Grid of Ministry of Education), Zhen Huang (State Grid Xinjiang Electric Power Co. Ltd.), Chongbo Sun (State Grid Economic and Technological Research Institute Co. Ltd.), and Zhanli Xing (State Grid Xinjiang Electric Power Co. Ltd.)</i>	
Optimal Allocation of Generalized Power in Energy Internet Based on Time-Sequence Characteristics .128.....	
<i>Huiyu Zhang (State Grid Fujian Electric Power Research Institute), Daoshan Huang (State Grid Fujian Electric Power Research Institute), Yan Lin (State Grid Fujian Electric Power Research Institute), Fang Lin (State Grid Fujian Electric Power Research Institute), Yi Zhang (Fuzhou University), Xubin Zhang (Fuzhou University), and Weiming Li (Fuzhou University)</i>	
Optimal Power Dispatch Considering Deep Cycling and Carbon Emission for Wind-Coal Intensive Power Systems .134.....	
<i>Minhui Qian (State Key Laboratory of Operation and Control of Renewable Energy and Storage Systems), Dawei Zhao (State Key Laboratory of Operation and Control of Renewable Energy and Storage Systems), Wei Zhang (Harbin Institute of Technology), Ning Chen (State Key Laboratory of Operation and Control of Renewable Energy and Storage Systems), Zhao Chen (Wind Generation Technology Center), Yanhong Ma (State Grid Gansu Electric Power Company), and Tianhui Meng (Harbin Institute of Technology)</i>	
Hierarchical and Distributed Optimal Dispatch for Coupled Transmission and Distribution Systems Considering Wind Power Uncertainty .140.....	
<i>Xu Zhang (Key Laboratory of Power System Intelligent Dispatch and Control of Ministry of Education) and Hongtao Wang (Key Laboratory of Power System Intelligent Dispatch and Control of Ministry of Education)</i>	

Session 5: The Application of Big Data Techniques in Energy Internet

Energy Load Forecasting Using Deep Learning .146.....	
<i>Cristina Heghedus (University of Stavanger), Antorweep Chakravorty (University of Stavanger), and Chunming Rong (University of Stavanger)</i>	
Power Load Forecasting Based on Improved Elman Neural Network .152.....	
<i>Xi Han (North China University of Technology), Xuelian Li (North China University of Technology), Hui Zhao (North China University of Technology), and Wenle Bai (North China University of Technology)</i>	

Electrical Load Prediction in Energy Internet via Linear Correlation Coefficient Approach .157.....	<i>Yangyang Ming (Tsinghua University) and Junwei Cao (Tsinghua University)</i>
Household EV Charging Demand Prediction Using Machine and Ensemble Learning .163.....	<i>Songpu Ai (University of Stavanger), Antorweep Chakravorty (University of Stavanger), and Chunming Rong (University of Stavanger)</i>
Image Embedding of PMU Data for Deep Learning Towards Transient Disturbance Classification .169.....	<i>Yongli Zhu (University of Tennessee), Chengxi Liu (University of Tennessee), and Kai Sun (University of Tennessee)</i>
A Fault-Tolerant Data Acquisition Scheme with MDS and Dynamic Clustering in Energy Internet .175.....	<i>Xin Chen (Beijing University of Posts and Telecommunications), Xiangming Wen (Beijing University of Posts and Telecommunications), Luhan Wang (Beijing University of Posts and Telecommunications), and Wenpeng Jing (Beijing University of Posts and Telecommunications)</i>
Research and Implementation of Data Storage Backup .181.....	<i>Yongmin Zhao (China Telecom Co. Ltd.) and Ning Lu (Beijing University of Posts and Telecommunications)</i>
Security Risk Analysis and Security Technology Research of Government Public Data Center .185.....	<i>Wendong Wang (China Telecom Co. Ltd.) and Ning Lu (Beijing University of Posts and Telecommunications)</i>

Session 6: Information and Communication Techniques in Energy Internet

Optimal Planning of Smart Grid Communication Network for Interregional Wide-Area Monitoring Protection and Control System .190.....	<i>Feng Qi (State Key Laboratory of Networking and Switching Technology, Beijing University of Posts and Telecommunications), Peng Yu (State Key Laboratory of Networking and Switching Technology, Beijing University of Posts and Telecommunications), Bin Chen (State Key Laboratory of Networking and Switching Technology, Beijing University of Posts and Telecommunications), WenJing Li (State Key Laboratory of Networking and Switching Technology, Beijing University of Posts and Telecommunications), Qiang Zhang (Beijing SmartChip Microelectronics Company Limited), Dan Jin (GanSu Electric Power Corporation), Geng Zhang (China Electric Power Research Institute), and Yang Wang (China Electric Power Research Institute)</i>
Performance Monitoring Nodes Deployment Strategies for Power Wireless Private Networks Based on Improved Mixed Greedy Algorithm .196.....	<i>Zhuozhi Yu (State Grid Grid Information and Telecommunication Group), Yefeng Zhang (State Grid Grid Information and Telecommunication Group), Yukun Zhu (State Grid Grid Information and Telecommunication Group), Daohua Zhu (Electric Power Research Institute, State Grid Jiangsu Electric Power Company), and Peng Lin (Beijing Vectinfo Technologies Company)</i>

