2018 17th IEEE International Conference On Trust, Security And Privacy In Computing And Communications/ 12th IEEE International Conference On Big Data Science And Engineering TrustCom/BigDataSE 2018

Table of Contents

Message from the IEEE TrustCom/BigDataSE 2018 General Chairs .xli.....	
Message from the IEEE TrustCom 2018 Program Chairs .xlii.....	
TrustCom 2018 Committee Members .xliv.....	
TrustCom 2018 Technical Program Committee .xlv.....	
Message from the BigDataSE 2018 Program Chairs .xlviii.....	
BigDataSE 2018 Committee Members .xlix.....	

IEEE TrustCom 2018

Track 1: Trust Track 1

Engineering Trust: A Graph-Based Algorithm for Modeling, Validating, and Evaluating Trust .1.....	
<i>Scot Tucker (US Air Force Research Laboratory)</i>	
A Novel Dynamic Cloud Service Trust Evaluation Model in Cloud Computing .10.....	
<i>Yubiao Wang (Chongqing University, China), Junhao Wen (Chongqing University, China), Wei Zhou (Shenzhen Institutes of Advanced Technology, China), and Fengji Luo (The University of Sydney, Australia)</i>	
One Secure Access Scheme Based on Trusted Execution Environment .16.....	
<i>Yongkai Fan (China University of Petroleum), Shengle Liu (China University of Petroleum), Gang Tan (Penn State University), Xiaodong Lin (China University of Petroleum), Guanqun Zhao (China University of Petroleum), and Jianrong Bai (China University of Petroleum)</i>	

Evaluation of Flexilink as Deterministic Unified Real-Time Protocol for Industrial Networks .22.....	
	<i>Tianao Ma (Wuhan University of Science and Technology, China), Wei Hu (Wuhan University of Science and Technology, China), Yonghao Wang (DMT Lab, Birmingham City University, UK), Dalia El-Banna (DMT Lab, Birmingham City University, UK), John Grant (Nine Tiles Networks Ltd, Cambridge, UK), and Hongjun Dai (Shandong University, Jinan, P.R. China)</i>

Track 1: Trust Track 2

Understanding Trust, Privacy and Financial Fears in Online Payment .28.....	
	<i>Ghada El Haddad (University of Montreal, Montreal, Canada), Esma Aïmeur (University of Montreal, Montreal, Canada), and Hicham Hage (Notre Dame University, Zouk Mosbeh, Lebanon)</i>
DecentID: Decentralized and Privacy-Preserving Identity Storage System Using Smart Contracts .37.....	
	<i>Sebastian Friebe (Karlsruhe Institute of Technology), Ingo Sobik (esentri AG), and Martina Zitterbart (Karlsruhe Institute of Technology)</i>
Reputation Prediction Using Influence Conversion .43.....	
	<i>Monika Ewa Rakoczy (SAMOVAR, CNRS, Telecom SudParis), Amel Bouzeghoub (SAMOVAR, CNRS, Telecom SudParis), Alda Lopes Gancarski (SAMOVAR, CNRS, Telecom SudParis), and Katarzyna Wegrzyn-Wolska (Efrei Paris)</i>
Secure, Resilient, and Self-Configuring Fog Architecture for Untrustworthy IoT Environments .49.....	
	<i>Mostafa Kahla (Alexandria University, Egypt), Mohamed Azab (Informatics Research Institute, Egypt), and Ahmed Mansour (Alexandria University, Egypt)</i>

Track 1: Trust Track 3

Repoxy: Replication Proxy for Trustworthy SDN Controller Operation .55.....	
	<i>Mohamed Azab (Informatics Research Institute, Egypt), Ahmed Hamdy (Department of Computer and Communications Engineering, Faculty of Engineering, Alexandria, Egypt), and Ahmed Mansour (Department of Electrical and Communication, Faculty of Engineering, Alexandria, Egypt)</i>
A Dynamic Trust Weight Allocation Technique for Data Reconstruction in Mobile Wireless Sensor Networks .61.....	
	<i>Concepcion Sanchez Aleman (Florida International University), Niki Pissinou (Florida International University), Sheila Alemany (Florida International University), and Georges Kamhoua (Florida International University)</i>

Encrypted Domain Mel-Frequency Cepstral Coefficient and Fragile Audio Watermarking .68.....	
<i>Jian Chen (Sun Yat-sen University, China), Ziyang Chen (Sun Yat-sen University, China), Peijia Zheng (Sun Yat-sen University, China), Jianting Guo (Sun Yat-sen University, China), Wei Zhang (Fudan University, China), and Jiwu Huang (Shenzhen University, China)</i>	
TARAS: Trust-Aware Role-Based Access Control System in Public Internet-of-Things .74.....	
<i>Bumjin Gwak (KAIST), Jin-Hee Cho (Army Research Laboratory), Dongman Lee (KAIST), and Heesuk Son (KAIST)</i>	

Track 1: Trust Track 4

A Privacy-Preserving Multipurpose Watermarking Scheme for Audio Authentication and Protection .86.....	
<i>Jian Chen (Sun Yat-sen University, China), Peijia Zheng (Sun Yat-sen University, China), Jianting Guo (Sun Yat-sen University, China), Wei Zhang (Fudan University), and Jiwu Huang (Fudan University, China)</i>	
Dynamic Survivable Path Routing for Fast Changing IoT Network Topologies .92.....	
<i>Manu Elappila (National Institute of Technology Rourkela) and Suchismita Chinara (National Institute of Technology Rourkela)</i>	
BARS: A Blockchain-Based Anonymous Reputation System for Trust Management in VANETs .98....	
<i>Zhaojun Lu (Huazhong University of Science and Technology, Wuhan, China), Qian Wang (University of Maryland, College Park), Gang Qu (University of Maryland, College Park), and Zhenglin Liu (Huazhong University of Science and Technology, Wuhan, China)</i>	
Turning Trust Around: Smart Contract-Assisted Public Key Infrastructure .104.....	
<i>Abu Shohel Ahmed (Aalto University) and Tuomas Aura (Aalto University)</i>	

Track 1: Trust Track 5

N-Combat: A Nuisance Call Combating Framework for Internet Telephony .112.....	
<i>Ibrahim Javed (Institut Mines-Télécom, Télécom SudParis), Khalifa Toumi (Telecom SudParis, Institute Mines Telecom), and Noel Crespi (Telecom SudParis, Institute Mines Telecom)</i>	
A Comprehensive Analysis of Packet Loss in MANETs .118.....	
<i>Muhammad Saleem Khan (COMSATS Institute of Information Technology, Islamabad, Pakistan), Saira Waris (COMSATS Institute of Information Technology, Islamabad, Pakistan), Idrees Ahmed (COMSATS Institute of Information Technology, Islamabad, Pakistan), and Majid Iqbal Khan (COMSATS Institute of Information Technology, Islamabad, Pakistan)</i>	
Trust4App: Automating Trustworthiness Assessment of Mobile Applications .124.....	
<i>Sheikh Mahbub Habib (Technische Universitaet Darmstadt, Germany), Nikolaos Alexopoulos (Technische Universitaet Darmstadt, Germany), Md Monirul Islam (Technische Universitaet Darmstadt, Germany), Jens Heider (Fraunhofer SIT, Darmstadt, Germany), Stephen Marsh (University of Ontario -- Institute of Technology, Ontario, Canada), and Max Muehlhaeuser (Technische Universitaet Darmstadt, Germany)</i>	

Bionic Mechanism Based Dynamic Trust Evaluation Method in Cloud Environment .136.....	
<i>Shunan Ma (State Key Laboratory of Information Security, Institute of Information Engineering, CAS), Xunbo Shuai (PetroChina Research Institute of Petroleum Exploration & Development), Zhaohua Zhou (PetroChina Research Institute of Petroleum Exploration & Development), and Kechun Qiao (61516 Troops)</i>	

Track 1: Trust Track 6

A Universal Secret Sharing Scheme with General Access Structure Based on CRT .142.....	
<i>Keju Meng (University of Science and Technology of China), Fuyou Miao (University of Science and Technology of China), Yue Yu (University of Science and Technology of China), and Changbin Lu (University of Science and Technology of China)</i>	
ESRQ: An Efficient Secure Routing Method in Wireless Sensor Networks Based on Q-Learning .149	
<i>Gaosheng Liu (Tianjin University), Xin Wang (Tianjin University), Xiaohong Li (Tianjin University), Jianye Hao (Tianjin University), and Zhiyong Feng (Tianjin University)</i>	
Trust-Based Dynamic Linear Threshold Models for Non-competitive and Competitive Influence Propagation .156.....	
<i>Antonio Caliò (DIMES, University of Calabria, Italy) and Andrea Tagarelli (DIMES, University of Calabria, Italy)</i>	
Securing the Internet of Things (IoT): A Security Taxonomy for IoT .163.....	
<i>Syed Rizvi (Pennsylvania State University), Andrew Kurtz (Pennsylvania State University), Joseph Pfeffer (Pennsylvania State University), and Mohammad Rizvi (PricewaterhouseCoopers (PWC))</i>	

Track 1: Trust Track 7

A Trust Energy-Efficient QoS Routing Scheme for Mobile Peer-to-Peer Networks .169.....	
<i>Dapeng Qu (Liaoning University), Dengyu Liang (Liaoning University), Songlin Wu (Liaoning University), Jie Li (University of Tsukuba), Weihong Xuan (Liaoning University), and Xingwei Wang (Northeastern University)</i>	
Testing Sequence Generation Method Based on Unrelated Behaviors Serializing .177.....	
<i>Tao Sun (Inner Mongolia University), Xin Guo (Inner Mongolia University), and Ting Zhang (Inner Mongolia University)</i>	
Manipulating Visibility of Political and Apolitical Threads on Reddit via Score Boosting .184.....	
<i>Mark Carman (University of South Australia), Mark Koerber (University of South Australia), Jiuyong Li (University of South Australia), Kim-Kwang Raymond Choo (University of Texas at San Antonio), and Helen Ashman (University of South Australia)</i>	
Using Evolutionary Approaches to Manage Surveillance Cameras in Dynamic Environments .191.....	
<i>Ruidan Li (Wake Forest University) and Errin Fulp (Wake Forest University)</i>	

An Elite Clone Parallel Genetic Algorithm for Trust Monitoring Assignment Problem in Adaptive Wireless Sensor Networks .197.....	
<i>Jie Zhou (Shihezi University, China) and Min Tian (Shihezi University, China)</i>	
Quality of Information as an indicator of Trust in the Internet of Things .204.....	
<i>Hamza Baqa (Easy Global Market Sophia Antipolis, France), Nguyen Binh Truong (John Moores University Liverpool, United Kingdom), Noel Crespi (Télécom SudParis, France), Gyu Myoung Lee (John Moores University Liverpool, United Kingdom), and Franck Le Gall (Easy Global Market Sophia Antipolis, France)</i>	

Track 2: Security Track 1

A Reinforcement Learning Approach for Attack Graph Analysis .212.....	
<i>Mehdi Yousefi (Glasgow Caledonian University), Nhamo Mtetwa (Glasgow Caledonian University), Yan Zhang (Glasgow Caledonian University), and Huaglory Tianfield (Glasgow Caledonian University)</i>	
Research on Industrial Control Anomaly Detection Based on FCM and SVM .218.....	
<i>Wenli Shang (Shenyang Institute of Automation Chinese Academy of Sciences), Junrong Cui (Shenyang Institute of Automation Chinese Academy of Sciences), Chunhe Song (Shenyang Institute of Automation Chinese Academy of Sciences), Jianming Zhao (Shenyang Institute of Automation Chinese Academy of Sciences), and Peng Zeng (Shenyang Institute of Automation Chinese Academy of Sciences)</i>	
Authorized Equality Test of Encrypted Data for Secure Cloud Databases .223.....	
<i>Sha Ma (South China Agricultural University)</i>	

