

# **Pipelines 2018**

**Condition Assessment, Construction,  
and Rehabilitation**

Proceedings of Sessions of the Pipelines 2018 Conference

**Toronto, Canada  
15 – 18 July 2018**

**Editors:**

**Christopher C. Macey  
Jason S. Lueke**

ISBN: 978-1-5108-6814-4

# Contents

## *Asset Management*

|   |           |
|---|-----------|
| <b>Defect Based Risk Assessment Model for Prioritizing Inspection of Sewer Pipelines.....</b>                                 | <b>1</b>  |
| M. Elmasry, A. Hawari, and T. Zayed   |           |
| <b>An Innovative Approach to Prioritization of the Miami-Dade Water and Sewer Department Water Transmission Mains .....</b>   | <b>10</b> |
| Olena Lytvyn and Robert J. Card   |           |
| <b>Asset Renewal Forecasting for Water Main Replacement Program .....</b>   | <b>24</b> |
| Derek Gardels, Nathan Casey, Dan Klopfer, Dave Spencer,<br>and Mark Duben   |           |
| <b>Calgary Feedermain Inspection Program .....</b>  | <b>32</b> |
| Joanna M. Line and Mike Wrigglesworth   |           |
| <b>Mitigating the Hidden Costs of Pipeline Sediment Deposition .....</b>  | <b>40</b> |
| Jason Ward, Eric Engelskirchen, Nick Landes, Travis Markham,<br>and Travis Williams   |           |
| <b>Advanced Asset Management for Force Main and Gravity Pipe Infrastructure Systems .....</b>                                 | <b>48</b> |
| Berk Uslu, Sunil K. Sinha, and Walter L. Graf   |           |
| <b>Remaining Life Determination and Risk Management Decision Support for Wastewater Pipes with External Inspections .....</b> | <b>57</b> |
| Berk Uslu and Robert Abernethy  |           |
| <b>City of Hamilton Approach to the Management of Critical Watermain Infrastructure .....</b>                                 | <b>65</b> |
| Mike Zantingh   |           |
| <b>Criticality Model to Prioritize Pipeline Rehabilitation Decisions .....</b>  | <b>75</b> |
| Khalid Kaddoura and Tarek Zayed   |           |
| <b>Integrated Asset Management Planning of Wastewater Collection and Treatment Systems .....</b>                              | <b>86</b> |
| H. Mohammadifardi, M. A. Knight, and A. J. A. Unger   |           |
| <b>Consequence of Failure of Sewers (COFS) Model for Risk-Based Asset Management Using Analytical Hierarchy Process .....</b> | <b>95</b> |
| Greta J. Vladeanu and John Matthews   |           |

|  |            |
|--|------------|
| <b>Using Probabilistic and Deterministic Modeling Techniques to Relate Funding to Service Levels to Drive a Water Main Rehabilitation Program in Toronto, Canada.....</b>              | <b>105</b> |
| Chris Macey, James Davidson, and Matthew Coleman   |            |
| <b>Proactive Management Strategy for Critical Buried Infrastructure.....</b>   | <b>116</b> |
| Glen White and Heather Edwards   |            |
| <b>Water Main Criticality Scoring and GIS Centric Risk Mitigation: Applying GIS Spatial Analysis Tools and Apps for Greater Insight for High Risk Underground Infrastructure .....</b> | <b>124</b> |
| Gregory M. Baird, Dinorah G. Sanchez, and Becky Tamashasky   |            |

*Coatings*

|   |            |
|---|------------|
| <b>Long-Term Weathering Effects of Pipeline Coatings.....</b>   | <b>133</b> |
| Jeff Giddings, Jose Pena, Matt Gaughan, and Ed Weaver   |            |
| <b>Gloss and Color Changes during Exposure of Polyurethane Coatings for Steel Water Pipes and Their Possible Link to Long-Term Corrosion Protection .....</b> | <b>144</b> |
| Stuart Croll, Chunju Gu, Vinod Upadhyay, and Brent Keil   |            |
| <b>Accelerated Degradation Test on Coating Materials for Steel Pipes .....</b>  | <b>154</b> |
| Johnnatan Garcia-Ruiz, Shad Sargand, and Teruhisa Masada  |            |