Adaptive Resource Allocation Scheme for Wireless Cellular Networks .202.....	
<i>Yue Wang (Beijing Key Laboratory of Network System Architecture and Convergence, Beijing University of Posts and Telecommunications), Jiansong Miao (Beijing Laboratory of Advanced Information Networks, Beijing University of Posts and Telecommunications), Xinyu Liang (Beijing University of Posts and Telecommunications), and Jianmin Wang (The 6th Research Institute of China Electronics Corporation)</i>	
Discussion and Testing of 802.11ah Wireless Communication in Intelligent Substation .208.....	
<i>Zhe Zheng (Global Energy Interconnection Research Institute Co. Ltd.), Lei Qiao (Global Energy Interconnection Research Institute Co. Ltd.), Liang Wang (Global Energy Interconnection Research Institute Co. Ltd.), Wenpeng Cui (Global Energy Interconnection Research Institute Co. Ltd.), and Jinghong Guo (Global Energy Interconnection Research Institute Co. Ltd.)</i>	
Markov Chain Based on Path Selection in the Heterogeneous Internet of Things Model .213.....	
<i>Huan Wu (Beijing University of Posts and Telecommunications), Xiangming Wen (Beijing University of Posts and Telecommunications), Zhaoming Lu (Beijing University of Posts and Telecommunications), and Shuyang Huang (Beijing University of Posts and Telecommunications)</i>	
Dynamic Backoff Based Access Mechanism for LoRaWAN Class A .219.....	
<i>Pengyu Yuan (Beijing University of Posts and Telecommunications), Xiangming Wen (Beijing University of Posts and Telecommunications), Zhaoming Lu (Beijing University of Posts and Telecommunications), and Qi Pan (Beijing University of Posts and Telecommunications)</i>	
Crosstalk Permission-Based Access Scheme for High-Speed Narrowband Power Line Communication Networks... 224	
<i>Wenjing Liu (State Grid Information and Telecommunication Branch), Suxiang Zhang (State Grid Information and Telecommunication Branch), Weichun Ge (State Grid Liaoning Electric Power Supply Co. Ltd.), Kunya Guo (State Grid Liaoning Electric Power Supply Co. Ltd.), and Zhenjiang Lei (State Grid Liaoning Electric Power Supply Co. Ltd.)</i>	
An Improved TPSN Algorithm Based on Doze Mechanism .230.....	
<i>Wenpeng Cui (Global Energy Interconnection Research Institute Co. Ltd.), Zhe Zheng (Global Energy Interconnection Research Institute Co. Ltd.), Lei Qiao (Global Energy Interconnection Research Institute Co. Ltd.), Weilong Zhang (State Grid Key Laboratory of Information & Network Security, State Grid Laboratory of Electric Power Communication Network Technology), and Liang Wang (State Grid Key Laboratory of Information & Network Security, State Grid Laboratory of Electric Power Communication Network Technology)</i>	

Session 7: Stability, Security, and Efficiency of Power System in Energy Internet

Outage Management Strategy for Multi-Microgrids Considering Uncertain Islanding Duration .235.....	
<i>Xiaodong Yang (Zhejiang University of Technology), Guofeng Wang (Zhejiang University of Technology), Youbing Zhang (Zhejiang University of Technology), Xiangzhi Xu (Zhejiang University of Technology), and Zhicheng Xu (State Grid Corporation of China)</i>	