Track 2: Security Track 2

Exploring the Feasibility of Physical Layer Key Generation for LoRaWAN .231.....	
<i>Weitao Xu (University of New South Wales), Sanjay Jha (University of New South Wales), and Wen Hu (University of New South Wales)</i>	
DDoS Flooding Attack Detection Based on Joint-Entropy with Multiple Traffic Features .237.....	
<i>Jiewen Mao (East China Normal University), Weijun Deng (East China Normal University), and Fuke Shen (East China Normal University)</i>	
Practical Decentralized Attribute-Based Delegation Using Secure Name Systems .244.....	
<i>Martin Schanzenbach (Fraunhofer AISEC), Christian Banse (Fraunhofer AISEC), and Julian Schütte (Fraunhofer AISEC)</i>	
Abnormal Item Detection Based on Time Window Merging for Recommender Systems .252.....	
<i>Ling Tao Qi (Nanjing University of Posts and Telecommunications), Hai Ping Huang (Nanjing University of Posts and Telecommunications; Nanjing University of Aeronautics and Astronautics), Peng Wang (Nanjing University of Posts and Telecommunications), and Ru Chuan Wang (Nanjing University of Posts and Telecommunications)</i>	

Track 2: Security Track 3

- Application of Visual Analysis to Detect and Analyze Patterns in VoIP Attack Traffic .260.....
Ekaterina Volodina (University of Duisburg-Essen), Adnan Aziz (University of Duisburg-Essen), Erwin P. Rathgeb (University of Duisburg-Essen), and Tobias Hossfeld (University of Duisburg-Essen)
- A Quality Evaluation Method of Cyber Threat Intelligence in User Perspective .269.....
Li Qiang (Institute of Information Engineering, Chinese Academy of Science), Jiang Zhengwei (Institute of Information Engineering, Chinese Academy of Science), Yang Zeming (Institute of Information Engineering, Chinese Academy of Science), Liu Baoxu (Institute of Information Engineering, Chinese Academy of Science), Wang Xin (Institute of Information Engineering, Chinese Academy of Science), and Zhang Yunan (Institute of Information Engineering, Chinese Academy of Science)
- Towards Better Ocular Recognition for Secure Real-World Applications .277.....
Reza M. Parizi (Kennesaw State University), Ali Dehghantanha (University of Sheffield), and Kim-Kwang Raymond Choo (University of Texas at San Antonio)
- Identifying Peer-to-Peer Botnets Through Periodicity Behavior Analysis .283.....
Pengfei Wang (Shandong University), Fengyu Wang (Shandong University), Fengbo Lin (Shandong University), and Zhenzhong Cao (Qufu Normal University)

Track 2: Security Track 4

- LUCON: Data Flow Control for Message-Based IoT Systems .289.....
Julian Schuette (Fraunhofer AISEC) and Gerd Stefan Brost (Fraunhofer AISEC)
- Cache-Collision Attacks on GPU-Based AES Implementation with Electro-Magnetic Leakages .300..
Yiwen Gao (Institute of Information Engineering, Chinese Academy of Sciences and School of Cyber Security, University of Chinese Academy of Sciences), Wei Cheng (Institute of Information Engineering, Chinese Academy of Sciences), Hailong Zhang (Institute of Information Engineering, Chinese Academy of Sciences), and Yongbin Zhou (Institute of Information Engineering, Chinese Academy of Sciences and School of Cyber Security, University of Chinese Academy of Sciences)
- An Improved Monte Carlo Graph Search Algorithm for Optimal Attack Path Analysis .307.....
Hui Xie (Beijing Institute of Tech), Kun Lv (Beijing Institute of Tech), and Changzhen Hu (Beijing Institute of Tech)
- Adversarial Gait Detection on Mobile Devices Using Recurrent Neural Networks .316.....
Devu Manikantan Shila (United Technologies Research Center) and Emeka Eyisi (United Technologies Research Center)

Track 2: Security Track 5

- AES Design Improvements Towards Information Security Considering Scan Attack .322.....
*Liting Yu (Beihang University), Dongrong Zhang (Beihang University),
 Liang Wu (Beihang University), Shuguo Xie (Beihang University),
 Donglin Su (Beihang University), and Xiaoxiao Wang (Beihang University)*
- Automated Breast Cancer Detection Using Machine Learning Techniques by Extracting
 Different Feature Extracting Strategies .327.....
*Lal Hussain (University of Azad Jammu and Kashmir), Wajid Aziz
 (University of Azad Jammu and Kashmir), Sharjil Saeed (University of
 Azad Jammu and Kashmir), Saima Rathore (University of Pennsylvania),
 and Muhammad Rafique (University of Azad Jammu and Kashmir)*
- Electronic Evidence Service Research in Cloud Computing Environment .332.....
*Zhenya Chen (Shandong Provincial Key Laboratory of Computer Networks),
 Weifeng Liu (University of Jinan), Ying Yang (Shandong Provincial Key
 Laboratory of Computer Networks), Jizhi Wang (Shandong Provincial Key
 Laboratory of Computer Networks), Meng Guo (Shandong Provincial Key
 Laboratory of Computer Networks), Lijuan Chen (Shandong Provincial Key
 Laboratory of Computer Networks), Guang Yang (Shandong Provincial Key
 Laboratory of Computer Networks), and Jie Zhou (State Grid Shandong
 Electric Power Company)*

Track 2: Security Track 6

- STDC: A SDN-Oriented Two-Stage DDoS Detection and Defence System Based on Clustering .339.
*Shuang Wei (Peking University), Shuaifu Dai (CNCERT/CC), Xinfeng Wu
 (Peking University), and Xinhui Han (Peking University)*
- Semantic-Based Policy Composition for Privacy-Demanding Data Linkage .348.....
*Yang Lu (The University of Melbourne), Richard O. Sinnott (The
 University of Melbourne), and Karin Verspoor (The University of
 Melbourne)*
- TempatMDS: A Masquerade Detection System Based on Temporal and Spatial Analysis of File
 Access Records .360.....
*Jiarong Wang (Institute of Information Engineering, Chinese Academy of
 Sciences; School of Cyber Security, University of Chinese Academy of
 Sciences), Lijun Cai (Institute of Information Engineering, Chinese
 Academy of Sciences), Aimin Yu (Institute of Information Engineering,
 Chinese Academy of Sciences), Min Zhu (Institute of Information
 Engineering, Chinese Academy of Sciences), and Dan Meng (Institute of
 Information Engineering, Chinese Academy of Sciences)*
- Effective Botnet Detection Through Neural Networks on Convolutional Features .372.....
*Shao-Chien Chen (National Chiao-Tung University), Yi-Ruei Chen
 (National Chiao-Tung University), and Wen-Guey Tzeng (National
 Chiao-Tung University)*

Track 2: Security Track 7

- Online Allocation of Cloud Resources Based on Security Satisfaction .379.....
Talal Halabi (Ecole Polytechnique de Montreal), Martine Bellaiche (Ecole Polytechnique de Montreal), and Adel Abusitta (Ecole Polytechnique de Montreal)
- Enhancing Data Protection in a Distributed Storage Environment Using Structure-Wise Fragmentation and Dispersal of Encrypted Data .385.....
Katarzyna Kapusta (Telecom ParisTech) and Gerard Memmi (Telecom ParisTech)
- eBot: Approach Towards Modeling an Advanced P2P Botnet .391.....
Sumit Kumar Tatarave (Indian Institute of Technology Patna), Somanath Tripathy (Indian Institute of Technology Patna), Ezhil Kalaimannan (University of West Florida), and Caroline John (University of West Florida)
- A Practical Accountability Scheme for Oblivious RAM in Cloud Storage .397.....
Huikang Cao (Huazhong University of Science and Technology, China), Ruixuan Li (Huazhong University of Science and Technology, China), Wenlong Tian (Huazhong University of Science and Technology, China), Zhiyong Xu (Suffolk University, USA; Chinese Academy of Science, China), and Weijun Xiao (Virginia Commonwealth University, USA)

Track 2: Security Track 8

- For Small Merchants: A Secure Smartphone-Based Architecture to Process and Accept NFC Payments .403.....
Nour El Madhoun (Sorbonne University), Emmanuel Bertin (Orange Labs), and Guy Pujolle (Sorbonne University)
- Outsourced Private Function Evaluation with Privacy Policy Enforcement .412.....
Noboru Kunihiro (The University of Tokyo), Wen-Jie Lu (University of Tsukuba), Takashi Nishide (University of Tsukuba), and Jun Sakuma (University of Tsukuba, RIKEN AIP, CREST)
- Universal Optimality of Apollonian Cell Encoders .424.....
Fabrizio Biondi (CentraleSupélec), Thomas Given-Wilson (Inria), and Axel Legay (Inria)
- An Evidential Clustering Based Framework for Cyber Terrorist Cells Topology Identification.436.....
Firas Saidi (National School of Computer Sciences RIADI Laboratory Campus of La Manouba Tunisia), Zouheir Trabelsi (College of Information Technology UAE University), and Henda Ben Ghazela (National School of Computer Sciences RIADI Laboratory Campus of La Manouba Tunisia)

Track 2: Security Track 9

- On Designing a Questionnaire Based Honeyword Generation Approach for Achieving Flatness .444.
Nilesh Chakraborty (Indian Institute of Technology Patna), Shreya Singh (National Institute of Technology Patna), and Samrat Mondal (Indian Institute of Technology Patna, University of Denver)

A Composite Malicious Peer Eviction Mechanism for Super-P2P Systems .456.....	
<i>Hatem Ismail (TU Darmstadt), Stefanie Roos (University of Waterloo), and Neeraj Suri (TU Darmstadt)</i>	
S-Audit: Efficient Data Integrity Verification for Cloud Storage .465.....	
<i>Filipe Apolinário (INESC-ID / IST / INOV), Miguel Pardal (INESC-ID / IST), and Miguel Correia (INESC-ID / IST)</i>	
Detecting Intruders and Preventing Hackers from Evasion by Tor Circuit Selection .475.....	
<i>Zechun Cao (University of Houston) and Shou-Hsuan Stephen Huang (University of Houston)</i>	

Track 2: Security Track 10

Good Vibrations: Artificial Ambience-Based Relay Attack Detection .481.....	
<i>Iakovos Gurulian (Royal Holloway University of London), Konstantinos Markantonakis (Royal Holloway University of London), Eibe Frank (University of Waikato), and Raja Naeem Akram (Royal Holloway University of London)</i>	
Selecting System Specific Cybersecurity Attack Patterns Using Topic Modeling .490.....	
<i>Stephen Adams (University of Virginia), Bryan Carter (University of Virginia), Cody Fleming (University of Virginia), and Peter A Beling (University of Virginia)</i>	
Digital Blues: An Investigation Into the Use of Bluetooth Protocols .498.....	
<i>William Ledbetter (Sandia National Laboratories), William Glisson (Sam Houston State University), Todd McDonald (University of South Alabama), Todd Andel (University of South Alabama), George Grispos (University of Nebraska at Omaha), and Kim-Kwang Choo (University of Texas at San Antonio)</i>	
Inscription: Thwarting ActionScript Web Attacks From Within .504.....	
<i>Meera Sridhar (University of North Carolina at Charlotte), Abhinav Mohanty (University of North Carolina at Charlotte), Fadi Yilmaz (University of North Carolina at Charlotte), Vasant Tendulkar (University of North Carolina at Charlotte), and Kevin W. Hamlen (University of Texas at Dallas)</i>	