*Condition Assessment*

|   |            |
|---|------------|
| <b>Condition Assessment of Concrete Bar-Wrapped Cylinder Pipe, the Next Phase of San Diego County Water Authority's Asset Management Program.....</b> | <b>163</b> |
| Martin R. Coghill, Nathan D. Faber, Andi Corrao, and Chris Garrett  |            |
| <b>Howard County Pilots Condition Assessment Technology for Critical Metallic Mains.....</b>  | <b>172</b> |
| Paul DiMarco, Jorge Rodriguez, Grant McDaniel, and Allison Stroebele  |            |
| <b>Application of Pipe Penetrating Radar for Asbestos Cement Pipe Condition Assessment.....</b>   | <b>183</b> |
| Csaba Ékes  |            |
| <b>Assessing the Effectiveness of Acoustic Wall Thickness Technology through Meta-Analysis .....</b>  | <b>191</b> |
| Balvant Rajani, Fred Pfeifer, and Donald Shields  |            |

|  |            |
|--|------------|
| <b>Condition Assessment of Wastewater Treatment Plant Piping: Risk Based Planning for Cost Effective Decisions .....</b>                                   | <b>200</b> |
| Jose L. Villalobos, Clinton McAdams, and Noy Phannavong  |            |
| <b>Hot Tapping Facilitates 36-Inch PCCP Condition Assessment as a Sustainable Approach to Save \$15 Million in Immediate Maintenance Expenditures.....</b> | <b>207</b> |
| Charles Herckis  |            |
| <b>The City of Ottawa's Approach to Minimizing Risk through Its Condition Assessment Program.....</b>  | <b>220</b> |
| Amanda Shane and Hamid Goorkani  |            |
| <b>North Fork Siphon Condition Evaluation .....</b>  | <b>230</b> |
| M. Gibbons, B. Buehler, A. E. Romer,<br>C. Macey, and D. Champenois  |            |
| <b>A Comprehensive Condition Assessment of a High Risk Coastal Force Main: Comox Valley Regional District Case Study .....</b>                             | <b>239</b> |
| Kris La Rose, Vasilis Sagiannos, and Justin Hebner   |            |
| <b>A Comparison of Technologies for a “One of a Kind” Pipeline: Condition Assessment of the 46” Transmission Main in Grand Rapids, MI.....</b>             | <b>249</b> |
| Britton Evans, Bryon Livingston, and Alex Fleet  |            |
| <b>Investigation of Acoustic Wave Propagation and Attenuation in a Damaged Buried Pipe .....</b>   | <b>259</b> |
| Ashkan Khalili, Alavinasab, Marshall Kennedy, and Cameron White  |            |
| <b>River Crossing Inspections—Balancing Risk with the Need to Obtain Advanced Pipeline Condition Assessment Data.....</b>                                  | <b>269</b> |
| Chris Macey, Adam Braun, Mike Gaudreau, Marv McDonald,<br>and Jordan Thompson  |            |
| <b>Condition Assessment and Asset Preservation Rationalization for the St. Paul Regional Water Services (SPRWS) in St. Paul, MN .....</b>                  | <b>280</b> |
| Chris Macey, Marshall Gibbons, Tom Degen, Rich Hibbard,<br>and David Wagner  |            |
| <b>Air Pocket Detection in Water and Wastewater Conveyance Pipelines Using Inverse Transient Analysis.....</b>   | <b>294</b> |
| Ahmad Malekpour and Yuntong She  |            |
| <i>Corrosion</i>   |            |
| <b>Twenty Years of Protecting Concrete in Sewers.....</b>  | <b>303</b> |
| William E. Shook   |            |

|  |            |
|--|------------|
| <b>Pilot Study—Biogenic Corrosion Mitigation Alternatives for Trunk Sanitary Sewers in the Region of Peel.....</b> | <b>312</b> |
| Graeme Henderson, Kevin Waher, David Mutombo, Ajay Puri,<br>and Simon Hopton                                       |            |

*Design*

|   |            |
|---|------------|
| <b>An Unexpected Reducer: Engineering a Pipe Connection Solution in the Field .....</b> | <b>321</b> |
| R. Pierce Smith, Justin C. Reeves, and J. Warren Green                                  |            |

|  |            |
|--|------------|
| <b>Evaluation of Structural Design Methodologies for Large Diameter Pipeline Renewal Design.....</b> | <b>327</b> |
| Zahra Kohankar Kouchesfehani, Kimberly Paggioli, Mohammad Najafi,<br>and Antonio Miglio              |            |

*Emergency Repair*

|  |            |
|--|------------|
| <b>Design Build Emergency Repair of 72-Inch Aerial Sewer .....</b> | <b>333</b> |
| Jeff Heidrick, Karine Papikian, David Oshel,<br>and Shawn Wilson   |            |

|   |            |
|---|------------|
| <b>Emergency Pipeline Rehabilitation Ensures Raw Water Supply to Domtar Paper Mill.....</b> | <b>343</b> |
| Robert Cullwell, Mike Fleury, Jonathan Herrboldt, and Steve Nipper                          |            |

|   |            |
|---|------------|
| <b>Emergency Stabilization of 84-Inch Chapman Raw Water Pipeline Crossing the South Sulphur River, Greenville, Texas.....</b> | <b>352</b> |
| Jeff Hogan, Sam Marston, David Burkhart, and Ben Stephens   |            |