Fault Characteristics Study of VSC Converter and Protection Design in DC Microgrids .241.....	
<i>Ranran Xie (Shandong University), Qing Chen (Shandong University), Zhiming Zhang (Shandong University), Shengwen Zhou (Guohua Energy Investment Co.), Chuanxin Xi (State Grid HangZhou Power Supply Company), and Lei Wang (State Grid Weifang Power Supply Company)</i>	
Power System Transient Stability Assessment Based on Voltage Phasor and Convolution Neural Network .247.	
<i>Jinxiu Hou (China Electric Power Research Institute), Chang Xie (China Electric Power Research Institute), Tianyue Wang (North China Electric Power University), Zhihong Yu (China Electric Power Research Institute), Ying Lü (China Electric Power Research Institute), and Hongyang Dai (China Electric Power Research Institute)</i>	
Blackout Risk Assessment of Cascading Outages Considering Wind Power Uncertainty .252.....	
<i>Di Xu (Shandong University) and Hongtao Wang (Shandong University)</i>	
An Early Warning Analysis Technique of Electric Equipment Temperature Based on Association Rule Mining .258.....	
<i>Ningzhe Xing (State Grid Jibei Electric Power Co.), Jiaojiao Zhang (State Grid Jibei Electric Power Co.), Ran Yu (State Grid Jibei Electric Power Co.), and Jiming Yao (Global Energy Interconnection Research Institute Co.)</i>	
Network Behavior Abnormal Detection for Electricity Management System Based on Long Short-Term Memory .264.....	
<i>Jiye Wang (State Grid Corporation of China) and Bingfeng Cui (State Grid Corporation of China)</i>	
Research and Application of Transient Step Current Source for DC Current Transformer On-Site Transient Performance Calibration .269.....	
<i>Fubin Pang (State Grid Jiangsu Electric Power Co. Ltd. Research Institute), Yu Liu (State Grid Jiangsu Electric Power Co. Ltd. Research Institute), Qiangsheng Bu (State Grid Jiangsu Electric Power Co. Ltd. Research Institute), and Qiang Luo (Jiangsu Lingchuang Electric Automation Co. Ltd.)</i>	
Energy Efficiency Analysis of Building System Based on Air-Source Heat Pump Considering Comfortability .275.....	
<i>Yanan Nan (State Grid Tianjin Electric Power Company), Fei Teng (State Grid Tianjin Electric Power Company), Shen Shi (State Grid Tianjin Electric Power Company), Xianxu Huo (State Grid Tianjin Electric Power Company), Jie Song (Nari Technology Development Limited Company), Lijia Du (Tianjin University), and Xianjun Meng (Tianjin University)</i>	

Session 8: Management, Control, and Scheduling of Power System in Energy Internet

A Potential Solution for Intelligent Energy Management - Knowledge Graph .281.....	
<i>Xiang Wang (China Electronics Technology Group Corporation), Chao Ma (China Electronics Technology Group Corporation), Peiyun Liu (China Electronics Technology Group Corporation), Bowen Pan (China Electronics Technology Group Corporation), and Zilu Kang (China Electronics Technology Group Corporation)</i>	

A Multi-Time Scale Robust Energy Management Scheme for Grid-Connected Micro-Grid .287.....	
<i>Yang Chen (National University of Defense Technology), Yajie Liu (National University of Defense Technology), Tao Zhang (National University of Defense Technology), and Mengyan Zhai (National University of Defense Technology)</i>	
Deep Learning-Based Distributed Optimal Control for Wide Area Energy Internet .292.....	
<i>Gang Yang (Tsinghua University), Junwei Cao (Tsinghua University), Haochen Hua (Tsinghua University), and Ziqiang Zhou (State Grid Zhejiang Electric Power Company)</i>	
Voltage Control of Distribution Network with Distributed Generation Based on Voltage Sensitivity Matrix .298.....	
<i>Qiong Tao (China Electric Power Research Institute), Deshun Wang (China Electric Power Research Institute), Bo Yang (China Electric Power Research Institute), Huan Liu (China Electric Power Research Institute), and Shengchi Yan (China Electric Power Research Institute)</i>	
LCC-HVDC Supplementary Controller Design Based on Global Fast Terminal Sliding Mode Control .303.....	
<i>Qipu Liu (Hohai University), Guoqiang Sun (Hohai University), Weizhi Nong (Hohai University), Zijie Lin (Hohai University), Xiaochen Tang (NARI Group Corporation), and Jia Yang (NARI Group Corporation)</i>	
A NSGA Based On-Site Operation and Maintenance Smart Scheduling Method .309.....	
<i>Hongfei Xu (State Grid Jibei Electric Power Co.), Meng Yu (State Grid Jibei Electric Power Co.), Yanlei Zhang (State Grid Jibei Electric Power Co.), Qi Qian (Nanrui Group Company), and Wenhao Zhang (Beijing University of Posts and Telecommunications)</i>	
Coordinated Optimal Scheduling of Multi-energy Microgrid Considering Uncertainties .315.....	
<i>Zipeng Yang (Shandong University), Feng Zhang (Shandong University), Guibin Wang (Shenzhen University), and Ke Meng (University of New South Wales)</i>	
Stochastic Multi-Objective Scheduling Approach for Integrated Community Energy System .321.....	
<i>Haiyun An (State Grid Jiangsu Electric Power Research Institute), Wei Lin (Tianjin University), Xiaolong Jin (Tianjin University), Qian Zhou (State Grid Jiangsu Electric Power Research Institute), and Bingcheng Cen (State Grid Jiangsu Electric Power Research Institute)</i>	
Author Index 327.....