Track 2: Security Track 11

A Malicious Attack on the Machine Learning Policy of a Robotic System .516.....	
<i>George Clark (University of South Alabama), Michael Doran (Louisiana State University Shreveport), and William Glisson (Sam Houston State University)</i>	
Continuous Authentication System Using Online Activities .522.....	
<i>Hidehito Gomi (Yahoo Japan Corporation), Shuji Yamaguchi (Yahoo Japan Corporation), Kota Tsubouchi (Yahoo Japan Corporation), and Naomi Sasaya (Yahoo Japan Corporation)</i>	

Permission Analysis of Health and Fitness Apps in IoT Programming Frameworks .533.....	<i>Mehdi Nobakht (UNSW, Sydney, Australia), Yulei Sui (University of Technology Sydney, Australia), Aruna Seneviratne (UNSW, Sydney, Australia), and Wen Hu (UNSW, Sydney, Australia)</i>
Black Hole Attack Prevention Method Using Multiple RREPs in Mobile Ad Hoc Networks .539.....	<i>Taku Noguchi (Ritsumeikan University) and Mayuko Hayakawa (Ritsumeikan University)</i>

Track 2: Security Track 12

TMDFI: Tagged Memory Assisted for Fine-Grained Data-Flow Integrity Towards Embedded Systems Against Software Exploitation .545.....	<i>Tong Liu (School of Cyber Security University of Chinese Academy of Sciences), Gang Shi (Institute of Information Engineering Chinese Academy of Sciences), Liwei Chen (Institute of Information Engineering Chinese Academy of Sciences), Fei Zhang (School of Cyber Security University of Chinese Academy of Sciences), Yaxuan Yang (School of Cyber Security University of Chinese Academy of Sciences), and Jihu Zhang (Beijing Institute of Technology)</i>
Accessing Data from Multiple Sources Through Context-Aware Access Control .551.....	<i>A. S. M. Kayes (La Trobe University, Melbourne, Australia), Wenny Rahayu (La Trobe University, Melbourne, Australia), Tharam Dillon (La Trobe University, Melbourne, Australia), and Elizabeth Chang (University of New South Wales, Canberra, Australia)</i>
Efficient Binary-Encoding Access Control Policy Combination for Large-Scale Collaborative Scenarios .560.....	<i>Chunhua Li (Huazhong University of Science and Technology), Weirui Xie (Huazhong University of Science and Technology), and Ke Zhou (Huazhong University of Science and Technology)</i>
FlowHacker: Detecting Unknown Network Attacks in Big Traffic Data Using Network Flows .567.....	<i>Luis Sacramento (INESC-ID, Instituto Superior Técnico, Universidade de Lisboa; Vodafone Portugal, Portugal), Ibéria Medeiros (LASIGE, Faculdade de Ciências, Universidade de Lisboa, Portugal), João Bota (Vodafone Portugal, Portugal), and Miguel Correia (INESC-ID, Instituto Superior Técnico, Universidade de Lisboa, Portugal)</i>

Track 2: Security Track 13

Evaluation for Combination of Shuffle and Diversity on Moving Target Defense Strategy for Cloud Computing .573.....	<i>Hooman Alavizadeh (Institute of Natural and Mathematical Sciences, Massey University, Auckland, New Zealand), Julian Jang-Jaccard (Institute of Natural and Mathematical Sciences, Massey University, Auckland, New Zealand), and Dong Seong Kim (Department of Computer Science and Software Engineering)</i>
---	---

- FRVM: Flexible Random Virtual IP Multiplexing in Software-Defined Networks .579.....
Dilli Prasad Sharma (University of Canterbury, New Zealand), Dong Seong Kim (University of Canterbury, New Zealand), Seunghyun Yoon (Gwangju Institute of Science and Technology, Republic of Korea), Hyuk Lim (Gwangju Institute of Science and Technology, Republic of Korea), Jin-Hee Cho (Army Research Laboratory, Adelphi MD, USA), and Terrence J. Moore (Army Research Laboratory, Adelphi MD, USA)
- Time Independent Security Analysis for Dynamic Networks Using Graphical Security Models .588....
Simon Yusuf Enoch (University of Canterbury, New Zealand), Jin B. Hong (University of Western Australia, Australia), and Dong Seong Kim (University of Canterbury, New Zealand)
- Practical Location Validation in Participatory Sensing Through Mobile WiFi Hotspots .596.....
Andrea Saracino (IIT-CNR), Francesco Restuccia (Northeastern University, Boston), and Fabio Martinelli (IIT-CNR)

Track 2: Security Track 14

- MASFOG: An Efficient Mutual Authentication Scheme for Fog Computing Architecture .608.....
Yousef Imine (Université de Technologie de Compiègne), Djamel Eddine Kouicem (Université de Technologie de Compiègne), Abdelmadjid Bouabdallah (Université de Technologie de Compiègne), and Lounis Ahmed (Université de Technologie de Compiègne)
- A Temporal and Spatial Constrained Attribute-Based Access Control Scheme for Cloud Storage.614
Zechao Liu (Harbin Institute of Technology Shenzhen Graduate School), Zoe L. Jiang (Harbin Institute of Technology Shenzhen Graduate School), Xuan Wang (Harbin Institute of Technology Shenzhen Graduate School), S. M. Yiu (The University of Hong Kong), Ruqing Zhang (The University of Hong Kong), and Yulin Wu (Harbin Institute of Technology Shenzhen Graduate School)
- DroidPro: An AOTC-Based Bytecode-Hiding Scheme for Packing the Android Applications .624.....
Judong Bao (Peking University), Yongqiang He (Ardsec Company), and Weiping Wen (Peking University)
- Machine Learning for Reliable Network Attack Detection in SCADA Systems .633.....
Rocio Lopez Perez (University of Luxembourg, CSC), Florian Adamsky (University of Luxembourg, SnT), Ridha Soua (University of Luxembourg, SnT), and Thomas Engel (University of Luxembourg, SnT)

Track 2: Security Track 15

- A Full-Scale Security Visualization Effectiveness Measurement and Presentation Approach .639.....
Jeffery Garae (The University of Waikato), Ryan K. L. Ko (The University of Waikato), and Mark Apperley (The University of Waikato)
- Beware of SMOMBIES: Verification of Users Based on Activities While Walking .651.....
Eric Klieme (Hasso Plattner Institute, University of Potsdam), Christian Tietz (Hasso Plattner Institute, University of Potsdam), and Christoph Meinel (Hasso Plattner Institute, University of Potsdam)

Data Mining Based Strategy for Detecting Malicious PDF Files .661.....	<i>Samir G. Sayed (Helwan University) and Mohmed Shawkey (American University in Cairo)</i>
A National Mobile Identity Management Strategy for Electronic Government Services .668.....	<i>Glaudson Menegazzo Verzeletti (Federal Institute of Santa Catarina), Emerson Ribeiro de Mello (Federal Institute of Santa Catarina), and Michelle Silva Wangham (University of Vale do Itajai)</i>

Track 2: Security Track 16

Blockchain Based Secured Identity Authentication and Expeditious Revocation Framework for Vehicular Networks .674.....	<i>Nisha Malik (University of Technology Sydney Australia), Priyadarsi Nanda (University of Technology Sydney, Australia), Arushi Arora (Indira Gandhi Delhi Technical University for Women (IGDTUW), New Delhi, India), Xiangjian He (University of Technology Sydney, Australia), and Deepak Puthal (University of Technology Sydney, Australia)</i>
Fully Decentralized Authentication and Revocation Scheme in Data Sharing Systems .680.....	<i>Xiehua Li (Hunan University), Jie Jiang (Hunan University), and Yichen Chen (Hunan University)</i>
FloodShield: Securing the SDN Infrastructure Against Denial-of-Service Attacks .687.....	<i>Menghao Zhang (Tsinghua University), Jun Bi (Tsinghua University), Jiasong Bai (Tsinghua University), and Guanyu Li (Tsinghua University)</i>
A Lightweight FourQ Primitive on ARM Cortex-M0 .699.....	<i>Wei Zhang (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Dongdai Lin (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Hailong Zhang (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Xiaojun Zhou (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), and Yiwen Gao (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China)</i>

Track 2: Security Track 17

Pangr: A Behavior-Based Automatic Vulnerability Detection and Exploitation Framework .705.....	<i>DanJun Liu (National University of Defense and Technology), Jingyuan Wang (National University of Defense and Technology), Zelin Rong (National University of Defense and Technology), Xianya Mi (National University of Defense and Technology), Fangyu Gai (National University of Defense and Technology), Yong Tang (National University of Defense and Technology), and Baosheng Wang (National University of Defense and Technology)</i>
--	---

Public Auditing for Network Coding Based Secure Cloud Storage .713.....	
<i>Xiang Liu (Southeast University, China), Jie Huang (Southeast University, China), and Guowen Zong (Southeast University, China)</i>	
Securing Wireless Networks from Sinkhole and Sybil Attacks Using Secure Data Aggregation Protocol .721.....	
<i>Syed Rizvi (Penn State University), Joseph Gualdoni (Penn State University), and Abdul Razaque (New York Institute of Technology)</i>	
A Novel Multi-source Fusion Model for Known and Unknown Attack Scenarios .727.....	
<i>Qiwen Wang (Institute of Information Engineering, Chinese Academy of Sciences/School of Cyber Security, University of Chinese Academy of Sciences), Jianguo Jiang (Institute of Information Engineering, Chinese Academy of Sciences), Zhixin Shi (Institute of Information Engineering, Chinese Academy of Sciences), Wen Wang (Institute of Information Engineering, Chinese Academy of Sciences), Bin Lv (Institute of Information Engineering, Chinese Academy of Sciences), Biao Qi (Institute of Information Engineering, Chinese Academy of Sciences/School of Cyber Security, University of Chinese Academy of Sciences), and Qieli Yin (Institute of Information Engineering, Chinese Academy of Sciences/School of Cyber Security, University of Chinese Academy of Sciences)</i>	

Track 2: Security Track 18

Adaptive Malicious URL Detection: Learning in the Presence of Concept Drifts .737.....	
<i>Guolin Tan (Institute of Information Engineering, CAS; University of Chinese Academy of Sciences), Peng Zhang (Institute of Information Engineering Chinese Academy of Sciences), Qingyun Liu (Institute of Information Engineering Chinese Academy of Sciences), Xinran Liu (National Computer Network Emergency Response and Coordination Center), Chungu Zhu (National Computer Network Emergency Response and Coordination Center), and Fenghu Dou (Institute of Information Engineering Chinese Academy of Sciences)</i>	
Hierarchical Clustering Based Network Traffic Data Reduction for Improving Suspicious Flow Detection .744.....	
<i>Liya Su (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Yepeng Yao (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Ning Li (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Junrong Liu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Zhigang Lu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), and Baoxu Liu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China)</i>	

BotCensor: Detecting DGA-Based Botnet Using Two-Stage Anomaly Detection .754.....	
<i>Biao Qi (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Jianguo Jiang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Zhixin Shi (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Rui Mao (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), and Qiwen Wang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China)</i>	
A General and Expandable Insider Threat Detection System Using Baseline Anomaly Detection and Scenario-Driven Alarm Filters .763.....	
<i>Guang Yang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Lijun Cai (ORCID ID), Aimin Yu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), and Dan Meng (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China)</i>	