*Failure Evaluation*

|   |            |
|---|------------|
| <b>Forensic Evaluation of PCCP Failures: Green Bay Water Utilities Case Study .....</b> | <b>362</b> |
| Bryon Livingston, Rasko Ojdrovic, and Brian Powell                                      |            |

|  |            |
|--|------------|
| <b>Forensic Study of a 16-Inch PVC Water Pipe Failure during Tapping .....</b> | <b>371</b> |
| Shaoqing Ge, Suzanne Chiavari, and David Hughes                                |            |

|   |            |
|---|------------|
| <b>When Reliability Fails: Emergency Repairs to a 50-Year-Old Aqueduct.....</b> | <b>382</b> |
| Nick Lester and Michael McBee   |            |

|   |            |
|---|------------|
| <b>“Large and Critical Valve” Maintenance Strategies for Establishing System Control and Reliability.....</b> | <b>391</b> |
| Britt Klein   |            |

*Leakage*

- Leakage Rate Uncertainty in Water Distribution Systems with Uncertain Demands: Impacts on Delivery Pressures .....** 399  
V. Ghorbanian and L. Ramezani

- Benchmarking Your Break Rates: A Review of New Findings and Trends from North American Water Main Break Studies.....** 408  
Gregory M. Baird and Steven Folkman

*Lining*

- Spray in Place Pipe (SIPP): Materials Composite and Implementation Methodology for Surviving Pressure Pipe Failure .....** 417  
Kent Weisenberg, Tom Iseley, and Lin Li

- Coating Rehabilitation of Large Diameter Water Line above Grade Crossings .....** 423  
Christine H. Kirby, Eric I. Hernandez, and Venus Price

- A Rational Approach to Designing Spray Applied Polymeric Manhole Rehabilitation Products.....** 433  
Chris Macey and Adam Braun

- Pressure Testing of CIPP Liners to Failure .....** 444  
Mark A. Knight and George Bontus

- Qualitative Assessment of Mechanical and Adhesive Service Connections for CIPP .....** 454  
George Bontus, Robert Kodadek, Michael J. Caputi, Rick Baxter, and Ian A. Lancaster

*Materials*

- When Transit Expansions Requires You to Really Understand Your Water System.....** 464  
Arthur E. Sinclair and Ali Ahmadi

*New Installation*

- A Case Study on Design, Testing, and Installation of Two Large Diameter Tunnel Liner Projects for the City of Los Angeles .....** 472  
Henry H. Bardakjian and Joel Olmos

- The Horizontal Directionally Drilled Installation of Dual Parallel 3,220-Foot Fusible PVC Pipelines .....** 481  
George Triebel, Janet Atkinson, Gayleen Darting, Jose Ramirez, and Scott Hutcheson

|  |            |
|--|------------|
| <b>From Pipe Ram to Microtunnel—How Owner and Contractor Worked Together .....</b>   | <b>490</b> |
| Erik Waligorski, Ron Speer, Ken Van Den Bergh,<br>and Gregory G. Hill  |            |
| <b>Trains to Mains: How to Relocate Three Kilometers of Water Main<br/>in Preparation for Light Rail in Downtown Tacoma, WA .....</b>                        | <b>501</b> |
| A. Polda   |            |
| <b>Muskingum River Sanitary Sewer Force Main Project—Key<br/>Concepts for a Successful HDD River Crossing Project from the<br/>Owner's Perspective .....</b> | <b>509</b> |
| Joseph R. Tucker and Martin Scanlan  |            |
| <b>Avoiding Rush Hour with Utilizing Horizontal Directional Drilling.....</b>  | <b>517</b> |
| Clayton C. Barnard, Arthur Hartle, David Reuter, and Marvin Lee  |            |
| <b>Pure Water Branched Subaqueous Diffuser Pipeline .....</b>  | <b>526</b> |
| Badri Badriyha, Kathy Haynes, and Jeff Soriano   |            |
| <b>LADWP City Trunk Line Sequential Excavation Method Tunnel<br/>underneath the Tujunga Wash .....</b>   | <b>532</b> |
| Ruwanka P. Purasinghe, Philip K. Lau, Jianping Hu, Wolfgang Roth,<br>S. Nesarajah, and Wolfgang Pichler  |            |