Track 2: Security Track 19

Provably Secure Password Reset Protocol: Model, Definition, and Construction .774.....	
<i>Satsuya Ohata (AIST, Japan), Takahiro Matsuda (AIST, Japan), and Kanta Matsuura (The University of Tokyo)</i>	
VegaStar: An Illegal Domain Detection System on Large-Scale Video Traffic .783.....	
<i>Xiang Tian (Institute of Information Engineering, Chinese Academy of Sciences), Yujia Zhu (Institute of Information Engineering, Chinese Academy of Sciences), Zhao Li (Institute of Information Engineering, Chinese Academy of Sciences), Chao Zheng (Institute of Information Engineering, Chinese Academy of Sciences), Yong Sun (Institute of Information Engineering, Chinese Academy of Sciences), and Qingyun Liu (Institute of Information Engineering, Chinese Academy of Sciences)</i>	
An Experimental Flow Secure File System .790.....	
<i>Shyamasundar Rudrapatna (Indian Institute of Technology Bombay), NV Narendra Kumar (Indian Institute of Technology Bombay), Abhijit Taware (Coriolis Technologies Pvt. Ltd.), and Parjanya Vyas (Indian Institute of Technology Bombay)</i>	
VMPBL: Identifying Vulnerable Functions Based on Machine Learning Combining Patched Information and Binary Comparison Technique by LCS .800.....	
<i>DanJun Liu (National University of Defense and Technology), Yao Li (National University of Defense and Technology), Yong Tang (National University of Defense and Technology), Baosheng Wang (National University of Defense and Technology), and Wei Xie (National University of Defense and Technology)</i>	

Track 2: Security Track 20

NTPDroid: A Hybrid Android Malware Detector Using Network Traffic and System Permissions .808.	
<i>Anshul Arora (Indian Institute of Technology Roorkee) and Sateesh K Peddoju (Indian Institute of Technology Roorkee)</i>	

Energy Exhaustion Attack on Barrett's Reduction .814.....	<i>Mohannad Mostafa (University of Waterloo), Tanushree Banerjee (University of Waterloo), and M. Anwar Hasan (University of Waterloo)</i>
Authentication of IoT Device and IoT Server Using Secure Vaults .819.....	<i>Trusit Shah (University of Texas at Dallas) and S Venkatesan (University of Texas at Dallas)</i>
Using Feature Selection to Identify Chains of Insecure Software Configuration Parameters .825.....	<i>Errin Fulp (Wake Forest University) and H. Donald Gage (Wake Forest University)</i>
Reinforcing IoT-Enforced Security Policies .831.....	<i>Nouha Oualha (CEA, LIST)</i>

Track 2: Security Track 21

Enhancing Security and Scalability in Software Defined LTE Core Networks .837.....	<i>Ruichun Gu (Inner Mongolia University of Science and Technology, Baotou, China), Xiaolong Zhang (Inner Mongolia University, Hohhot, China), Lei Yu (Inner Mongolia University, Hohhot, China), and Junxing Zhang (Inner Mongolia University, Hohhot, China)</i>
Uninterrupted Video Surveillance in the Face of an Attack .843.....	<i>Jagannadh Vempati (University of North Texas), Ram Dantu (University of North Texas), and Mark Thompson (University of North Texas)</i>
Enhancing the Naive Bayes Spam Filter Through Intelligent Text Modification Detection .849.....	<i>Wuxu Peng (Texas State University), Linda Huang (Texas State University), Julia Jia (Texas State University), and Emma Ingram (Texas State University)</i>
A Case Study of Accelerating Apache Spark with FPGA .855.....	<i>Junjie Hou (Shanghai Jiao Tong University, Shanghai, China), Yongxin Zhu (Shanghai Advanced Research Institute, Chinese Academy of Sciences, Shanghai, China), Linghe Kong (Shanghai Jiao Tong University, Shanghai, China), Zhe Wang (Shanghai Jiao Tong University, Shanghai, China), Sen Du (Shanghai Jiao Tong University, Shanghai, China), Shijin Song (Shanghai Jiao Tong University, Shanghai, China), and Tian Huang (University of Cambridge, UK)</i>
A Multiple Layer Security Architecture for Internet of Things into MVC Design .861.....	<i>Hongbo Chen (Shandong University), Hongjun Dai (Shandong University), and Meikang Qiu (Shenzhen University)</i>

Track 2: Security Track 22

Lightweight ECC with Fragile Zero-Watermarking for Internet of Things Security .867.....	<i>Kinza Sarwar (Auckland University of Technology (AUT), New Zealand), Sira Yongchareon (Auckland University of Technology (AUT), New Zealand), and Jian Yu (Auckland University of Technology (AUT), New Zealand)</i>
--	---

Signature Renewal for Low Entropy Data .873.....	
<i>Atighehchi Kevin (Normandie Univ, UNICAEN, ENSICAEN, CNRS, GREYC, France) and Barbier Morgan (Normandie Univ, UNICAEN, ENSICAEN, CNRS, GREYC, France)</i>	

Track 2: Security Track 23

Profiling Network Traffic Behavior for the Purpose of Anomaly-Based Intrusion Detection .885.....	
<i>Manmeet Singh Gill (Concordia University of Edmonton), Dale Lindskog (Concordia University of Edmonton), and Pavol Zavorsky (Concordia University of Edmonton)</i>	
Steganographic Transports: A Vector for Hidden Secret Internets? .891.....	
<i>Bernd Troegeler (Accenture) and Paul Watters (La Trobe University)</i>	
Efficient Cross-User Deduplication of Encrypted Data Through Re-Encryption .897.....	
<i>Xin Tang (University of International Relations, China,), Linna Zhou (University of International Relations, China), Yongfeng Huang (Tsinghua University, China), and Chin-Chen Chang (Feng Chia University)</i>	
Detecting Data Leakage from Databases on Android Apps with Concept Drift .905.....	
<i>Gökhan Kul (University at Buffalo, SUNY), Shambhu Upadhyaya (University at Buffalo, SUNY), and Varun Chandola (University at Buffalo, SUNY)</i>	

Track 3: Privacy Track 1

Acies: A Privacy-Preserving System for Edge-Based Classification .914.....	
<i>Wanli Xue (UNSW, Data61- CSIRO), Yiran Shen (Data61- CSIRO), Chengwen Luo (Shenzhen University), Wen Hu (UNSW, Data61- CSIRO), and Aruna Seneviratne (UNSW,Data61- CSIRO)</i>	
PAIRS: Privacy-Aware Identification and Recommendation of Spatio-Friends .920.....	
<i>Shuo Wang (University of Melbourne), Richard Sinnott (University of Melbourne), and Surya Nepal (CSIRO)</i>	
Lightweight Verification for Searchable Encryption .932.....	
<i>Boyang Wang (University of Cincinnati) and Xinxin Fan (Bosch Research and Technology Center)</i>	
Privacy Parameter Variation Using RAPPOR on a Malware Dataset .938.....	
<i>Peter Aaby (Edinburgh Napier University), Juanjo Mata De Acuna (Edinburgh Napier University), Richard Macfarlane (Edinburgh Napier University), and William J Buchanan (Edinburgh Napier University)</i>	

Track 3: Privacy Track 2

reclaimID: Secure, Self-Sovereign Identities Using Name Systems and Attribute-Based Encryption .946.....	
<i>Martin Schanzenbach (Fraunhofer AISEC), Georg Bamm (Fraunhofer AISEC), and Julian Schütte (Fraunhofer AISEC)</i>	

PUSC: Privacy-Preserving User-Centric Skyline Computation Over Multiple Encrypted Domains .958	
	<i>Ximeng Liu (Singapore Management University / Fuzhou University), Kim-Kwang Raymond Choo (The University of Texas at San Antonio), Robert H. Deng (Singapore Management University), Yang Yang (Fuzhou University), and Yinghui Zhang (Singapore Management University)</i>
Capstone: Mobility Modeling on Smartphones to Achieve Privacy by Design .964.....	
	<i>Vaibhav Kulkarni (UNIL-HEC Lausanne), Arielle Moro (UNIL-HEC Lausanne), Bertil Chapuis (UNIL-HEC Lausanne), and Benoit Garbinato (UNIL-HEC Lausanne)</i>
P-GENT: Privacy-Preserving Geocoding of Non-Geotagged Tweets .972.....	
	<i>Shuo Wang (University of Melbourne), Richard Sinnott (University of Melbourne), and Surya Nepal (CSIRO)</i>

Track 3: Privacy Track 3

A Flow-Level Architecture for Balancing Accountability and Privacy .984.....	
	<i>Yuxiang Ma (Computer Network Information Center, Chinese Academy of Sciences), Yulei Wu (University of Exeter), Jingguo Ge (Institute of Information Engineering, Chinese Academy of Sciences), and Jun Li (Computer Network Information Center, Chinese Academy of Sciences)</i>
Asymmetric Commutative Encryption Scheme Based Efficient Solution to the Millionaires' Problem .990.....	
	<i>Meng Liu (Shandong University, Weihai, China), Priyadarsi Nanda (University of Technology Sydney, Australia), Xuyun Zhang (University of Auckland, New Zealand), Chi Yang (University of Wollongong, Australia), Shui Yu (Deakin University, Burwood, Australia), and Jianxin Li (University of Western Australia, Australia)</i>
AuthStore: Password-Based Authentication and Encrypted Data Storage in Untrusted Environments .996.....	
	<i>Clemens Zeidler (University of Auckland) and Muhammad Rizwan Asghar (University of Auckland)</i>
SDLI: Static Detection of Leaks Across Intentions .1002.....	
	<i>Rocco Salvia (University of Utah), Pietro Ferrara (JuliaSoft SRL), Fausto Spoto (Università di Verona), and Agostino Cortesi (Università Ca' Foscari)</i>

Track 3: Privacy Track 4

Software System Representation Methods Based on Algebraic Component .1008.....	
	<i>Zijun Yu (Beijing Institute of Technology), Chun Shan (Beijing Institute of Technology), Limin Mao (China Aerospace Science and Industry Corporation Limited), Changzhen Hu (Beijing Institute of Technology), and Wenjie Xiong (Beijing Institute of Technology)</i>

- A Lightweight Multi-precision Squaring on Embedded Processors for ECC .1014.....
Wei Zhang (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Dongdai Lin (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Hailong Zhang (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Xiaojun Zhou (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Yiwu Gao (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), and Cong Chen (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China)

Track 3: Privacy Track 5

- A Systematic Method on PDF Privacy Leakage Issues .1020.....
Yun Feng (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences), Baoxu Liu (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences), Xiang Cui (Cyberspace Institute of Advanced Technology, Guangzhou University), Chaoge Liu (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences), Xuebin Kang (Antiylabs), and Junwei Su (Institute of Information Engineering, Chinese Academy of Sciences; School of Cyber Security, University of Chinese Academy of Sciences)
- Website Fingerprinting by Power Estimation Based Side-Channel Attacks on Android 7 .1030.....
Yi Qin (Colorado School of Mines) and Chuan Yue (Colorado School of Mines)
- Do You Like What I Like? Similarity Estimation in Proximity-Based Mobile Social Networks .1040....
Felix Beierle (Technische Universität Berlin)
- Countering Intrusiveness Using New Security-Centric Ranking Algorithm Built on Top of Elasticsearch .1048.....
Fadi Mohsen (University of Michigan-Flint), Hamed Abdelhaq (An-Najah National University), Halil Bisgin (University of Michigan-Flint), Andrew Jolly (University of Michigan-Flint), and Michael Szczepanski (University of Michigan-Flint)

Track 3: Privacy Track 6

- A Concept and Evaluation of Usable and Fine-Grained Privacy-Friendly Cookie Settings Interface .1058.....
Oksana Kulyk (Karlsruhe Institute of Technology), Peter Mayer (Karlsruhe Institute of Technology), Melanie Volkamer (Karlsruhe Institute of Technology), and Oliver Käfer (Technische Universität Darmstadt)

Highly Efficient Privacy-Preserving Key Agreement for Wireless Body Area Networks .1064.....	
<i>Haibat Khan (Royal Holloway, University of London), Benjamin Dowling (Royal Holloway, University of London), and Keith M. Martin (Royal Holloway, University of London)</i>	
Privacy Preserving Distributed Deep Learning and Its Application in Credit Card Fraud Detection .1070.....	
<i>Yang Wang (University of Virginia), Stephen Adams (University of Virginia), Peter Beling (University of Virginia), Steven Greenspan (CA Technologies), Sridhar Rajagopalan (CA Technologies), Maria Velez-Rojas (CA Technologies), Serge Mankovski (CA Technologies), Steven Boker (University of Virginia), and Donald Brown (University of Virginia)</i>	
Privacy-Preserving Access Control in Electronic Health Record Linkage .1079.....	
<i>Yang Lu (The University of Melbourne), Richard O. Sinnott (The University of Melbourne), Kain Verspoor (The University of Melbourne), and Udaya Paramalli (The University of Melbourne)</i>	

Track 3: Privacy Track 7

Track me if you can? Query Based Dual Location Privacy in VANETs for V2V and V2I .1091.....	
<i>Muhammad Arif (Guangzhou University Guangzhou, China), Guojun Wang (Guangzhou University Guangzhou, China), and Tao Peng (Guangzhou University Guangzhou, China)</i>	
QueryGuard: Privacy-Preserving Latency-Aware Query Optimization for Edge Computing .1097.....	
<i>Runhua Xu (University of Pittsburgh), Balaji Palanisamy (University of Pittsburgh), and James Joshi (University of Pittsburgh)</i>	
PMDA: Privacy-Preserving Multi-functional Data Aggregation Without TTP in Smart Grid .1107.....	
<i>Zheng He (State Key Laboratory of Information Security, Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing China), Shiran Pan (State Key Laboratory of Information Security, Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing China), and Dongdai Lin (State Key Laboratory of Information Security, Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing China)</i>	
Understanding the Performance and Challenges of DNS Query Name Minimization .1115.....	
<i>Zheng Wang (National Institute of Standards and Technology)</i>	

Track 3: Privacy Track 8

Toward a Secure Access to 5G Network .1121.....	
<i>Fuwen Liu (China Mobile Research Institute), Jin Peng (China Mobile Research Institute), and Min Zuo (China Mobile Research Institute)</i>	

Fast Time Series Discords Detection with Privacy Preserving .1129.....	
<i>Chunkai Zhang (Harbin Institute of Technology, Shenzhen), Ao Yin (Harbin Institute of Technology, Shenzhen), Yulin Wu (Harbin Institute of Technology, Shenzhen), Yingyang Chen (Harbin Institute of Technology, Shenzhen), and Xuan Wang (Harbin Institute of Technology, Shenzhen)</i>	
An Efficient Blacklistable Anonymous Credential System with Reputation Using Pairing-Based Accumulator .1140.....	
<i>Toru Nakanishi (Hiroshima University) and Takeshi Kanatani (Hiroshima University)</i>	
Privacy-Preserving Data Synchronization Using Tensor-Based Fully Homomorphic Encryption .1149	
<i>Keke Gai (Beijing Institute of Technology), Yulu Wu (Beijing Institute of Technology), Liehuang Zhu (Beijing Institute of Technology), and Meikang Qiu (Columbia University)</i>	

Track 3: Privacy Track 9

Towards Domain-Specific and Privacy-Preserving Qualified eID in a User-Centric Identity Model .1157.....	
<i>Thomas Lenz (Institute of Applied Information Processing and Communications (IAIK)) and Vesna Krnjic (Institute of Applied Information Processing and Communications (IAIK))</i>	
RZKPB: A Privacy-Preserving Blockchain-Based Fair Transaction Method for Sharing Economy .1164	
<i>Bin Li (National University of Defense Technology) and Yijie Wang (National University of Defense Technology)</i>	
Towards a User-Friendly and Secure Hand Shaking Authentication for Smartphones .1170.....	
<i>Jinpei Yan (Xi'an Jiaotong University), Yong Qi (Xi'an Jiaotong University), Qifan Rao (Xi'an Jiaotong University), and Saiyu Qi (Xidian University)</i>	
A Flexible Mix-Zone Selection Scheme Towards Trajectory Privacy Protection .1180.....	
<i>Zhenyu Chen (Institute of Software Chinese Academy of Sciences), Yanyan Fu (Institute of Software Chinese Academy of Sciences), Min Zhang (Institute of Software Chinese Academy of Sciences), Zhenfeng Zhang (Institute of Software Chinese Academy of Sciences), and Hao Li (Institute of Software Chinese Academy of Sciences)</i>	
PHedHA: Protecting Healthcare Data in Health Information Exchanges with Active Data Bundles .1187.....	
<i>Wesam Fadheel (Western Michigan University), Raed Salih (Western Michigan University), and Leszek Lilien (Western Michigan University)</i>	

Track 4: Forensics and Analytics Track 1

Monero Ring Attack: Recreating Zero Mixin Transaction Effect .1196.....	
<i>Dimaz Ankaa Wijaya (Monash University), Joseph Liu (Monash University), Ron Steinfeld (Monash University), and Dongxi Liu (Data61 CSIRO)</i>	

PANDORA: Preserving Privacy in PRNU-Based Source Camera Attribution .1202.....	
<i>Manoranjan Mohanty (The University of Auckland), Ming Zhang (University of Auckland), Muhammad Rizwan Asghar (University of Auckland), and Giovanni Russello (University of Auckland)</i>	
Identifying Passive Message Fingerprint Attacks via Honey Challenge in Collaborative Intrusion Detection Networks .1208.....	
<i>Wenjuan Li (City University of Hong Kong), Weizhi Meng (Technical University of Denmark), Yu Wang (Guangzhou University), Lam For Kwok (City University of Hong Kong), and Rongxing Lu (University of New Brunswick)</i>	
Testing Cryptographically Secure Pseudo Random Number Generators with Artificial Neural Networks .1214.....	
<i>Tilo Fischer (Fraunhofer Institute for Applied and Integrated Security)</i>	

Track 4: Forensics and Analytics Track 2

IRTED-TL: An Inter-Region Tax Evasion Detection Method Based on Transfer Learning .1224.....	
<i>Xulyu Zhu (Xi'an Jiaotong University), Zheng Yan (Xidian University), Jianfei Ruan (Xi'an Jiaotong University), Qinghua Zheng (Xi'an Jiaotong University), and Bo Dong (Xi'an Jiaotong University)</i>	
One Intrusion Detection Method Based On Uniformed Conditional Dynamic Mutual Information .1236	
<i>Liangfu Lu (Tianjin University), Xinhe Zhu (Tianjin Polytechnic University), Xuyun Zhang (University of Auckland), Junhan Liu (Tianjin University), Md Zakirul Alam Bhuiyan (Fordham University , USA), and Guangtai Cui (Hohai University)</i>	
Cyber Identity: Salient Trait Ontology and Computational Framework to Aid in Solving Cybercrime .1242.....	
<i>Mary C. Michel (Florida Institute of Technology), Marco Carvalho (Florida Institute of Technology), Heather Crawford (Florida Institute of Technology), and Albert C. Esterline (NC A&T University)</i>	

Track 4: Forensics and Analytics Track 3

Enabling Trust in Deep Learning Models: A Digital Forensics Case Study .1250.....	
<i>Aditya K (University College, Dublin), Slawomir Grzonkowski (Symantec Corporation), and NhienAn Lekhac (University College, Dublin)</i>	
Bluetooth Low Energy Used for Memory Acquisition from Smart Health Care Devices .1256.....	
<i>Tina Wu (University of Oxford) and Andrew Martin (University of Oxford)</i>	

Track 4: Forensics and Analytics Track 4

- Resilient Bipartite Consensus for Multi-agent Networks with Antagonistic Interactions .1262.....
Hongbin Liu (Hangzhou Dianzi University), Ming Xu (Hangzhou Dianzi University), Yiming Wu (Hangzhou Dianzi University), Ning Zheng (Hangzhou Dianzi University), Yangfang Chen (nzheng@hdu.edu.cn), and Md Zakirul Alam Bhuiyan (Fordham University)
- An Efficient Distributed Approach on High Dimensional Data Similarity Searchable Encryption .1270.....
Cheng Guo (Dalian University of Technology, China), Xinyu Tang (Dalian University of Technology, China), Yuanfang Chen (Hangzhou Dianzi University, China), Pengxu Tian (Dalian University of Technology, China), and Md Zakirul Alam Bhuiyan (Fordham University, USA)
- Autoblog Forensics and Attribution .1276.....
Aaron Koehl (College of William and Mary)

Track 5: Emerging Tech Track 1

- Managed Blockchain Based Cryptocurrencies with Consensus Enforced Rules and Transparency .1287
Peter Mell (National Institute of Standards and Technology)
- A Lightweight Path Authentication Protocol for RFID-Based Supply Chains .1297.....
Yuyin Qian (East China Normal University), Peng Zeng (East China Normal University), Zuming Shen (East China Normal University), and Kim-Kwang Raymond Choo (University of Texas at San Antonio)
- A Blockchain-Based Decentralized Data Storage and Access Framework for PingER .1303.....
Saqib Ali (Guangzhou University), Guojun Wang (Guangzhou University), Bebo White (Stanford Linear Accelerator Center, Stanford University), and Roger Leslie Cottrell (Stanford Linear Accelerator Center, Stanford University)
- Learning and Applying Ontology for Machine Learning in Cyber Attack Detection .1309.....
Huangjie Zheng (Shanghai Jiao Tong University), Yuchen Wang (Shanghai Jiao Tong University), Chen Han (Shanghai Jiao Tong University), Fangjie Le (Shanghai Jiao Tong University), Ruan He (Tencent), and Jialiang Lu (Shanghai Jiao Tong University)

Track 5: Emerging Tech Track 2

- Practical K Nearest Neighbor Query Scheme with Two-Party Guarantees in Road Networks .1316..
Changli Zhou (Huaqiao University), Tian Wang (Huaqiao University), Wenxian Jiang (Huaqiao University), and Hui Tian (Huaqiao University)
- Privacy-Preserving Method for Temporarily Linking/Revoking Pseudonym Certificates in VANETs .1322.....
Marcos Antonio Simplicio Junior (Universidade de Sao Paulo), Eduardo Lopes Cominetti (Universidade de Sao Paulo), Harsh Kupwade Patil (LG Electronics), Jefferson Ricardini (Universidade de Sao Paulo), Leonardo Ferraz (Universidade de Sao Paulo), and Marcos Vinicius Silva (Universidade de Sao Paulo)

Blockchain as a Notarization Service for Data Sharing with Personal Data Store .1330.....	
<i>Mohammad Javed Morshed Chowdhury (Swinburne University of Technology), Alan Colman (Swinburne University of Technology), Muhammad Ashad Kabir (Charles Sturt University), Jun Han (Swinburne University of Technology), and Paul Sarda (Swinburne University of Technology)</i>	
Superscalar Encrypted RISC: The Measure of a Secret Computer .1336.....	
<i>Peter Breuer (Hecusys), Jonathan Bowen (London South Bank University), Esther Palomar (Birmingham City University), and Zhiming Liu (Southwest University)</i>	

Track 5: Emerging Tech Track 3

Fair and Transparent Blockchain Based Tendering Framework - A Step Towards Open Governance.....	1342
<i>Freya Sheer Hardwick (ISG-SCC, Royal Holloway, University of London, Egham, United Kingdom), Raja Naeem Akram (ISG-SCC, Royal Holloway, University of London, Egham, United Kingdom), and Konstantinos Markantonakis (ISG-SCC, Royal Holloway, University of London, Egham, United Kingdom)</i>	
Blockchain Versus Database: A Critical Analysis .1348.....	
<i>Mohammad Javed Morshed Chowdhury (Swinburne University of Technology), Alan Colman (Swinburne University of Technology), Muhammad Ashad Kabir (Charles Sturt University), Jun Han (Swinburne University of Technology), and Paul Sarda (Swinburne University of Technology)</i>	
A Privacy-Preserving Principal Component Analysis Outsourcing Framework .1354.....	
<i>Xinbo Liu (Hunan University), Yaping Lin (Hunan University), Qin Liu (Hunan University), and Xin Yao (Hunan University)</i>	
Detecting Domain Generation Algorithms with Convolutional Neural Language Models .1360.....	
<i>Ji Huang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Pei Wang (National Computer Network Emergency Response Technical Team/Coordination Center of China, Beijing, China), Tianning Zang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Qian Qiang (National Computer Network Emergency Response Technical Team/Coordination Center of China, Beijing, China), Yipeng Wang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), and Miao Yu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China)</i>	

Track 5: Emerging Tech Track 4

FPPB: A Fast and Privacy-Preserving Method Based on the Permissioned Blockchain for Fair Transactions in Sharing Economy .1368.....	
<i>Bin Li (National University of Defense Technology), Yijie Wang (National University of Defense Technology), Peichang Shi (National University of Defense Technology), Huan Chen (National University of Defense Technology), and Li Cheng (National University of Defense Technology)</i>	

On the Design of a Blockchain-Based System to Facilitate Healthcare Data Sharing .1374.....	<i>Anastasia Theodouli (Informatics and Telematics Institute / Centre for Research and Technology Hellas), Stelios Arakliotis (Informatics and Telematics Institute / Centre for Research and Technology Hellas), Konstantinos Moschou (Informatics and Telematics Institute / Centre for Research and Technology Hellas), Konstantinos Votis (Informatics and Telematics Institute / Centre for Research and Technology Hellas), and Dimitrios Tzovaras (Informatics and Telematics Institute / Centre for Research and Technology Hellas)</i>
Consumer Centric Data Control, Tracking and Transparency – A Position Paper .1380.....	<i>James Tapsell (Royal Holloway, University of London), Raja Naeem Akram (Royal Holloway, University of London), and Konstantinos Markantonakis (Royal Holloway, University of London)</i>
Achieving Secure and Effective Search Services in Cloud Computing .1386.....	<i>Qin Liu (Hunan University, P. R. China), Shuyu Pei (Hunan University, P. R. China), Kang Xie (Ministry of Public Security, P. R. China), Jie Wu (Temple University), Tao Peng (Guangzhou University, P. R. China), and Guojun Wang (Guangzhou University, P. R. China)</i>

Track 5: Emerging Tech Track 5

Node Immunization in Networks with Uncertainty .1392.....	<i>Yizhi Ren (Hangzhou Dianzi University), Mengjin Jiang (Hangzhou Dianzi University), Ye Yao (Hangzhou Dianzi University), Ting Wu (Hangzhou Dianzi University), Zhen Wang (Hangzhou Dianzi University), Mengkun Li (Capital Normal University), and Kim-Kwang Raymond Choo (The University of Texas at San Antonio)</i>
Effective Mobile Web User Fingerprinting via Motion Sensors .1398.....	<i>Zhiju Yang (Colorado School of Mines), Rui Zhao (Colorado School of Mines and University of Nebraska Omaha), and Chuan Yue (Colorado School of Mines)</i>
Qualified eID Derivation Into a Distributed Ledger Based IdM System .1406.....	<i>Andreas Abraham (eGovernment Innovation Center (EGIZ), Graz University of Technology), Kevin Theuermann (eGovernment Innovation Center (EGIZ), Graz University of Technology), and Emanuel Kirchengast (Institute of Applied Information Processing and Communications (IAIK), Graz University of Technology)</i>
A Hybrid Recommendation Algorithm Based on Heuristic Similarity and Trust Measure .1413.....	<i>Chao Yang (Hunan University, Changsha, China), Xinghe Chen (Hunan University, Changsha, China), Tingting Song (Hunan University, Changsha, China), Bin Jiang (Hunan University, Changsha, China), and Qin Liu (Hunan University, Changsha, China)</i>
SPARQL Multi-Query Optimization .1419.....	<i>Jiaqi Chen (Peking University), Fan Zhang (Peking University), and Lei Zou (Peking University)</i>

Track 5: Emerging Tech Track 6

- Identifying WeChat Red Packets and Fund Transfers Via Analyzing Encrypted Network Traffic .1426
Feipeng Yan (Hangzhou Dianzi University, HangZhou, China), Ming Xu (Hangzhou Dianzi University, HangZhou, China), Tong Qiao (Hangzhou Dianzi University, HangZhou, China), Ting Wu (Hangzhou Dianzi University, HangZhou, China), Xue Yang (Hangzhou Dianzi University, HangZhou, China), Ning Zheng (Hangzhou Dianzi University, HangZhou, China), and Kim-Kwang Raymond Choo (The University of Texas at San Antonio)
- Are Your Neighbors Swingers or Kinksters? Feeld App Forensic Analysis .1433.....
Nicholas Mata (University of Texas at San Antonio), Nicole Beebe (University of Texas at San Antonio), and Kim-Kwang Raymond Choo (University of Texas at San Antonio)
- Browser Analysis of Residual Facebook Data .1440.....
Taylor Cloyd (University of Texas at San Antonio), Trey Osborn (University of Texas at San Antonio), Brian Ellingboe (University of Texas at San Antonio), William Bradley Glisson (Sam Houston State University), and Kim-Kwang Raymond Choo (University of Texas at San Antonio)
- A Forensic Investigation Framework for Smart Home Environment .1446.....
Arnoud Goudbeek (Fiscal Information and Investigation Service, The Netherlands), Kim-Kwang Raymond Choo (University of Texas at San Antonio, USA), and Nhien-An Le-Khac (University College Dublin, Ireland)

Track 6: Hardware Security Track 1

- A Co-training Based Hardware Trojan Detection Technique by Exploiting Unlabeled ICs and Inaccurate Simulation Models .1452.....
Mingfu Xue (Nanjing University of Aeronautics and Astronautics), Rongzhen Bian (Nanjing University of Aeronautics and Astronautics), Jian Wang (Nanjing University of Aeronautics and Astronautics), and Weiqiang Liu (Nanjing University of Aeronautics and Astronautics)
- Building Trusted Golden Models-Free Hardware Trojan Detection Framework Against Untrustworthy Testing Parties Using a Novel Clustering Ensemble Technique .1458.....
Rongzhen Bian (Nanjing University of Aeronautics and Astronautics), Mingfu Xue (Nanjing University of Aeronautics and Astronautics), and Jian Wang (Nanjing University of Aeronautics and Astronautics)
- A Compact, Lightweight and Low-Cost 8-Bit Datapath AES Circuit for IoT Applications in 28nm CMOS .1464.....
Minyi Lu (Southeast University), Ao Fan (Southeast University), Jiaming Xu (Southeast University), and Weiwei Shan (Southeast University)

Differential Power Analysis of 8-Bit Datapath AES for IoT Applications .1470.....	
<i>Jiaming Xu (National ASIC System Engineering Research Center Southeast University Nanjing, China), Ao Fan (National ASIC System Engineering Research Center Southeast University Nanjing, China), Minyi Lu (National ASIC System Engineering Research Center Southeast University Nanjing, China), and Weiwei Shan (National ASIC System Engineering Research Center Southeast University Nanjing, China)</i>	

Track 6: Hardware Security Track 2

A Power Analysis Attack Countermeasure Based on Random Execution .1474.....	
<i>Shenghua Chen (Southeast University), Wei Ge (Southeast University), Jinjiang Yang (Southeast University), Bo Liu (Southeast University), and Jun Yang (Southeast University)</i>	
RNS-Based Embedding Scheme for Data Hiding in Digital Images .1480.....	
<i>Yi Yao (University of Electronic Science and Technology of China), Jun Zhou (University of Electronic Science and Technology of China), Bo Yan (University of Electronic Science and Technology of China), and Yuqian Li (University of Electronic Science and Technology of China)</i>	
Partial Scan Design Against Scan-Based Side Channel Attacks .1484.....	
<i>Xi Chen (Univ. of Maryland), Zhaojun Lu (Univ. of Maryland), Gang Qu (Univ. of Maryland), and Aijiao Cui (Harbin Institute of Technology Shenzhen Graduate School)</i>	

IEEE TrustCom Short Papers

Behavioral Based Trust Metrics and the Smart Grid .1490.....	
<i>James Obert (Sandia National Labs), Adrian Chavez (Sandia National Labs), and Jay Johnson (Sandia National Labs)</i>	
Differential Power Attack on SM4 Block Cipher .1494.....	
<i>Guoqiang Bai Bai (Institute of Microelectronics, Tsinghua University), Hailiang Fu (Institute of Microelectronics, Tsinghua University), Wei Li (Institute of Microelectronics, Tsinghua University), and Xingjun Wu (Institute of Microelectronics, Tsinghua University)</i>	
Cryptanalysis of a Chaotic Ring Oscillator Based Random Number Generator .1498.....	
<i>Salih Ergün (ERGTECH Research Center - Ergunler San. Tic. Ltd. Sti.)</i>	
Concepts for Trust Propagation in Knowledge Processing Systems - A Brief Introduction and Overview .1502.....	
<i>Markus Jäger (Johannes Kepler University (JKU), Linz, Austria), Stefan Nadschläger (Johannes Kepler University (JKU), Linz, Austria), and Josef Küng (Johannes Kepler University (JKU), Linz, Austria)</i>	
Towards Trustworthy Information Sharing by Creating Cyber Security Alliances .1506.....	
<i>Ameneh Deljoo (University of Amsterdam), Tom van Engers (University of Amsterdam), Ralph Koning (University of Amsterdam), Leon Gommans (Air-France KLM), and Cees de Laat (University of Amsterdam)</i>	

Track 2: Security Track 1

- An Approach of Security Protection for VSAT Network .1511.....
Zhijun Wu (Civil Aviation University of China), Qingbo Pan (Civil Aviation University of China), Meng Yue (Civil Aviation University of China), and Shaopu Ma (Civil Aviation University of China)
- Monitoring of Temperature and Pressure Through Brillouin Optical Sensors for Disasters Systems .1517.....
Amira Zrelli (Enit) and Tahar Ezzedine (Enit)
- An Implementation of Hierarchical Intrusion Detection Systems Using Snort and Federated Databases .1521.....
Sarvjot kaur Kang (Concordia University Of Edmonton), Dale Lindskog (Concordia University Of Edmonton), and Hamman Samuel (Concordia University Of Edmonton)
- Low-Cost Energy-Efficient Side-Channel Attacks Resistant AES S-Box with Power-Aware Hiding Inverter in GF(2⁴) .1526.....
Chaoqun Yang (Beijing Information Science and Technology University), Xiangyu Li (Tsinghua University), and Shujuan Yin (Beijing Information Science and Technology University)
- A Novel Identity Authentication for FPGA Based IP Designs .1531.....
Yin Huang (Hunan university of Science and Technology), Wei Liang (Hunan university of Science and Technology;Xiamen University of Technology), Jing Long (Hunan University), Jianbo Xu (Hunan university of Science and Technology), and Kuan-Ching Li (Providence University;Hubei University of Education)

Track 2: Security Track 2

- Detection and Prevention of Routing Attacks in Internet of Things .1537.....
Sarika Choudhary (University of Rajasthan) and Nishtha Kesswani (University of Rajasthan)
- Low Delay and Low Cost Audio Surveillance System via a New Optimum FIR Digital Filter .1541.....
Rongxuan Ma (Wuhan University of Science and Technology, China), Wei Hu (Wuhan University of Science and Technology, China), and Yonghao Wang (Birmingham City University, UK)
- UCAM: Usage, Communication and Access Monitoring Based Detection System for IoT Botnets .1547
Syed Muhammad Sajjad (Riphah Institute of Systems Engineering, Riphah International University, Islamabad Pakistan) and Muhammad Yousaf (Riphah Institute of Systems Engineering, Riphah International University Islamabad Pakistan)
- Proposal of Multi-channel Operation Technique Using PingPong256 .1551.....
KiHwan Kim (Dongseo university) and HoonJae Lee (Dongseo University)
- A Reversible Data Hiding Scheme with High Security and Improved Embedding Capacity .1555.....
Gyan Singh Yadav (PDPM IITDM Jabalpur) and Aparajita Ojha (PDPM IITDM Jabalpur)

Track 2: Security Track 3

- Behavioral-Based Classification and Identification of Ransomware Variants Using Machine Learning .1560.....
Hajredin Daku (Concordia University of Edmonton), Pavol Zavarsky (Concordia University of Edmonton), and Yasir Malik (Concordia University of Edmonton)
- ALDD: A Hybrid Traffic-User Behavior Detection Method for Application Layer DDoS .1565.....
Jianguo Jiang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Qian Yu (School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Min Yu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Gang Li (Deakin University, VIC, Australia), Jiuming Chen (School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Kunying Liu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Chao Liu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), and Weiqing Huang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China)
- Migrating Data Between Physical Server and Cloud: Improving Accuracy and Data Integrity .1570..
Mimouna Alkhonaini (Bowie State University) and Hoda El-Sayed (Bowie State University)
- OAuth-SSO: A Framework to Secure the OAuth-Based SSO Service for Packaged Web Applications.....
1575
Nazmul Hossain (Jessore University of Science & Technology, Bangladesh), Md. Alam Hossain (Jessore University of Science & Technology, Bangladesh), Md. Zobayer Hossain (Jessore University of Science & Technology, Bangladesh), Md. Hasan Imam Sohag (Jessore University of Science & Technology, Bangladesh), and Shawon Rahman (University of Hawaii-Hilo Hilo, Hawaii)
- Energy Efficiency Analysis of Elliptic Curve Based Cryptosystems .1579.....
Tanushree Banerjee (University of Waterloo) and M. Anwar Hasan (University of Waterloo)

Track 2: Security Track 4

- Research on Information Security Perception of Sina Weibo Users Based on KISCAP Model .1584.
Daniel Tse (City University of Hong Kong), Xuan Weng (City University of Hong Kong), Xin Wan (City University of Hong Kong), Lan Yao (City University of Hong Kong), and Wensong Zhang (City University of Hong Kong)
- Evaluating the Risk Management Plan and Addressing Factors for Successes in Government Agencies .1589.....
Henry Okonofua (HOD Consulting LLC, College Park, MD) and Shawon Rahman (University of Hawaii-Hilo Hilo, Hawaii)
- Hierarchical Polynomial-Based Key Management Scheme in Fog Computing .1593.....
Ashwag Albakri (University of Missouri- Kansas City), Mahesh Maddumala (University of Missouri- Kansas City), and Lein Harn (University of Missouri- Kansas City)

Who Would you Like to be Today?: Impersonation by Fake Azure Active Directory Identity Federation .1598.....	<i>Nestori Syynimaa (University of Jyväskylä, Finland)</i>
On the Incremental Digital Signatures .1605.....	<i>Kevin Atighehchi (ENSICAEN, GREYC, France)</i>

Track 3: Privacy Track

Optimized Data de-Identification Using Multidimensional k-Anonymity .1610.....	<i>Kai-Cheng Liu (Industrial Technology Research Institute), Chuan-Wei Kuo (Industrial Technology Research Institute), Wen-Chiuan Liao (Industrial Technology Research Institute), and Pang-Chieh Wang (Industrial Technology Research Institute)</i>
Measuring Personal Privacy Breaches Using Third-Party Trackers .1615.....	<i>Erica Shuford (University of Baltimore), Tara Kavanaugh (University of Baltimore), Brian Ralph (University of Baltimore), Ebrima Ceesay (Johns Hopkins University), and Paul Watters (La Trobe University)</i>
Quantifying Information Exposure in Internet Routing .1619.....	<i>Peter Mell (National Institute of Standards and Technology), Assane Gueye (University Alioune Diop of Bambey), and Christopher Schanzle (National Institute of Standards and Technology)</i>
Malicious Entities are in Vain: Preserving Privacy in Publish and Subscribe Systems .1624.....	<i>Shujie Cui (The Univeristy of Auckland), Sana Belguith (The University of Auckland), Pramodya De Alwis (The University of Auckland), Muhammad Rizwan Asghar (University of Auckland), and Giovanni Russello (University of Auckland)</i>
Differentially Private Matrix Completion via Distributed Matrix Factorization .1628.....	<i>Haotian Zhou (Huazhong University of Science and Technology, Wuhan, China), Xiao-Yang Liu (Columbia University), Cai Fu (Huazhong University of Science and Technology, Wuhan, China), Chen Shang (Northeast University), and Xinyi Chang (Huazhong University of Science and Technology, Wuhan, China)</i>

Track 1&3: Trust & Privacy Track

The Challenges of Big Data Governance in Healthcare .1632.....	<i>Daniel Tse (City University of Hong Kong), Chung-kin Chow (City University of Hong Kong), Ting-pong Ly (City University of Hong Kong), Chung-yan Tong (City University of Hong Kong), and Kwok-wah Tam (City University of Hong Kong)</i>
Double-Blind Reputation vs. Intelligent Fake VIP Attacks in Cloud-Assisted Interactions .1637.....	<i>Jerzy Konorski (Gdansk University of Technology, Poland)</i>
Analyzing HTTP-Based Information Exfiltration of Malicious Android Applications .1642.....	<i>Soham Kelkar (Wright State University), Timothy Kraus (New Mexico State University), Daria Morgan (Southern Connecticut State University), Junjie Zhang (Wright State University), and Rui Dai (University of Cincinnati)</i>

Privacy-Preserving Sensory Data Recovery .1646.....	Cai Chen (University of Electronic Science and Technology of China), Manyuan Zhang (University of Electronic Science and Technology of China), Huanzhi Zhang (University of Electronic Science and Technology of China), Zhenyun Huang (University of Electronic Science and Technology of China), and Yong Li (Chengdu University of Technology)
Detecting Swimming Pools in 15-Minute Load Data .1651.....	Sebastian Burkhart (Salzburg University of Applied Sciences), Andreas Unterweger (Salzburg University of Applied Sciences), Günther Eibl (Salzburg University of Applied Sciences), and Dominik Engel (Salzburg University of Applied Sciences)

Track 4: Forensics and Analytics Track

C2R Net: The Coarse to Refined Network for Image Forgery Detection .1656.....	Yang Wei (Chongqing University of Posts and Telecommunications, China), Xiuli Bi (Chongqing University of Posts and Telecommunications, China), and Bin Xiao (Chongqing University of Posts and Telecommunications, China)
An Adaptive Sliding Window Algorithm for Mining Frequent Itemsets in Computer Forensics .1660..	Anping Xiong (Chongqing University of Posts and Telecommunications, Chongqing, China), Yi Huang (Chongqing University of Posts and Telecommunications, Chongqing, China), Yunsong Wu (Chongqing University, Chongqing, China), Jun Zhang (New York University, New York, United States), and Linbo Long (Chongqing University of Posts and Telecommunications, Chongqing, China)
Towards Privacy-Preserving Forensic Analysis for Time-Series Medical Data .1664.....	Xiaoning Liu (Monash University), Xingliang Yuan (Monash University), and Joseph Liu (Monash University)
The Process of Reverse Engineering GPU Malware and Provide Protection to GPUS .1669.....	Yazeed Albabtain (Purdue University) and Baijian Yang (Purdue University)
Deduplicated Disk Image Evidence Acquisition and Forensically-Sound Reconstruction .1674.....	Xiaoyu Du (University College Dublin), Paul Ledwith (University College Dublin), and Mark Scanlon (University College Dublin)

Track 5: Emerging Tech Track

Towards Malware Detection via CPU Power Consumption: Data Collection Design and Analytics .1680	Robert Bridges (Oak Ridge National Laboratory), Jarilyn Hernández Jiménez (West Virginia University), Jeffrey Nichols (Oak Ridge National Laboratory), Katerina Goseva-Popstojanova (West Virginia University), and Stacy Prowell (Oak Ridge National Laboratory)
---	--

Customized Machine Learning-Based Hardware-Assisted Malware Detection in Embedded Devices
1685

Hossein Sayadi (George Mason University), Hosein Mohammadi Makrani (George Mason University), Onkar Randive (George Mason University), Sai Manoj P D (George Mason University), Setareh Rafatirad (George Mason University), and Houman Homayoun (George Mason University)

The Blockchain for Domain Based Static Sharding .1689.....
HyunKyung Yoo (Electronics and Telecommunications Research Institute (ETRI)), Jongchoul Yim (Electronics and Telecommunications Research Institute (ETRI)), and Sunme Kim (Electronics and Telecommunications Research Institute (ETRI))

A Practical Machine Learning Approach for Dynamic Stock Recommendation .1693.....
Hongyang Yang (Columbia University), Xiao-Yang Liu (Columbia University), and Qingwei Wu (Columbia University)

A Controllable Efficient Content Distribution Framework Based on Blockchain and ISODATA .1698.
Yangxin Wu (Sun Yat-Sen University), Peijia Zheng (Sun Yat-Sen University), Jianting Guo (Sun Yat-Sen University), Wei Zhang (Fudan University), and Jiwu Huang (Shenzhen University)

Track 4 & 5: Forensics and Analytics & Emerging Tech Track

A Novel Method for Detecting Image Forgery Based on Convolutional Neural Network .1702.....
Na Huang (Faculty of Information Technology, Beijing University of Technology), Jingsha He (Faculty of Information Technology, Beijing University of Technology), and Nafei Zhu (Faculty of Information Technology, Beijing University of Technology)

Forensic Analysis of Wear Leveling on Solid-State Media .1706.....
Ashar Neyaz (Sam Houston State University), Narasimha Shashidhar (Sam Houston State University), and Umit Karabiyik (Sam Houston State University)

Providing Context-Aware Security for IoT Environments Through Context Sharing Feature .1711....
Everton de Matos (PUCRS), Ramão Tiago Tiburski (PUCRS), Leonardo Albernaz Amaral (PUCRS), and Fabiano Hessel (PUCRS)

Securing Insulin Pump System Using Deep Learning and Gesture Recognition .1716.....
Usman Ahmad (Beijing Institute of Technology, China), Hong Song (Beijing Institute of Technology, China), Awais Bilal (National University of Sciences and Technology (NUST), Pakistan), Shahzad Saleem (National University of Sciences and Technology (NUST), Pakistan), and Asad Ullah (Beijing Institute of Technology, China)

IEEE TrustCom Poster Papers

Reducing Traffic Congestion for Machine to Machine Type Communication Over 4G-LTE Network by Decreasing Total Bytes Transmitted .1720.....
Jitto Joseph (Concordia University of Edmonton), Ron Ruhl (Concordia University of Edmonton), and Hamman Samuel (Concordia University of Edmonton)

- A Public Key Based EDNS Privacy Tunnel for DNS .1722.....
Lanlan Pan (Geely Automobile Research Institute, China), Xuebiao Yuchi (Chinese Academy of Sciences, China), Jian Wang (Geely Automobile Research Institute, China), and Anlei Hu (China Internet Network Information Center, China)
- Anomaly-Based Network Intrusion Detection Model Using Deep Learning in Airports .1725.....
Behrooz Sezari (Clausthal University of Technology Clausthal, Germany), Dietmar P. F. Möller (Clausthal University of Technology Clausthal, Germany), and Andreas Deutschmann (German Aerospace Center (DLR), Germany)

IEEE BigDataSE 2018

IEEE BigDataSE 1

- Towards Dynamic and Optimal Big Data Placement .1730.....
Kyriakos Kritikos (ICS-FORTH)
- Effective Integration of Geotagged, Ancillary Longitudinal Survey Datasets to Improve Adulthood Obesity Predictive Models .1738.....
Saptashwa Mitra (Colorado State University), Yu Qiu (Colorado State University), Haley Moss (Colorado State University), Kaigang Li (Colorado State University), and Sangmi Lee Pallickara (Colorado State University)
- On MapReduce Scheduling in Hadoop Yarn on Heterogeneous Clusters .1747.....
Meng Wang (Northwest University, China), Chase Q. Wu (New Jersey Institute of Technology), Huiyan Cao (New Jersey Institute of Technology), Yang Liu (Northwest University, China), Yongqiang Wang (Northwest University, China), and Aiqin Hou (Northwest University, China)
- Towards a Multi-model Cloud Workflow Resource Monitoring, Adaptation, and Prediction .1755.....
Mohamed Adel Serhani (UAE University), Hadeel T. El Kassabi (UAE University), Nabeel Al Qirim (UAE University), and Alramzana N. Navaz (UAE University)

IEEE BigDataSE 2

- Emotion Artificial Intelligence Derived from Ensemble Learning .1763.....
Anasse Bari (NYU) and Goktug Saatcioglu (NYU)
- AMI Smart Meter Big Data Analytics for Time Series of Electricity Consumption .1771.....
Rashid Mohammad (94975786)
- An Effective Method to Generate Simulated Attack Data Based on Generative Adversarial Nets.1777
Huihui Xie (Beijing Institute of Technology Beijing, China), Kun Lv (Beijing Institute of Technology Beijing, China), and Changzhen Hu (Beijing Institute of Technology Beijing, China)

Prediction Algorithm Based on Weather Forecast for Energy-Harvesting Wireless Sensor Networks .1785.....	
<i>Hengyi Ren (Nanjing University of Posts and Telecommunications), Jian Guo (Nanjing University of Posts and Telecommunications), Lijuan Sun (Nanjing University of Posts and Telecommunications), and Chong Han (Nanjing University of Posts and Telecommunications)</i>	
Large Scale and Parallel Sentiment Analysis Based on Label Propagation in Twitter Data .1791.....	
<i>Yibing Yang (Carleton University) and M. Omair Shafiq (Carleton University)</i>	

IEEE BigDataSE Short Papers

Improved Weighted Label Propagation Algorithm in Social Network Computing .1799.....	
<i>Yu Zheng (Shanghai Jiao Tong University), Yongxin Zhu (Shanghai Advanced Research Institute, Chinese Academy of Sciences; Shanghai Jiao Tong University), Shijin Song (Shanghai Jiao Tong University), Peng Xiong (Shanghai Jiao Tong University), Zihao Cao (Shanghai Jiao Tong University), and Junjie Hou (Shanghai Jiao Tong University)</i>	
Reducing Relational Database Performance Bottlenecks Using 3D XPoint Storage Technology .1804	
<i>Jinfeng Yang (University of Minnesota, Twin Cities) and David J. Lilja (University of Minnesota, Twin Cities)</i>	
A Critical Analysis of the V-Model of Big Data .1809.....	
<i>Alaa Alsaig (Concordia University), Vangular Alagar (Concordia University), and Olga Ormandjieva (Concordia University)</i>	

IEEE SPTIoT 2018

IEEE SPTIoT 1

Let me Join Two Worlds! Analyzing the Integration of Web and Native Technologies in Hybrid Mobile Apps .1814.....	
<i>Shahrooz Pouryousef (University of Massachusetts Amherst), Mariam Rezaiee (Sharif University of Technology), and Ata Chizari (University of Twente)</i>	
VeraGreg: A Framework for Verifiable Privacy-Preserving Data Aggregation .1820.....	
<i>Jakub Klemsa (Czech Technical University in Prague), Lukáš Kencel (Czech Technical University in Prague), and Tomáš Vank (Czech Technical University in Prague)</i>	
Obstacles to Implementation of Information Security Governance .1826.....	
<i>William LIdster (Capella University) and Shawon S. M. Rahman (Capella University)</i>	

IEEE SPTIoT 2

- A CSI Frequency Domain Fingerprint-Based Method for Passive Indoor Human Detection .1832.....
*Qingqing Tan (Nanjing University of Posts and Telecommunications),
Chong Han (Nanjing University of Posts and Telecommunications), Lijuan
Sun (Nanjing University of Posts and Telecommunications), Jian Guo
(Nanjing University of Posts and Telecommunications), and Hai Zhu
(Nanjing University of Posts and Telecommunications)*
- Model-Based Trust Assessment for Internet of Things Networks .1838.....
*Stephen Adams (University of Virginia), Peter A. Beling (University of
Virginia), Steven Greenspan (CA Technologies), Maria Velez-Rojas (CA
Technologies), and Serge Mankovski (CA Technologies)*

IEEE SPTIoT 3

- Privacy Preserving Distributed Attribute Computation for Usage Control in the Internet of
Things .1844.....
*Gianpiero Costantino (IIT-CNR), Antonio La Marra (IIT-CNR), Fabio
Martinelli (IIT-CNR), Paolo Mori (IIT-CNR), and Andrea Saracino
(IIT-CNR)*
- Check-ins and Photos: Spatiotemporal Correlation-Based Location Inference Attack and
Defense in Location-Based Social Networks .1852.....
*Abdur R. Shahid (Florida International University), Niki Pissinou
(Florida International University), S.S. Iyengar (Florida
International University), and Kia Makki (Technological University of
America)*

IEEE PSTCI 2018

IEEE PSTCI 1

- Blockchain for Fraud Prevention: A Work-History Fraud Prevention System .1858.....
*Paul Sarda (Swinburne University of Technology), Mohammad Javed
Morshed Chowdhury (Swinburne University of Technology), Alan Colman
(Swinburne University of Technology), Muhammad Ashad Kabir (Charles
Sturt University), and Jun Han (Swinburne University of Technology)*

IEEE PSTCI 2

- Improving Email Security with Fuzzy Rules .1864.....
Sudarshan Chawathe (University of Maine)
- Monitoring Blockchains with Self-Organizing Maps .1870.....
Sudarshan Chawathe (University of Maine)
- Unauthorized Access Point Detection Using Machine Learning Algorithms for Information
Protection .1876.....
*Doyeon Kim (Sejong University), Dongil Shin (Sejong University), and
Dongkyoo Shin (Sejong University)*

Using Artificial Neurons in Evidence Based Trust Computation .1879.....	
<i>Çiçek Güven (Eindhoven University Of Technology), Mike Holenderski (Eindhoven University of Technology), Tanir Özçelebi (Eindhoven University of Technology), and Johan Lukkien (Eindhoven University of Technology)</i>	

IEEE PSTCI 3

Intrusion-Resilient Classifier Approximation: From Wildcard Matching to Range Membership .1885.	
<i>Giovanni Di Crescenzo (Perspecta Labs), Lisa Bahler (Perspecta Labs), Brian Coan (Perspecta Labs), Kurt Rohloff (New Jersey Institute of Technology), and Yuri Polyakov (New Jersey Institute of Technology)</i>	

IEEE HSAT 2018

IEEE HSAT 1

Hardware Trojan Detection Utilizing Machine Learning Approaches .1891.....	
<i>Kento Hasegawa (Waseda University), Youhua Shi (Waseda University), and Nozomu Togawa (Waseda University)</i>	
Correlation-Based Electromagnetic Analysis Attack Using Haar Wavelet Reconstruction with Low-Pass Filtering on an FPGA Implementaion of AES .1897.....	
<i>Aiguo Bu (Southeast University), Wentao Dai (Southeast University), Minyi Lu (Southeast University), Hao Cai (Southeast University), and Weiwei Shan (Southeast University)</i>	

IEEE HSAT 2

A New Wavelet Thresholding Method Based on Cyclostationarity for Enhancing the Interception of Computer Video Leakage Signals .1901.....	
<i>Jun Shi (China Academy of Electronics and Information Technology), Bo Lv (China Academy of Electronics and Information Technology), Yangyang Li (China Academy of Electronics and Information Technology), Yue Jia (China Academy of Electronics and Information Technology), Rui Wang (China Academy of Electronics and Information Technology), and Yong Liao (China Academy of Electronics and Information Technology)</i>	

IWCPSA18

Secure, Decentralized Energy Resource Management Using the Ethereum Blockchain .1907.....	
<i>Casimer DeCusatis (Marist College) and Kulvinder Lotay (Marist College)</i>	

Research on Malicious Code Homology Analysis Method Based on Texture Fingerprint Clustering	1914
<i>Zhao Xiaolin (Beijing Institute of Technology, China), Zhang Yiman (Beijing Institute of Technology, China), Li Xuhui (Beijing Institute of Technology, China), and Chen Quanbao (Beijing Institute of Technology, China)</i>	
Handling Capabilities in Security Policies	1922
<i>Mouslim Tolba (USTHB University), Salem Benferhat (CRIL-CNRS, UMR8188, Université d'Artois), Karim Tabia (CRIL-CNRS, UMR8188, Université d'Artois), and Abdelkader Belkhir (USTHB University)</i>	
On Mitigation Inefficiency of Selfish Investment in Network Recovery from High Loss SIS Infection	1928
<i>Vladimir Marbukh (NIST)</i>	

WCSF 2018

SecureCloud: An Encrypted, Scalable Storage for Cloud Forensics	1934
<i>Maximilian Uphoff (University of Duisburg-Essen), Matthäus Wander (University of Duisburg-Essen), Torben Weis (University of Duisburg-Essen), and Marian Waltereit (University of Duisburg-Essen)</i>	
Cloud Investigations of Illegal IPTV Networks	1942
<i>John Sheppard (Waterford Institute of Technology)</i>	
Digital Watermarking for Relational Database Security Using mRMR Based Binary Bat Algorithm	1948
<i>Hina Tufail (National University of Computer and Emerging Sciences, Lahore, Pakistan), Kashif Zafar (National University of Computer and Emerging Sciences, Lahore, Pakistan), and Rauf Baig (Al Imam Muhammad Ibn Saud Islamic University, Riyadh, Saudi Arabia)</i>	
Cybersecurity: An Analysis of the Protection Mechanisms in a Cloud-centered Environment	1955
<i>Henry Okonofua (Capella University) and Shawon S. M. Rahman (Capella University)</i>
